Home Extension Club Met Tuesday Afternoon

The Clarkston Home Extension Club met at the home of Mrs. Marguerite Miller on Bridge Lake Road on Tuesday afternoon. The members of the Clarkston Literary Club were guests. There were forty-one present.

A short business meeting was held and then Mrs. Lola Dudgeon, County Home Demonstration agent was introduced. She was in charge of the lesson on "Kitchen Conveniences and Storage Space". It was an interesting lesson indeed and a great many of the ladies decided to put into practice many of the helpful hints that were given.

After the program the group was invited to the dining-room where refreshments were served from a table spread with a lace cloth and beautifully arranged with a centerpiece of jonquils and yellow and white tapers. The yellow and white open-faced sandwiches and the yellow and white cakes helped make the table attractive. Mrs. Lee M. Clark and Mrs. George Perry poured.

The next meeting will be at the home of Mrs. Clarence Johnson on April 11th.

The club is very grateful to the refreshment committee composed of Mrs. C. H. Souby, Mrs. Ray Clark, Mrs. Arnold Mann and Mrs. O. Adams, who planned the refreshments and assisted Mrs. Miller and arranged the tea-table which was admired by everyone.

FARMERS OFFERED HELP FOR SPRING

Service Rendered by Michigan State Employment Service

A message to the farmers of Oakland County from the Michigan State Employment Service:

The time is at hand when the regular Spring activity gets under way on your farm. It is quite possible that you are in need of extra help to care for this increase in work. You may want a single man by the month for the entire season or for a shorter period by the day or by the week—possibly you may want a farm couple.

In any event, the Michigan State Employment Service is ready and anxious to assist you in securing the type of farm help required to fill your needs. This service is offered at no cost whatever to you or to the worker.

The main office is located at 18 West Pike Street in Pontiac. You may call there or if that is inconvenient telephone Pontiac 2-0191 or merely drop us a card. In addition the Michigan State Employment Service maintains an itinerant service to three points in the County. The representative may be contacted at the Township Hall in Holly every Monday from 9 a. m. to 4 p. m.; in Milford every Tuesday at the Village Treasurer's office from 9 a. m. to 4 p. m.; in Oxford every Wednesday at the Legion Hall from 9 a. m. to 4 p. m.

When calling in regard to extra help be prepared to state your wants relative to age or worker desired, wages you are willing to pay, probable duration of job, number of cows to be milked, etc.

The Michigan State Employment Service will then make every effort to promptly send you two, three or more applicants—or whatever number you may desire—from among whom you may make your selection.

Large Crowd Hears Ford Dixie Eight

A large crowd attended the lecture sponsored by the Beattie Bros. Motor Sales last Friday night at the Clarkston Methodist Church. While the crowd assembled Robert Beattie's two daughters entertained by playing several selections on their guitars. There was an amusing cartoon that not only delighted the children but the grown-ups too. An illustrated lecture on scientific farm operation, production costs, transportation and power costs, etc., proved very interesting. There were many mechanical displays in charge of engineers who answered any questions and offered helpful suggestions to the farmers.

Many door prizes were given and were won by people from Ortonville and Clarkston.

After the program the audience was invited to the church parlors where refreshments were served and over an hour of visiting was enjoyed.

Proposition to Be Voted on

At the Township election the electors will decide whether to assess .60 per \$1,000 assessed valuation for the next three years for fire protection. Everyone wants fire protection and realizes its need. While it will raise taxes somewhat, this amount will be more than saved by the decrease in cost of fire insurance, is the argument of those in favor of the proposition. We have heard no argument against it.

Confucius Say—

Confucius had a wise old head; I'm sure you must agree, It's odd the years since he's been dead.

His wisdom now finds me, Confucius say so many things, If all I hear is true, Great admiration for him brings, And each day something new, I marvel at a man like this, With mental views so bright, That each time something goes amiss—

Confucius sets it right, And some bright sayings that he's said, Will always be on hand; For all the years since he's been dead,

I hardly understand, How things he said away back then Applies to life today, I don't believe he did intend So many things to say, But if Confucius has a ghost And he's not on the level, His is the wisdom which we boast—

Disciple of the devil..... R. C. B.

YOU CAN PAY MORE -but why?

You can pay a lot more than the modest Chevrolet price for a motor car. But you'll find yourself asking, "Where can I get any more beauty, driving and riding ease, road action, safety and all-round value than I get in Chevrolet for '40?" Particularly when you consider Chevrolet's extremely low prices and Chevrolet's exceptionally low cost of operation and upkeep!

NEWS
Monday and Tuesday of this week marked the last of the noon games which were played between the different classes. Many exciting games were played. The boys will probably start playing catch in the gym now until warmer weather so they can play out of doors. April 19 is the first baseball game with Milford. We would like to see a big crowd.
SOPHOMORE PARTY!
There were about 15 sophomores and their guests at school from 6:30 until 8:30 last Friday evening. The people on the food committee planned a delicious meal and there was plenty of food for all even a surplus. About 8:30 a carload of Seniors and one red-headed Junior dropped in and ate some of the surplus food. Afterwards they cleaned up the dishes. We had one casualty, Bill Miller had his glasses broken while playing basketball.
Helen Smithson brought her radio and we planned on having a few dances but the radio was not quite loud enough to be heard above all the noise. A good time was had by everyone and most everyone went to the dance at Davisburg after the party.

For Homemakers
Homemakers in Michigan as in any other state smile when they are successful in getting a colorful crop of sweet peas to flower somewhere around the home. Difficulties usually all involve the nature of the plant. Sweet peas, says

C. E. Wildon, floriculturist at Michigan State College, need to be seeded early with special planting care. First step is to spade up a deep trench even two to three feet in depth if drainage is good. Into the bottom goes some well rotted manure and ground bone. When planting time comes the trench is nearly filled with soil and seed placed three to four inches deep, half an inch apart. Cover at first with about two inches of soil, advises Wildon, and when the peas are up, more soil can level up the trench. The plants will need support, such as brush or netted chicken wire. As the season advances, the sweet peas can be made to grow longer and more luxuriantly if the plants are mulched with two to four inches of straw manure.

"I am the ENGINE that couldn't happen!"

THIS SPRING, as my eighth birthday passes, I count more than 6 million of me in use. Yet I am the low cost V-8 engine that wise men once said never could be made.

IT IS TRUE that before my time the V-8 engine was a rich man's engine, too costly to make and too costly to run for any one else to enjoy. And it is true that without the patience and resources that could cast my new one-piece cylinder block hundreds of times before finding the one right way to do it—I might not yet exist.

BUT IT IS ALSO TRUE that today I am every man's pride and pleasure in every corner of the earth!

BECAUSE MY CYLINDERS are eight, my owners know smoothness of power-flow, quickness of response, nimbleness of action that are unknown to engines of fewer cylinders than mine.

BECAUSE MY CYLINDERS are small, I exact no penalty in cost from my owners for my advantages of performance. My efficient use of fuel burns no more gasoline than fewer cylinders of equal total size require.

BECAUSE MY CYLINDERS are banked in two rows, my over-all length is short, and passengers inside the car behind me find extra length for their own comfort.

AND, BECAUSE the quality of my metals is Ford quality, and the precision of my

making Ford precision—I bring to my work dependability and stamina that are known the world around. It costs but little to buy me, little to run me, little to keep me in shape.

IN THE EIGHT YEARS of my life, many improvements have come to me—in economy, in efficiency, in quietness. Three years ago I was brought out in a 60 horsepower size, besides my 85. Owners of that new size now are telling of 22 to 27 miles per gallon of gas, and fine V-8 performance to boot.

LAST YEAR, in larger size with heavier parts and 95-horsepower, I became the powerplant of a new car called the Mercury 8. A fine, big car that's getting a reception in excess of anything that had been planned or hoped for it—now in the top ten.

THIS YEAR, TOO, in all my sizes, I find myself in finer cars than I have ever worked in before. Cars that make people talk excitedly, as I pass, of something they call style. Cars that make people riding behind me murmur approvingly of comfort and of riding quality, and of quietness that's new.

YES, I AM THE ENGINE that couldn't happen—but did. I am the engine designed for the future and already proved by the past. I invite you to come with me out on the road today. For I am an engine of action, and I'd like to let my action speak to you for me.
