Brothers in Distress

Oh Lord! Have pity on us men
With cyclones in our houses,
And hurry up the time again,
When energetic spouses
Will set in place our easy chair,
And hang the shade and curtain,
And end this life of dread despair
And all things so uncertain.
Oh Lord! Just see the footloose men,
Who know not where they're going.
They know not where or why or when—
That all this mess that's showing
Will be put back into its place,
And they can start in living;
And smiles will be on every face,
And they'll be so forgiving.
Oh Lord! Let's get this cleaning thru,
So we won't hunt excuses.
For needless things that we might do
To miss female abuses.
There comes this time once every year,
When men hunt out each other,
And seek some means to find good cheer,
And thus console a brother.

COOK YOUR DINNER
*while you are
 OUT!*

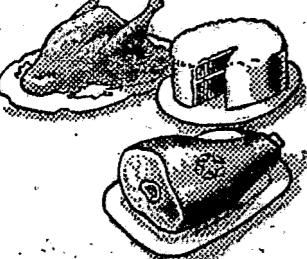

HERE is the popular new way
 to make cooking less work
 —and enjoy delicious electrically
 cooked meals with their
 healthfulness and better flavor.
 Simply plug in your electric
 cooker to the nearest convenience
 outlet—in the kitchen,
 on the porch, at your summer
 cottage. Whole dinners cook
 themselves—automatically—
 while you go out for the
 afternoon.

**Enjoy
 more leisure hours**
 An electric cooker is perfect
 for smart summer entertaining—
 buffet parties—porch suppers.
 You can use it right at the
 table. You can carry it with
 you on picnics (it will keep
 food warm for hours).

**Delicious meals
 for 2 to 10 people!**
 The electric cooker will roast,
 bake, steam, stew. Many
 models have a broiler, for grilling
 and broiling. It will roast a 15-
 pound turkey or a whole ham.
 It will cook a complete meal

economically for 2 to 10
 people. At your cottage, it will
 add immeasurably to vacation
 enjoyment. In your home, it
 will make cooking easier and
 pleasanter the year around.
 80,000 OF YOUR NEIGHBORS
 now use these electric cookers. See them
 on display in many different sizes and
 models—at furniture and department
 stores, hardware stores, electric appli-
 cence dealers and all Detroit Edison offices.

**Archery Popular
In Drayton Plains**

The days of "Robin Hood" and "When Knighthood was in Flower" are being enacted as a part of our daily twentieth century relaxations in Drayton Plains as the bow and arrow are coming into their own in our midst.

In ancient days wise kings who realized the potency of these weapons enacted laws so their people had to practice shooting at long ranges on holidays and feast days. The Chinese, but a few decades ago, used the bow and arrow very effectively against gunpowder and, using history as a measuring stick, it is only yesterday that the gun superseded bows and arrows and even now we may possibly see men in derbies, odd coats and peculiar trousers alongside of women in hooped skirts lined up in a tournament array. Archery is one of the few sports that permits active participation by the young and old, while deep in everyone is the instinct to pull a strong bow and watch the keen shaft fly.

Archery, which was for a while "Gone with the Wind" is returning with the speed of an express train and has reached Drayton Plains. The demand for this sport, one of the cleanest in the realm of sports, has led to the establishment of an archery range at 3040, Sashabay Road and many other ranges will soon follow.

The demand among our young men is showing results and it's the popular theme of conversation on the streets and highways these days. If you are an archer then you are a "toxophilite" among whom are Fred Olsen, Bob Hanson, Scott Kemper, Billy Dvorak, Don Appleton, Charles Jankowski, Mickey Smart, Charles Drake, Jack Dvorak, Paul Sutton, Claude Koop, Jack Kline, George Graves, Billy Ebb, Joe Kelly, Paul Cervanka and Kenneth Milleur. The list is growing hourly and among these may develop a modern "William Tell".

The formation of an archery club will follow as a matter of course and a tournament may be looked forward to in the near future.

One cannot conceive of a better or cleaner sport where a steady nerve and a clear eye combined with patience and perseverance will produce results.

There are great possibilities for hunting with a bow and arrow; as an example we read of Sonny Johns, fifteen year old Tacoma, Washington, lad, who killed a bear which had climbed into an apple tree in a Washington orchard. Yea, verily, we may look forward to seeing Mickey Smart toteing home a 200 lb. buck next fall in the hunting season, which for bow and arrow is earlier than the season for guns. Stronger bows and special hunting arrows with steel broadheads are used for large game.

The Boy Scouts of America award a badge for archery to those who make their own; perfect themselves with same and know something of the history of archery, past and present.

Here & Hereafter

So small of stature, keen of mind—
Jolly smile and soul so kind,
A lad so clean, appearance neat,
Would call "hello" across the street
To aged people on their walk,
And very careful of his talk,
So unassuming, mostly shy;
Never known to tell a lie,
Passed from this world, but isn't
dead,
But more alert I think instead,
His stature now I'm sure don't count,
And to great heights is apt to mount,
A midget here, a giant there,
I think these lives I can compare,
A timid soul devoid of power,
Becomes a forceful solid tower,
On earth I think the chances are
His size, his way was apt to bar,
The Guiding Hand, who knew his
heart,
Saw fit to take this soul apart,
And put him in his rightful place,
Where size of limb or mould of face
Does not denote a human's worth,
As is the case upon the earth.

Conservation Notes

Young men aspiring to the job of conservation officer because of a liking for tramping through the woods are not misdirecting their ambitions. Forest Carter, Alger county conservation officer reports that in the last two weeks of April he walked 118 miles.
