NUMBER 29

Fifty Rotarians and Guests at St. Patrick's Party

The Ladies' Night for the Clarkston Rotary Club was held on the evening of St. Patrick's Day at Devon Gables. For decorations the room was trimmed with half a hundred verdant balloons with green as a dominant note in the menu. A number of the Rotarians invited guests in addition to their wives. They were Mr. and Mrs. J. W. Delind Jr., Mr. and Mrs. G. A. Walter, Mr. and Mrs. Charles Robinson, Mr. and Mrs. Richard Bullen, Mrs. Manfred Burrell.

Throughout the dinner, Miss Betty Ash played a large selection of appropriate piano numbers. The entertainment following the dinner was provided by Mr. Clarence Sinclair, of Detroit, Michigan. Mr. Sinclair gave a St. Patrick's Day "Chalk Talk" program which traced down through the centuries certain members of the Rotary Club whose lineage stretches back to the days of the great Patrick of Ireland. This artist was not only extremely able with the medium, paper and chalk, but his flow of talk created much humor and animation. One of the most appreciated features of the occasion was a surprise poem stimulated by the observance of St. Patrick's Day and the presence of the "Fair Sex". You all know in this paper that the poem was written by Mr. Robert Beattie. It appears below:

It fills my heart with rare delight
To greet you all on ladies night.
And it is such a pleasant way
To celebrate St. Patrick's Day.
Often times we men will dine,
And sometimes drink a lot of wine;
But everything will come out swell—
Just keep your eye on Gerald O'Dell.
Sure meetings grow a bit too stale
Not favored by some good female.
Although we men will not break
down,
We miss you girls when not around;
And so I think that I can say
We're glad you're here St. Patrick's
Day.
Robert C. Beattie.

NOW IS THE TIME FOR EGG MENUS

An egg a day may not keep the doctor away, but it provides a package of the food values the housewife wants to get into the family diet, says Roberta Hershey, specialist in food nutrition at Michigan State College.

With hens, March, April, May and June are busy months. During those four months hens lay almost as many eggs as they do during the remaining months of the year, although production has been stepped up during the fall and winter months by efficient practices.

With the spring spurt in egg production now is a good time, Miss Hershey advises, to check up on eggs in the family diet. "Eggs are good body builders," she says, "because of the efficient proteins in their yolks and whites. The yolks are especially rich in iron, the mineral needed for red blood cells. They are an important source of calcium, a rich source of phosphorus, and a good source of riboflavin (vitamin G). Vitamins A and D are present in varying amounts

"For all these reasons an egg a day for everyone in the family is a good rule to follow. But if you can't manage that, try to get at least four or five eggs a week into the diet of every child in the family. And see that adults get at least three or four a week.

"The most important thing to remember about cooking eggs is to keep the heat low. If eggs are cooked for too long or at too high a temperature the delicate protein become tough.

"Instead of 'hard-boiling' eggs, hard-cook them in simmering water. Fry eggs in a little moderately hot fat. Never let water boil around eggs as you poach them. Use a thick pan for omelets and scrambled eggs and keep the heat low under the pan. Cook soft custards over hot water, not boiling water. And have the oven temperatures very slow to moderate for different baked dishes containing many eggs."

Mrs. William H. Stamp Suffers Fractured Leg

Of interest to all the readers of this paper, is the severe fracture which the News Editor of the paper, Mrs. Stamp, sustained on Monday night as she was about to enter the restaurant at Devon Gables. The fall which caused the injury resulted from the catching of her heel in the flagstones of the walk entering the building. Fortunately, Dr. Harry B. Yoh was entering the restaurant just ahead of the Stamps and he was able to quickly take her to General Hospital in Pontiac, where she spent a day and a night before returning home with her left limb in a cast on late Tuesday afternoon. The severity of her injury involved the fracturing of bones of the leg and ankle.

The members of the Rotary Club and their wives who were present at the Ladies' Night, the occasion that took the Stamps to the gathering, all extend to Mrs. Stamp their sincere wishes for an early and complete recovery.

—Secretary Rotary Club.

Nationalism

Nationalism is a freak
In this, the greatest of the lands,
It's but a thing of which to speak
From rock bound shores to ocean
sands.

Nationalism just a boast
Of orators with flailing arms,
Who shout the cause from coast to
coast

America and all her charms,
Nationalism we have not.
Although we're loyal one and all—
To this enormous melting pot,
For her we'll fight if she will call.
Nationalism has its race—
All subjects to their country's laws,
And sometimes it has been the case,
Intruders feel the tyrants' claws.

Nationalism is a freak;
Here, we possess the golden rule,
Where Irish, German, French and
Greek
Assemble for a game of pool.

principal address. All interested are invited to attend.

It is a day set apart to observe and commemorate American citizenship and to emphasize its dignity, duties and responsibilities.

Republican: Supervisor, Floyd Andrews; clerk, L. F. Walter; treasurer, Mrs. Carrie A. Walter; highway commissioner, Harold Doehler; board of review, David McClelland; justice of peace, Walter Barrows; constables, Cecil Hubble, Ferris Holcomb, Lloyd Sibley and Courtner Shirley.

DON'T BE MISLED IN BUYING SEED

If in Doubt, Consult Your County Agricultural Agent

Farmers who receive advertisements from other state offering seeds of new and often unknown varieties of crops such as corn, oats, or beans will do well if they consult their county agents before buying, H. C. Rather, head of the farm crops department at Michigan State College advises.

Every year about this time farmers are flooded with offers of seeds promising to give increased returns. Some such seeds offered are good while others are untried and untested. Some of them are good in other states, but not adapted to Michigan climate and Michigan soils. Rather points out. Some others, he reports, are out-and-out fakes.

One firm in Ohio recently has been offering a new variety of soybean, seed of which retails at \$12 a bushel. A Michigan farmer consulted his county agent before buying, and the county agent in turn wrote to the Ohio experiment station for information. The soybean advertised, the experiment station reported, had been on test for three years, and in each of the tests produced lower yields than the common soys—selling at normal prices.

An Iowa seed company sold in Michigan a carload of seed oats of a variety not recommended even for Iowa, where it originated. The price obtained was more than \$2 a bushel.

Standard practice of the Michigan experiment station has been to test varieties for adaption to Michigan condition, and this information is always available to farmers and to seed dealers alike. It is to the credit of reputable Michigan seed dealers that they recommend only varieties that have been tested and approved. In nearly all instances county agricultural agents have information on varieties of seed, and if they have not, can easily obtain such information from the college, and perhaps save the farmer a crop loss.

The program chairman, Mrs. Joseph Hubbard, presented a tentative outline of the program for the next few months, and then turned the program of the day over to Mrs. C. H. Souby and Mrs. Carl Irish, who conducted an interesting discussion on seeds.

Mrs. Guy Tubbs was a guest and told of a meeting her club was having on March 28, at the Donelson School in Pontiac, the subject being "Flower Arrangement" and invited the Clarkston group to attend. She also mentioned the North American Flower Show to be held at Convention Hall in Detroit April 5th to 12th. Anyone wishing to procure tickets will please get in touch with Mrs. Perry.

After the meeting adjourned dainty refreshments were served by the hostess from a table covered with a lace cloth and centered with a lovely plant, and decorated in St. Patrick colors. Mrs. J. Shaghnessy and Mrs. George Perry poured.

The next meeting will be in observation of Arbor Day, when the Club will plant a tree. This meeting will be in charge of Ada Serace. Date and place will be announced later.

Chorus Present Fine Musical

Negro Songs and Spirituals Well Rendered

Under the direction of Orlo J. Wiloughby, the Clarkston High School chorus presented Old Cabin Minstrels last Friday in pleasing manner to a very well satisfied audience.

The solo parts by Mary Edgar, Stanley Perrin, Don Appleton and James Young were very nicely played. Black face sketches during intermissions were amusing and well acted. The group sketches including the camp meeting and moonlight before the cabin scenes were all that could be desired in harmony. The pickaninies added much to the enjoyment.

A lot of hard work goes into producing such a show and because this was a black face minstrel production quite some work went into removing the black faces after the show. However the show is the thing and that was a success.

A reception followed at the home of the bride's brother-in-law and sister, Mr. and Mrs. Thurston Smith, of Lapeer. The couple will reside in Lapeer.

Mrs. Reamer is well known in Clarkston.

HOLLY THEATRE

Pierre Radisson, the fabulous man who saved a new world for the ruler who had ordered him hanged, is brought to life on the screen brilliantly by Paul Muni in the 20th Century-Fox production "Hudson's Bay" which opens Sunday at the Holly Theatre. Depicting the turbulent drama in the founding of an expansive colonial and commercial Empire, the dramatic and moving film stars Muni as a reckless adventurer — a role unlike any he's ever had.

When Lord Crewe, played by John Sutton, is exiled to Canada for his drunken pranks, he falls in with Muni and a fellow fur trapper, played by huge Laird Cregar. Driven by a dream so big few men of his time could grasp it, Muni takes the two men with him into the frozen north where the foundation is laid for a great trading company.

Indian warfare, the drama of men battling the elements, all are depicted in scenes full of compelling realism. In the end final victory is won when Radisson saves half a continent for the ruler who had ordered him hanged.

Running through the story is a tender romance between Sutton, the edile who makes good in Canada, and lovely Gene Tierney. Others seen in the featured cast include Virginia Field, Vincent Price and Nigel Bruce. Spectacularly produced and expertly directed by Irving Pichel "Hudson's Bay" is fine, adventurous entertainment. Kenneth MacGowan was associate producer and Lamar Trotti wrote the original screen play.

RED CROSS NOTES

The American Red Cross "mercy ship", S. S. Cold Harbor, with 6,000 tons of foodstuffs for the people of Spain, and milk, vitamins, medicines and clothing for the children of unoccupied France, reached there safely.

The vessel, chartered from the United States lines by the American Red Cross, was scheduled for Cadiz, Spain. After unloading part of her cargo at Cadiz, the Cold Harbor proceeded to Barcelona and Marseilles where the American Red Cross has set up distribution centers. Distribution in both countries will be handled by a staff of American Red Cross representatives, some of whom are already there and others went to Lisbon aboard the S. S. Excalibur.

The Cold Harbor sailed through the blockade under a special arrangement with the British Government which has granted the American Red Cross permission to ship certain relief supplies to the two stricken nations. The other belligerent powers were notified of the ship's coming and have indicated their readiness to afford it protection under Red Cross treaties.

Workmen painted large Red Cross emblems on both sides of the vessel's hull. She sailed at night fully lighted with spot lights shining on the Red Crosses and U. S. flags.

For France the Cold Harbor carried 750 tons of powdered and canned milk, 16,500 layettes, 17,000 sweaters, 7,000 girls' dresses and 2,200 boys' shirts, the clothing all made by Red Cross volunteers; \$100,000 worth of drugs and vitamin concentrates, including 250,000 tablets of sulphapyridine; 2,000,000 sulfanilamide tablets, 54,000 vials of insulin and large quantities of quinine, aspirin, digitalin and other essentials. Twenty-six stake-body trucks and two station wagons for use in Spain were included in the Cold Harbor's manifest. Upon arrival they will be used to augment existing transportation facilities to distribute the supplies.

Consigned to Spain were 4,500 tons of whole wheat flour, 250 tons of powdered whole milk and 250 of evaporated and condensed milk. Also on the Cold Harbor were 10,000 boxes containing food and clothing for distribution among allied prisoners of war held in German camps. Half of the boxes are a gift of the Canadian Red Cross.

Shipments made to New York from Oakland County workrooms amounted during February to 115 garments, 450 knitted articles and 28 layettes.

Registration Notice Spring Election for Biennial Monday, April 7, 1941

To the qualified electors of the Township of Independence, State of Michigan:

Notice is hereby given that in conformity with the "Michigan Election Law", I, the undersigned, Township Clerk will, upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Township not already registered who may apply to me personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

Notice is hereby given that I will be at the L. F. Walter Store, Tuesday, March 18, 1941, the twentieth day preceding said election, as provided by Sec. 3, Chapter 3, Part 2, Michigan Election Law, revision of 1934, from 8 o'clock a. m. until 8 o'clock p. m., for the purpose of reviewing the registration and registering such of the qualified electors in said Township as shall properly apply therefor.

Notice is hereby further given that I will be at the L. F. Walter Store daily from 8 o'clock a. m. until 6 o'clock p. m. and Saturday, March 29, 1941, last day, from 8 o'clock a. m. until 8 o'clock p. m., for general registration by personal application for said election.

The name of no person but an Actual Resident of the precinct at the time of said registration, and entitled under the constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

Registration of Absentee by Oath
If any person whose name is not registered shall offer and claim the right to vote at any election or primary election, and shall under oath, state that he is a resident of such precinct and has resided in the township, village or city 20 days next preceding such election, designating particularly the place of his residence, and that he possesses the other qualification of an elector under the constitution, and that, owing to the sickness or bodily infirmity of himself or some member of his family, or owing to his absence from the township, village or city on public business or his own business, and without intent to avoid or delay his registration, he was unable to make application for registration on the last 2 days provided by law for the registering of electors preceding such election or primary election, then the name of such person shall be registered, and he shall then be permitted to vote at such election or primary election. If such applicant shall, in said matter, willfully make any false statement, he shall be deemed guilty of perjury. Provided that any city may provide by its charter or by resolution approved by a majority of the members of its legislative body for the registration of such sick and absent voters on the last Saturday preceding any election or primary election at the places of voting in the several voting districts of such city, instead of on election or primary election day (see Sec. 9, Part 11, Chap. 111, of act 351 as amended, 1939).

All the provisions relative to registration in Townships and Cities shall apply and be in force as to registration in Village.

Dated March 4, A. D. 1941.

Michigan
grows
good
corn

Sturdy hybrid strains of corn, adapted to local conditions, have been developed by private breeders and by the Michigan Agricultural Experiment Station. Hybrids produce strong stalks, even ears, and a profitable yield.

RARELY thought of as a "corn-belt" state, Michigan nevertheless ranks eleventh in the production of this biggest of American grain crops. The corn grown each year on the farms of Michigan would provide two bushels for every home in the nation.
Whether he has a telephone or not, every farmer who grows or feeds corn benefits from the part modern telephone service plays in reporting up-to-the-minute price quotations, in the prompt delivery of seed, implements and stock, and in the process of marketing that moves his products to the consumer.
All along the line, from plowing to husking, from corn-crib to dinner-table, your Telephone Company helps to carry on the job of production and conservation of food—a vital link in the National Defense.

Much of Michigan's corn goes into the feeding of livestock. The state's farm income from meat animals in 1939 was about \$50,000,000. The Michigan housewife buys corn almost every day in the form of steak or pork chops, eggs or milk.
