Spring Fishing

Worms and a cane pole still produce results that amaze young anglers when spring runs make perch abundant at docks and in rivers emptying into the Great Lakes. These youngsters admiring their first catch were photographed on the banks of the Pine river near Standish, but the scene is a familiar one on the Au Gres, Kawawlin and Quincannon rivers and at St. Joseph, South Haven, Mackinaw City and other Michigan harbors.

An All-Day Dish

By Frances Lee Barton

THE recipe below describes a corned beef loaf that certainly fits into the schedule of a busy day.

It's a good main-course dish for dinner, an excellent lunch-box dainty and just the thing for that bite before bed or an after-bridge luncheon. Best of all, it is easy to make and far from expensive.

Corned Beef Loaf
1 package lemon-flavored gelatin; 1 pint hot beef stock or 1 pint hot water and 4 bouillon cubes; 2 tablespoons vinegar; 2 teaspoons Worcestershire sauce; 3 cups finely chopped cooked corned beef; dash of cayenne; 1 tablespoon scraped onion; 2 teaspoons prepared mustard; 2 tablespoons horse-radish. Dissolve gelatin in hot stock. Add vinegar and Worcestershire sauce. Chill. Combine remaining ingredients. When gelatin is slightly thickened, fold in corned beef mixture. Turn into loaf pan. Chill until firm. Unmold. Serve in slices. Serves 8 to 10.

We welcome this opportunity of making new friends and renewing old friendships.

Our store will be "chuck full" of real bargains for spring.

ASK BETTER CARE FOR LAYING HENS

U. S. Needs Extra Egg Production, Say Authorities

Wasted: 2,160,000,000 eggs on farms in 1940.

One of the ways to get more eggs to market without increasing the number of yells directed at the farm flock biddies is to take better care of the eggs that are being laid.

That is one of the answers to the request from the United States department of Agriculture that farmers increase egg production as a matter of home defense and supplies for Britain, according to C. G. Card, head of the Michigan State College poultry department.

From Washington has come the suggestion that farm flocks be "geared up" to offer an increase of 10 million cases of 30 dozen eggs each in the next 15 months. This is an increase of about 6 per cent in production.

Six million more cases of eggs could be marketed each 12 months if the eggs had better farm care. This is the estimate made by D. W. Ter-mohlen, in charge of the poultry section of the AAA of the U. S. D. A.

Frequent gathering is one means of improving quality and getting a higher percentage of eggs that can be consumed, and another factor is to have clean nest material in the laying houses. The eggs should be stored in a cool place and they should be sorted and delivered without too great delay after they have been collected.

After all, 2,160,000,000 eggs adds up to considerable food. Yet that is the number of additional eggs that could be eaten or sold on the market if the eggs laid in a year's time could get better care in handling.

Gee, this weather is nice. The kind that makes one lazy and dreamy. You feel like writing poetry instead of short stories. That is as good an excuse as any. Speaking of excuses, did you hear the one Stan Radoye had? The one about his Grandmother burning his short story. I guess the teacher took the excuse because they had never heard one quite like that before.

I heard a cute plot for a short story the other day, in fact it is a short story. Willy went to the well to get a bucket of water. Willy fell in the well and drowned. (Tragedy). Cute Eh.

REDUCED
Long Distance Rates
Effective
Saturday, April 26

● Reduced rates on long distance calls from any Michigan Bell exchange to any other Michigan point more than 42 miles distant became effective on Saturday, April 26. Based on current volume of usage, that will mean savings of \$700,000 annually to the company's customers.

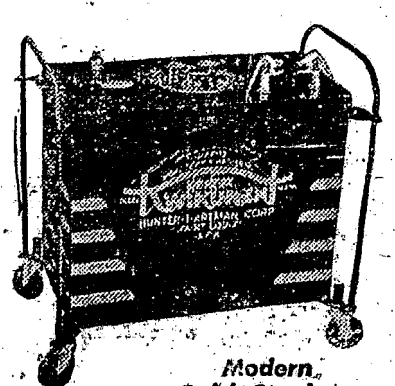

Your Long Distance Operator will quote the new rate to any point requested.

As soon as possible after authorization by the Courts, refunds or credits, totaling \$1,500,000, will be made for the difference between the old and new rates on such long distance calls made between August 1, 1938, and April 26, 1941. It will be some time before such refunds or credits can be made because of the great volume of work involved in checking more than 65,000,000 long distance calls in the accounts of 700,000 users.

Until the work of checking your account is completed, further information with respect to specific refunds or credits will be unavailable.

Clarkston Locals

Mrs. A. E. Butters and son Spencer left for Boston last Friday to visit her mother.

George Slayton was taken to Ann Arbor to the University Hospital on Tuesday of this week, where he will undergo treatment.

Mr. and Mrs. B. F. Miller returned from Florida on Monday, after enjoying the sunny south for the past four months.

Lee Fairchild, formerly of Clarkston, is ill at his home, 14601 Turner Ave., Detroit, and would appreciate cards from his old friends in Clarkston.

Several from Clarkston were injured in a two car crash on Saturday night on the Airport Road near the Hatchery Road. They were Frederick Denton of South Holcomb street, scalp cuts; Mrs. William Terry of Waldron Road, abrasions of knees and body bruises; her husband, William Terry, lacerated chin and sev-

eral broken teeth; Laura Terry, 9 months old, tongue cut. They were treated by a Clarkston doctor.

THREE YOUTHS IN MOTOR CAR CRASH

All Seriously Hurt When Auto Struck Big Tree

As Max Field 21, Ronald Tubbs, 20, and Fred Speaker, 28, were returning home from a dance hall near Flint early Sunday morning their car, owned and driven by Field, left the pavement on the Dixie Highway just south of the county line and crashed into a large tree. All three occupants were badly hurt and were rushed to Hurley Hospital, Flint. Ronald Tubbs received the worst injuries. He suffered a broken leg and multiple cuts on the face that required over one hundred stitches to close. His knee was caught in the motor, which was driven back into the body of the car, and over an hour's work was required to release it. Field's and Speaker's injuries were less serious, but the former has a broken ankle and head injuries, and the latter both legs broken and a badly cut lip.

Conservation Notes

Outdoorsmen's and tourists' calendar of events as listed with the department of conservation for May and June:

Fishing begins on pike lakes, May 15.

Tulip time in Holland, May 17-24.

Wildflower festival at Trout Lake, May 29-June 1.

Fishing begins on pike lakes, May 15.

Black bass and bluegill fishing begins, June 25.

Bluegill festival at Hastings, June 27-28.

Great Lakes open skeet shoot at Traverse City, June 28-29.

Interlochen music camp, June 29-August 24.

For some people, spring means a short hay fever season due to pollen from trees, says the Michigan Department of Health.

"In some cases persons who suffer from what they think are spring colds actually are affected by pollen from trees," says Dr. H. Allen-Moyer, State Health Commissioner. "Tree pollen causes less hay fever than pollen from weeds or grasses, but oak, poplar and maple trees are among those that cause a considerable amount of spring hay fever."

Immunity to pollens that cause hay fever can often be built up by injections given just under the skin by a physician. The doses are usually gradually increased, and most doctors like to start them two or three months before the protection is needed. For those whose hay fever is due to ragweed pollen, the most common cause, immunity injections should begin now, since the ragweed season starts in August.

If smelt multiply as rapidly in captivity as in their home waters, Chicago's famous Shedd aquarium may have to be enlarged shortly. A ton of live smelt, caught in Little Bay de Noc, has been taken to Chicago in an aerated tank trunk of the state conservation department and placed on display in the aquarium. Before entering their new home, the small silvery fish were viewed by thousands of Chicago school children, who will be served 25,000 pounds of smelt at special luncheons.

In an effort to protect roadside trees and shrubs, State Highway Commissioner G. Donald Kennedy has appealed to property owners and motorists to cooperate in preventing ruinous fires.

Kennedy pointed out that grass fires started by property owners engaged in burning brush and other refuse spread onto the right-of-way and cause serious damage. He added that such fires are sometimes started by motorists throwing lighted matches or lighted cigarettes from the car windows.

Said Kennedy: "The State Highway Department is anxious to keep Michigan road-sides attractive. A. D. Taylor, landscape consultant of the U. S. Forest Service, has credited Michigan with having the most beautiful road-sides in America, and we want to maintain that reputation."

The Commissioner explained that young plants just starting in the spring are frequently killed by fires; that evergreens are sometimes ser-

A Toast to Mother

By BETTY BARCLAY

Here's a toast to mother and here are some ideas for those who feel like giving "Mother" a delightful surprise on her own day:

Ham with Orange
(Serves 6)
6 servings fried ham (about 1 1/2 pounds)
2 tablespoons flour
2 cups orange juice
Parsley
2 to 3 oranges for slices
Fry ham. Add flour to 2 tablespoons of fat from frying ham. Cook until lightly browned. Add orange juice, stirring well to avoid lumps. Cook 5 minutes or until sauce is thick. Pour sauce around ham on serving dish. Garnish with parsley and orange slices.

Limas Manhattan
2 cups cooked, dried Limas
1 medium onion, sliced
1/2 teaspoon salt
1/2 teaspoon paprika
1 teaspoon mustard
1/2 cup diced salt pork
1 cup milk
Mix ingredients in order given and turn into a buttered dish and bake 1 hour in a moderate oven (350° F.).

Hawaiian Velvet Cream
1 oz. (2 tablespoons) granulated gelatin
1/2 cup cold water
1/2 cup hot milk
1/2 cup sugar
1/2 teaspoon salt
2 eggs
1 cup whipping cream
1 cup canned unsweetened Hawaiian pineapple juice
Beat egg yolks slightly. Add sugar and hot milk gradually. Place in double boiler and cook until mixture coats the spoon. Add gelatin, which has been softened in cold water. Stir until dissolved and cool. Add pineapple juice gradually, stirring constantly. When mixture begins to thicken, fold in whipped cream and egg whites, which have been beaten until stiff but not dry, with the salt. Pour mixture into a mold, chill until firm and serve with red strawberry sauce (fresh strawberries crushed with sugar to sweeten).
Yield: one quart or eight servings.

Mother's Delight
1 package vanilla rennet powder
1 pint milk (ordinary or homogenized)
4 or 5 canned apricot halves
Make rennet-custard according to directions on package. When ready to serve top each rennet-custard with a canned apricot half, rounded side up.

Raspberry Snow Cream
If Mother has a sweet tooth, you might surprise her with this delicate Raspberry Snow Cream made from quick-frozen raspberries. Even if Mother gets dinner herself, she will like this choice of dessert for all quick-frozen fruits, vegetables and fish are cleaned and trimmed before quick-freezing seals in their flavor and vitamins, and they come to you all-ready to cook or serve.
1 box quick-frozen red raspberries, thawed
1 egg white
4 tablespoons sugar
1 teaspoon lemon juice
1/4 cup cream, whipped
Separate raspberries; arrange in serving bowl, or individual serving dishes. Beat egg white until stiff but not dry. Add sugar gradually, beat constantly. Add lemon juice, and until mixture will stand in peaks. Fold in whipped cream. Pile on be and serve at once. Serves 4.

Spiced Coffee
If you invite some of Mother's friends in on Mother's Day, try serving this refreshing beverage made from decaffeinated coffee. Then hostess and guests can linger over second and third cups, in the leisurely holiday spirit, without worrying over sleeping problems later on.
6 cups double strength decaffeinated coffee
Cracked ice
1/4 cup whipping cream, whipped
1/2 teaspoon cinnamon
1/2 teaspoon nutmeg
Four hot coffee over ice in a glass. Top with a spoonful of whipped cream into which the spices have been folded. Sugar may be served with the coffee. The ice cubes are doubly effective if freshly made of decaffeinated coffee frozen in the automatic refrigerator pans. When you make decaffeinated coffee by the hot or percolator method, remember that it needs slightly longer brewing to bring out its full, rich flavor.

Fresh Flowers for Mother's Day
Deep pink roses, yellow snapdragons and milky white anemones make a charming old-fashioned bouquet for Mother's Day. If you are far away and want to show Mother an extra bit of thoughtfulness, you might wire her a baby's porcelain shoe filled with purple violets and white sweetpeas and a novel corsage with a center of deep pink sweetheart roses surrounded by petals of red carnations and white hydrangeas. These are just a few of the charming new flower arrangements for Mother's Day that can be wired anywhere in this country and Canada.

Praise not people to their faces to the end that they may pay thee in the same coin. This is so thin a cobweb that it may easily be seen through; 'tis rarely strong enough to catch flies of any considerable magnitude. —Fuller.

iously damaged, and that nesting places for birds and other wildlife are destroyed.

"Smoke billowing across highways," Kennedy declared, "and damage to warning signs and guard rail posts in some instances have even threatened the safety of motorists. This is another reason why we should be exceptionally careful at this time of year in guarding against roadside fires."
