Blueberry Section Will Celebrate
Blueberry land will celebrate again this year.
Dedicated to the billions of luscious blueberries that grow in abundance on the plains of the Upper Peninsula—and incidentally make the Upper Peninsula a vacation paradise—the third annual National Blueberry Festival will be held at Manistique, Michigan, on Friday, Saturday and Sunday, July 25, 26 and 27, 1941.
The Manistique Chamber of Commerce has planned a fine program for the festival—three nights of dancing, an outdoor show by popular radio station entertainers, a colorful night parade, a blueberry pie baking contest—but the keynote of the performance will be the plump and juicy blueberries. Blueberry pies, blueberry muffins, blueberry cakes, blueberries and cream, and just blueberries by the bushels, will be on the lips of everyone, literally and figuratively.

Mauri Rose, co-winner with Floyd Davis of the 1941 Indianapolis 500-mile race, is pictured above in the American-built car which he drove to

his first speedway victory. His car forced out of the race at the 155-mile mark, Rose took the wheel of the car which was being driven by

Floyd Davis, and took it from 15th place to first place, averaging 115.117 miles per hour on the same set of Firestone Tires that were on the car when the race began.

Raspberry Glacé Lemon Pie
1 package lemon-flavored gelatin; 1 1/2 cups hot water; 1/4 teaspoon salt; 1/2 cup sugar; 1/4 cup lemon juice; 1/2 cup heavy cream; 1 baked 9-inch pie shell; 2 1/2 cups red raspberries; 1/2 cup red raspberries; 1 1/2 tablespoons sugar; 1 tablespoon water.
Dissolve gelatin in hot water; add salt and 1/2 cup sugar. Reserve 1/2 cup gelatin mixture for glacé. Add lemon juice to remaining gelatin. Chill until slightly thickened. Fold in cream, whipped only until thick and shiny but not stiff. Turn into cold pie shell. Chill until firm. Cover with 2 1/2 cups raspberries. Pour glacé over raspberries. Chill until firm.
To make glacé combine 1/4 cup raspberries, 1 1/2 tablespoons sugar, and 1 tablespoon water in small saucepan. Cook until raspberries are very soft. Drain, reserving juice. Add 1/2 cup gelatin. Chill until firm and syrupy.

"ONE OF THE BEST SALESMEN I've ever met actually wasn't a salesman at all—at least by profession. Yet, this man gave me the greatest, down-to-earth selling I've ever had from anybody."
"He was a Pontiac owner to whom I talked when I was considering the purchase of a new car a few weeks ago."
"This man showed me from actual records that his big, roomy, luxurious Pontiac "Torpedo" costs no more for gasoline and oil than the small car I was driving. And as for upkeep, he proved to me that Pontiac has every feature that assures maximum dependability and trouble-free performance."
"Then, to top it all off, he let me drive his Pontiac—and what a thrill this was! More power, get-away and smooth action than I had ever dreamed of getting in a low-priced car. And speaking of price—of course you know that the 1941 Pontiacs cost only a few dollars more than the lowest."
"Needless to say, I now own a Pontiac—and I'm mighty proud of it. In fact, I'm urging all my friends to buy Pontiacs!"

Campaign to Forestall Accidents on 4th

The record of fatal automobile accidents in Michigan, this year is appalling. As usual week-ends furnish the greatest number of these tragedies, especially when a holiday is included as was the case on Decoration Day and the Fourth of July week-end. It is feared.

In an effort to forestall such a contingency the State Highway Department is sponsoring an intensive Fourth of July accident-prevention campaign. The slogan will be "Forty-nine too many", 49 being the number of persons killed in motor car accidents over Memorial Day week-end. Windshield stickers carrying the message, will be distributed—500,000 of them, and news stories will be released, accompanied by mats and photographs.

Benefits of this campaign are expected to be carried over for the remainder of the recreational season.

BEAN GROWERS

Bean plants just can't take it, warns C. B. Dibble, extension specialist in insect control, Michigan State College. Therefore he suggests bean growers should not use calcium arsenate or arsenate of lead to fight Mexican bean beetles on beans. When the lace-curtain effect appears on the beans, the best treatment is a dust of pyrethrum or rotenone. This controls the old beetles on the under side of the leaves. Dust when the air is quiet, but stay out of the bean patch when there is any dew or rain on the vines, Dibble warns growers.

Only about 80 per cent of the milk produced in the United States is sold as fluid milk for drinking and cooking.

Here's the source of \$64,000,000 a year in farm income. That's the value of all Michigan's dairy products, including butter, cheese, evaporated milk and ice cream.

MICHIGAN'S RIVER OF MILK

DAIRY products form the largest single item in Michigan's farm income. In this state—8th in the nation for dairy production—more than half a billion gallons of milk are marketed yearly.

This is a wholesome condition for the state, not only because it benefits Michigan farmers but because milk is Nature's most nearly perfect food.

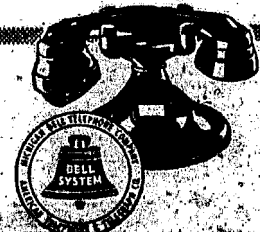

To maintain the swift, unvarying flow of this river of milk from farm to table, dependable telephone service is all-important. By telephone, the dairy farmer can talk to the milk-receiving station, buy feed and equipment, or discuss creamery prices, all in a few minutes. By telephone, the city milk distributor controls the movements of transport trucks and route men. And by telephone, the housewife orders her pound of butter, quart of milk, or brick of ice cream.

Children need a quart of whole milk a day—adults at least a pint. Modern dairy methods rush pasteurized milk, pure and fresh, to homes all over Michigan.

Conservation Note

Clammers who take mussels from streams of the 85 southern counties of Michigan to get their shells for button making will operate only in the month of July again this year, the fourth in which the season has been limited because of the scarcity of these fresh water clams.

A license to take mussels costs residents \$3, non-residents \$50, and licenses are not issued until reports of the previous year's operations are filed with the conservation department's fish division.

Peak year for mussel fishermen, according to conservation department records, was 1929, when 2,500 were employed at the work and half a million dollars' worth of shells and other materials was produced. In 1940 only 37 took out licenses. Sometimes clammers find pearls. In 1933, pearls and imperfect pearls called slugs valued at \$2,500 were taken.

Twenty per cent of the timber cut in all the world is wasted in sawdust.

Fishing Season Opens June 25

Lake Residents Have Good Chance at "Catch"

Men and women living in the lake area will have quick access to choice fishing grounds when the season opens on inland waters Wednesday, June 25. Prospects seem bright for those looking ahead to the opening. Bass and bluegills have spawned early and are expected to be off the nests by the 25th, according to preliminary reports to the conservation department's fish division.

That License
All persons over 17 years of age must have a license to fish. For a resident man or a single woman the license charge is one dollar. License identification of the wife of a licensed angler is issued free of charge, but she will need the properly filled out paper.

For nonresidents the fee is two dollars, although he can get a 10 day license for half that amount. Non-residents are considered as those persons who have not been a resident of the state for six consecutive months prior to applying for the license. There are many such in this territory.

Public Access

Fishermen will do well to remember that out of that dollar they pay for a fishing license, 40 cents is set aside by the state for buying public access to lakes and streams and for research to improve state fishing.

Coming Events

June 20th—Today—the local O. E. S. Chapter will have a picnic (pot-luck) at the home of Mrs. Louella Leighton, 2227 Oak Ave., Williams Lake. You are requested to furnish your own table service. Dinner at noon.

June 25th — Wednesday afternoon the Royal Neighbors Sewing Club will meet at the home of Mrs. Fred Kennedy.

"What Can I Do?"

By DOROTHY THOMPSON
For many weeks past I have been receiving letters—hundreds and hundreds of letters, all asking the same question: What can I do? The authors say, "We feel that we are in a crisis, we know that we are arming with immense rapidity, while, at the same time, we are giving all possible aid to Britain in her effort to stem the tide of tyranny, despotism and chaos. But meanwhile I feel so idle. I want to do something for my country and for democracy. What can I do?"

Sometimes I think one trouble with our society is that we think too much in terms of "doing" and not enough in terms of "being". Every living human being creates around himself or herself an atmosphere. It transmits itself to one's husband or wife or children, to the friends of one's inner circle, to business contacts and club contacts. The sum of that atmosphere, created by millions of Americans, is what is known as "morale".

Without "doing" anything very active, you can help build up that "morale", or tear it down, by your day-to-day behavior, in all your relationships. Remember the old adage, "They also serve who only stand and wait". Whether they serve or not depends on the poise and temper with which they stand and wait.

Every American who never for an instant loses faith in the American ideals of freedom and democracy and testifies to that faith whenever the opportunity offers, and in however modest a way, is doing something for America in this hour.

I know that the enemies of this Republic and this Democracy are doing their best to stir up unrest and dissension among us. If someone urges me, by a pamphlet or a speech, to regard all Jews as my enemies, I shall remember that stirring up hatred against Jews is a Hitler tactic. I shall remember that freedom and democracy teach me to live and let live.

I shall look about me, in my own community, and see whether these new times have created any new problems that perhaps I, and the people associated with me, for instance in a club or a chamber of commerce, can help to solve.

If I want to help my country in this hour, I must stop being afraid. Stop being afraid of war, stop being afraid of taxes, stop being afraid of some future depression, stop being afraid of the President or the Republicans . . . in short, stop being afraid.

The human race has gone through desperate times before, and has survived. It will survive these desperate times too. And the people who survive them best are those who are most cheerful, most confident, who know what they believe in and stick to it, and who are least afraid.

Every single individual, however modest or limited his influence, can contribute to that virtue and that behavior which mean survival; the survival of the society, of the nation, and of the ideas for which the nation stands. The way one is is just as important as what one does.

CALL IS MADE FOR 2ND REGISTRATION

Affects Men Too Young Before But Who Now Are 21

Every man in Michigan who has attained his 21st birthday since October 16, 1940, and before midnight July 1, 1941—with a few specific exceptions made by Congress—must register with his Local Selective Service board on Tuesday, July 1.

The registration will be conducted under the immediate supervision of the 192 Selective Service Local Boards in Michigan. The registration will be held at the office of the Local Board, or at such other place as may be designated in the Local Board area. Local Boards will register applicants between the hours of 7 a. m. and 9 p. m.

Aliens, as well as American citizens, who are 21 years old on July 1 must be registered. Aliens between the ages of 21 and 36 years, who have come to the United States since the first registration on October 16, 1940, and who have not yet registered, must also appear before their Local Board on July 1 to register. All other persons, who, for any reason, failed to register at the first registration, and who are now subject to registration, may also register on July 1.
