Ten Ways to Kill a Volunteer Fire Company

Local Fire Chief Don Beach has handed us the following suggestions issued by the Cooperative Volunteer Fighters Association of Kent county, with a request from the State Firemen's Association that it be given publicity if deemed worthy. We gladly comply because we think it applicable to many other than fire organizations:

1. Don't go to meetings.
2. If you do, go late.
3. If the weather doesn't suit you, don't think of going.
4. If you attend a meeting, find fault with the rest of the members.
5. Never accept office. It is easier to criticise than do things.
6. Get "sore" if you are not appointed on a committee, but if you are, do not attend committee meetings.
7. If asked by the chairman to give your opinion on some matter, tell him you have nothing to say. After the meeting tell everyone how things should have been done.
8. Do nothing more than absolutely necessary, but when other members use their ability to help matters along, howl out that the institution is run by a clique.
9. Be sure to get your dollar whether you make the fire or not.
10. If you have a suggestion to offer, tell the fire chief and he will no doubt say, "Who the hell is running this place?"

Last Minute Warning

A last-minute warning to Michigan motorists to "slow down" over the Fourth of July holiday period, least there be a repetition of the Memorial Day tragedy in which 49 persons were killed in traffic accidents, has been issued by State Highway Commissioner G. Donald Kennedy. "Excessive speed was one of

Of this number, 29 lost their lives during the Fourth of July holiday, and the state suffered an economic loss of \$3,900,000 in addition to the incalculable amount of human suffering that followed from it. Traffic on Michigan highways, already up as much as 30 per cent over last year, is expected to reach

the major causes of the fatal chashes during the Memorial Day period. By the simple process of reducing our speed, we can save many human lives."

Kennedy also hailed the work of the Boy Scouts and members of the Juniors Chambers of Commerce in the distribution of auto stickers as a fine example of the interest being taken in the "49 Too Many" safety campaign now in progress. By their work, 750,000 motorists have been enlisted in the safety drive.

"Response to the Governor's plea for cooperation of all citizens, all state, county and municipal officials to join in a great effort to reduce traffic deaths has been outstanding," said the Commissioner. "Now it is up to the motorists by driving sensibly to make our highways safe over the dangerous period just ahead."

Calling attention to the fact that we are now entering the worst month in the year for accidents, Kennedy stated that last year 129 persons were killed on Michigan's highways and streets during the month of July.

an all-time new peak over the three-day holiday period just ahead. "Fatal crashes," Kennedy warned, "will also show a sharp increase unless extreme caution is exerted by all motorists."

Because Michigan lakes and streams will attract hundreds of thousands of motorists as the nation celebrates its independence, trunk-line highways are expected to be taxed to capacity, and Michigan motorists are urged to consult highway maps when planning their holiday trips and choose less traveled roads, especially for short trips, and help relieve the crowded conditions on the main arteries which would undoubtedly result in less accidents.

Kennedy pointed out that highways have been put in the best possible condition for the influx of recreational motorists, and highway facilities, such as roadside parks and picnic tables, would be inspected and cleaned daily during the holiday period for their convenience.

Logs of Michigan white pine on their way to the sawmill. Trees of this size are rare today.

The wooded half of Michigan

MIGHTIEST of all Michigan's resources was once its virgin timber. In Southern Michigan the hardwood was cut to clear farms. And to the north, the vast pine woods were turned into lumber for building the nation's cities.

Today, under wise methods of reforestation, the woods are growing up again. About 20,000,000 acres—over half Michigan's land area—are wooded. By scientific cutting, these forests produce more than 400,000,000 board feet of lumber a year, besides firewood, pulpwood for paper, tanbark, veneers and other products.

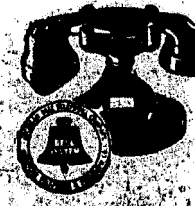

Legend has it that when the mythical Paul Bunyan was lumbering Michigan, his shout could be heard from Menominee to Saginaw if the wind was right. Modern lumbermen and forest rangers don't have such voices. But by telephone they keep in touch with woods operations, market their products, and control forest fires, far more efficiently than the old-timers ever could.

The old days of the "rivermen" are brought back by the annual "Roleo," held this year on July 4, 5 and 6, at Gladstone, Michigan. At Manistee, the National Forest Festival will be held July 3, 4 and 5.

Sales Tax Returns Are Payable at Lansing

More than 10,000 retail merchants of Macomb, Monroe, Oakland, and Washtenaw counties were notified this week to mail sales tax returns and pay sales taxes to the State Board of Tax Administration at Lansing beginning with the filing of their June, 1941 returns. These are due on or before July 15, 1941.

Heretofore retailers in these counties have filed returns and paid sales taxes at the Detroit office of the Sales Tax Department. Hereafter the Detroit office will receive tax returns and payments from Wayne county retail merchants only.

Louis M. Nims, managing director of State Board of Tax Administration, commenting on the changeover, declared that the new plan requiring all lower peninsula retail merchants, excepting those in Wayne county, to file their tax returns in Lansing would make for greater efficiency. It is in line with the new revenue bill recently passed by the legislature establishing a centralized tax collecting agency.

The liberty of a people consists in being governed by laws which they have made themselves, under whatsoever form it be of government. —Cowley.

Until nations are generous they will never be wise; true policy is generous policy; all bitterness, selfishness, etc., may gain small ends, but lose great ones. —Washington Irving.

Women Learning Motor Mechanics

In keeping with the home defense program of the Oakland County Chapter, American Red Cross, C. C. Winningham of Birmingham in cooperation with the Chapter will conduct a class in motor mechanics beginning Monday evening, July 7, at 7:30 at the Winningham Chevrolet Garage, 360 S. Woodward, Birmingham. The course will consist of instruction in making simple motor repairs and will contain general information regarding an automobile engine. The first lesson will consist of 2800 pictures on slide films which have been developed for the U. S. Army in cooperation with the Chevrolet Motor Car Co. While the class is primarily for members of the Chapter Motor Corps it is open to any woman wishing the instruction. The motor corps consisting of 50 women of the county who drive for the Chapter whenever necessary has been most active during the past year. Materials are delivered from the warehouse and completed garments returned to the warehouse.

One thousand, four hundred and sixty-seven participants and 495 spectators attended the water safety program of the Oakland County Chapter, American Red Cross, last week which was the first week of the summer program. The program will continue for eight weeks of the summer during which time members of the classes may secure certificates for the various swimming tests.

Miss Dorothea Lawrence, Director of Water Safety, and Ralph Waterman, who has recently secured his water safety instructorship at the Red Cross Aquatic Camp at Culver, Indiana, will direct the classes.

Mrs. Ronald Walter spent the past week with her parents in Ypsilanti.

Mr. and Mrs. Gerald O'Dell and family moved on Wednesday to their new home in the Clarkston Estates subdivision.

Mr. and Mrs. Ray McNeive, of Topeka, Kansas, attended the wedding of Mr. McNeive's brother, Gene, on Saturday.

Charles Mahoney, of West Des Moines, Iowa, is visiting his daughter and family, Mrs. Ben Comstock. Today (Friday) Mrs. Comstock's sisters, Mrs. Charles T. Chisholm of Muskegon and Mrs. George E. Usry and daughter Barbara Ann, of San Antonio, Texas, and Mr. and Mrs. Cleveland Collins of Detroit are coming to complete a family reunion for the Fourth.

Several friends gathered at the home of R. C. Chapman and Mr. and Mrs. Harold Weston on Sunday evening to honor Mr. Weston on his birthday. The evening was spent visiting after which a lovely lunch was served. Those present included Mr. and Mrs. Harry Horsch, of Holly, Mr. and Mrs. Marshall Ferguson and son Michael, of Andersonville, Mr. and Mrs. Orville Nelsey and Mr. and Mrs. H. Gador, of Clarkston, and Mr. and Mrs. Raphael McNeive and daughter Kay, of Topeka, Kansas.

"Currant" Events

By Frances Lee Barton
KEEP up with your "currant events" as well as with current events. As the various members of the currant family appear on the market or

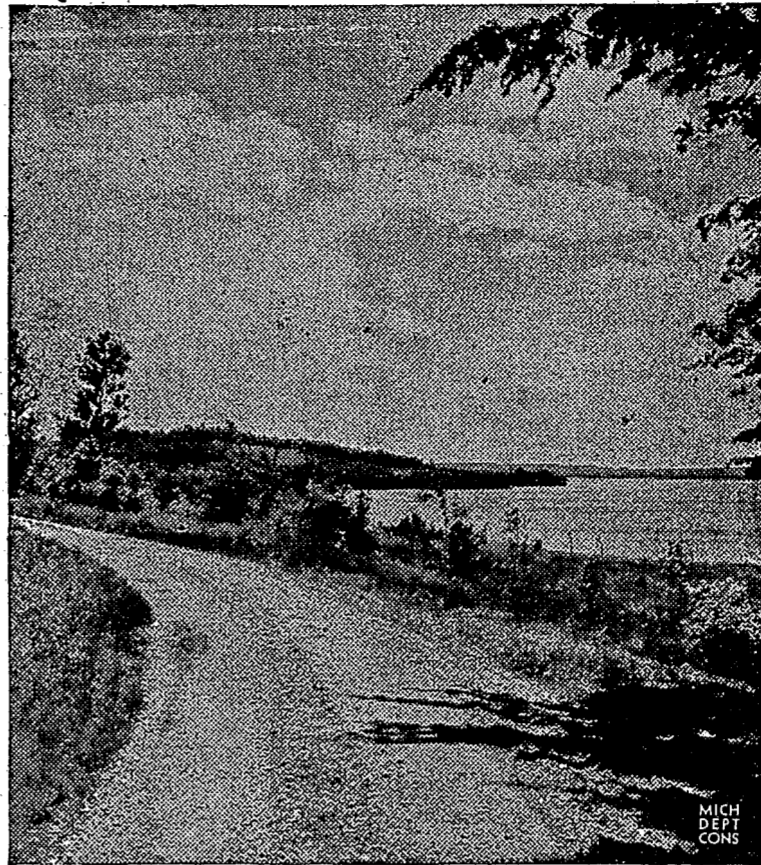

ripen on your own grounds, roll out the jars, turn the fruit into jelly or jam, and later on you'll have a barrel of fun. A combination of red currants and ripe apricots makes a very delicious jam. Here is a recipe that will take care of about eleven glasses—but when you taste this jam you will see to it that at least another batch is prepared.

Apricot and Currant Jam
4 cups (2 lbs.) prepared fruit; 7 1/2 cups (3 1/2 lbs.) sugar; 1/2 bottle fruit pectin.
To prepare fruit, pit (do not peel) about 3 1/2 pounds fully ripe apricots. Cut in small pieces and crush thoroughly or grind. Crush thoroughly or grind about 1 pound fully ripe red currants. Combine fruits. Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Skim; pour quickly. Paraffin hot jam at once. Makes about 11 glasses (6 fluid ounces each).

Side Roads Call

Off the main highways crowded with vacation travelers, tourists choosing the side roads where autos are fewer and farther apart may enjoy at their leisure the quiet beauty of thousands of Michigan's smaller lakes and tree-bordered streambeds. State forests, state game areas and wilderness-type state parks are popular destinations for side road trips. Sand trails in the pine plains country reward visitors with rare glimpses of deer and other wildlife.

For Homemakers

Keen eyes focused on the farm family garden can aid Michigan appetites next winter. That is the suggestion of members of the home economics extension service at Michigan State College.

For use of homemakers in the state, members of the college staff have set up a budget of those foods that should go into the pantry or storage cellar before the harvest season is concluded.

For each member of the family the budget suggested includes:

Greens, 8 to 12 pints; 20 to 30 pounds of cabbage, 16 pints of asparagus and string beans, 12 pints of green peas and lima beans, 12 pints of corn, 50 to 60 pounds of beets, carrots and squash, 25 pounds of turnips, parsnips and rutabagas, 1 1/2 to 4 bushels of potatoes, 25 pounds of onions, 3 to 12 pounds of dried beans depending on amount of meat served, and 20 to 30 quarts of

tomatoes. Canned fruits suggested would include 5 quarts of rhubarb, 20 quarts of cherries and berries, 25 quarts of plums, peaches and pears and 2 or more bushels of apples.

One warning given homemakers is not to get so enthusiastic during the season of any one crop such as berries that all or too great a quantity of canning containers are filled with the single product. Such a practice leaves storage containers lacking for other products that will add to the variety in the winter menus.

RENT A FROZEN FOOD LOCKER

Why?

Because frozen foods are— Fresh—taste fresh, not flat like canned goods.

Healthful—because the vitamins in fresh fruits and vegetables are sealed in by fast freezing.

Economical—because larger quantities of meats, etc., which cost less, can be fast frozen for future use. The difference between wholesale and retail prices and between low summer and high winter prices of fresh foods is actually saved when you use a refrigerated locker. Frozen foods do not spoil.
