CLARKSTON, MICHIGAN, FRIDAY, SEPTEMBER 19, 1941

NUMBER 3

The Hilltopper

The school news this year will be under the supervision of Mrs. Richard Wallace. We have divided the staff into departments: the music department to be reported by a committee headed by Bill Radoy; the athletic department under Stan Perrin; teachers' news to be reported by Malvina Smith's group, and the general news by Marjorie Lindsey. Anne Russell is going to be responsible for assembling, proof-reading and typing.

MUSIC NEWS

The orchestra got off to a good start this year by enrolling six new members who include the following violinists: Adrienne Volberding, Berthea Caskey, Jeanette Dobson and Ethelyn Smith. The last new member is Phyllis Tremper, who plays her own cello.

The school has purchased a new marimba which is expected to add considerably to the orchestra.

The School Board has purchased several new instruments this year including a marimba, a French horn, an alto clarinet and a flute. Many students have also purchased new instruments, including four violins, a cello, and a new accordion. There is a total of 65 students taking music lessons. The Rotary Club of Clarkston has been very generous in offering free transportation to all music students who wish to hear the concert given by the U. S. Navy Band in Pontiac Friday, Sept. 26, at four o'clock.

There are 18 boys and 12 girls in the Senior chorus. There are only 8 students in the junior chorus although the director, Mr. Willoughby, says he will have a bigger and better chorus than he has had in the past 5 years.

PERSONALS

In answer to the many inquiries about Mr. Conklin, we understand that he is now at his home at Cedar Springs, and that he is able to walk a few steps without crutches. If students who correspond regularly with him would keep the Hilltopper Staff informed about his condition we could pass the information on to his many well-wishers.

Louise and Dick Shaughnessy are attending St. Michael's High School in Pontiac. Their reaction to the school is favorable, but "Doc" Thayer is still unconvinced.

Helen Smithson and Cheryl Darling are enrolled at Pontiac High.

Lynn Kizer is attending Rochester High.

Rita and Mike Wilson are back at Visitation School in Detroit.

Kenneth Hempstead took a trailer trip to Yellowstone National Park last summer. We are enjoying his observations in geography.

ATHLETIC DEPARTMENT

In a personal interview granted Monday afternoon, Coach Thayer "allows" that there will be football team this fall. Twenty-two men have signed up for the sport and fifteen attend practice more or less regularly. These include the following letter men from last year: The Ross twins, Wainman, O'Roark, Perrin, Boice, Sutton, Junior Ross, and "Last but not least", Hugh Cheeseman. Baynes, Appleton, Ream, Mitchell, R. Henry, Cooper, Bud Berg, Hagen, Rouse and Waid fill out the squad. The new equipment will be here for the game Friday afternoon on our field.

KINDERGARTEN NEWS

There are 30 children enrolled in the kindergarten this year. They have been busy getting acquainted with each other and with their teacher. "The Family and Home" has been the topic of discussion this week. This theme has been carried out in finger plays, rhythms, stories, and occupations.

There are 21 children enrolled in the first grade. Their main interest has been to learn to read. They are now using "Before We Read" to prepare themselves for pre-primer reading material. Games, stories, pictures and charts have been used to establish a good reading vocabulary.

MRS. FISHER

We have an enrollment of 27 fifth graders, and 10 fourth graders.

Sally Matalall, Dolores Barrett, Martha Clack, J. W. Frelow Greene, Ethel Stover and Ronald Olliffe are all new in the Clarkston School.

Our fourth graders will begin studying "My Weekly Reader" next week.

SIXTH GRADE

Thirty-eight children are enrolled in the Sixth Grade. Of this number fourteen are newcomers.

A Safety Patrol has been organized in our room. Twelve boys are members, and Dean Anderson was elected captain. The younger children will be conducted from the school to the west side of Main Street.

Greater Things To Come

My father spent long years of toil To replenish depleted soil, And built anew the old horse barn He gave his life to that old farm, He fences built and orchards set And tilled the places that were wet, He picked the stones from off the hills And put them 'neath the big barn sills.

And under his protecting use He made the dear old farm produce, Far in excess of those around That didn't have such fertile ground, He sold the farm and moved away And he was proud, upon that day, To leave for others, barns and soil Rebuilt by many years of toil.

But now I find lo and behold Not long after the farm was sold, The house burned down where I was born

And no one tilled the fields of corn, Then came a man with wealth so great Who viewed our barns as second rate, Who built a mansion in the field Thought not of crops that it would yield.

When from this world I must depart And I am thankful in my heart, That I have been allowed to give The best in me that folks might live, A little better here on earth And I count up my worldly worth, Into the future I will see Great men to come out doing me.

Get Acquainted Party Held Tuesday Night

School Board and P. T. A. Were in Charge

On Tuesday night a very fine crowd gathered at the Clarkston School to welcome the members of the faculty, to get acquainted with the new teachers and to show their interest in the work of the school.

On entering the building the members of the school board welcomed the guests who passed on into the auditorium where the faculty members formed a reception line. Almost an hour was spent getting acquainted.

During the evening the new gas stoves and the new Electrolux refrigerator were inspected and Lloyd Megee, a representative of the Consumers Power, gave a brief talk about this new equipment. He also introduced Miss Bradley of the home service department of the Consumers Power and her two assistants who baked the cakes that were served from the refreshment table at the close of the evening.

Another delightful feature of the evening was the musical program presented by the school band and the musical numbers by Bob and Betty Jones; Bob playing the marimba and Betty, the piano.

Before the refreshments were served the members of the school board were interested in a drawing conducted by Miss Bradley and her assistants. Mrs. F. E. Davies was the lucky member and she was presented with a lovely angel-food cake that had been baked in one of the new gas stove ovens installed in the home ec room.

Some of the members of the P. T. A. presided at the refreshment table and the guests enjoyed ice-cream, cakes and coffee.

Spurs Come Off As Cowboy Eats

Reluctant as he was, George Montgomery had to remove his large shiny spurs from his cowboy boots. The ex-Montana rodeo rider, who shares top billing with Mary Beth Hughes in the 20th Century-Fox production, "The Cowboy and the Blonde", had to choose between wearing his spurs or spending a lunchless lunch hour.

Each noon he used to stride into the studio commissary and drape himself around a chair. A harmless pastime under ordinary circumstances, but with a pair of spurs added, it proved to be quite damaging to the furniture. In one week George dug into four chairs, putting them out of commission.

Finally Nick Janios, commissary manager, delivered an ultimatum: "Leave the spurs in the dressing room, or else."

George, hunger knowing at his inwards, left the spurs in the dressing room to the satisfaction of Mr. Janios.

"The Cowboy and the Blonde" coming Sunday to the Drayton Theatre, also features Alan Mowbray, Robert Conway, John Miljan, Richard Lane and Robert Emmett Keane. Ray McCarey directed from a screen play by Walter Bullock.

The Golden Text (I John 2:15) is: "Love not the world, neither the things that are in the world."

Among the Bible citations is this passage (John 1:1-3): "In the beginning was the Word, and the Word was with God, and the Word was God. All things were made by him; and without him was not anything made that was made."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.335): "Spirit, God, has created all in and of Himself. Spirit never created matter. There is nothing in Spirit out of which matter could be made, for, as the Bible declares, without the Logos, the Aeon or Word of God, 'was not anything made that was made.'"

ORDER TREES NOW FOR NEXT SPRING

Will Be Sure You Get What Is Desirable

Cooperators with the Fenton Soil Conservation District and with the Southeast Livingston District who plan to reforest eroded areas or idle land on their farms, should order trees now, according to A. F. Monroe, farm forester.

Past experience has shown that farmers waiting until winter or early spring to order their trees will be disappointed. Desired varieties may be sold out and the farmer may have to take a different variety or different size tree than the one ordered. We have found that by getting the order in early we generally get the trees we desire.

The Michigan State College Forestry Department and the State Department of Conservation sell trees to farmers at the cost of production, which is approximately \$3 to \$7 per thousand. Order blanks can be secured now from the above departments or from the County Agent. The Soil Conservation Service office also has order blanks which are available for District cooperators.

Order your trees now and ask for delivery approximately April 15, next spring.

Planting little pines 4 inches to 8 inches tall is not a waste of time. Trees planted three years ago in the Fenton Soil Conservation Project are three to five feet high and are a factor in checking erosion by wind and water. While the man who planted the trees may have passed on by the time they will make timber, they are certainly increasing the beauty and value of the property each year they stand. Ugly, barren hillsides are converted into spots of beauty.

Daniel Schurz, son of Dr. and Mrs. Arthur Schurz, entered the Northwestern branch of the U. S. Naval Academy at Chicago where he will be in studying and training for the next four months.

For Homemakers

Hosiery is one of the most unpredictable items in many a woman's clothing budget. Like other misfortunes, there seems to be no telling when snags, runs, and holes will appear.

A woman can eliminate many stocking disasters by intelligent hosiery shopping and care of the stockings after they are bought, it is agreed by home economics extension specialists of Michigan State College. Longer wear and greater comfort are assured from a pair of stockings if a woman checks important points of hosiery selection before she buys.

These important points include: First—of what fiber are the stockings made? Available on the market now are attractive, well-fitting stockings in cotton, silk, wool, rayon and other synthetics, and mixtures of fibers.

Suitable stockings for general wear are of cotton, of silk and synthetics, in heavy and medium weights. For sports, there are cotton, wool, and service-weight silk. For evening, there are light-weight silk, rayon, and other synthetics, and cotton in novelty knits.

What weight? One reason hose wear out too quickly is that weight is not suited to use. Usually, it's because the stockings are too sheer for the heavy wear they get. Three-thread yarns are stronger than two-threads. Fineness of knitting is indicated by the gauge number. The higher the gauge number, the finer the knitting.

Texture—'course' or loops of thread that show up best on the wrong side should be close together so the stockings will be strong and have plenty of up-and-down stretch.

Elasticity—necessary to stocking comfort is a certain amount of stretch in a stocking. Otherwise, the stocking soon develops baggy knees and bunched ankles.

Reinforcements—look for sturdy reinforcements where the hardest wear comes—at the heel, the high splice that comes up above the shoe line, the sole of the stocking, and the toe.

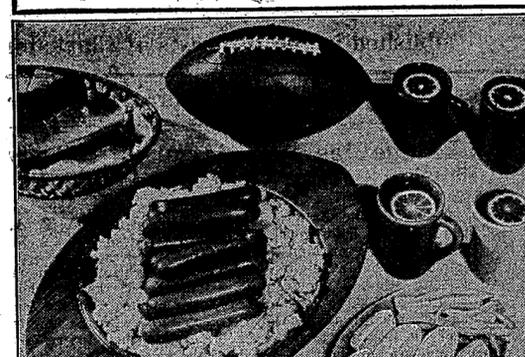

Size—stockings of the right size wear better, feel better. Measure a stocking foot length should be 1/2 inch longer than the foot. Stocking size is the length of the stocking foot in inches. Size 9 would be 9 inches long. Wool hose usually should be about a half size larger to allow for shrinkage.

Laundering—wash hose in mild, lukewarm suds. Rinse twice in clear, lukewarm water. Stretch feet and legs to shape and hang to dry, away from radiators or other heating devices.

BATTLING THE DEADLY DOPE RACKET

A heart-touching, profoundly disquieting picture of a mind-and-body-destroying traffic in drugs, carried on by the devil's own peddlers, will be presented by Dr. Arthur LaRoe, president of The American Narcotic Defense Association, in The American Weekly with The Detroit Sunday Times, starting with the September 21 issue. Be sure to get The Detroit Sunday Times this week and every week.

Buffet Service after the Game

After the game, cheers of delight over this buffet menu will re-echo those heard during the touchdown. It consists of Hot Potato Salad with Lemon Dressing, Weiners and Finger Rolls, Crisp Carrot Fingers, Hot Spiced Lemon Tea and Lemon Garnishes. Try it next time!

A smart hostess is one who is "first" with the season's entertainment. You can be included in this classification by simply planning ahead. As fall nears and school begins, football is undoubtedly among the chief items of conversation of young and old. Such universal interest acts as a barometer enabling hostesses to plan specific entertainment. Thus, the alert hostess leads the way to party success and is the envy of many.

Why not consider a football buffet for the first fall get-together at your home? Here's an ideal menu because it's quick and easy to serve the crowd after the game.

- Football Buffet Menu
Hot Potato Salad with Lemon Dressing
Weiners in Finger Rolls
Crisp Carrot Sticks
Gingerbread topped with Apple Sauce Whipped Cream
Hot Spiced Lemon Tea

Lemons play an important role in this menu. The tart appetizing flavor of the juice in the dressing adds zip to the salad as well as aids in keeping the potatoes white. If you are not accustomed to using lemon juice in potato salad, try it soon and I'll wager one introduction will prove itself for the future. Potato salad is never just "potato salad" when lemon juice is among the tasty ingredients. Want the recipe?

- Hot Potato Salad with Lemon Dressing
1/2 cup lemon juice
1/2 cup salad oil
1 teaspoon sugar
2 eggs, beaten
1/2 teaspoon dry mustard
6 cups sliced hot potato
1 cup celery cubes
2 strips bacon, cut in squares
Salt and pepper to taste
Combine lemon juice, salad oil, sugar, eggs and mustard. Heat to boiling point beating continually to keep smooth. Pour over the hot potato. Add celery. Mix in the bacon squares which have been fried to a crisp, golden brown. Add salt and pepper to taste. Serve hot. Serves 6 to 8.

- Hot Spiced Lemon Tea
5 cups boiling water
6 teaspoons black tea
1/2 cup sugar
1/2 cup boiling water
6 tablespoons lemon juice
1 teaspoon grated lemon peel
1/2 teaspoon ground cinnamon

Women Around Here Helped in This Two million pounds of surplus American cotton is the total in the 40,000 mattresses that will have been made when the last knot is tied in the 1941 program sponsored by the state by the United States Department of Agriculture, the federal Surplus Marketing administration, the Agricultural Adjustment administration and the federal-state extension service in agriculture and home economics. The estimate comes from Miss Margaret Harris, assistant state home demonstration leader on the Michigan State College staff. She has assisted in directing the program throughout the state. Eligible families gathered in township halls, church basements, school gymnasiums or even fairground buildings where community mattress making centers were set up. The projects were operated wherever requests for free materials warranted. Cotton was received in bales and had to be aired and fluffed. The tick usually required several hours of work, but groups often pooled efforts in marking, cutting, pinning and stitching. Preparing the bat of cotton was the next step. Workers piled up the cotton in loose layers. Tying the knots and sewing the roled edges took additional hours. In groups of 10 persons, however, five mattresses often were completed in two days. Some county programs have long been completed, others are still progressing, according to Miss Harris. Now the project is being expanded to the making of comforters. These, instead of the 50 pounds of cotton for mattresses, require but four pounds of the surplus material.

HOLLY THEATRE Filmdom's most dynamic threesome are starred in "Manpower", which makes its local bow this Sunday at the Holly Theatre. The unbeatable star combination which heads the cast is Edward G. Robinson, Marlene Dietrich and George Raft. Robinson and Raft play the roles of a couple of robust linemen whose dangerous job it is to repair broken high tension wires. They are great pals, sharing each other's happiness and trouble, until a de-licious blonde, playing by alluring Marlene Dietrich, comes along. Hard, cold and calculating, she suspects Robinson of having ulterior motives when he showers her with gifts and shows his affection in many ways. But Robinson is sincere. He has never known the love of a woman and Dietrich becomes his ideal. Raft sees her for what she is and tells Robinson to forget about her. He says that she has gold-digger's blood in her veins and will bring nothing but trouble to Robinson.

Raft goes still further. He asks Dietrich to drop Robinson. That sends her into a rage and she accepts Robinson's marriage proposal partly because she feels sorry for him and partly to spite the embittered Raft. But a marriage built on spite and pity is bound to have disastrous results. Try as she may, Dietrich can't get used to Robinson's well-meaning, but clumsy ways. And to make things worse, she falls head-over-heels for Raft! What a setup! The pent-up emotions of those three characters run through their hearts with the power of a high-voltage cable. Robinson idolizing Dietrich. Raft, at first contemptuous of her, later fascinated by her confession of love for him. Dietrich, nearly driven to madness with her pretended love for Robinson, having to listen to him continually praise the man she really loves. It's a situation loaded with T. N. T., and it explodes in the high-powered climax. Alan Hale and Frank McHugh supply plenty of laughs as two practical jokers.

HORSEPOWER ON THE HOOF

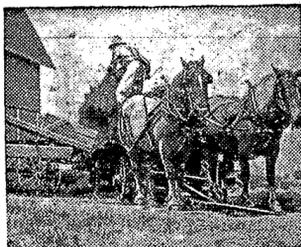

A Michigan brood mare with her seventeenth foal. Most of the sires enrolled in the state are of the heavy draft breeds—Belgians and Percherons.

Even in motor-wise Michigan, the horse still has a big share in getting the day's work done. Automobiles and trucks have replaced him on the road. Tractors are taking away much of his heavy farm work. But there are plenty of jobs left for him to do, faithfully and profitably. Michigan's horse population is 340,000, in addition to which there are 7,000 mules in the state.

Many farmers use the telephone to order hay and feed, to arrange for hiring out their teams on road work or on farm jobs for the neighbors, or to consult the veterinarian. Horse dealers call up their customers to make sales, and keep in touch with breeders and shippers by Long Distance.

Today, good work teams are in demand, and there is increased interest in raising colts in Michigan. Horses have played a mighty part in developing our resources, and it looks as if they're here to stay.

The farm horse earns his keep by doing many kinds of work not suited to mechanical power. This sturdy team is typical of Michigan's work horses.

Conservation Note

"Read the red" is the advice the conservation department is giving most hunters inquiring about regulations for the shooting that starts October 1. Delay in the effective date of new laws is puzzling many of them.

The game law digest, issued with each hunting license, has regulations printed in red on one side and black on the other. Until 90 days after the Legislature adjourns -- a period that will cover most of the hunting season -- the hunter must be guided by the rules printed in red.

These "red regulations" do not allow the taking of doe deer for camp use, nor do they restrict the daily bag of cottontail to less than five.
