Located in the Bryce E. Morrow Plant near Kalamazoo, the new unit has a capacity of 50,000 kilowatts—more than enough for a city of 100,000 persons. It feeds into the Consumers statewide transmission system. In his dedicatory remarks, Gov.

Van Wagoner expressed satisfaction that there has been no lack of electric power for defense production in Michigan. Left to right in the picture are Col. Robert T. Phinney, post commander, Fort Custer, Mr. Karn, Gov. Van Wagoner and Justin R. Writing, president of Consumers.

**Some Interesting Facts About  
Independence Township**

The famous Sashabaw Plains are in this township. Pine Knob on the NW 1/4 Section 23 is about one hundred feet above the general level covers about sixty acres, much of which is tillable (1877).

The township was originally timbered, chiefly with oak. Splendid forests of oak still flourish in the northwestern part (1877). Pine was found in sections 3, 25 and 29 with lesser bodies in other sections.

The uplands are noted as a fine wheat producing region. Farm improvements in this township are excellent denoting industrious and intelligent citizens.

**Early Settlers**

Linus Jacos, a New Yorker, was the first actual settler, who located section 20 about 1830. In 1831 he sold his claim and improvements to Butler Holcomb for \$50,000. Holcomb cleared ten acres that year and seeded it with wheat in the fall.

Thomas Beardslee located in Section 26, cleared considerable land and sowed wheat in the fall of 1832.

This same year several immigrants from New York and New Jersey were added to the Sashabaw settlement, William Stephens, Section 25; Peter D. Voorheis, Section 36; Archibald Ayers, Section 27; Bildad Phillips and

Bine Bathrick, Section 23. Jeremiah Clark located in Section 7 seeding ten acres of wheat in 1932.

Other settlers of this day were William Wyckoff, Section 1; Adam Fisher, Section 35; Ebenezer Clark, Section 7; William Daniels, Section 30; William Axford, William Vliet, Patrick Gallagher, Myron Cobb, William Malby and Marcus Riker, erected the first brick house on Section 26 in 1850, which is now the residence of D. Cook (1877).

Jeremiah Clark planted the first apple orchard, getting one hundred trees from Buffalo in 1833. This township is especially adapted for fruit growing. Harrison Walter (1877) has one of the largest with over two thousand trees.

William Holcomb, William Dunstan and John Derrick introduced the first blooded cattle, purchasing a small herd of Durhams and Devons. Ezekiel Dennis in later years was one of the foremost breeders of fine cattle.

**Early Commercial Enterprises**

The Saginaw turnpike was built through the township in 1832 and the first bridge across the Clinton River was built the same year. The Detroit and Milwaukee Railroad passed through Section 31 (1851) with a station at Clarkston (Clarkston Station).

The first post office was in Section 15, mail being carried on horseback from Pontiac. Early trading points were Waterford in Section 33 (1837); a store in Section 29 was run by two Irishmen, John O'Rooke and Hugh Quinnan.

John Hartwig (1849) kept a tavern there; and William Gurlick had a store at Sashabaw Corners on Section 35 about 1835. A blacksmith shop was located at the "corners" in 1836.

In 1833 Butler Holcomb opened a sawmill on the Clinton River. Clark Brothers enlarged it in 1838. In 1839 they completed a grist mill with 2 run of stones. Tom Farmer was the miller and housewives said his flour was the best in the county.

**Early Schools and Churches**  
The first school was opened in 1834 in Section 26; another in Section 29 in 1837, which was known as the "Pinery School House".

In Section 35 a fine Presbyterian Church was built in 1856 seating capacity about three hundred and costing about \$3000.

**Civil Organization**  
Independence became a township in April, 1837. When the Board met some of the minutes included:

1. A bounty of \$5.00 for each wolf scalp.

2. That a lawful fence be 4 1/2 feet high and able to turn all hogs weighing over fifty pounds.

The first iron foundry in Clarkston (1845) was erected by Arthur Davis. The Clarkston carding-mills were established in 1847.

The prices of farm products in 1840 were; Butter, 6 to 10c lb; Eggs, 5 to 8c doz.; Oats, 16 to 22c bu.; Wheat, 56 to 75c bu.; Corn, 22 to 28c bu.; Potatoes, 15 to 20c bu.

**Census Figures for 1935**

No. of farms—124  
Land in farms—17,072  
Total cropland—7,877

**CHRISTMAS TELEPHONE CALLS**

**RUSH UP  
TOO!**

You can shop early and avoid the rush. You can mail Christmas cards early. But naturally you want to place Christmas telephone calls on Christmas Eve and Day. And then our rush is on!

Last Christmas the number of long distance telephone calls at some points was EIGHT times normal. This year we expect an even greater "traffic jam".

No amount of stretching can expand a normal telephone system eight times its size for one day in a year. It would not be practicable to build that large a system for just one day's use.

All available operators will be on duty this Christmas and many new toll circuits will be in use. But there still will be delays on many calls—some may not get through at all. You can help speed your message by calling before 9 a.m. Christmas day and by giving the operator the number of the distant telephone.

If there is a delay on your Christmas call, we hope you will understand the situation we face.
