## Police to Receive F B I Instructions

## Residents Advised To Study Zoning

Residents of Independence Township are being urged to give serious consideration to the zoning measure on which they will vote on April 6th.

Present owners of homes will not be affected in any way by adoption of the measure it is said, but they will be protected against depreciation of their property by others who would erect homes of less value.

If adopted the ordinance will be administered by a board of four, appointed by the probate judge of the county.

Voters are asked to carefully gather all facts before they go to the polls, so they can discover how they will benefit by adoption of the measure.

It would also be wise to read the proposition on which they are voting which is contained in the election notice on page 4 of this issue.

Byron Beardslee who has been in the Ford Hospital in Detroit under observation for the last ten days expects to return to his home this weekend.

So far about 25 in Clarkston and vicinity have signified their willingness to donate blood for a blood bank in this district by calling Clarkston 4321. Waterford and Drayton Plains are considered in this district and at least 125 donors are needed.

## Rotary Club Selling Seals

Praising the work of the Crippled Children Association Chairman Ronald A. Walter today gave his warm personal approval and official endorsement of the sale of Easter seals now being carried on by this organization in order to finance its program for crippled children.

"Although the work of the Crippled Children Association carries with it every opportunity for a strong heart appeal, in my estimation no such appeal is necessary," said Chairman Walter. "The economic and social benefits to society as a whole would alone serve to justify many times the expenditure now made in this kind of work."

Mr. Walter pointed out that although the element of human sympathy in work of this kind is inescapable, it should not be such as to obscure practical aspects of the situation.

"The Crippled Children Association has been carrying on a dogged campaign of education to get public recognition of the whole problem," he declared. "In bringing home to us the fact that by a small investment society can be relieved of a great financial burden this organization has done a great service."

Mr. Walter enthusiastically cited numerous cases of handicapped young people he knew who had been helped to help themselves.

"Restoring them to earning capacity has relieved the community of the burden of caring for them as long as they lived," he said. "That is not only a fine thing for them but for all of us. A movement which pays dividends of that kind should have the support of everyone. I appeal to the people of this community to give the seal sale the unanimous support it deserves. Dollars invested here will bear fine dividends, both in happiness and money."

## Senior Prom Tonight At Clarkston School

The senior class of the Clarkston High School has been working hard this week getting the gym in readiness for the prom which takes place tonight. They are looking forward to having a fine crowd and they are hoping that there will be a real reunion of former graduates. The music will be to your liking and you are promised a good time from 9:00 until 1:00 o'clock. The affair will be semi-formal.

## Marriage Vows Spoken Monday Eve.

Harrowing Details Witnessed by Rotary Club

To the strains of "I Love You Truly" rendered by Robert Jones and Ralph Marshall, the marriage party entered the Rotary Club Rooms in the Opera House Building and led by a person (Harold Kennedy) who might be a notary public, a Justice of the Peace or by a stretch of imagination the leader of some religious sect, who escorted the mother of the bride, Lloyd McGee, and proceeded to the head of the dinner table.

The bride, Robert C. Beattie, looked very lovely in a beautiful blue cotton gown with accessories to match, while the groom, Joseph S. Seeterlin, dressed in a becoming suit of the Daniel Boone era, even to the leather jacket and a hairdo untouched by comb or brush for high many moons.

A dainty ring bearer, Ray C. Ainsley, dressed in a becoming business suit and carrying the ring on a platter, a yard in diameter brought up the rear, escorted by the bride's father, Jerry Dark, who bemoans the fact that his name is not in the paper more often, dressed for action, and carrying a double barreled shot-gun. It might be mentioned that the ring was a precious one, a rubber tire.

The Justice of the peace ceremony, it was cheaper, was used to unite the couple and if the groom had to be reminded to say "I do" by a discharge of the gun, perhaps he really was nervous.

A beautiful three tiered cake was then presented to the groom and a reception was given, attended by the entire Rotary Club.

Catering for this pretty wedding was by the Clarkston Cafe, under the personal supervision of Jeff Hubble.

(The fact that the president of the Club, Roy Alger is to be married shortly, may have had something to do in inspiring the proceedings. It should be recorded that he was very generous in cutting the cake.)

## Girl Scout News

The Clarkston Girl Scouts met at the school on Monday night. Visitors included Mary Lindsey, Betty Cole and Mrs. Rioux.

The older girls enjoyed learning camp songs led by Adrienne Volberding. The tenderfoot group studied second class projects with Helen Cox.

CHRISTIAN SCIENCE CHURCHES

"Reality" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, March 29.

The Golden Text (Luke 6:45) is: "A good man out of the good treasure of his heart bringeth forth that which is good."

Among the Bible citations is this passage (Psalms 145:9,10): "The Lord is good to all; and his tender mercies are over all his works. All thy works shall praise thee, O Lord; and thy saints shall bless thee."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.331): "The Scriptures imply that God is All-in-all. From this it follows that nothing possesses reality nor existence except the divine Mind and His Ideas."

## Clarkston Nurse Writes from Texas

Dear Mr. and Mrs. Stamp: I had a grand trip coming down to Texas, although I wouldn't trade Clarkston for anything I have seen as yet.

We are about fifteen miles from the Oklahoma border and five miles from Wichita Falls—right out on the prairie and you can see for miles around. There are oil wells galore and they certainly smell on a hot day. The sand storms we have are terrific. They say it is Oklahoma blowing over one day and that the next it blows back. The winds are very strong. The soil is a deep red and the rivers are very red and muddy looking. I'll certainly be glad to see lakes again.

This camp is huge and is new. We live in barracks and have private rooms which are plainly furnished. The food is called "chow" and the place we eat in is called "mess hall". The food is good and plentiful.

We got our typhoid and tetanus serums last week and my arm still aches. I really do not know how long I will be stationed here as everything is a military secret. Right now I work in the measles ward and the boys certainly look funny with red blotches all over them. We work 7 hours a day, 7 days a week.

It's all so different from civilian life. I'll certainly be glad when an armistice is signed. Please write and tell me everything that is going on. Drop in on my dad and see how he is.

Sincerely,  
Mary Gassick

P. S. I almost forgot to tell you about our cowboys with their ten gallon hats and high top boots. They are certainly different in dress.

The Royal Neighbor Sewing Club met at the home of Mrs. John Alander on Wednesday afternoon with Mrs. William Johnston and Mrs. Wade Dean as co-hostesses. Delicious refreshments were served.

The friends of Mrs. Walter Ash will be sorry to learn that she has suffered several heart attacks during the last week. As we go to press we find that she is resting comfortably and is gaining strength.

The regular meeting of the Methodist W. S. C. S. in Clarkston will be held next Wednesday afternoon. At 12:30 a luncheon will be served. The public is invited. The luncheon committee is: Mrs. Herbert Baynes, Mrs. William Dunston, Mrs. Robert Jones, Mrs. Henry Woolfenden, Mrs. Ada Mills, Mrs. Allie Gulick and Mrs. Robert Waters.

Every Wednesday night the firemen and policemen for civilian defense have been gathering at the Town Hall in Clarkston to receive instructions in First Aid from Dr. Harry B. Yoh. As soon as more instructors are available other classes will be started.

## Common Things Are Such a Blessing

Times unnumbered I have pleaded With the man who tires needed, Bore hard upon him with my ravin' 'Bout some life that he'd be savin', 'If he'd only mind my pleadin', 'Bout the tires he was needin'.

Sought to show the consequences Of cutting down on his expenses, And overlooking cuts and creases Doomed to blow his tires to pieces, And failed in my attempts at scarin' Folks with how their tires were weagin'.

Took a chance with my position Put prices down with competition, Small down payments I'd require (Just anything to sell a tire) But few would listen to my pleadin' 'Bout the tires they were needin'.

Now-war has changed the situation I have no means of liquidation, Yet thousands every day inquire How's my chance to buy a tire? And I must listen to their pleadin' Knowing tires they are needin'.

And every man today's a buyer For anything that's called a tire, And any size or shape suffices And no one ever argues prices, Let's pray from this we learn this lesson.

Just common things are such a blessing.

**HOLLY THEATRE**

With a star-studded cast, Walter Wanger's first big production for the season, "Sundown," will have its local premiere at the Holly Theatre on Sunday thru United Artists release. Based on the Saturday Evening Post serial by Barre Lyndon, "Sundown" pictures an entirely new background, the hinterlands of Britain's Kenya Colony in Central East Africa.

The picture revolves around a small group of white men who rule over several hundred thousand blacks and are in constant danger of annihilation by semi-savage tribes, especially when the latter are provided fire-arms by enemy agents. Zia, the stellar character, is played by the lovely dark beauty, Gene Tierney.

To obtain locations duplicating the fantastic terrain of the isolated Kenya borderland, the company spent many weeks at Acoma Rock, New Mexico; at Red Rock Canyon in the heart of the torrid Mojave desert; and at Crater Lake, Oregon.

A tent city had to be built to house the large theatrical troupe which came from Hollywood, along with carloads of African animals, properties and building materials for the native Kenya huts. Thus, "Sundown" is reputed to be wholly unlike any other picture previously filmed, with a locale that is off the beaten track and with a story that moves across the screen at a thrilling and suspense packed pace.

**For Homemakers**

Sensible dresses with economy adapted to wartime, yet with enough style to attract use by America's rural women is the claim made for the outfits now available in stores or in pattern form, according to members of the home economics extension staff at Michigan State College.

During the past year, clothing specialists in the bureau have studied the problems of the women worker and designed 15 outfits. First designs were for women farm workers. Since then there have been outfits designed for women who work in factories, in laboratories, in institutional kitchens, and in their own homes. AS these designs have come out they have been immediately adopted by commercial pattern companies and garment manufacturers. Consequently most of them are now available in patterns, as ready-mades, or both.

A late design released is the protect-all for women who do outdoor work on farms or any place where it damp and cold. This protect-all is a shower-proof coat, cut somewhat on the order of a streamlined army parka. It slips over the head so there are no openings to blow open on blustery days. A hood cut in one with the coat protects the head.

Another recent design is the food preparation dress, which also makes a good housedress. This outfit has roomy pockets, opens down the front so it can be slipped on without mussing the hair.

Another outfit is the laboratory dress for women scientists. This dress has no cathable details on the front. Still other new designs include a comfortable housedress, a divided skirt dress, and numerous aprons.

**Smelt Runs May Be Early This Year**

Early breakup of lake ice may bring early runs of spawning smelt up northern streams, but the chief smelt fishing communities are playing safe by setting late dates for their festivals. Escanaba will limit its jamboree this year to one day, April 11. Menominee and Marinette already have chosen queens for the Twin City smelt carnival April 10, 11 and 12. At Boyne City the townspeople are waiting until the spawning fish show up in the Boyne river before they invite the smelt dippers of southern Michigan in to celebrate.

Conservation department records show that the peak of the run may be expected in the last week of March or in the early part of April. In communities where celebrations of the runs are organized, conservation officers assist in management of events.

**Conservation Note**

Following a six-mile snowshoe trip through the jackpines of Ogemaw state game refuge, superintendent Harold Tubbs had tallied these signs of active wildlife: fox tracks, 29; coyote, one; otter, one; mink, three; raccoon, two; skunk, 16; porcupine, four; snowshoe rabbits, four; and numerous mice and squirrel tracks. In one white pine stub Tubbs found that a pair of raccoons, a colony of flying squirrels and a porcupine with young had taken up their residence.

Farmers along the Atlantic coast have been advised that woodlots, especially those of evergreen trees, offer good places of concealment in

event of prolonged air attack.

Canadian National Steamships have resumed twice weekly sailings with the steamships Prince Rupert and Prince from Vancouver to north

Pacific coast points including Ketchikan, Alaska.

**War Order LIMITS Telephone Installations**

For more than a year this company has met an unprecedented service demand and generally has installed telephones when and where they were wanted. Material shortages now make it impossible to meet some requests for telephone service.

The expansion to care for past service requests was accomplished, despite a greatly curtailed supply of vital materials, through emergency engineering methods and the use of alternate materials.

Now, the War Production Board has issued an order that expands those practices and places further restrictions.

**SOME EFFECTS OF ORDER ON TELEPHONE USERS**

1. PARTY LINES, only, can be installed in many cases.
2. EXTENSION TELEPHONES cannot be installed in residences except where needed by those responsible for public health, welfare or security.
3. TELEPHONES of wall or desk (upright) types cannot be changed to hand sets.
4. MANUAL TELEPHONE SWITCHBOARDS may not be changed to dial except where the work is well advanced.

Michigan Bell will endeavor to administer the order equitably and regrets any inconvenience the public will experience.

Ducks certainly get around and are not hampered by travel priorities or other restrictions, says Ernie Poole, fish and game representative,

 A salvage drive is underway by the Drayton Men's Club. The purpose of this drive is to gather all of the old newspapers, magazines, rubber, metal, paper boxes and rags so that they can be put back into war work. The country is in great need of the aforementioned waste. Do your bit by placing all of your saleable waste material on your curb early on the morning of Saturday, April 11th, 1942. The Boy Scouts of Troop 52 will accompany all conveyances for picking up the salvage. ### THE JUNIOR PLAY

By Mazy Wompole  
 The Juniors have selected "The 13th Day" as their play. The play is a Mystery in Three Acts with 10 characters. The play is written by Charles George and has a royalty of \$10. The whole play takes place in a very old and mysterious looking house. A supposedly dead man comes back to life, two people disappear; a car is stolen; gun shots are heard; and a clock strikes 13. All these things go into making a good entertaining play.

Try outs begin this week Wednesday and Thursday. We expect to have the play ready for production about May first.

Employment of women by Trans-Canada Air Lines is for the war's duration only.

## REMEMBER Your Home Newspaper

All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper week by week.
