### In God We Trust

When Pa would get his razor out And smear his face with lather,

And get his mug and brush about A whisker crop to gather. It seemed I'd never grow a beard That needed any shaving,

And times there were that I ha feared

No whiskers I'd be waving.

Yet come a day when whiskers grew A million little bristles,

And I was lost at what to do With such a bunch of thistles. So once a week for many years I gave my face a trimming,

But now each morning thru tears

It gets another skinning.

Impatiently I feared for naught In years when I was tender, About the things that nature brought So let me now remember, To try and be a bit more sane And not get panic stricken. For God is sure to send some rain When clouds up yonder thicken. (All rights reserved) Robert C, Beattle.

### Jeeps Show Up To Advantage

Michigan farms may soak up some of the flood of United States army jeeps after the war is over and before tractor production gains volume. ### Yum Yums for Children's Day

### By BETTY BARCLAY

For healthful drinking as well as palate appeal add this recipe for Fried chicken, a cooling drink, and a favorite dessert — these I suggest for the children on Chil-dren's Day, whether there be a party or not. The younger folk prepared with a turn of the wrist will be delighted and the elders will be just as pleased with these easy-to-prepare tasteful surprises: from canned unsweetened Hawaiian pineapple juice, which is a good source of vitamins  $B_1$  and C, lime juice, honey, and egg white.

Fried Chicken

Fried Chicken Thaw 2 lbs. quick-frozen chicken enough to separate; cut in pieces of serving size. Sprinkle with sait and pepper and roll in flour. Heat sizzling hot ¼ to ¼ inch fat (oll, oil and butter, lard, or vegetable shortening) in heavy skillet. Place chicken in fat and fry, turning to brown delicately on both sides. Then reduce heat (but not below sizzling point) and fry-carefully 20 sizzling point) and fry carefully 20 to 25 minutes longer, turning frequently. Serve with or without pan gravy made with milk. Serves 4. Or dip pieces of chicken in

Sow annuals for mid-July flowers Some flowers are difficult to grow; thers practically take care of themselves. Here are some annuals which can be sown in your back yard this month and which will bear flowers by mid-July: Zinnas, ageratum, alyssum, candytuft, centureas, clarkia, cynoglossum, annual sunflowers, annual pinks, morning glories, linaria, leptosyne, marigolds and poppies. And we might name several more.

Annuals grow much faster in warm weather and their flowers are finest in the last half of the season, usually improving until frost arrives.
