## Phonograph Records Wanted for Army

A drive is on to collect all outdated phonograph records to be sent to the companies to be made into up-to-date records to be distributed free of charge to the armed forces. This is being sponsored by the American Legion.

The drive is national and the goal for the country is 37,500,000 records. The quota for Independence Township is 1250. The drive starts on Wednesday, July 29, and will end Saturday night, August 1. This will be a good way for you to do something to cheer the boys who are in the army camps. You are asked to leave the records at your grocers. The Legionnaires in charge of the district are, Herbert Baynes of Clarkston and James Sutton of Waterford.

To make this successful the cooperation of everyone is requested. Take your old records to your grocer's before Saturday night, August 1, and help furnish entertainment for the boys who are making sacrifices for you.

## County Club Gets State Recognition

The Oakland County Service Club received splendid recognition during Club Week, the last of June, at the college, when the State Service Club initiated outstanding county service club members. Sixteen young men and women were chosen from candidates submitted by 44 counties in the lower part of Michigan. They were rated for their work, accomplishments, activities and leadership.

Two candidates were submitted for this county and were accepted for membership in the state organization. Eugene Hubbard from Clarkston, farming with his father, has been in club work for seven years, in the sheep project. He has been a member of Demonstration Teams, giving fourteen demonstrations; entered twenty-six judging contests. In 1941 International Livestock Show at Chicago.

For the last three years he has led a club varying from seven to ten. Eugene was awarded a trip to the members which have 100% completions in the work each year. He says of the work—"At a time when our country is in such a crisis as it is, the leadership of 4-H'ers is an asset to our community. They form the habit of thrift, self reliance, willingness to work and develop the ability to accomplish, and form a wholesome outlook on life. They hold their heads up, and take hold of the task no matter what difficulties or defeats they may encounter. If a neighbor needs assistance or advice, he feels he can depend on a 4-H'er."

He has taken a part in the Civilian Defense Organization in his community as Auxiliary Policeman, on Alumnium Drive and in First Aid.

Lois Gessert, Route No. 4, Birmingham, was the second initiate from this county.

Mrs. L. I. Coon entertained her Detroit Bridge club at her home last Tuesday. The group not only enjoyed their card games and the delicious luncheon but they thoroughly appreciated the garden and the lovely grounds.

## Waste Fats Needed To Make Explosives

The need is urgent. The war in the Pacific has greatly reduced our supply of vegetable fats from the far east. It is necessary to find substitutes for them. Fats make glycerine. And glycerine makes explosives for us and our allies. We need millions of pounds of glycerine and the housewives of America can help supply them.

Four Things to do:

1. Save all your waste cooking fats after you've got all the cooking good from them. Save pan drippings from roast ham, beef, lamb and poultry. Save broiler drippings from steaks, chops, and bacon. Save deep fats, whether lard or vegetable shortening, from fried potatoes, fish, doughnuts, etc.
2. Pour into clean, wide-mouthed can. It is best to pour into a wide-mouthed can, as a coffee or vegetable shortening can. Be sure the can is spotlessly clean. And strain your fats as you pour them in, so that meat particles and other foreign matter are removed.
3. Keep in refrigerator, or a cool, dark place until you have collected at least 1 pound.
4. Take to your meat dealer who is cooperating patriotically in this drive. He will weigh your can of fat, pay you the established price for it, and start it on its way to the war industries. The Clarkston Frozen Food Locker Plant will also accept your salvaged fats.

bert Molter spent last Sunday with Mr. and Mrs. Ray Shell, Sashabaw Road.

Mr. and Mrs. Martin Woehl and Mr. and Mrs. M. M. Stein were hostesses at the former's home on Seeley Ave. last Monday evening along with the members of the Soda Grill ball team for a farewell party for Donald Wall who is leaving for service last Wednesday afternoon. Sixteen guests were present; Mr. and Mrs. Michael Wall, Mr. and Mrs. Donald Wall, Mr. and Mrs. Russell Lovelace, B. J. Meier, Louis Ruelle, David Ruelle, Bud Wordon, Kenneth Gilmore, John Pinazza, and Don's sister, Donna Lou Wall. 500, rum and table tennis were the entertainment of the evening. A lovely lunch was served at the close of the evening. The Soda Grill team presented Donald with a cash purse.

Mrs. Ruth Fisher and Mrs. Thelma Walker of Detroit spent last Sunday with their mother, Mrs. Bert Hawley, Dixie Highway.

Delos Phelps of Fort Custer spent the weekend with his mother, Mrs. Minnie Phelps.

## Wedding

A wedding of much interest to their many friends was solemnized on July 18, at 4 o'clock, at the new home which they recently purchased at Maceday Lake, when Eileen Ruth See of Clarkston, and Alan David Howe, of Holly, were united in marriage.

The ceremony was performed by the Rev. W. C. Ballagh of the Clarkston Baptist Church, before an improvised altar in the living room, formed by baskets of garden flowers against a background of palms, the lovely ring service being used.

The bridal couple took their places to the strains of the Lohengrin Wedding March, and accompanied by Alan's sister, Marjorie Henry and husband Bill. The bride's father gave her in marriage.

Eileen chose for her wedding a charming jacket ensemble of white pique with hat to match, and brown and white accessories. Her bouquet was made up of gardenias and Talisman roses, tied with long matching streamers of satin ribbon.

Mrs. Henry, as matron-of-honor, wore blue with white accessories and carried American beauty roses tied with matching ribbon.

A reception followed for the thirty guests, and Mr. and Mrs. Walter Andrews took a number of pictures. The bride is the only daughter of Mr. and Mrs. Stuart See, and has spent most of her life in the Clarkston vicinity.

## Outstanding Domes

Come your bald heads band together. Get your worries off the weather. We must stop these grave abuses. Justified by weak excuses, Reflecting pate produces glare. That's worse on barbers than is hair. Band together, stop this kidding. We're the target of their ribbing. Through depressions and world crisis. We have always paid full prices. Just like guys with hair like hedges. So let us have them trim the edges. Track them down just where it started. Mattered not how it was parted. Domes shone through those hairless spaces. Making longer all our faces. We could feel our glamour slipping. When our hats were doffed for tipping.

From the country and the city. We are targets of their pity. It seems for years no one expected. Shiny knobs to be respected. So let our purpose in our banding. Make us bald heads all outstanding.

URGENT

To all Telephone Users

Today the telephone lines are crowded with traffic as never before, and some calls are certain to be delayed. In the kind of war we are fighting now, telephone communication is a vital necessity. War calls must go through. Every time a military or war production call gets stalled in a traffic jam, the speed of our drive to Victory is slowed down. The reserve capacity of our lines and equipment, built up for emergencies, is now fully used. And further substantial enlargement of the telephone system to take care of this wartime congestion is impossible because materials are even more urgently needed for tanks, planes and guns.

There is only one solution remaining—more careful and more efficient use of present telephone facilities by all of us. In the past, easy, unhampered telephone service has been taken for granted, and properly so. Now there is a war to win, and each of us has a patriotic duty to see that our use of the telephone does not interfere with war calls. Though your own line may never be used for war messages, every call you make must pass through a central office switchboard. Many switchboards are crowded with military or industrial calls. You can help the cause of Victory by putting this list of reminders beside your telephone and making it your guide:

Long Distance Calls

- 1. Make only the most necessary calls during the business day. 2. Avoid the rush hours. When possible, call before 9 A.M.; between noon and 2 P.M.; between 5 and 7 P.M.; or after 9 P.M. 3. Plan what you want to say, so that the call will be brief. 4. Whenever possible, give the number of the telephone you are calling. 5. Don't call Washington, D.C., unless you must. Trunk lines to the nation's capital are already overloaded with war messages.

Local Calls

- 1. Try to make your conversations short, and avoid the rush hours. 2. Look up numbers in the telephone directory, so that you won't have to call information. 3. Plan your conversations ahead, and keep paper and pencil handy. 4. Show your children how they can help the war effort by keeping their calls brief. 5. If you share a party-line, be considerate of your neighbors.

Thoughtful use of telephone facilities in these days is a real contribution to the war effort—one that every citizen can make. The Telephone Company will continue to provide the best service possible under present conditions. But now, and for the duration, WAR CALLS COME FIRST.

**HELP TIGHTEN THIS GRIP!**

★ Of course, no "one hand" can accomplish this feat. But if we are to win this war we must all join hands, work together and put in the hands of our soldiers the materials necessary to put the "squeeze" on this triple threat to freedom. It has been said that this war will be won—not on the battlefield or high seas—but in the industrial plants and farm lands whose vital armaments and supplies can mean victory or defeat. Michigan's people in all walks of life recognize their great responsibility. They have pledged their all-out support and they're backing it up by working harder and longer.

**INDUSTRY** • Our soldiers of industry are responding to duty wherever they can best serve. Men at desks, at lathes and at drafting boards are defending our country and establishing new records for service in the production line. Management and labor are back of our fighting forces and are proving they can deliver the goods.

**FARMER** • Hitler has learned only too well that well-fed armies are fighting armies and in war-torn Europe the soldier is fed—then

the civilian—perhaps. In our great country our farmers are doubling their efforts so that there will be food for all and additional supplies so needed by our Allies. A man behind the plow is also a man behind the soldier—sailor and marine.

**HOUSEWIFE** • In former wars the housewife's role was more or less one of moral support. But today she is taking an active part in many branches of service. Homemaking is not a minor part of our war effort. Well-fed families, attractive homes and careful buying and planning are truly essential and patriotic.

☆☆☆  
Consumers Power Company is pleased to serve industry, the farm and the home and they can depend on our complete cooperation in helping to do the big job that confronts us all. Back of our fighting forces is the great American spirit—the will and the ability to get things done. Hand in hand and shoulder to shoulder we will go forward to win this war.
