County War Board To Help Farmers

The Oakland County Farm Transportation Committee, recently appointed by the Oakland County USDA War Board, will be available to assist farmers who own trucks and truckers who haul farm products from farms and supplies to farms in executing applications for "Certificates of War Necessity" which all trucks are required to obtain before November 15, according to Walter R. Cook, Chairman of the Oakland County USDA War Board.

The dates, October 22, 23 and 24, have been designated as National Farm Truck Registration Days, Mr. Cook said, and on one of these three days all farmers in Oakland County who own trucks and all truckers in Oakland County who service farmers should obtain assistance in filling out the necessary application blank from the County Farm Transportation Committee.

Under General Order No. 21 issued on September 9 by the Office of Defense Transportation, all trucks must carry a "Certificate of War Necessity" in order to legally operate, and in order to obtain gasoline, tires or repair parts after November 15.

Mr. Cook said that "Certificate of War Necessity" aim to confine truck operations to those which are necessary to the war effort or to essential domestic requirements, and to make the most possible use out of each

truck. To this end, the certificates will set the maximum mileage and the minimum loads for each truck or vehicle for which a certificate is issued.

The ODT is now mailing application blanks to all truck owners, Mr. Cook said. Any truck owner who does not receive an application blank previous to these registration days may obtain one by writing to the nearest ODT field office, located in Michigan at Cadillac, Saginaw, Detroit, Lansing and Grand Rapids.

Mr. Cook, who serves as Chairman of the County Farm Transportation Committee, said that the following were members of the committee: Cyril Oliver, West Bloomfield township farmer, Joseph Long, Commerce township farmer, George Perry, livestock dealer of Clarkston, and George Kimball, farm supply and implement dealer of Pontiac.

MEAT LEFT-OVERS FOR THRIFTY MEALS

described by Mrs. Christine Frederick, authority on household efficiency, in The American Weekly with this Sunday's (October 25) issue of The Detroit Sunday Times. Also you'll find recipes for four quaint old English dishes which many an American soldier now in England will taste and want when he comes back home after the war. Here's Your Halloween Menu

Even on holidays we must not forget "nutrition" - one of the most significant words in our language today. On Halloween, serve your usual "frills" and "fancies" but see to it that your menu as a whole supplies the necessary fuel, vitamins and minerals needed in these strenuous times.

The following suggestions should intrigue you: The recipe calendar for October says "Vitamin-rich fruit juices make ideal party beverages." Try

Luncheon Salad (Serves 6): 2 cups cold cubed veal, 1 cup cut celery, 3 oranges, segmented, 1/2 cup toasted almonds, Lemon French dressing, Lettuce or endive. Cut cold veal and celery into even pieces the size of a small bite. Peel oranges and segment. Place in large bowl, add dressing and blend with two forks. Allow to marinate for a time, then place in salad bowl lined with greens. Sprinkle toasted almonds over the top. Serve liberally as main luncheon dish.

Basta Fazoul: 2 cups cooked, dried Limas, 2 cups tomato sauce or strained tomatoes, 1/2 tablespoon chopped onion, 1/2 pound spaghetti, 6 tablespoons bacon fat, 1 teaspoon salt, 1/2 teaspoon pepper.

Witches' Party Brew: 2 squares unsweetened chocolate, 1 cup strong decaffeinated coffee, 3 tablespoons sugar, Dash of salt, 3 cups milk. Add chocolate to coffee in top of double boiler, and place over low flame, stirring until chocolate is melted and blended. Add sugar and salt, and boil 4 minutes, stirring constantly. Place over boiling water. Add milk gradually, stirring constantly, then heat. When hot, beat with rotary egg beater until light and frothy. Top each cup with whipped cream, if desired.

It's considerate to serve a decaffeinated brew when you give a party so that you and your guests can indulge without worry over sleeping problems.

Warmer Clothing Soon to Be Needed

Warmer clothing for members of the family will be in style in many rural and city homes this winter in answer to the lower indoor temperatures that likely will result from shortages of fuel oil and coal.

Start a search now through clothes closets and trunks for the forgotten garments that could be put to use, suggest members of the home economics extension staff at Michigan State College.

Old garments, too faded, shabby or outgrown, may be remodeled into clothing to supplement regular clothing budgets.

For example, the best sweaters will be wanted for school or town wear. But there may be some old sweaters or other knitted garments that could be brought back into service.

The floor of a room may be several degrees colder than the air at sitting level. To protect the feet when one is in a chilly room for some time, heavier socks or stockings may be worn over the regular hose.

Worst headaches for engineers laying war-oil pipelines are river crossings. The two-foot pipe from E. Texas fields to Illinois has already tunneled beneath six rivers on its way to the main crossing at the Mississippi.

FOOTBALL NEWS

The football season is still going strong for the Clarkston team. Last Friday the team played their last game away, at Auburn Heights.

The Clarkston team lined up at 3:30 as follows: LE—Rouse LT—Waid LG—Berg C—Sharp RG—Kerton RT—Hagen RE—Ross QB—Ross HB—Boice HB—O'Roark FB—Wainman

Perrin was out because of an injured knee. Edward Ross was back as regular quarterback.

The first touchdown was made by Ross on a play through the right of center. The field was wet, but he managed to drive through for the first 6 points.

Clarkston made their third touchdown when Ross again crashed the line. Wainman made the extra point by a line-run.

Auburn Heights managed to pick up one more touchdown but the game ended Clarkston 21; Auburn Heights 12. Clarkston has three more games, all of which will be played here. The

Farmers Urged to Use Wood as Fuel

Will Help War Effort in Savings Thus Effected

Average farm homes in Michigan will need 25 short cords of wood if they burn wood for cooking and heating this winter, according to estimates from the forestry department at Michigan State College.

Farmers are being encouraged to change to wood for fuel, if possible, to save on coal and transportation. A standard cord equals two and one-half short cords of 16 inch wood.

For hickory, oak, birch or maple the standard cord is worth \$4 for heating. This winter's supply, cut from the woods, can be worth as much as \$100 to the average farm family.

A leaflet, "Use of Home Grown Timber on the Farm," offers information on wood for fuel, for posts and lumber for building materials. Copies can be obtained from the office of the county agricultural agent.

Kinds of wood that will burn well dry or green should be selected if the wood cutting has been delayed. Most farm woodlots offer beech, hickory, tamarack or red pine which have good heat value even if burned green. Drying two or three months before burning is recommended for elm, maple, oak and poplar. The use of dry wood for burning helps prevent tar from collecting in stove pipes or chimneys.

Year Books for Farmers Are Available

The 1942 Agricultural Yearbook is just off the press and Congressman George A. Dondero announces that persons interested in the subject-matter of the book, "Keeping Livestock Healthy," may have a free copy upon request as long as his allotment lasts. This 1276-page cloth bound illustrated volume contains sections devoted to diseases and parasites of horses, mules, cattle, swine, sheep, goats, poultry, dogs and cats.

gressman George A. Dondero, Washington, D. C., or 527 Washington Square Bldg., Royal Oak, Michigan, being sure to indicate the Yearbook desired.

Apple peel is good for you. Nutritionists recommend paring apples as seldom as possible due to the health value of the skin. Even apple sauce should be prepared without peeling the apples—the skin is easily separated when the apples are forced through the sieve.

It's patriotic to eat and serve apples these days because, by eating more and more fresh fruits and vegetables, we are better able to release processed and packaged foods that are needed by the men in the armed forces.

Boys Have Chance to Try for West Point

Congressman George A. Dondero has announced a competitive examination to be held on December 12 for the purpose of determining nominations for cadetships in the U. S. Military Academy, West Point, N. Y. This examination is open to all young men residing in the 17th Michigan District who have the requisite preparatory educational qualifications and meet all other preliminary requirements for entrance. Applications for authority to take this examination must be completed not later than November 11, 1942, and interested young men should communicate with Congressman George A. Dondero, 527 Washington Square Building, Royal Oak, Michigan, at once to make their application to take the examination and secure detailed information concerning entrance requirements which must be met by the candidate for nomination. As usual, Congressman Dondero will make his designation of appointees solely upon the basis of rankings attained in the competitive examination.

Keep 'em Firing—With Junk!
Michigan's Governor Murray D. Van Wagoner has proclaimed October 27th, Navy Day in Michigan. This was done in accordance with a national policy in marking the 21st celebration of Navy Day throughout the country.

The obsolete smokestack of Milwaukee's city hall will make 35 tons of scrap steel.

What You Buy With WAR BONDS

The Navy is making a plea to civilians to turn in their binoculars for military use during the War. The Army and Navy both need binoculars for navigation and scouting purposes. Depending on the power of the lenses, they cost from \$50 to \$80 each.

If you have a set of 6 x 30 up to 7 x 50-power lense binoculars loan them to the Army or Navy. If not, your purchase of War Bonds and Stamps will help buy this equipment for our fighting forces. At least ten percent of your income in War Bonds every payday will do the job—and provide the "eyes" through which a scouting pilot may spot an enemy battleship.
