THE ISLE OF MISSING MEN

Our Boys In The Service

The many letters received by the Home Front Committee and by the Clarkston News are sure proof that the Committee's efforts are not in vain.

Fort Sheridan, Ill.,
Jan. 7-43

Dear Mr. Stamp:

Through your paper I wish to thank the Independence Township Home Front Committee for the wonderful, enormous gift I received at Christmas time. Every article the box contained was very essential to a soldier, and I certainly appreciate it.

I have also been receiving the Clarkston News every week and I want to express my gratitude for that. It's nice to read news from the old home town.

Respectfully yours,
Corporal Norman Derevage

Dec. 30-42

Independence Home Front

Committee

Dear Friends:

Your Christmas package and card arrived.

It is gratifying to know that others than our own relatives are thinking of us who are in service and trying to make our present lives more pleasant.

We also think of you who are being denied so many things and taking your hardships so gracefully.

Thank you very much for the package. All the items were valuable and useful.

Wishing you all much happiness through the coming year and years to come.

Sincerely yours,
Cpl. N. Paul Morgan

Dec. 6-42

Independence Township Home

Front Committee:

"Merry Christmas" and a "Victorious 1943" to everyone of you. This morning we all received mail for the first time in almost a month. Needless to say how much better everyone feels now.

As I walked into the office the first words I heard were, "You've received a package from Clarkston". Like any other soldier far away from home will do, I opened it immediately.

I thought I'd never get to the bottom of the package. It was really wonderful. Everything will be useful. Right now, the fellows here in the office with me are enjoying their choice of peanuts, candy, lifesavers, chewing gum or cigarettes. In fact, we're having a party.

Corporal Norbert Boner was just in with a big smile on his face and told me that he had received a package from his uncle Glenn Boner of Clarkston. "Bones" is in the same battery as I am and everyone thinks he's plenty O.K.

I want you all to know your wonderful efforts to make a happy Christmas season for the boys as well as myself are most sincerely appreciated.

Respectfully,
Fred F. Yeager.

Jan. 8-43

Dear Mr. Stamp:

How's everything in Clarkston? I'm fine and gaining weight every day. I sent you a small card a few days ago involving my change of address. I'm now in Indianapolis, Ind., and I like it real fine. Indianapolis is a great town but I'll take Clarkston any day, but we can't win the war with the service men being at home, so I'm here. I'm going to radio school to learn to be a radio technician. It's hard but we have a swell bunch of fellows with us so it doesn't get too lonesome. I just found out that I could send for my wife to come and be with me so I'm going to do so immediately. It won't get quite so lonesome then. Say "Hello" to everybody and thanks a million for the News. Tell the folks to write. I would love to hear from everybody that could spare the time to drop me a line. Thanks again.

Sincerely,
Richard Craven

Jan. 7-43

Independence Home Front Comm.

I take this occasion to thank you very fine folks for the part you exercised in making my Christmas a very fine one indeed.

Due to an impassable obstacle I was forced to violate the instructions which withheld me from the box contents until Dec. 25th. Buddies have a devastating desire to investigate the contents of all boxes, whether theirs or someone else's. To that extent, I count myself no exception, and as I had sampled several of my other friends' fortunes, I disregarded instructions and broke the latch, knowing there must be but little criticism from folks as good as you.

I was very grateful for my gift and have already put them all into use. Such expressions from the Home Front do tend to make a Serviceman

1942 Scrap Reports Now Being Recorded

All over the nation the committees on salvage are busy making their reports for the year just closed. Figures show that every district is out to help win this war regardless of what they have to sacrifice.

In Independence Township the committees on scrap of all kinds, the schools and the individuals have been credited with turning in over 100 tons of scrap since February, 1942. The fats that have been turned in total 1300 lbs.

Housewives are urged to continue saving the waste fats. Fats are essential and will be for the duration of the war.

feel but across the street, when in reality miles are in between.

Your service is a noble effort and a very commendable one. To say that such organizations are an A1 contribution to a soldier's morale puts it much too mildly.

I thank you sincerely,
Pte Lewis Warden:

George Perry

Clarkston

Dear Mr. Perry:

While I was home I believe you mentioned something about Xmas packages being sent to men in the service. I have received my package but don't know just whom to thank for the gift. Could you see that this letter reaches the people responsible?

It is rare for servicemen to receive appropriate gifts in as much as most civilians fail to realize the restrictions imposed by the military life. However, everything in the box I received was very appropriate and very much appreciated. Of course the thing I most appreciated was the expression of good will. To anyone a long way from home a knowledge that "the home fires are still burning", makes one feel very good indeed.

My sincere thanks to all—and best wishes for the New Year.

Pay Tondou.

Jan. 8-43

Dear friends:

I wish to thank you most sincerely for the thoughtful gesture of the season.

It is such things that make all of us realize more fully that those at home are behind us and concerned about us. You may be certain that the feeling is more than mutual. We all shall do our level best for what we hold dear.

This I believe is the sentiment of all of the boys and girls in the service.

Thanking you again I remain,
Sincerely yours,
Clinton Russell.

Independence Home Front Comm.:

Just a note to thank you for the swell Christmas box that you sent me. Whoever put it up certainly knew exactly what servicemen need and want most. I have used every item. I don't know of any other fellows around here whose home communities were so thoughtful and generous—and I certainly appreciate it.

Yours sincerely,
Bill Boothby

My Dear Fine People of

Independence Township:

I am one of your sons way out here on the receiving end of one of your Christmas boxes. What a grand thing you are doing. And what fun it must have been to pack all those boxes—but not half the fun I had opening my box and finding so many useful articles and good tasting candies.

True, I opened it early but Gee, I couldn't resist it.

I'm proud of you all for all the good work you're doing in our behalf. I'm proud of that star that represents me on the service flag in Clarkston. I'm proud of the fact that our Township has so many representatives in the services. I'm proud that I come from Independence Township and that my family lives there.

And most of all, I'm proud that Independence Township is behind us 100%.

Please be informed our job is much more pleasant, when we know of your splendid backing. And we DO know it. And we DO appreciate it.

Sincerely,
Ensign Daniel H. Schurz.

MUSIC NEWS

Norma Davison

Recently the Band has been working on some very patriotic pieces such as: Anchors Aweigh, Semper Paratus, The Marines' Hymn, and the Army Air Corps Song.

The Band enjoys playing them very much and is planning to have them worked out for the Band program to be given in the near future.

We have been working on a new basis in orchestra. The strings practice in one room while the brass practice in another room. This plan is working to quite an advantage.

The 12 Piece Dance Band averages three rehearsals per week. Judging from the compliments received at our bi-monthly dances, the orchestra is making a favorable impression on the crowds attending.

Since most bands have what is termed as a "Band-within-a-Band", this one is no different. Their 5 piece Band was introduced at the last dance and was received with such welcome that they were asked to play at the private dances given by the Dance club. They are hoping for more such invitations.

EDITORIAL

The family car has been taking a long needed rest, while we are taking long, healthy walks. We might also state that the walks were needed by most of us too. Since your car has been put away in the garage like a gem in a jewel case, you have been staying home like a hermit in a cave, because there was no place to go, without walking distance. I use the word "was" for now you can put on your overcoat and walk to the Clarkston Gym where you will have a full evening of entertainment.

This will include a battling basketball game between Keego Harbor and Clarkston. Incidentally, we won the game with Milford so we have high hopes of a victory over the Keego Champs.

In order that the public may view the new mats which were purchased through the Magazine Drive, a special program has been planned which will take place during the evening and will involve various boys' tumbling acts.

The team needs support, your car needs a rest, and you need entertainment, so let's come and yell our lungs out.

10TH GRADE
 The Sophomore English class is now having quite a bit of work to do. They have to write a synopsis of their Readers Digest stories and write over a book report, besides doing their other shorter assignments in the rest of their classes. Miss Tew is also giving us compositions to write to see if she can't make writers out of some of us.
 Mr. Thayer certainly picks competition for the 10th Grade boys to beat in our noon basketball schedule. January 12, we play the "mighty SENIORS" which should be a very easy game, although they don't have many good players, just "Shorty" Perrin and the rest of the first team; then January 18, we play the Juniors, another very easy game. They have just a couple of the first team and the rest are of the second team, but we aren't discouraged (much). I'll tell you how the games turn out next week.

producing for Victory!

Back of every tank and plane and gun produced in Michigan is the weapon that makes all the rest possible . . . horsepower. And as scientists have so aptly pointed out—horsepower is WAR POWER.

Our nation alone has more horsepower than the combined total of all our enemies. A single turbo-generator, like the one shown above, produces enough electricity to supply the normal needs of 250,000 average families. A new generator like this one will shortly be added to Detroit Edison lines, and most of its power will go to producing the weapons of war. And that generator represents less than 7 per cent of the entire Detroit Edison capacity.

Today The Detroit Edison Company's total generating capacity is 5 1/2 times as large as during World War I, and more than half of this enormous power is being used in war production. During 1942, power for war production totaled over TWO BILLION kilowatt-hours. In the most important weapon of all—POWER—we are well armed. Electricity must keep the war plants humming . . . and for that vital job we are prepared.

calls to Information are **UNNECESSARY**

Needless calls to Information—many thousands of them daily—are being crowded onto Michigan's war-loaded telephone system.

Six out of every ten calls to Information are requests for numbers that are listed in the telephone directory. It's a simple matter to look in the directory first. And if everyone would do that, it would save 1450 hours of switchboard time each day.

Please do not ask Information for any number that is in the directory. If you must call Information, make a note of the number so that you'll have it next time.
