Much Sickness Hinders Blood Bank

On Monday afternoon the auditorium of the Clarkston School was for a few hours practically changed into a hospital ward when the Red Cross moved in with the mobile blood bank equipment. Dr. Horwitz was in charge of the unit and Mrs. Marie Cunningham, registered nurse, was the supervisor. With the unit were seven nurses, 3 technicians, 2 motor corps girls and one registrar. Several local nurses helped with the work.

Owing to a great deal of sickness in the community many who had registered were unable to donate blood, consequently of the 209 who registered there were 146 reported at the school and from this group there were 129 pints of blood obtained. This was below the quota and a few pints under what was obtained here last Fall. However more and more blood will be needed as long as the war lasts and this territory will be able to go "over the top" when the Red Cross returns here a few months from now. A healthy person can give blood every 8 weeks for 3 times and then every 3 months but no more than 5 times in one year. You see this whole plan is worked out so that no harm will come to any donor because besides taking care of our boys in service we must look after our folks on the home front.

The Clarkston committee in charge of the blood bank is deserving a great deal of credit for the very capable way they handled the job. Much work was entailed prior to Monday. The members of the committee wish to thank the Boy Scouts, the Red Cross, the local nurses, the canteen workers and all who helped.

Rotary Club News

Our meeting last Monday officially ended the attendance contest. At the time of going to press we cannot say which side was the winner. With so few members absent, even in this war period, it seems likely to end in a tie between the two evenly matched teams.

Our guests were the President and members of the Village Council. We tried to show our village leaders that the members of the Rotary Club were 100% behind them in their efforts for the good of our community.

The club is busy now with three important parts of the war effort: a canvas is being made by the members for all available land for Victory Gardens; every member has signed to make a direct solicitation for the sale of War Bonds; all of them are behind the present Scrap Drive, the last pound drive, if you please.

Let's buy them the things they need at the front, send them the things the Scrap will make for them and raise for our own use some good fresh vegetables and help the food situation for the folks at home.

On the eighty fifth birthday of "J. B." Howarth, the very fine Secretary of the Birmingham Rotary Club, who was so instrumental in helping us to form our Club, we sent a bouquet of Roses and a poem from the pen of Bob Beattie.

Our speaker next Monday, will be the Rev. James McGee, minister of the Goodrich Methodist Church. He is a life member of the New Haven, Conn., Rotary Club. He will be introduced by the Rev. W. Harold Pailthorp.

Mr. Sheehan stressed that we are all in the war, each one doing different kinds of work, and that when the boys and girls come home from the war, their families will be proud to tell them they did all they were able to do to help end the war. He also emphasized the need for victory gardens and said persons should raise all they can for meals during the summer, and to can the rest for winter consumption.

Mrs. Frank Sutherland, Home Salvage Chairman, gave a report pointing out the only gifts to send the boys overseas are scrap metal, furs, silk hosiery, in the form of guns, tanks, ammunition and parachutes. Scrap Drive on NOW

The last pound scrap drive is well on its way to a complete canvas of the Township. Workers are out every day and night urging you and me to have it ready for their pick up trucks. Please stop right now and think, have you ever looked any old scrap, that you can get rid of, or do so much good for the war effort and help yourself to a cleaner place to live in or around. REMEMBER, this war is yours and our War. We have our part in it and what a part it is, even though we cannot carry a gun or fly a plane, we can see that metal is furnished to make both. DON'T let those fine boys down, who are so far away from us, but so dependent on our help and so confident we are giving it.

Beginning Monday evening next, April 5th, the first pick ups by trucks will be made in all of the village of Clarkston, and from Beach's corner to the Garter farm on the Dixie Highway and all of the Clarkston Station district. HAVE IT READY in one pile if possible and convenient for quick loading.

On Tuesday evening, the territory east of Clarkston and south of the Orion Road.

On Wednesday evening, all of the territory north of Clarkston and the Orion Road.

Your co-operation will make this schedule possible and have our scrap drive over the top, as all other war activities are accomplished, when the people of Clarkston and Independence Township get down to business.

If you have heavy scrap or any question to ask on how to help, please call T. S. Boyns, Clarkston 3566, Chairman Township Salvage Committee.

Scrap the Scrap and lick the Japs.

Be Cautious!

Every day you hear and read about damage that has been done by grass fires. Many buildings have been destroyed during the past two weeks. Spring is usually clean-up time but if you are responsible for starting a fire then you are responsible for anything that might happen if the fire is not properly controlled and guarded. The State Fire Marshal's law says you are held liable for all damage done and for the expense of operating the Fire Equipment used.

Be on guard—if you start a fire stay with it until it is completely extinguished.

Wm. L. Vliet Appointed Victory Garden Chairman

The Civilian Defense Committee for Clarkston and Independence Township has appointed William L. Vliet to be the Chairman of the Victory Gardens for this district.

This important part of the war program is about to get under way all over the country, in order to help our Government and ourselves solve the food problems. It is the duty of everyone to plant a vegetable garden this year and the time to start will be only a matter of a few weeks, for the early plantings.

It is the hope of Mr. Vliet, that everyone having available land for such gardens, and not planning to use it for themselves, that the owners will get in touch with him, so that he may have all of them listed with his committee. The same thing is true for those who would like to plant such a garden and do not have the land needed on their own property or where they live. If they will enroll their names with him, it will be quite possible for him to allocate enough land for their use and close to where they live. Both land owners and seekers of garden space should telephone him at Clarkston 2261. To insure against delay in starting the Victory Gardens, please call him before April 12th.

For the beginner, literature from the Department of Agriculture will be made available and the advice of practical gardeners will be yours for the asking, by calling Mr. Vliet.

Let's get behind this movement. In this case we are being patriotic by helping ourselves to some nice fresh vegetables and having the assurance of supplies for next winter.

A Man's Man

In memory of Dr. M. S. Rice
A true son of nature
A man among men,
A great lover of life
Right thru to the end.
A friend to the lowly,
A crutch to the weak,
Who entered his portals
His guidance to seek,
He spoke a man's language
So all understood,
The things he was saying
And clasped them as good.
A body so filled
With a dynamic power,
He expressed his views
For many an hour.
The good deeds he has done,
The thoughts he's expressed,
Have warmed many a heart
And many have blessed.
His living among us
Has shown us a way,
To tackle our problems
And put them away.
His broadness of thinking
His thoughts so inspired,
Brought love to this preacher
Whom thousands admired.

The Clarkston School music department wishes to give credit to various individuals who are helping to build our program. But first we wish to call attention to a few of the problems which now confront us. Our department owns only a small number of the lesser known instruments which are usually furnished by a school. If, for example, each pupil was allowed to play the instrument of his choice, the band would consist largely of trumpets, saxophones and drums. You can imagine, then, the difficult task of getting a balanced band without the proper distribution of clarinets, flutes, oboes, bassoons, baritone, French Horns, trombones, and basses. However, it is not the policy of the music department to railroad a prospective beginner into playing the flute just because we need a flute in the band. We would rather let this beginner try several instruments to see which one is best suited to him. Nearly anyone can blow a tone on either the sax or the trumpet. The chances of getting a tone on the flute are about one out of twenty. Therefore, if a student shows a particular aptitude for flute, we try our best to persuade him to take flute rather than let him waste his talents on some instrument that is already overcrowded. The chances of finding an apt student on the oboe or bassoon are even smaller. When the school does not own such instruments, there is little hope of ever getting a beginner started on one of them.

This year the school has already spent a considerable amount of money for music and small items of equipment. But as pupils showed an ever increasing interest in instrumental music, we found it very difficult to take care of them with our limited number of instruments. We do not recommend that a school furnish the instruments for everyone desiring music. However, we do need enough instruments so that each beginner can practice it long enough to prove to himself and especially to his parents, that he really wants music badly enough to justify the cost of buying his own instrument.

Partially remedy our instrument shortage, several of the members of the senior band lent their instruments to the beginners. As many as three or four persons would practice the same instrument at different hours during the day. Still there weren't enough instruments to go around. Our next plan was to borrow instruments from townspeople who owned instruments but who were not making use of them. For example, Carmen Clark did not wish to sell her clarinet but she lent it to the school. Two girls are now practicing on it. Phyllis Tremper lent the school a bass violin; Bob Hubbard, a melophone; Mrs. Ruth Vliet, 2 violins; Fred Stewart, one violin; Mrs. Davison, a saxophone.

Still there are not enough instruments to go around. Perhaps you would like to help the school by lending us your instrument for a year or until such a time when the school finds a way to purchase these badly needed instruments. Let us know if you have any instruments to sell. At present there is a demand for clarinets, trumpets, and saxophones. Above all, do not let your instrument lie idle; lend it to the school and own a share in Clarkston's music department.

We have completed our quilt and nine shirts for the Red Cross. Next week we will be working on two more quilts. Some of us are working to get badges for home-making, arts and crafts and other things.

We have planned to have our hike after the program we are going to give on April 24th at the Clarkston High School.

AUDITOR'S CERTIFICATE

I have made an examination of the cash transactions as recorded in the books and records of the Treasurer of Independence Township for the period beginning March 21, 1942 and ending March 20, 1943.

Cash balances beginning and end of the period were verified by bank confirmation.

Certificate of deposit was inspected. Cash receipts of delinquent tax and redemption collections were traced to remittance statements from the County Treasurer and sufficient tests were made to satisfy me that all receipts of 1942 tax collections were deposited in bank.

Cash disbursements were all supported by proper warrants issued by the township clerk and treasurers of the school districts.

Therefore, I hereby certify, that in my opinion the foregoing statement is a full and complete report of the cash transactions of the treasurer for the period above stated.

THE OLD JUDGE SAYS...

"Had any news from George and his family since they moved away, Judge?"

"Yes, I had a letter from him day before yesterday. He's in Kentucky... the family's fine and they all like it there. George says he has a fine job in a beverage distillery. He brought out an interesting point in his letter I hadn't thought of before. He said that while the beverage distillers are working 24 hours a day, 7 days a week turning out war alcohol for the government for ammunition, tires, medical supplies and chemicals, they still are able to account for nearly a billion and a half dollars in taxes each year. That's on account of the fact the beverage distillers, though working 100% for the government, are still able to supply the public with beverages from the reserve stocks made during peacetime.

"Quite an unusual case, isn't it, Jim?"

WAGES

2 cents an hour!

AN AD such as this one, if it appeared in the news-
paper today, would probably draw hundreds of
replies—provided that eager, prospective employers
didn't think it too good to be true. Actually, not a
word in the ad is exaggerated: Every bit of it is true
—even the wages of 2 cents an hour—when applied
to your household electric servants.

The commoner electric servants in your home work
for a few cents per day. Some of them operate for
only a fraction of a cent per hour. See how cheaply
electricity serves you (at the thrifty "bargain" step
in your residence rate, 2 1/4c net per unit) in half-
a-dozen daily jobs:

ONE CENT will run your electric clock a whole
week... or chill your electric refrigerator for more
than 10 hours... or tune in your favorite radio pro-
gram for the whole evening... or run your vacuum
cleaner for nearly two hours... or brown the family
toast for several breakfasts... or make 15 cups of
coffee... or do half the weekly wash... or iron
clothes for an hour... or wash the dishes for three
days' meals.

Your residential electric service costs only about
ONE-HALF as much today as it did twenty years
ago. If other things were as cheap, the cost of living
would be half what it is. The Detroit Edison Company.
