urgent plea for additional workers in view of the fact that the quota for the present month is the largest since the work room opened last May. An additional meeting held at the town hall Thursday was attended by 75 women but even with this record attendance the quota cannot be met without additional assistance.
Meetings will be held every Monday and Thursday from 10 a. m. to 4 p. m. Workers are asked to wear cotton dresses, to cover their hair, and to bring a ruler and their lunch. Coffee is served. Anyone interested in attending either or both of next week's meetings may go directly to the town hall and offer her services or call Mrs. Hill or Mrs. Cass Windate for additional information.
The Waterford Red Cross work room has made a valuable contribution to the overall Red Cross program, and the officers are particularly anxious that the present quota may be met.

Men and Women in the Armed Forces and in War Plants Have First Call on Greyhound Today!

Today it's service for the Service first — for all those, in uniform or work-clothes, who are actively contributing to Victory over the Axis. Transportation for these essential travelers is Greyhound's first responsibility under present conditions.

Carrying selectees to examination centers—soldiers and sailors on leaves or furloughs—troops on maneuvers or emergency moves—men and women to their vital work in war plants — this is Greyhound's major wartime job.

And this job is a big one—measured in numbers of passengers or areas served. For Greyhound reaches directly more war plants, military camps, shipyards, air fields, navy bases, big cities, crossroads towns, farm centers than any other transportation system.

If occasionally you are inconvenienced or delayed, please keep on taking it with a smile. This isn't some other fellow's war — it's yours and ours and we all have to do everything we possibly can to help win it.

BOND!

WAR SAVINGS STAMPS don't earn money—but a War Savings BOND does! A partly-filled stamp book isn't collecting any interest: A War Savings Bond IS—from the minute you enter it in your name. Why not fill up the stamp book now and put your money to work in the form of a Bond, earning more money for you?

Every three dollars you invest in War Savings Bonds brings you back an extra dollar in ten years. After the war, you can use these funds to good advantage, helping to buy the things you are now unable to get. In the meantime, your money is helping to win the war—furnishing the planes and guns and tanks needed by our fighting men on battle fronts all over the world. This equipment is vitally needed: You can help to supply it.

Don't delay—fill that partly-filled stamp book now and convert it to a War Bond. Both you and Uncle Sam will benefit! The Detroit Edison Company.

ART NEWS

This week we hope to start a new unit of art work, Clay Modeling. We have been drawing simple objects, like jars and flower-pots, to help us to get the feeling of roundness, and get a better understanding of the principals of shading. From here we can go on to modeling.

We finished painting the band stands last week, and they are now ready for use.

Military and other war needs will consume nearly twice as great a proportion of United States food supplies this year as last.

The P. T. A. held their regular meeting and election of officers for the coming year last Monday night. The meeting was opened by the president, Mrs. Keasey, with Roy Dancey giving the devotion. Election of officers for the coming year resulted as follows: Mrs. Waldron Keasey, president; vice president, Mrs. James Boaz; teacher vice president, Mrs. Margaret Saxman; father vice president, Claude Carter; treasurer, Mrs. Gwendolyn Parkias; recording secretary, Miss Lois Mills; corresponding secretary, Mrs. Earl Springer; historian, Mrs. Robert Morgan; council delegates, Mrs. Vern Terry and Mrs. Charles St. John; alternate council delegates, Mrs. A. C. Campbell and Mrs. E. T. Todd. A trumpet and cornet duet was played by Kent and Bobby Morgan. Miss Daniella Berryman also played a lovely piano solo. Mrs. J. R. Berryman accompanied on the piano for the community singing. The speaker of the afternoon was Mr. George Kimball Sr. His topic was "The Tolling of Felix" by Dr. Henry VanDyke. Hostesses were Mrs. Hubert Brown, Mrs. Charles Davis, Mrs. Earl Porter and Mrs. Percy Nicholas, room mothers for Miss Lois Mills and Mrs. Margaret Thurston, served refreshments following the program.

THE 2nd WAR LOAN DRIVE IS ON!

How to invest in "fighting dollars!"

"Lend more money to help carry on the fight!" That's what our Government is asking you and all the rest of us... asking us to lend it 13 billion fighting dollars in the next few weeks! 13 billion extra dollars—over and above all regular War Bond buying!

We can do it... we must do it... we owe it to our boys who are fighting overseas. For their sake...

We've got to build more ships! We broke all records last year when we built 8 million tons of shipping. This year, we're building 18 million tons... but still it is not enough!

We've got to do more fighting! More and more of our soldiers and sailors are going into actual combat... requiring more equipment, and more supplies. We cannot let them down!

We've got to buy more War Bonds! To help pay for the things our fight-

ing men need... we've got to buy War Bonds as we never bought them before!

In the next few weeks you may be visited by one of the thousands of men and women who are giving their time and effort to the 2nd War Loan Drive. Welcome these patriotic workers if they call... buy from them all the War Bonds you can!

Better still, don't wait for them. Go to your nearest bank, post office, or War Bond booth, and invest more fighting dollars now! It's the least you can do to help those who are fighting and dying overseas!

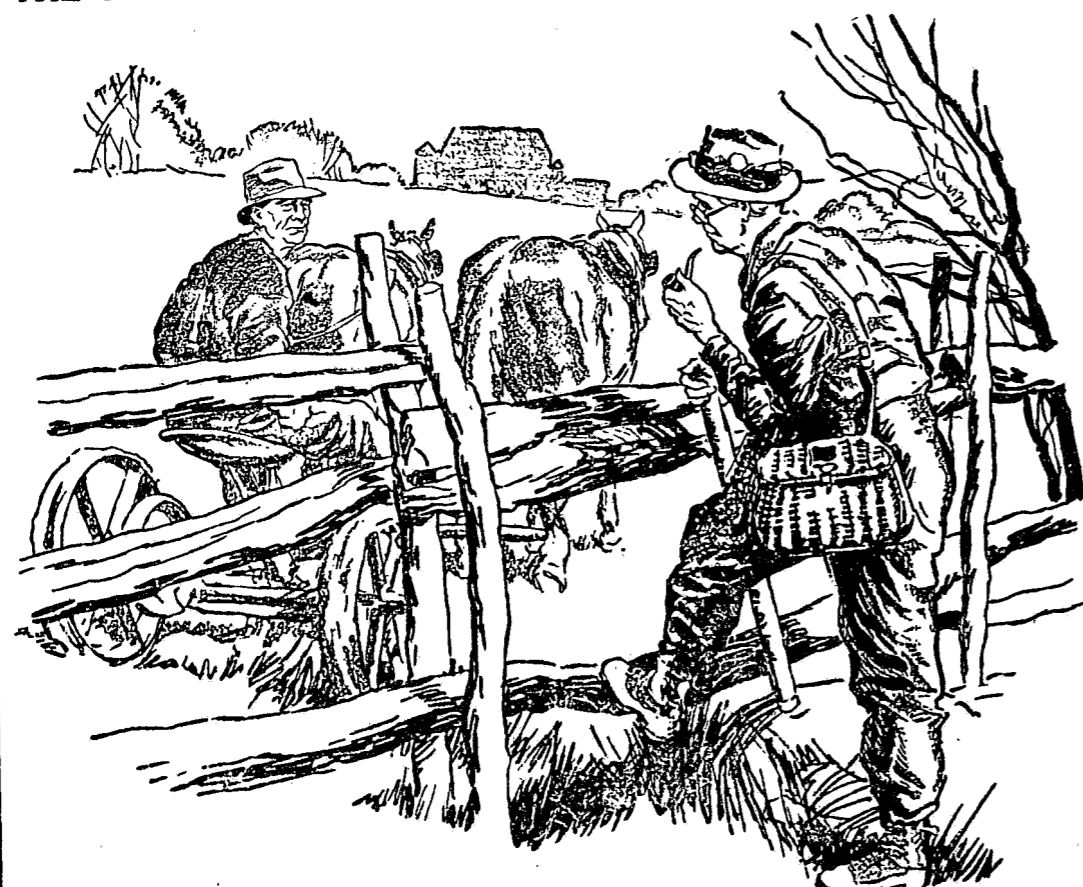

Among the 7 different kinds of U. S. Government securities is one that exactly fits your own particular purse and requirements. These securities are the finest investment in the world... bar none! For your Country's sake... for your own sake... invest all you can!

THEY GIVE THEIR LIVES... YOU LEND YOUR MONEY!

CLARE BEDDING COMPANY CLARKSTON, MICH.

UNITED STATES TREASURY WAR FINANCE COMMITTEE—WAR SAVINGS STAFF—VICTORY FUND COMMITTEE

THE OLD JUDGE SAYS...

"Sure been a great year for crops, Judge... best we've had in quite a spell."
"That's true, Henry... all over the country. As a matter of fact, there's been quite a surplus supply of grain according to some figures I saw in one of your farm papers the other day. But that surplus is being used to mighty good advantage and is making the contribution of you farmers to the war effort

more important than ever.
"Here's just one example of what I mean. The beverage distilling industry alone will use 100,000,000 bushels of this surplus to make alcohol seriously needed by the government for gunpowder, synthetic rubber, chemicals and medical supplies.
"So, keep it growin' Henry... you're doing a great job."

Confederate of Alcoholic Beverage Industries, Inc

FOR THE FARMER

A grain drill is used on a farm only once or twice a year, yet it is a machine that requires considerable care and repair. Due to its construction and the nature of the material it handles, parts wear and rust rapidly. Grain left in the hopper draws moisture and causes rusting. Fertilizer left in the machine causes rust and corrosion. In time the parts set and breakage occurs when the machine is started.

Before field operation, the drill should be jacked up, the clutch engaged, and the wheels turned, being careful not to force the mechanism and cause breakage. After all the grain and fertilizer is removed, it can be more easily inspected for wear.

After the worn parts have been replaced, the ratchets and pawls cleaned, the disks sharpened, the pressure springs adjusted, the balance spring adjusted and all moving parts lubricated, it is ready for use.

Unused gasoline ration coupons and books which are no longer valid are the property of the Government and must be turned in within five days after the close of the period of validity. Holders of unused first quarter "T" gasoline coupons, which have not expired, are asked to turn them in immediately to their local rationing boards.

Men with at least five years experience in the shipping field as marine superintendents, port captains, export managers, marine engineers (maintenance), traffic managers and shipping agents, may be eligible to become transportation officers in the U. S. Naval Reserve. Men 30 to 50 years of age should apply at the Office of Naval Officer Procurement, Ninth Floor, Book Tower building, Detroit.

Suckers Will Be Prized This Year

Meat Rationing to Cause An Increased Demand

The start of the sucker run in southern Michigan and their expected appearance shortly in the northern streams brought a conservation department reminder to fishermen to consult their local conservation officers if in doubt about where, when and how these fish may be taken. Dip nets not more than nine feet square and not more than four feet deep may be used until May 15 on non-trout streams and on designated parts of certain trout streams to take suckers, mullet, smelt, carp, dogfish and garpike. These same fish may be taken by spearing April 1-May 15 in the lower peninsula and during May in the upper peninsula, in some places with the aid of artificial lights. All resident dipnetters and spears need the \$1 sport fishing license. White and redhorse suckers are the most eagerly sought of the fish available in the spring runs. Meat ration-

LAKE ORION

ing is likely to introduce these fish a barrier to upstream-swimming suck to many who heretofore have not considered them for the table, and of suckers were taken at the barrier conservation officials are expecting with dipnets, and more than 2,600 record volume in their use, both for persons signed the register as users immediate consumption and for can-of the club nets.

Some suckers taken from the creek are smoked for early use, but for the Spirit of the Woods conservation club, gives a simple method for preparing them for summer eating. They are then thoroughly rinsed in fresh water, cut up and put in quart jars when a screen they put in Bear jars, a teaspoonful of vinegar is added to hold big rainbow trout in each jar, and the jars are pressure-cooked for two hours.

The Kaleva agricultural school canned about 500 pounds of suckers for students' hot lunch last season, and is planning to can more fish this season. The school superintendent rates them "delicious", just as good as salmon.

Retailers are now permitted to sell seed potatoes in any quantity for planting purposes only. The former requirement that they be sold only in lots of fifty pounds, or more, has been removed by OPA.

... with the long distance call you didn't make!

Machine-gun cartridges, like telephone wires, are made of copper. If you use copper to make cartridges, you don't have it to make new telephone wires. That's why it is impossible to expand the telephone system to meet all demands.

You, and thousands of patriotic telephone users like you, are directly aiding the war effort when you —

- Make no long distance calls unless they are extremely urgent.
- Avoid especially any calls to people outside Michigan.
- Keep all calls — local and long distance — as brief as you can.
