Wartime hints worth knowing:

How to save ELECTRICITY

without sacrificing needed LIGHT

With fall evenings just around the corner, the matter of home lighting becomes doubly important. In many homes there will be increased demands for longer hours of eyework extra sewing and other seeing tasks. Fortunately, it is possible to make your present lamps and fixtures do double duty . . . and to save electricity without sacrificing needed light.

Here are a few practical suggestions: (1) Putting dark-colored lamp shades with white linings can increase the amount of light from the lamp by as much as 50%. Use good white paper and fasten seam with Scotch tape. (2) Clean lamp bulbs and reflectors frequently. Dust and dirt may rob you of half the light you pay for. (3) Flaring lamp shades do a better job of spreading light than straight-sided shades. The wider the opening at top and bottom, the more useful light is directed into the room. (4) Whenever possible, make floor and table lamps serve more than one person for reading or sewing. A single lamp on a table, for example, can provide light for chairs on both sides of it. The Detroit Edison Company.

ELECTRICITY IS NOT RATIONED,
 BUT ITS PRODUCTION REQUIRES COAL
 AND RAILROAD TRANSPORTATION.
 DON'T WASTE IT!

2 GALLONS MAKES 3!
 COSTS LESS GOES FURTHER

Add 50% Water to OPAL-TONE and You Have a Bucket Full of the Finest Wall and Ceiling Paint You Ever put a Brush Into

Quick-drying. Very economical, because two gallons makes three of wall paint—you thin with hydrant water. Opal-tone is as modern as the four-motored bomber. There are eight lovely pastel tints and a real PURE WHITE. One coat of OPAL-TONE covers most surfaces. Use it right over wall paper—over wall board, rough or smooth plaster, brick, concrete, or over painted surfaces. Dries in half to one hour—paint a room after breakfast—move in before lunch. OPAL-TONE has a clean, pure, healthful odor—no "paint odor".

THE OLD JUDGE SAYS...

"Your tires are in good shape, Judge...ought to last you at least another 5,000 miles." "I've been very careful of them, Jim, since I learned how much the government needs rubber. Only drive when I have to...keep her under 35 an hour and have the tires switched around every 1,000 miles." "Me, too, Judge. Pretty tough spot we were put in gettin' our supply of rubber cut off just when we needed it most. But, we'll be gettin' plenty of synthetic rubber real

soon. Say, is it true, Judge, that the beverage distilling industry has a part in producing it?" "Yes, a very important part, Jim. That industry's facilities for producing grain alcohol make it possible to include 200,000 tons of rubber from grain in the government's 870,000-ton synthetic rubber program. Pretty important contribution to our war effort, isn't it Jim?" "It certainly is, Judge. Wonder how many people really realize it?"

Hosiery Collection To Stop September 30

On September 30, the Hosiery Collection program, which has been in effect since November 16, 1942, will

be terminated. The termination has been decided on because the proportion of silk and nylon being returned is declining, due to little silk or nylon hosiery having been manufactured for several months.

The response of women in this district has been magnificent. The committee in charge heartily thanks the public for their cooperation in making this essential voluntary contribution to the war effort.

There may be a few silk and nylon hose left in this vicinity. Just in case there are, the Clarkston Girl Scouts will make a house to house canvass sometime during the next week and a half. If you have any to donate make sure they are clean and ready for the girls. After September 30 there will be no more collections of hosiery.

Harold E. Brown of South Main Street has returned from spending a few days with his sisters at "Rocky Dell", Brewster, New York.

Who Are Holding War Jobs While Their Men Are At War

Many women working at Yellow Truck & Coach have relatives in the Service. One has a son in a Jap prison camp and a grandson in the Navy. Another has four brothers in uniform. To back up their men at the front, they are spending their time and effort helping to build military vehicles so vitally needed on every front.

Hundreds of women are still wanted to work on GMC Army Trucks and Amphibian "Ducks". Experience is not necessary. Women are trained for their jobs and paid while they learn. Working conditions are pleasant, healthy and safe and the pay rate is high.

APPLY TODAY

You will be interviewed immediately at the South Boulevard employment office. It is open from 8:30 A.M. to 6:00 P.M., Monday through Saturday. If you are working in a war plant, do not apply. Only those eligible under the War Manpower Commission, Employment Stabilization Plan will be considered.

Methodist Youth Have "Kick-off" Party

The first monthly party of the Youth Fellowship of the Methodist Church will be for all new members of High School. It will be called a "Decathlon Party", the idea being taken from the decathlon of the Olympic games which consisted of ten athletic events. Ten games will be played in succession by all present at the party, each person keeping his score on a card.

Miss Adrienne Volberding will be in charge of the events and the scoring, as the new Fourth Commissioner who handles recreation of the youth fellowship.

All young people of High School age are cordially invited to a grand time at this first party of the year.

District W.S.C.S. Holds Annual Meeting

The Women's Societies For Christian Service of the Methodist Churches in the Flint District will hold the annual meeting at the Asbury Methodist Church in Flint on Tuesday, October 5th, beginning at 10 a. m. The Franklin bus from downtown Flint will take you near the church.

The speaker for the day will be Miss Della Olson of the lady teacher's school in Malaya. As there are no restaurants near the church there will be a luncheon served for a reasonable sum. Reservations for the luncheon must be sent to Mrs. John Detweiler, 628 N. Ball St., Owosso, Mich., by September 25th.

The women of the Clarkston society should make an effort to attend. The meeting is an important one and every society should be interested.

With no football coach Clarkston High started their football practice Monday. A fair number turned out on a field that is pretty weedy at the present. "Next time— he'll count a hundred!"

"He called me in at 10:30 this morning. 'Call the Philadelphia office!' he barked. 'Ask 'em where those contracts are. They were supposed to mail 'em last night.'"

"I hurried. But just as I was going to place the call I remembered about so many long distance lines being jammed with war calls. So I ran down to the mail desk and hunted — there were the contracts, tucked away in the wrong pile."

"I explained why I hadn't made the call and the Boss told me I was absolutely right. 'Next time, Miss Brown,' he said, 'make me count a hundred before I use long distance!'"

Long distance lines to war-busy centers are particularly congested. Only you can decide whether your call is so important that it should be placed on those overburdened circuits. Therefore, please . . .

1. Make only the most necessary calls to war-activity areas.
2. If the operator asks you to limit your call to 5 minutes, please co-operate . . . her request means others are waiting.
