Who is the LIGHT-SAVING WARDEN in your house?

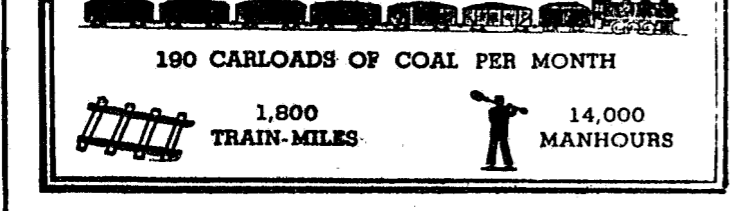

It's an important job, these days — seeing that light bulbs and reflectors are kept dust-free (you get about 1/3 more light for the same money), turning off lights in unoccupied rooms, basement, attic, etc., and keeping a watchful eye on the household use of electric appliances.

Why is it important? Because COAL is the principal raw material in the production of electricity, and thousands of tons a day are burned in the four large Edison power plants. There is no shortage of electricity—but when you save electricity you save coal and manpower and transportation needed for war. And whether you save it by the more careful use of electric appliances, or by turning off the radio when no one is listening to it, or by "sharing the light" of a lamp so that two or more persons can use it, you are making a direct contribution toward winning the war.

Be your own "Light-Saving Warden" and help make this nationwide conservation program a success. The Government asks the help of every one of us in this worthwhile effort. Here is a chance to make VOLUNTARY rationing work. The Detroit Edison Company.

ANTI-FREEZE ALONE IS NOT ENOUGH!

TO PROTECT YOUR WARTIME TRANSPORTATION, YOU NEED ALL THESE VITAL WINTER SERVICES

THIS is no year for half-way measures when it comes to car protection. Not only is your car more important to you because of the vital wartime driving you must do—but also, your car is a year older now. And older cars are harder hit by cold weather and winter-time wear. So, don't take any chances. For your own protection, you will want more than *minimum* winter service. You're sure to be safer, better satisfied, and money ahead in the long run, if you prepare for cold weather with Oldsmobile's *complete* Winter Program of Services—including all the vital tune-ups, check-ups and adjustments listed at the right.

10% ALONE IS NOT ENOUGH It takes extra War Bond purchases to give our fighting men the extra equipment they need for the crucial battles ahead. Buy more Bonds, to keep 'em firing.

- INSTALL ANTI-FREEZE**—Naturally, this is a "must." Make sure you start off with plenty to protect in the coldest weather. And remember, you should also...
- CHANGE ENGINE OIL**—A lighter oil that will circulate freely at below-freezing temperatures is a necessity for easy starting and the prevention of excessive winter wear.
- CHANGE LUBRICANTS**—The lubricants in your transmission and differential, too, must be thinner to insure cold weather protection of costly, and sometimes almost irreplaceable gears.
- TUNE ENGINE**—Winter driving, with its hard starting and long warm-ups, is extremely wasteful of gasoline. Since your coupons bring fewer gallons this winter, a gas-saving tune-up is more important to mileage than ever.
- CHECK ELECTRICAL SYSTEM**—There's a heavier load on your battery, generator, starter and ignition system during the winter months. They should be checked and put in top-notch condition.
- CHECK COOLING SYSTEM**—No use putting in anti-freeze if you lose it through a defective cooling system. Leaks should be sealed, radiators cleaned, right now.
- PROTECT FINISH**—Snow and frost and certain chemicals often used on icy roads are tough on the finish of your car. A touch-up and waxing treatment now will protect both paint and chrome.

said County, on this ninth day of November, A. D. 1943.

Present: Hon. GEORGE B. HARTTRICK, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of Earl L. Phillips attached thereto, from which it satisfactorily appears to the Court that the Defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and

It further appearing that after diligent search and inquiry it cannot be ascertained and it is not known whether or not said Defendants are living or dead, or where any of them may reside, and whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said Defendants are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of said Defendants, are unknown, and assigns, cannot be ascertained after diligent search and inquiry.

On motion of Earl L. Phillips, Attorney for Plaintiffs, it is ordered that said Defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and a default thereof that said bill of complaint be taken as confessed by the said Defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within twenty days Plaintiffs cause a copy of this order to be published in the Clarkston News, a newspaper printed, published and circulated in said County; such publication to be continued therein once in each week for six weeks in succession.

GEORGE B. HARTTRICK, Circuit Judge.

LEGAL NOTICES

EARL L. PHILLIPS, Attorney at Law, 510 Community National Bank Building, Pontiac, Michigan. STATE OF MICHIGAN. The Circuit Court for the County of Oakland, in Chancery.

Plaintiffs: GEORGE B. HARTTRICK, Circuit Judge.

At a session of said Court held at the Court House in the City of Pontiac, Michigan, on the 3rd day of December, 1943.

"... and I dreamed that dinner came floating in without my moving a finger..."

ISN'T IT FUN to dream about a house where most of the dreary work is done by magic? Well, keep on dreaming... for tomorrow many of your wishes are coming true!

You'll have a Certified Performance Gas range so wonderful it will be like having a chef in the kitchen... a Gas refrigerator that keeps foods fresh so long it will save hours of marketing and meal preparation... a heating unit that warms your home as well as heats it—without a thought from you... and oceans of hot water to make everything easier!

All this, and more too, will be possible through the miracle of the blue Gas flame—the flame that cooks as well as heats!

In the laboratories of the Gas industry, engineers are now developing these wonders... making them possible for every type of home.

Today Gas speeds war production. Use it wisely. But tomorrow it will make your dream of more comfortable, economical living a reality. It's a dream worth saving for—with every War Bond you can buy.
