Eighty-four Michigan schools in 47 counties have entered the Columbia Scholastic Press Project, jointly sponsored by the National Tuberculosis Association and the Oakland County Tuberculosis Association. Oakland County is represented by Ortoaville High School.

A decided increase over preceding | years, it represent a growing interest in the power of effective school journalism to awaken public interest in the fight against tuberculosis. War usually brings a rise in this communicable disease because of crowded living conditions, overwork, worry and strain. Every weapon that can be Who rode through the night within mobilized in this home front battle is citally needed.

School papers may submit news stories, feature stories, or editorials on tuberculosis, its prevention, and the work of the Christmas seal. Accuracy and originality will be considered by the national committee of judges in awarding certificates of merit. Last year, 17 Michigan schools received national recognition.

Sharply increased collections o household fats are expected with the inauguration this week of the points for-fats program.

"By furnishing an incentive the plan should result in an immediate and substantial gain in collections," it was stated by Kenneth M. Burns, chairman of the state salvage comvilian Defense. "Michigan has been averaging about 45 per cent of its look forward to a substantial in crease."

One brown ration point will be give en for each half pound of household hoarding houses where 50 persons or less are fed. They may be used in purchasing meats, cheese, butter and other food bought with brown stamps.

Can You Picture MICHIGAN without its Industries!

All of us who live in Michigan-no matter what our jobs may be-would have a hard time even imagining this State of ours without its great industries in operation. In peacetime they wrote a big chapter in the history of America's industrial progress - now in wartime they are one of the most powerful "arsenals of Democracy"!

In the last peacetime count, 6311 individual manufacturing establishments were employing far more than half a million fellow citizens of Michigan to turn out goods valued at billions of dollars yearly. Today many of these plants are manufacturing products far removed from their usual merchandise-building well the tools of total war for use on fighting front and home front alike.

These great industries - the largest among them being the motor vehicle, steel, paper, chemical and baking industries—directly or indirectly affect us all. They give jobs to people we know, utilize the services of thousands of others, use the produce of our State, pay taxes-and provide the things we, our armed forces and our Allies need.

We who keep Greyhound buses rolling across our State take pride in the industrial achievements of our fellow citizens of Michigan-and take part in them tool Our job is a big one-transporting Michigan's manpower to factories, foundries and farms, keeping essential wartime travel on the move, making near neighbors and good neighbors of all the communities our buses serve in Michigan.

"How can I save

- -coal?
- —transportation?
- -manpower?"

Answer:

SAVE ELECTRICITY!

You can't see electricity, but if you could you'd discover that many things go into its manufacture . . . coal and transportation and manpower and the tremendous energy of giant turbines, plus various critical war materials.

Today the conservation of all these things is vitally important in winning the war. You save half-a-dozen at once when you save electricity. For the raw materials used in making electricity are essential war materials . . . needed to keep America's war production moving at top speed.

Remember this when you snap on a light switch. Use only the lights you actually NEED. Be careful in your use of electric appliances and equipment. There is no shortage of electric generating or distributing facilities in this area, but the Government asks everyone to save VOLUNTARILY, to conserve critical resources. Even though it is not rationed, saving electricity is the patriotic duty of every American citizen today. The Detroit Edison Company.

CONSERVE ELECTRICITY

Even a 5% saving in the monthly use of electric ity by Detroit Edison customers will save about

MUSIC NEWS

There was a dance Friday after the basketball game sponsored by the Sophomores. Bill Radoye and his dance band furnished the music. A good crowd helped to make this dance a success.

The dance band has ordered several new pieces and hopes to present them to the public soon. We are proud, as a dance band, of what we have accomplished. Many thanks to Bill Radoye for his fine leadership. A short time ago, we accepted Basil Ash as our drummer; of course Bill still holds his stand as a drummer too. The dance band is very grateful to those who have co-operated and made the dances a success.

Ida Beattie

is the place to celebrate the incoming year of 1944. The students feel that the right and proper thing to do is dance so they've arranged a whizzbang celebration. The student council is behind this big affair and their proceeds will go to purchase various and sundry items needed about the school. If an industrious salesman approaches you be sure and buy a ticket. Make a New Year's resolution and start the year right. Back Your School!

We promise you fun, laughter, refreshments, and a short floor show. You can make all the noise you like at midnight and the students will have something to help you make it with. You will be entertained from

the moment you come until the time you leave, with music from Radoye and his band, plus entertainment at intermission and at midnight.

Bring your smiling face to make this the biggest dance of 1943, and start 1944 on the path to success. SENIOR NEWS

The Seniors are very proud of Bill Radoye who received a letter from the Government stating he had passed his navy intelligence examination. He passed with high enough marks to merit special consideration for the V-5 course in Naval Aviation training, but the quota of V-12 had been filled when they reached his score.

If you happen to hear a student spouting something on this order, "Whan that Aprille, with hise shoures soote, The droghts of March hath perced to the roota," you will know he is a member of the English Litera-Since everything new and different ture class. We have just finished ought to be celebrated the high school | Chaucer and after the holidays we shall begin Shakespeare.

Charlotte Maybee 9TH GRADE NEWS

Our basketball team played a good game Friday night which means there must have been some Freshmen playing. Basil Ash and Albert Catell are two of our ninth graders on the secand team and on the first team, you can quote me as saying, "We have the one and only Glenn Davison."

The deadline for the Athletic Pledges is Tuesday at one o'clock and I'm afraid that for "once" the Seniors are going to beat us although we

may surprise them yet. Janette Bird came up to the school last week and thanked us all for our kindness toward her, but she said that she would be unable to attend this school. We're all going to miss you,

Clarkston Literary Club Has Christmas Meeting

Mrs. Carl Irish Was the Hostess

On Tuesday the Clarkston Literary Club held their annual Christmas luncheon at the home of Mrs. Carl Irish. Luncheon was served at a table centered with a tray of natural woods moss in which were miniature trees, ferns and plants. Christmas decorations were used in the rooms. The Roll Call was answered with "My Favorite ('hristmas Dish".

The next meeting will be held on January 11th at the home of Mrs. Glenn Howland when the program will be "Australia and New Zealand" and Mrs. Carl Irish will be the leader.

In Clarkston Jan. 12

Start to get your cast off clothing, furniture, rags, or any white elephants ready for the Good Will Industries now. Their truck will come to Clarkston on January 12th. Those who wish the truck to call at their home on that day should phone Mrs. Arthur Rose, Clarkston 4801.

His wives talked too much, so he buttoned up their lips. The police of two South American countries would like to punish the Indian Chief responsible for this crime, but because of ancient custom he may get away with it. Read this remarkable story in The American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

Increases in apple prices over those for 1942 will mean that a 28ounce jar of apple butter will cost from 3 to 4 cents more at retail, OPA reports. This reflects an increase of approximately 80 cents to \$1.65 a nundredweight in apple prices and an increase of approximately 712 cents to 15 cents a pound in apple chops.

CHRISTIAN SCIENCE CHURCHES "Is the Universe, including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon in all Christian Science Churches thruout the world on Sunday, Dec. 19.

The Golden Text (Hebrews 11:3) is: "Through faith we understand that the words were framed by the word of God, so that things which are seen were not made of things which do appear."

Among the Bible citations is this rassage (Isaiah 45:18): "For thus saith the Lord that created the heavens: God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else."

Correlative passages to be read from the Christian Science textbook, 'Science and Health with Key to the Scriptures," by Mary Baker Eddy. include the following (p.189): "The human mortal mind, by an inevitable perversion, makes all things start from the lowest instead of from the highest mortal thought. The reverse is the case with all the formations of the immortal divine Mind. They proceed from the divine source; and so in tracing them, we constantly ascent in infinite being."
