Clarkston "School Registration District"

In this paper is a copy of the resolution by the Clarkston Board of Education changing this school district into a "School Registration District". In other words school board members will be chosen in the future by petition and then voted upon at an election in the same manner as other candidates are selected for public offices.

Those eligible to vote are registered upon school registration books, petitions are presented, signed by the voters, and those selected are voted upon at an election lasting all day. In most districts the elections are held the day of the annual meeting and results are announced at the annual meeting in the evening. The reason given in the resolution for this change in the method of voting for board members is that on account of other duties, many are deprived of their vote by not being able to be present at the meeting in the evening. If dissatisfied, voters may go back to the old system after two years, but it is pointed out that few, if any, change back.

This being the first year under this system, sufficient notice will be given so that all will have the chance to register. Candidates must file in time so that their names can go into the election notice, to be advertised at least two weeks before the election. It is to the interest of every voter, eligible, to read the resolution in this paper as well as the registration and election notices which will appear in due course in this paper.

Clarkston School Gets Minute Man Award

On Thursday afternoon of last week the Clarkston school was presented with a minute man flag from the U. S. treasury department. The presentation was made by the Oakland County War Finance Committee. This flag is awarded to schools in which 90 percent of the students participate in the buying of war stamps over a period of one month.

D. M. Winn, school superintendent, introduced Garold O'Dell, general chairman of the selling of war bonds and stamps in Independence Township, who introduced H. F. Brodie, the county chairman. Mr. Brodie then presented the flag to Mrs. N. E. Maytag, chairman of the Women's War Finance Committee in this Township. She was proud to present the flag to William Radoye, president of the Student Council, who accepted it in behalf of the students. Mrs. Clifford Bennett, assisted by William Radoye, then hoisted the flag while the school band played "The Star Spangled Banner" and several other patriotic numbers.

Rotary Club News

On Monday the Clarkston Rotary Club was visited by the newly formed Waterford - Drayton Plains Rotary Club, sponsored by the Clarkston Club. It is interesting to notice that this is the only club in Rotary, the world over, to sponsor a new club, this year. Most of the proposed members of the new club were present.

Military guests of honor were Warren (Pat) Flynn of the Navy and George Beardslee of the Army. The speaker was Roy Plumb, president of the Trus-Con Laboratories of Detroit, who gave an excellent talk on what Rotary means and stands for to a Rotarian. The speaker and Dr. Cohoon formerly belonged to the Highland Park club, and to Dr. Cohoon went the honor of introducing Mr. Plumb.

Our Boys and Girls In The Service

Service men will not have to pay taxes on their homes if they or their relatives notify the assessing officers of their districts. In Independence Township notice should be given to Supervisor Andrews. In Clarkston notice should be given to the Village Assessor. Notice must be given before the property is assessed. After assessment, the property is entered in the tax rolls and must be accounted for by the treasurers. Better do this right now.

Miss Mae Henrikson of Pontiac and A C William (Bill) Cobb of Clarkston were married March 31st in Waco, Texas. A C Cobb will receive his silver wings on April 15th. He and Mrs. Cobb will be home on a short furlough before being transferred to another training base.

Forrest (Bud) Irish has received orders to report at Ft. Sheridan, Ill., on April 21st to start his air corps training.

Ensign Arthur Clark was able to get home for a few hours last Sunday. He left in the afternoon for the naval air station at Traverse City, Mich.

Other servicemen who have been spending furloughs at their homes are George Beardslee from Walla Walla, Wash., Lewis Warden, who with Mrs. Warden are home from Wintergarden, Fla., and Warren (Pat) Flynn who has just completed boot training at Great Lakes, Ill.

Bos'n mate I'c William (Bill) Parker and Mrs. Parker arrived in Clarkston on a 48 hour leave. They were entertained at a family dinner at the home of his parents on Sunday and in the evening they left for his station at Erie, Pa.

April 8-44

Dear Mr. and Mrs. Stamp:
I thought that I would drop you a few lines to let you know my new address.

After leaving Long Island, N.Y., I was sent down here along with 52 other Coxswains for amphibious training. As yet I haven't started my training but I have an idea that I will in another week. I am a mustering petty officer at the present time in Ship's company. I have 34 men to muster at 0800 and at 1300 every day and every other day I have to get up at 0500 and break out a working party.

The enlisted men have it pretty tough here and seldom have time to even write letters or wash their clothes. After I start my training I will have it pretty tough then myself. My training will last for 8 weeks after which I will have a chance to make Bos'n 2nd class and maybe get a leave before going overseas. My training will be to learn how to run 50 ft. landing barges in invasions. We have a lot of fine equipment to begin our training with here and we are surely proud of all of you folks back home who are buying war bonds to make it possible for us fellows to have this fine equipment.

I guess I will close for now hoping that all of you folks back home are in the very best of health.

Again I want to say that all of you are doing a great job on the home front and all of us in the service really do appreciate it. Keep up the good work.

As ever

Don Steiner

April 2-44

Dear Mr. Stamp:
This is just a few lines to let you know that I am getting the Clarkston News alright now. For about two months I didn't get any and I thought it was because I had changed my address so I had my sister tell you my new one. I sure appreciate having you send the paper to me.

I hear that almost all of the eligible boys have left Clarkston so I guess the old Hometown must be pretty dead now. Well I guess one of these days the place will live up again and I only hope I am there to see it. There is that old saying that "you never miss the water until the well runs dry", well I can say that about the town.

I cannot say where I am or what I have been doing but I can say that everything has been going alright with me. When I came on this ship I was a striker for radio and now I am a radioman third class. I finally made it and hope to keep going.

Well I guess this is all for now and thanks a million for the paper.

So Long,

Sincerely

Hugh C. Cheeseman, RM31c

Notice

I will not be a candidate for reelection to the school board at the next annual meeting.

On April 9th in the home of Mr. and Mrs. H. Buck, Shirley I. Bachi, daughter of Mrs. Floy Bachi of Elk Rapids, became the bride of Major Charles D. Harris of the U.S. Marine Corps, son of Mr. and Mrs. Henri Buck of Waterford.

A letter this week from Mrs. Lloyd Gudgeon (Ruth Walter) says that the trees in Anniston, Alabama, are in leaf and the tulips and iris and many other flowers are in bloom. Evidently Easter was a bright, sunny day there because the letter was written on Sunday and Ruth mentions that she was at work about the time the sun rose and that the sunrise seemed more beautiful because it was Easter morning. They are both well and she and her husband who is stationed at Ft. McClellan look forward to getting the Clarkston News every week-end.

Victory Garden Suggestions

From Michigan Extension Bulletin No. 258—Michigan Garden Guide

Select the site with care. 1. If you live on a farm, locate the garden conveniently near the house but never overlook the value of good soil and proper exposure.

2. If you live in town and haven't a suitable location at home with good soil and satisfactory exposure, arrange for the use of a vacant lot or arrange to plant your garden in a community plot.

3. Be sure that the soil is well drained.

4. The garden should be in full sunlight for at least half of the day.

5. Avoid heavy clay soils that are too hard to work or extremely sandy soils that may dry out too rapidly.

A carefully made plan is the first essential step in developing a successful garden. It will help to utilize time, money and space to the best possible advantage. Decide first what vegetables to grow and the quantity necessary to supply your family's needs. When making your garden plan, the following suggestions are offered: Arrange the crops that are to be planted first along one end of the garden. Group together the crops that will be harvested early so that after harvest the space may be used for other plantings. Include a variety of vegetables—at least 15—but choose them carefully. Plant enough of each crop for freezing, canning, drying and storing as well as for fresh use during the summer. Allow ample space between the rows for cultivation, especially if horse-drawn or power tools are to be used. Too much of one crop should not be planted at one time. To be assured of a continuous supply of garden-fresh vegetables throughout the season, successive plantings must be made. Through careful planning, production from a small garden can be greatly increased by planting later crops in spaces left vacant by those crops that are harvested early.

CHRISTIAN SCIENCE CHURCHES

"Doctrine of Atonement" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, April 16. The Golden Text (John 16:32,33) is: "I am not alone, because the Father is with me. . . . In the world we shall have tribulation; but be of good cheer; I have overcome the world."

Among the Bible citations is this passage (Romans 5:10): "For if, when we were enemies, we were reconciled to God by the death of His Son, much more, being reconciled, we shall be saved by His life."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.25): "Jesus presented the ideal of God better than could any man whose origin was less spiritual. By his obedience to God, he demonstrated more spiritually than all others, the Principle of being."

The Pack committee is composed of Alfred Lee, Richard Bullen and Ralph Thayer. The Den mothers are Mrs. Gray Robertson and Mrs. Howard Huttenlocher.

Guessing

I'm going to guess now any day just how much tax I'll have to pay. I'll choose a number one to ten To be the cash that I'll take in. I'll gaze into my crystal ball To see what's coming in next fall. I'll read the tea leaves in my cup To see what number's coming up. I'll scan the stars that I might see What kind of fortune's there for me. I'll hunt a swami who will know How much my business ought to grow.

From all these sources gather facts To help me with my income tax. But if I'm wrong I'm penalized From social life am ostracized. Am fined for getting off the beam With figures gathered in a dream. I'd like to do the job up right And pay my share to win the fight. So I will try to do my best To make some kind of honest guess. On what I think from what I've read Will be my lot a year ahead.

"The GOOD-NEIGHBOR policy" applies to party line service, too!

Lots of us have found out lately that it's no hardship to share with others. Pulling together in friendly co-operation is one of the valuable lessons of the times.

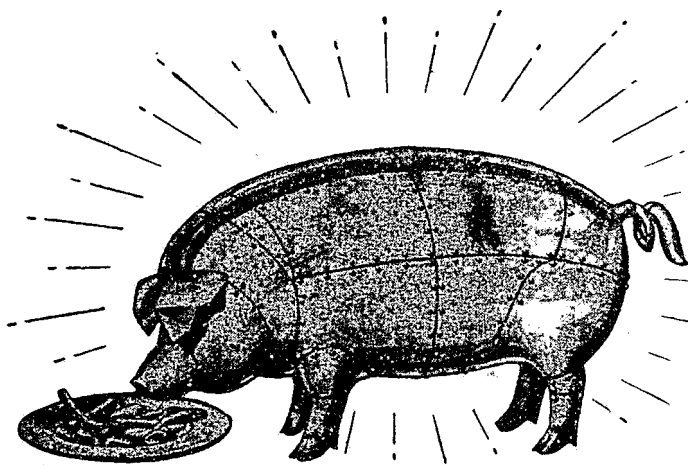

Today, as a war necessity, more and more people are being asked to share party line telephone service. By treating others on the line as they themselves would like to be treated, good party line neighbors help to improve everybody's service.

A GOOD-NEIGHBOR CREED

A good party line neighbor thinks of it this way: "Somebody else on my line may be waiting to make a call, so I won't talk any longer than I have to. When the line is in use and I'm waiting my turn, I won't interrupt. When I finish a call, I'll make sure I've hung up properly, because if one instrument is left 'off the hook' it puts all the telephones on the line out of service."

Thousands of women want
A "MECHANICAL PIG"
 in their kitchens—

AFTER THE WAR

It doesn't really look like this—the handy gadget that grinds up bones and scraps and washes them down your sink drain. But think how convenient it will be—after the war—to simply scrape off the dishes after a meal and not bother trotting out with the garbage!

"Mechanical pigs" aren't being made now. You'll probably want one when they are again manufactured. Meanwhile, put your money in War Bonds. Someday you will be able to own one of these handy waste-disposal units and a quick-freeze cabinet and a dishwasher and all the other aids to better living that electricity will make possible after Victory.

"Therefore—I will liken him unto the wise man, which built his house upon a rock: And the rain descended, and the floods came, and the winds blew, and beat upon the house, and it fell not: for it was founded upon a rock."

The house of the **MICHIGAN MILK PRODUCERS ASSOCIATION** is founded upon a rock of confidence, efficiency and honest service to all.

Organized in 1916 for the common good of all, it has withstood the rains of criticism by detractors, floods of falsehoods by self-seekers, and the winds of destruction by "labor evangelists."

28 YEARS OF FAITHFUL OPERATION has builded a structure of capable and efficient management, well trained personnel, a background of substance in capital and equipment, and an unimpeachable record which has stood against all assaults of skeptics and potential destroyers.

THE OLD JUDGE SAYS...

"Quite a stack of newspapers I met you yesterday, Judge. Aren't you in the newspaper business, are you?"

"No, I just enjoy reading different papers so my nephew George sends them to me whenever he takes a business trip. I got a big kick out of some he sent me from several counties where they still have prohibition. Particularly from some headlines that read 'Drunk Driving Arrests Rise'.

'Bootleggers must post Ceiling Prices', 'Federal Agents seize 'Trick' Liquor Truck'. Doesn't that go to prove, Joe, that prohibition does not prohibit?"

"I watched conditions pretty carefully during our 13 years of prohibition in this country. The only thing I could see, we got out of it was bootleg liquor instead of legal liquor... plus the worst crime and corruption this country has ever known."

Shortage of gasoline, says the Department of Commerce, has led motorists to use fuel "dopes", reputed to increase mileage and otherwise improve the automobile operation. The Bureau of Standards has tested hundreds of them without finding beneficial results in any case.

At least 500 first and second class commercial radio telegraphers, licensed by the Federal Communications Commission, are needed for Merchant Marine service within the next three months, the War Shipping Administration announces. Qualified men should telegraph collect, at once to U. S. Merchant Marine, Washington.

D. C. Registrants will be placed on active pay status as soon as accepted and must attend a Navy school on wartime procedure for one to three weeks.

The War Food Administration says—the public should consume more eggs, at least through mid-May, to take care of an anticipated record production amounting to at least 350 eggs for each civilian during 1944. About 70 percent of the 1944-45 supply of dehydrated vegetables will be allocated to U. S. war uses, 23 percent to Great Britain and Russia, 5 percent to U. S. civilians, 1 percent to liberated areas and 1 percent for other exports.

WPB says that—a "farm" is a property used primarily for the raising of crops, livestock, dairy products, poultry, etc., for market, and on such property \$1,000 or less may be spent for construction, including the farm house, without approval. In view of the continued critical shortage of pulpwood for paper and paperboard, farmers, as well as every full-time woodcutter, should continue to cut as much pulpwood as possible. Some electric alarm clocks and 1,200,000 war alarm clocks (many for military needs) will be produced and distributed during the second quarter of '44. A cut of 10% in civilian leather for shoe repairs and 13 percent for new shoes has been made for 1944. Production of cutlery made of stainless steel has been permitted and products should be available at retail counters in three to four months.

OPA says that—consumers buying meat directly from farmers may continue to use the Red stamps, A8 thru M8, plus the next 18 stamps in Book Four. The over-all 1944 retail prices of early onions will be somewhat above those of 1943, but below the current "going" prices. The retail ceiling price for book matches with non-commercial designs on the cover is 14 cents per box of 50 at independent stores, and 13 cents, or 2 boxes for 25 cents, at chain stores and super-markets. Retail prices of fresh dressed halibut were recently reduced for consumers in the Eastern states, and for the first time in almost a year adequate supplies of this fish will be available for consumers living farther west.

Although the United States Army has reached its planned peak strength of 7,700,000 persons, it will need 75,000 to 100,000 men monthly to maintain that strength, according to the War Department, and the Navy Department said it would need 400,000 additional personnel by Sept. 1 to get the Navy, Marine Corps and Coast Guard up to peak strength of 2,500,000. Meanwhile, the National Selective Service System has abandoned the War Unit Plan for determining occupational deferments. Pro-

visions concerning a registrant's agricultural occupation or endeavor that will govern are whether he is necessary, whether he is regularly engaged in it, whether that occupation or endeavor is necessary to the war effort and whether a replacement can be obtained.

CARD OF THANKS

I wish to thank my many friends and neighbors for the cards, flowers, letters, gifts and other acts of kindness; the local O.E.S. chapter for the lovely gift and the W.S.C.S. of the Methodist Church for the pretty plant, all of which helped to brighten the hours while I was in the Pontiac General Hospital and while I have been convalescing at home. I especially wish to thank the Rev. Marbach of the Presbyterian Church in Pontiac for his friendly call.
