Dear Mr. & Mrs. Stamp:  
I have a few moments so I thought this a good time to drop you a few lines to say "Hello" to everyone at home and to thank you for the ever dependable Clarkston News. You will never know how much we fellows away from home appreciate the paper. As you probably know by this time I have made another change of address and this time in a different direction. Everything with me is fine and generally speaking there is little to complain of. However I will be very glad when this mess is over and all of the fellows are home again. I guess there is no place which means so much to us as Clarkston. As I have been over a large part of this world and Clarkston is the place for me. I must close now as it is almost tap time. So to everyone the best wishes.

Sincerely  
A. G. Davies

May 16-44

Dear Mr. & Mrs. Stamp:  
I thought as long as I had the time I would drop you folks a line to thank you for sending the "News" to me and also to give you my new address. Getting the paper every week means a whole lot and I'm sure all of the boys appreciate it as I do. I'll be stationed here at Jacksonville in gunnery school for 5 weeks and then will be sent to another air station in Florida for flight operations. I expect to spend about 6 weeks there and then am looking forward to a leave.

The weather here can't be beat. At times it even gets a little too hot. Well there doesn't seem to be much to write about so I'll close hoping that both of you are well and that everything around Clarkston is running smoothly.

Saying thanks again for sending me the "News" I remain respectfully yours  
Jack Saylor, S1c (ARM)

Headquarters, European Theater of Operations — Small mobile Ordnance workshops are the United States Army's answer to the problems of supply and distribution, always a wartime headache.

The workshops, which operate in conjunction with larger and more stable Ordnance installations, are fully equipped, and the men have had long experience in making repairs under trying conditions, improvising where necessary.

Technical Sergeant Roy L. Jenkins, 41, of Spartanburg, S.C., a veteran of 22 years' Army service, is in charge of one such workshop in Northern Ireland. Among his assistants is Staff Sergeant Leon O. MacDiarmid, 25, of Clarkston, Mich.

Sgt. Jenkins will operate his shop as near the front lines as it is necessary. His men are expert shots which are mounted on his vehicles to afford added protection. All individual members of the group are armed with carbines.

Recognition as eligible to qualify for the petty officer rate of motor machinist's mate third class came to Bluejacket William Arthur Barnes, 26, husband of Mrs. Mildred Ann Barnes, from 5211 Pine Knob Rd., Rural Route No. 1, Clarkston, Michigan, during recent graduation ceremonies at the Naval Training School (Diesel) located at the Naval Air Technical Training Center, Navy Pier, Chicago, Ill.

The Bluejacket, now awaiting active duty orders to sea or to some shore station, is now a fireman second class.

At Navy Pier the newly graduated man received fundamental instruction in the operation and maintenance of internal combustion engines and their auxiliaries.

Dick Shaughnessy who resides at 60 S. Main, Clarkston, is now an integral member of the Amphibious Forces of the United States Navy.

At the completion of his preliminary LST training at the Amphibious Training Base, Camp Bradford, N. O. B., Norfolk, Virginia, Dick has been assigned to the crew of an LST for

## Rotary News

The meeting on Monday was well attended. Plans were completed for the Charter night of the Waterford-Drayton Rotary Club, at Waterford, to be held Thursday, May 25th. This Club is sponsored by the Clarkston Club.

Henry J. Mehlberg, Manager of the Waterford Farm Supply and Coal Company, was a guest.

The speaker of the evening was Earl L. Hoyt. His subject was "Cavalade" and his sub-head, as the newspaper boys say, was "A Rolling Stone gathers no moss but attains a fine polish". The speech covered, in an extremely serious vein, the saga of a young man who attained manhood at the time of the World War I, became a soldier, suffered the hardships of battle, was mustered out of the service and then suffered the more severe hardships of gaining a foothold in the business world, and became all stories should have a happy ending, finished with the subject becoming successful in business and for good measure a "Gentleman Farmer". Because the average member was thinking of the future of our boys and girls in the service in this war, the speech was extremely timely. It should be mentioned that the talk was extemporaneous — prepared addresses of some others could not have held the attention of the members and guest as well.

Among the guests who were welcomed at the meeting last week were Corp. Harry Wilcox of Big Springs, Texas; 3 members of the Birmingham club and 3 members of the Pontiac club.

The speakers were 4 boys from the Waterford school who spoke on post war vocations they would be interested in after leaving school. The club wishes a rapid recovery for Edward Fuller who is ill at this time.

## SENIOR NEWS

The Seniors wish to thank all those who attended the "Farewell Swing" last Friday and helped make it a success. We also would like to thank those who have attended the dances during the year. Without your attendance our dances would not have been successful. The students now know that you are interested in what they undertake. Please carry on in the future as you have in the past.

## DELAYED 9TH GRADE NEWS

Our dance, "Storyland Fantasy", which was held several weeks ago turned out to be a success. Every one seemed to have a good time dodging decorations, which were hanging quite low due to the rainy weather. The Freshmen would like to express their thanks to Alice Wethington, a member of the Senior Class, who drew the storyland figures which were placed all around the gym. We would also like to thank the following patrons: Mr. and Mrs. Wethington, Mr. and Mrs. Hoyt, Mr. and Mrs. Davison, and Dr. and Mrs. Emery.

active duty.

The LST is especially constructed for the transporting of troops and heavy equipment. It has a bow that can be opened when it comes into the beach which enables men and equipment to land ready for action. This type of amphibious craft is as large as a destroyer, and it is the largest of the amphibious ships capable of making landings directly on the beach.

Like the Naval Air Force and the Submarine Service, the physical requirements of the Amphibious Force are greater than for the other branches of the Naval Service. To qualify for assignment to any of the amphibious craft, candidates must successfully complete a thorough and varied curriculum.

The Amphibious Force is one of the branches of the Navy that is now playing an important role in carrying the attack to the enemy. In every landing that has been made to date, the Amphibious Force has carried the men and material into the beaches, such is the quality of the training given to both officers and enlisted men, and the sturdiness of the craft which they operate.

## Marriage Vows Spoken Saturday Morning

Last Saturday morning at 9 o'clock a very pretty wedding took place in St. Michael Church in Pontiac when Monnie Brown, daughter of Mr. and Mrs. Carlton Brown of Drayton Plains became the bride of John Paul Shaughnessy, Petty Officer 2c, son of Mr. and Mrs. John Shaughnessy of Clarkston. The double ring ceremony was performed by the Rev. Fr. Michael O'Reilly before a large assembly of guests.

The bride, who was given in marriage by her father, was charming in a white satin gown fashioned with fitting bodice buttoned to the waistline in the back; long sleeves with a ruffle of chiffon at the wrist; a floor length skirt with rows of picotted chiffon ruffles from the waist to the hemline. Her fingertip veil of illusion was held in place with a band of lilies-of-the-valley and she carried a bouquet of white roses, lilies-of-the-valley and gardenias.

The maid of honor, Ruth Jane Brown, sister of the bride, is a Senior Nurse Cadet in training at Saginaw, Michigan. She was dressed in regulation uniform and wore a corsage of red and white carnations. Louise Shaughnessy, sister of the bridegroom, acted as bridesmaid and wore a light green gown with net skirt and lace top styled with tight bodice, round neckline and short sleeves gathered just above the elbow. Her head piece matched her dress and she carried yellow roses, yellow daisies and white sweetpeas. The junior bridesmaid was Anne Sweet of Standish, Michigan. She was pretty in a floor length light blue silk with matching headpiece.

The bridegroom was assisted by his brother-in-law, Lyle Rexford, fireman 2c, of the U.S. Navy, as best man and Bernard and Don DuLude seated the guests.

The bride's cousin, Shirleyann Packard, of Detroit, sang "Ave Maria".

The bride's mother was dressed in aqua with pink accessories and the groom's mother wore aqua with white accessories. Both mothers wore a corsage of pink carnations. Also present were the bride's and the groom's grandmother. The bride's grandmother, Mrs. Nelson DuLude was dressed in green and white print and Mrs. Emma Barnes, grandmother of the groom wore navy with white. Both had corsages of white carnations.

At eleven o'clock a wedding breakfast was served at Rotunda Inn and in the afternoon a reception was held at the home of the bride's parents from 3 until 6 o'clock.

The groom is well known in Clarkston having graduated from the Clarkston High School. He has been serving for many months in the U. S. Navy and has been 16 months out of the country. His bride will return with him to Miami, Fla., where he will report for duty.

## Bundles From Heaven

Had we known upon that evening all the joys that would be ours, Had we known your soul would blossom like the wood with springtime flowers,

Had we known love filled your body to the top and overflowing, We would have added to our praises, had we had a chance of knowing. We were thankful on that evening that your little legs were strong. That you were good and healthy, that we looked for you so long.

We expected you'd be normal and we thanked our God for that, But we had no way of knowing what he added after that. Can it be God mixed his orders on that blessed day in May, And a bundle meant for heaven was delivered out our way?

We often sit and wonder if they had the wrong address, On that little bit of heaven when it came by stork express. Yes if we had known that evening What a blessing you would be, The world would hardly held us, With our happiness and glee.

**How to  
 STOP FUSE TROUBLE**

**before it happens!**

It's no fun sitting in the dark simply because a blown fuse has plunged your house into a blackout. Most fuse trouble can be stopped before it happens by observing a few simple precautions.

- (1) Frayed lamp cords and extension cords are often responsible for short circuits. Such frayed cords are dangerous. Have them repaired BEFORE they cause trouble. (Don't loop cords over a nail. Don't kink cords or tie them in knots. Don't run cord through a door jamb or under rugs.)
- (2) Never put an electric appliance in water. Never poke at the element of your electric toaster (or any other appliance) with a fork or sharp tool, whether turned on or off.
- (3) Don't connect too many appliances and extra lamps on one circuit.
- (4) Be careful not to overload your washer, or feed too many pieces of clothing through the wringer at one time. The same is true of your ironer.
- (5) Disconnect appliances by pulling on the plug—never jerk out the cord. Do not let cords come in contact with water, grease or acids.
- (6) If a faulty lamp or appliance burns out a fuse, disconnect it at once—and don't use again until it has been repaired.

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!

**THE OLD JUDGE SAYS...**

"Did you hear that Tom is going to be inducted into the Army next week, Judge?"  
"Yes, Frank told me this morning down at the barber shop. Our town's got a lot of men in the service now, Jim. In fact, all towns have. I was just reading in the paper where there are more than 10,000,000 men away from their homes in the armed forces. And, from all reports, they're doing a grand job bringing victory closer every day."  
"We folks at home have a mighty big obligation to those 10,000,000 fighting men. We've got to produce the food to keep them well fed. We've got to keep them supplied with the ammunition and equipment they need to finish their job. We've got to help the Government pay for all these supplies our men need by buying more and more War Bonds. We'll have another big chance to do that by helping to put the 5th War Loan drive over the top, Jim."  
"And, in addition, we must be sure that, while they're away and can't express their opinions, we don't go voting on and deciding any things that will displease them when they come back."

**NOW YOU'RE Cookin' with Gas  
IS A FAMILIAR AND IMPORTANT  
STATEMENT IN WAR PLANTS...Today**

Every shell fired at the enemy is a precision-made tool of war requiring a number of heat-processing operations in its manufacture. Today's automatic, quick, clean, easy-to-control gas furnace is widely used by industry for this important production job. Yes, ladies, the same fuel you use in your home for cooking—provides the heat for annealing cartridge cases, and for forging, tapering and heat treating projectiles that are needed by our fighting men.

Gas is indeed a vital war fuel. And everyone can help to keep it on the front production line by conserving it whenever possible. Don't waste it in your home. Remember, when you save gas you help keep war plants humming for victory.

When the war is over and you are planning changes in your present house or building a new one, don't overlook the advantages of this clean, fast, dependable, economical fuel.
