Waterford
 Voters of Waterford Twp. approved both issues in the special school election on Monday. The first proposition was for the township to borrow \$75,000 and issue bonds for the same, for the building of a new grade school and an addition to the Lambert school.
 Proposition two was to limit the total amount of taxes which might be assessed against township property to 1.75 percent of assessed valuation of all property.

On Sunday the annual home coming of the Waterford Community Church will be held. The program is as follows:
 10:00 Sunday School with Mr. and Mrs. Forest Laney in charge.
 11:00 Program incomplete.
 1:00 p. m.-2:00 p. m. The dinner is in charge of the Adult Bible Class with Mrs. Charles Maxwell as chairman. Each family is asked to bring their own table service, sandwiches and two dishes, either vegetables, salad or dessert.

Rev. H. A. Huey of Ann Arbor will have charge of the Fellowship hour.
 Mr. and Mrs. H. T. Burt will have charge of the music at this time.
 2:30 Rev. R. M. Traver will speak.
 6:00 Young people's meeting. Rev. and Mrs. Donald Lougheed of St. Johns in charge.
 7:30 Speaker indefinite. Mr. Alton Goll is in charge of music.

Mrs. Warren Weber and son Dickie went to Kalamazoo on Sunday where Dickie was enrolled in Barbour Hall boys school.
 Mr. and Mrs. H. F. Buck spent the weekend in Detroit at the home of their daughter, Mrs. William Poland and family.

James Sutton Jr., S.C. radio technician, arrived home on a nine day leave on Tuesday from Great Lakes Naval Training Station, Ill.

Cpl. David Mehlberg spent the weekend in Washington, D.C., with his father, Sgt. Robert Mehlberg, who is in the Coast Guard service station at Camp Lejeune, N. C.
 Albert May who ships with the U. S. S. Texas arrived home Sunday to spend his leave with his mother, Mrs. Sadie May and grandparents, Mr. and Mrs. John Bozek Sr.

Miss Mary Louise Buck, daughter of Mr. and Mrs. Henri Buck, is attending Augustana College in Rock Island, Ill. Miss Buck is starting her sophomore year and is majoring in music.

The Monks Club packed and mailed 50 Christmas boxes last Thursday to boys from this area who are overseas. Plans are being made for preparing boxes for boys who are still in this country.

Charlotte Ann Maybee, Jean Girst and Corrine Stites went to E. Lansing the first of the week where they entered Michigan State College. Ann Zander will enter Wayne University in Detroit.

The Birthday Club met on Tuesday for a one o'clock luncheon at the

home of Mrs. David Mephram with ten members and two guests present. The next meeting will be at the home of Mrs. John Myers.
 Sgt. Jerry Mejeur Jr. and wife are spending the week at the home of Mrs. Mejeur's parents, Mr. and Mrs. William Chase. Sgt. Mejeur, who is a gunner on a B-24 Liberator, has just returned from England where he was with the 8th Air Force.
 About 300 people attended the chicken dinner served by the Women's Club on Saturday evening at the Community Activities building. There was also a bazaar with several organizations of the township having booths. During the evening music and dancing was enjoyed.

Waterford Community Activities News
 A dinner and dance will be held at the Community Activities Club House on Saturday night, Sept. 30th. The dinner will be served at 6 o'clock and Mrs. Ralph Vogel is chairman of the dinner tickets. Make your reservations early. The dance tickets are in charge of Mrs. Earl Wilton.
 About 50 members of Community Activities, Inc. met at their club house recently and heard an informal talk on program planning by Miss Cynthia Jones of the Adult Education department of the U. of M. Mrs. O. L. Siegman announced that it was the plan of the program planning committee to make the club house a youth center in this vicinity.
 A pinocle club has been organized for Monday evenings at the club house. A meeting will be held next Monday night.
 Plans are under way for the organization of a 500 club. Anyone interested may contact Mrs. Agnes Flickinger.

Anyone interested in a dramatic club may contact Mrs. Laura Davis, of Windate Park.
 On Saturday night there will be modern and old time dancing for adults at the club house.
 On Monday evening 11 members of the executive board of Ladies' Auxiliary of Community Activities met at the club house. Plans were made for a harvest dance and card party on Sept. 30 in the Community Activities Club house. The Jenks Swing and Old Time Orchestra will furnish the music with their all electric instruments. Mrs. Earl Wilton is in charge of the tickets, 400 of which are to be sold by members and at the door. Mrs. James Simmons is in charge of refreshments.

HIJACKING THE HELP
 Nina Wilcox Putnam, writing in The American Weekly with this Sunday's (Sept. 24) issue of The Detroit Sunday Times, tells how the influx of domestic help into war industries has created a business of service snatching which has become a racket carried on in the streets of every large American city. Get The Detroit Sunday Times.

Waterford-Drayton Rotary News
 There was a good attendance at the Club last week when District Governor Harvey Lowery of Dearborn was present and gave a very fine talk. Among the guests were seven members of the Clarkston Club and Cpl David Mehlberg, son of Mr. and Mrs. Henry Mehlberg of Waterford who is home on furlough after spending many months in the Aleutians.
 A joint meeting with the Clarkston Club is being planned.

The Rotarians enjoyed the meeting on Tuesday when they heard one of their own members, Cap Stoll, tell the story of a student seaman from the first day in service. Having had experience as Captain of a fresh water vessel, Cap outlined the life in an interesting manner.
 The luncheon served by the ladies' group was exceptionally good and all of the members are hoping that they keep up the good work.

Farm Information Is Offered
 Available to Those Who Seek Agricultural Pursuits
 County Agricultural Agent Karl D. Bailey will soon be prepared to offer counsel to industrial workers and returning war veterans who are interested in starting farming operations in Oakland county.
 Background information is now being prepared by the farm management staff of Michigan State College under the direction of Clyde O. May. This will be passed on to each agricultural agent to assist him in advising persons seeking help in getting readjusted and located on farms.
 Some of the questions that may be possible for the agent and his local Land Use Planning Committee to help answer are: Do I have enough money to buy a farm? Do I have enough background and experience? Am I physically able to do farm work? Is this a good time to buy a farm? Is the farming land in this locality suitable for the type of farming I wish to do?
 Information based on farm records gathered by college specialists also will help the prospective buyer in deciding where to purchase a farm.
 Several facts that Mr. May believes should be taken into consideration by anyone seeking to buy a farm are:
 Michigan land prices for the first half of 1944 averaged about 40 percent higher than in 1939, which represents the most rapid increase in farm land prices in the history of the state.
 Land prices are now at about the same level as 1918.

Land prices reached their peak in 1920 at a price 15 percent above the 1918 level. The low point in land prices was in 1933 when they were 52 percent below the 1920 high.
 Prices of farm products averaged 100 percent higher in 1943, while land prices were less than 50 percent above the 1939 price.
 County agricultural agents attended a school of instruction at Higgins Lake September 18 and 19 to help prepare them to offer agricultural guidance. The classes were conducted by C. V. Ballard, state county agricultural agent leader.

Drayton Plains
 Mrs. Eugene Becker returned home last week from Manistee, Michigan.
 Bud McCreary is home on furlough visiting his family on Sashabaw Rd. Staff Sgt. Donald Doelle left last Monday for Miami, Florida.
 Everyone is invited to attend the Community United Presbyterian Church on Sunday. It is Rally Day.
 Mrs. Nettie Bishop Ruhling is visiting Mr. and Mrs. Martin E. Ruhling, at East Jordan, New York.
 The first rehearsal of the P.T.A. Mother singers took place in the Church last Tuesday night at 7:30.
 Peggy Keasey is nursing the mumps and is confined to her home on the corner of Meinrad and Walton Blvd.
 The P. T. A. Mother singers will hold a cooperative dinner at the home of Mrs. Earl Springer on Tuesday, September 26th. A business meeting will be held in the afternoon and election of officers will be held.

Stop that DRIP
 A startling new discovery. Pliable, cork-filled pipe covering in tape form. The modern, sure cure for condensation drip from water pipes. Keeps floors in the home dry and safe. Requires no maintenance. Lasts indefinitely.
QUICK, CLEAN AND EASY TO APPLY
 No experience needed—no tools, bands or brads. Just wind it spirally around any dry pipe and form a tight-fitting sealed jacket, which is effective immediately.

 At your Dealer's or sent prepaid for \$3.75 for case of 5 rolls, enough for 25 feet 1/2" pipe. Single roll \$1.25 Higher in Canada and west of the Rockies.

What's Cooking From Your Vegetable Garden?

 Do you have a victory garden? Then you know the superior flavor of garden-fresh peas, corn, greens, carrots, beans and other vegetables. Science tells us "just-picked" vegetables have all their vitamin content. Vegetables that stand may lose some of this food value.
 You grew them. But how do you serve them? There's an art to growing vegetables and an art to cooking them.
Rules for Cooking Vegetables
 Here are some rules that will help preserve color, form, flavor, vitamin and mineral content in cooking and serving vegetables. But first, remember to serve salads of uncooked vegetables frequently.
 Pare very thin or not at all; pare just before cooking or serving; do not soak in water; cook gently, if boiled or steamed; use as little water as possible; salt water slightly; do not use soda. It changes flavor; cook only until tender; do not overcook. Serve boiled or steamed vegetables with melted butter or margarine, cream sauce, cheese sauce or lemon juice.
Lemon Juice for Flavor
 Lemon juice deserves special mention here. Easy to add—just cut halves or quarters and squeeze—it often makes all the difference when you are serving vegetables either uncooked in a salad with a lemon dressing or cooked with a lemon garnish.
 Indeed a plate of lemon quarters may very well take its place on the table along with the salt and pepper shakers whenever vegetables are to be served. Experiment a bit. See what lemon juice does for different vegetables. This simple-to-add flavor will help to popularize those important foods with the members of your family and should be popular with you, too, since it is the quickest way to "dress" your vegetables.
 Note, too, that the lemon juice adds vitamin C to uncooked salad vegetables and restores some of this vitamin to cooked vegetables, which may have had their vitamin C soaked out in the cooking water.
Lemon Buttered Vegetables
 Meat points are often all gone. Why not serve a vegetable plate frequently, choosing some of the vegetables given below. Flavor these with the lemon butter for which recipe is given. With an egg or a serving of cheese, a bread and a beverage, you have a balanced dinner.
 2 tablespoons lemon juice
 1/4 cup melted butter or margarine
 Blend and serve over any one of the following cooked vegetables: asparagus, lima beans, string beans, brussels sprouts, broccoli, cauliflower, summer or winter squash. For new potatoes brown butter and add equal amounts of lemon juice and chopped parsley.

Save Fuel and Cut Heating Costs by INSULATING Your Home
 In these critical days when every resource is needed for the war effort our Government urges homemakers to conserve fuel.
 By insulating your home you will save fuel vital for war purposes... you'll cut your heating costs... and you will, at the same time, insure greater year 'round comfort for your family.
 Call your heating contractor today. Enjoy a cooler home for the rest of the summer and be ready to save fuel and cut heating costs next winter—by insulating your home now.
HERE'S WHAT YOU CAN EXPECT IN FUEL SAVINGS
 * Insulation of roof alone From 10% to 25%
 * Insulation of side walls Another 12% to 15%
 * Weather stripping will add another 9% in fuel savings
After the War...
 Clean, Carefree Gas Heat
 If your home does not already enjoy the convenience of automatic gas heating, you'll have to wait until after the war to install it. But you can reduce heat losses now in whatever fuel you may be using... by proper insulation. Then when wartime restrictions are lifted and gas again becomes available for new heating installations you'll be all set to change to this modern carefree method of heating, at substantial savings.

Rally Days to Start Extension Program

The Home Economics Extension Groups will open their fall program with Rally Days the last week in September, according to Mary J. E. Woodward, Home Extension Agent.

Plans for this were made by the County Home Demonstration Executive Committee which met with Miss Woodward at the Waldron Hotel for a luncheon meeting, September 12. The two Rally Days are set so that people may attend the one most convenient. Monday, September 25, at the Oak-

ridge Community House, 13 Mile Road, between Livernois and Rochester Roads at 1:00 p. m. Friday, September 29, at the Waterford Community Bldg., Williams and Walton Blvd., one half mile west of US-10, at 1:30 p. m. A third one is planned for Oxford, but the date has not been set. The officers of each local group should be present, and other members are invited. It is also hoped that others interested in the Extension Program or want to start a group will come.

Margaret Harris, Assistant State Leader from Michigan State College, will discuss problems and duties of group officers. A talk on "Storage" will be given by Mrs. E. G. Grunau, War Food Assistant. She will also have an interesting exhibit set up.

A brief report will be given on the project lessons to be given through the year. The first lesson which will be presented in October is on "How to Make Something New from Something Old".

Artificial Hay Curing Is Recommended

Farmers Told How to Put Up Crop by That Method

Artificial curing of hay, when put into practice by a majority of farmers, will be instrumental in saving an untold amount of valuable Michigan alfalfa which is lost annually; will permit the farmer to perform haying operations during unfavorable weather conditions; and will result in a superior quality product.

These are the conclusions reached by S. T. Dexter, associate professor of farm crops, and Walter H. Sheldon, assistant professor of agricultural engineering, of M. S. C., following experiments at the college, last summer.

The system used by the college research men is one that can be installed by the farmer at a reasonable cost and stands to pay for itself in a few seasons' use. Using a 2 h. p. electric motor hooked to a large air conditioning type fan, similar to that used in home cooling units, Sheldon and Dexter cured 15 tons of hay in a mow 18 by 30 feet in dimensions. The hay was put into the mow under exceptionally unfit weather conditions 24 hours after being cut. It contained between 30 and 45 per cent moisture when put away, which is nearly double the amount considered safe for hay storage in an ordinary mow.

The hay was placed 14 feet deep in the barn, and because of its moist

condition settled to a 10-foot thickness, packing nearly as compact as baled hay. The electric blower was operated 400 hours at a cost of about \$1 per ton. This is probably more than would be essential for routine drying.

At the Michigan State college barn, one large duct with six laterals, all laid along the floor, carried the air into and forced it through the hay. The fan circulated 10 cubic feet of air per minute for each square foot of mow floor space.

One of the chief advantages of artificial drying, as established by the college specialists, is being able to handle the hay before the leaves begin to shatter. It is estimated that as much as 25 per cent of the hay put up by the usual methods is lost by leaf shattering. This represents the dropping in the field of the most nutritious portion of the alfalfa crop.

Hay that is artificially dried can be cut and put into the barn when the humidity is as high as 90 percent, and it is brighter and more palatable after being cured. Farmers using the electric fan method will be saved the tedious process of getting the hay dried in the field to its minimum moisture content. On the opposite side of the ledger is the necessity of using more care in placing the hay in the mow when using artificial drying methods.

Home Treat Ivy Poisoning Case

The large number of poison ivy poisoning cases throughout Michigan at this season of the year is overburdening hard-pressed doctors, taking their attention from the treatment of more serious ailments. With the objective of creating more widespread knowledge on methods of home treatment, Dr. Charles F. Holland, director of the Michigan State college health service, offers these suggestions:

For mild cases, phenolated calamine lotion provides relief from itching. Either a freshly prepared 5 per cent ferric chloride solution or 5 per cent potassium permanganate may be painted on small infected areas of skin, or a wet dressing of 1:1000 of potassium permanganate have the objectionable feature of staining.

When swelling and much blistering are present, use wet dressings of Burrow's solution (aluminum acetate) diluted 1 part to 10 parts distilled water and applied cold. These dressings, along with tepid tub baths containing 1/2 cup of corn starch and soda (bicarbonate), furnish relief and

control for the more uncomfortable cases.

Dr. Holland points out that many other remedies are used, the commonest being lead subacetate solution diluted 1 to 10 parts water; but this has no advantage over the Burrow's dressing. Ointments should never be used in ivy poisoning until the acute stage is entirely subsided. After that, oxide may be useful in overcoming scaling and cracking of the skin.

1944 Garden Census Will Be Taken

"Did you grow a garden this year?" If someone comes to the door and asks this question, that will be an interrogator working on Michigan's 1944 Garden Census. Volunteers will be making a spot check of Oakland County's cities and towns during the latter part of September for the Michigan Office of Civilian Defense, with Victory Garden Chairmen in charge of the survey locally.

At each home visited, questions will be asked which will cover your past, present and future gardening activities; what you grew, canned or stored this year and where your garden is located. Answers are checked on a separate card for each home, but these cards will carry no name or address. All answers will be anonymous. There is no compulsion to cooperate in this survey.

The purpose of this census in Michigan is to find out how successful the 1944 Victory garden program has been. This information will be of assistance to federal agencies in estimating supplies of food on hand in Michigan, and in planning the 1945 program.

Great-Grandfather probably would turn twice in his grave to learn that movies are now being used to help in teaching such fundamental farm skills as horse-shoeing, sheep-shearing and repairing of farm machinery—all to speed up the training of wartime farm workers. To help farmers keep old equipment in working order, the U. S. Office of Education, Federal Security Agency, has produced films on mowers, grain drills, cultivators, tractors and two-bottom tractor plows. In addition there are films on horseshoeing, sheep-shearing, community canning, and repainting of frame buildings. The films are used in vocational agriculture classes, 4-H Club and Future Farmers of America meetings, extension groups and community gatherings. Purpose of the films is to teach the beginners and to show old-timers new and better ways of doing these things.

Milkweed Floss Is War Objective

Boy Scouts, 4-H Club Members, Girl Scouts, Girl Reserves, Junior Red Cross Members, hunters and farmers in this community are asked to aid in the collection of milkweed pods. The pods are now ripe and, according to Karl D. Bailey, County Agricultural Agent, will be purchased at local stations acting for the government. Milkweed floss takes the place of Kapok in making life jackets. Pods are paid for at the rate of 20 cents per air dried bag, and should be thoroughly dry when delivered. Bags for collecting are free and available by calling at your nearest buying station.

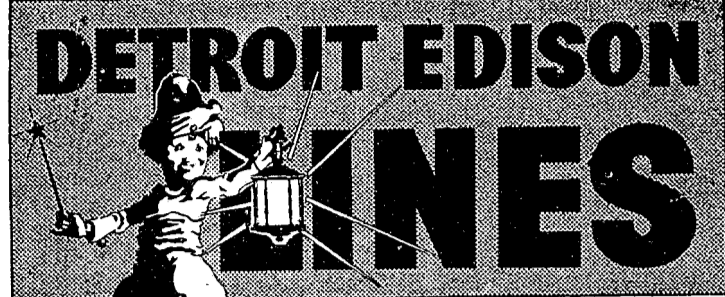

Buying stations in this vicinity are the Holly Grain & Produce Co., the Ortonville Elevator, Highland Producers Assn., and the Waterford Farm Supply Co. Community chairmen are Supt. R. H. Bravender, of Holly, Rev. Ralph Brown, of Davisburg, Supt. Carl Wilkinson, of Ortonville, and Supt. Carl Brablec, of Clarkston.

4-H Club News

Managing a flock of sheep is no small task for an adult, but Marilyn Elser, 16, of Hillsdale, has proved that it's not too big a job even for a girl her age. Selecting sheep six years ago as one of her principal 4-H projects, Marilyn since that time has made a profit of \$718.50 from her flock. Of this amount nearly \$300 was her reward in the form of prizes at county and state fairs and shows. She made her small start when 10 years old with one Canadian ewe. Now she has 14 head of registered Southdown sheep.

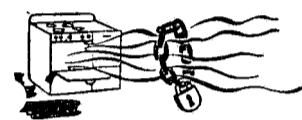

While Americans complain about their basic gasoline ration of two gallons per car per week, folks in other parts of the World have had to resort to grotesque expedients to keep their automobiles running, the Foreign Commerce Weekly, official publication of the Department of Commerce, says. Cuba is reported to be using fuel that is 75 per cent gasoline and 25 per cent rum, while on the island of Martinique a mixture of 92 per cent rum and eight per cent gasoline is recommended. Alligator Tail oil is reported successfully used as a diesel fuel in the State of Para, Brazil, and free China has made motor fuel out of Tung oil.

Subscribe to the Clarkston News.

Timely items concerning your electric service, suggestions about cooking, lighting and appliances, and many other things of interest and value will appear from time to time in "Edison Lines." Make "Edison Lines" a reading habit!

MAGIC HEATING . . . Place your hand inside the coil of wire, and not the slightest warmth is evident. Place a steel bar inside the coil, and in 30 seconds the bar is white-hot! This is the magic of induction heating, using high-frequency electric current. It has made possible some amazing war production records. A local company manufacturing trench mortar shells increased its output from 1200 a day to more than 20,000 a day. Induction heating has accomplished equally spectacular things in other war plants. Electricity in this industrial area has helped to turn out more munitions than in any other spot on the globe.

FOR ELECTRIC RANGE USERS . . . Are you familiar with all the ways of saving electricity when you use your electric range? There are many cooking hints worth knowing, such as turning off the electricity before the cooking is finished and using the stored heat of the heating unit; preparing complete "all-in-one" oven meals; using only a few tablespoons of water to cook vegetables. One of our Home Service Consultants will be glad to advise you. Telephone any Detroit Edison office.

BOUQUETS . . . Letters like the following (from a customer) always mantle our cheeks with a warm glow. A surprising number of people take the time to sit down and write in this way:

" . . . It is a real pleasure to do business with you. Many companies seem to think that their clients have to do business with them, and treat them accordingly. Your company lets its users know that it appreciates their patronage." (Name on request)

99.44% PURE . . . Sounds pure, doesn't it? And it is—relatively. But in making electricity, the steam that drives our big turbo-generators must be much purer than that. If it weren't, literally tons of solid matter could collect every day in our turbines, clogging the blades and slowing down the machines. That is why our Research Department chemists are constantly studying and improving the condition of the water in our huge boilers. Thanks to their efforts and the work of many others, the steam passing through the turbines (eighteen million pounds every 24 hours) is at least 99 and 999/1000 per cent pure.

—The Detroit Edison Co.

REMEMBER

Your Home Newspaper

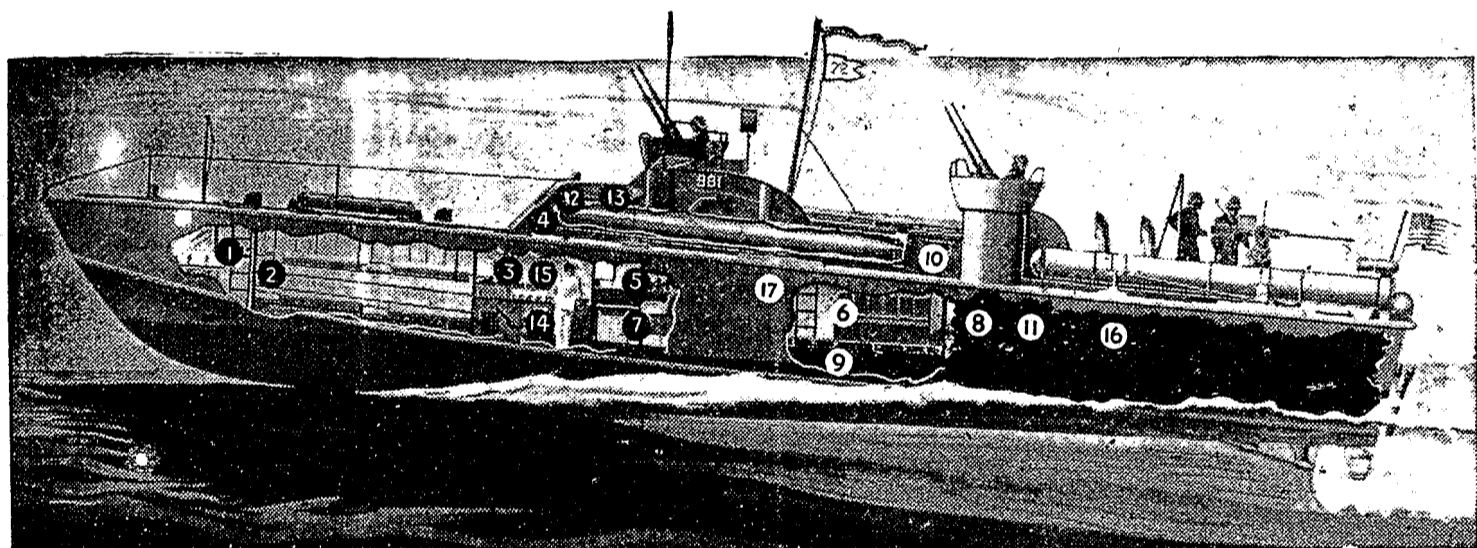

All matters handled through the Probate Court require a certain amount of legal publication in one of the county papers. Foreclosing a mortgage entails publication of the foreclosure notice in a county paper.

Either the probate court officers or your attorney will have your legal publication carried in The Clarkston News if you request it.

We solicit the privilege of carrying such legal publications. This form of advertising is valuable to us. When you support us in this way we are able to give you a better paper week by week.

Drayton Plains

Pvt Sheldon Stein of Chicago is home on furlough visiting his wife and parents for a few days before being sent overseas.

Born to Mr. and Mrs. Roy Dancey a 6½ lb daughter, Anita Mary, at General Hospital last Monday morning. Mother and daughter are doing fine.

Mrs. Rozetta (Bishop) Voss left last Tuesday for California to spend the winter with her husband, Gale J. Voss, 52c.

Mr. and Mrs. Richard Roggów of Rochester are Sunday guests of Mrs. Martha Tewilliger on Dixie Highway.

Rev. C. J. Sutton and Dr. and Mrs. L. G. Rowley attended the annual meeting of the Ohio Synod at Canton, Ohio, last Monday, Tuesday and Wednesday.

Mrs. Jennie Boardman of Saginaw is spending a few days with Mrs. Grace Barnhart, Hatchery Rd. Mrs. Frank Boardman of Cass Lake spent Wednesday at the Barnhart home.

Don't forget the Men's Fall Retreat Saturday, September 23rd, at Southfield. Two services—3:30 and 7:30. Supper will be served at 6:15 by the ladies of the church. James Vandersall will bring a message in the afternoon, "The Home".

W. Wilson, Mrs. Floyd Wilson and Mrs. Grace Barnhart have returned from Cleveland, Tennessee, where they accompanied Mrs. Wilson's daughter, Betty, Miss Louise Kittieu and Jimmie Reid, who are entering Eob Jones Academy.

T Sgt. Marvin McReynolds arrived home last Tuesday morning. Marvin has been overseas for over two years. Staff Sgt. Bert Taylor is also home from overseas duties. He has also been overseas over two years. Both Marvin and Bert have seen plenty of fighting and we do welcome them home if for only a short furlough.

The Teen-age Girls Mission Circle met at the home of their sponsor, Mrs. A. A. Solomon, on Seelye Ave., last Monday night. Miss Mary Dean Solomon was program chairman, and Miss Lucille Hangee led in the devotions. The girls are planning a tea to be held in the near future. Anyone interested in this work will be welcome to come. The date will be announced later.

The W. C. T. U. held their meeting in the Church parlors last Tuesday afternoon. The meeting was opened by the President, Mrs. Katherine Cable, following with prayer. Secretary's and treasurer's reports were read and approved. The chairman of the nominating board presented the names of the officers to be filled for the year 1944-45 and they were accepted as follows: Mrs. Katherine

Cable, President; Mrs. John Watkins, 1st Vice President; Mrs. Grace Barnhart, 2nd Vice President; Mrs. J. W. Appleton, Treasurer. The installation of these officers will take place at the next meeting, in October. The annual reports were also given. Mrs. L. G. Rowley gave an interesting reading on alcohol. The meeting closed with prayer.

Civilians cannot hope for an early end of shoe rationing, WPB says, unless imports of hides increase or unless there is a large cutback in military orders. Hide shortages continue in spite of a large domestic kill of cows and calves. Heavy civilian and military consumption and decreased imports account for the shortages.

The Australian Commonwealth Footwear Controller has asked the American Army Authorities to limit purchases of civilian shoes by American troops, the Australian News and Information Bureau says. Sales of footwear to Americans on leave have been seriously reducing supplies for Australian civilians, inasmuch as half of Australia's total output of boots and shoes already is going to Australian and Allied forces.

Council Proceedings

Record of village council proceedings for regular meeting held on the 6th day of September, 1944. Meeting called to order by President Huttenlecher.

Roll: Gundry, Megee, Ainsley, Dunston and O'Roark, present. Sibley, absent.

Minutes of last regular meeting of August 7th and special meeting August 14th read and approved.

Bills presented as follows: Detroit Edison Co., \$79.87; Mich. Bell Telephone Co., \$65.55; Clarkston News \$2.50; Morgan & Son \$3.93; Sunoco Service \$1.83; Seeterlin Bros. \$1.50; Eureka Fire Hose \$220.00; Ed Seeterlin, police chief and fire runs \$38.50; O. LaMountain, street painting, \$3.00; Chas. Cross, gas & oil, \$1.05; Chas. Hickmot, fire runs, \$9.00; R. Ainsley, fire runs, \$1.00; L. D. Hemingway, fire runs, \$5.00; fire runs, H. Huttenlecher, \$2.00; W. Dunston, \$2.00; A. Anderson, \$2.00; E. Baker, \$4.00; Don Beach, fire chief and fire runs, \$33.00; Foley & Beardslee, road gravel, \$37.50; Miller & Beardslee, posts for beach, \$52.80; Lyman Girst, tractor work on beach, \$30.00; Foley & Beardslee, sand for beach, \$125.00; Clarkston State Bank, bond \$1000; interest \$75—\$1075.00. Total \$1737.03.

Motion by Megee and supported by Ainsley that bills be paid as read. 5 yeas; nays, none; motion carried.

Motion by Ainsley and supported by Dunston to appoint L. Megee to represent the Village of Clarkston at the Michigan Municipal League annual

convention at Jackson, Mich., under dates of Sept. 28 and 29, 1944. Carried.

Motion by Dunston and supported by Ainsley to appoint Bud Yoh as a member of the Fire Department. Carried.

Motion by Ainsley and supported by Dunston that the tax collection be extended to October 2, 1944. Carried.

Motion by Dunston and supported by Megee that council adjourn. Carried.

David Stewart, Village Clerk

LEGAL NOTICES

ESTES & COONEY, Attorneys, 812 Peoples State Bldg., Pontiac, Mich. No. 47,000

STATE OF MICHIGAN—The Probate Court for the County of Oakland. At a session of said Court, held at the Probate Office in the City of Pontiac, in said County, on the 19th day of September, A. D. 1944.

Present: HON. ARTHUR E. MOORE, Judge of Probate.

In the Matter of the Estate of Mary Lyle, Deceased.

Roy A. Parmenter, administrator of said estate having filed in said court a petition praying that the time for the presentation of claims against said estate be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court, said date is ordered, that two months from this date be allowed for creditors to present claims against said estate.

It is Further Ordered, that the fourth day of December, 1944, at nine o'clock in the forenoon, at said probate office, be and is hereby appointed for the examination and adjustment of all claims against said deceased.

THE OLD JUDGE SAYS...

"Yes, I'm afraid there's no denyin' it, Judge... jeeps and trucks and other kinds of motorized equipment have taken the place of the good old horse in modern warfare."

"It's true of lots of things in this war, Eben. Every day we hear of new tactics and requirements and new uses of products. For instance, take the alcohol that is used for war purposes. In World War 1, this vitally needed product was used mostly in making smokeless powder, chemical warfare materials and medical supplies. Today it must do far more... it must provide the base for such indispensable products as synthetic rubber, shatterproof glass, lacquers, plastics and many other of our requirements so essential to victory."

"As a result hundreds of millions of gallons are required every year... half of which is being produced by the beverage distilling industry. Bet you didn't know that, Eben."

"As a matter of fact, I didn't, Judge. That's a mighty important war contribution that had escaped me completely."

This advertisement sponsored by Conference of Alcoholic Beverage Industries, Inc.

Advised to Cull Flocks Early

Early fall is the time for three important jobs for every poultry flock owner. These are culling the old flocks, cleaning the laying house, and getting the early hatched pullets into the laying house.

Otis E. Shear, poultry specialist of Michigan State college, advises putting pullets indoors before the fall rains and bad weather start. The poultryman should make sure that the house is properly ventilated, with windows and doors open during the

warm part of the fall.

If the pullets are now laying out in nests provided on the range, it is satisfactory to leave them there thru the period of pleasant fall weather. In preparing the laying house for the birds, poultrymen using built-up litter will find it advisable to put the first layer on the floor before wet weather comes.

Culling at this season is desirable to rid the flock of unprofitable hens so that they won't have to be carried through the winter.

HOLLY THEATRE

Telling a human and authentic story of a group of young people in the theatre, "Show Business", coming to the Holly Theatre Sunday, presents a tuneful pageant of backstage life over a fifteen-year period as a setting for its romance and its drama and its comedy.

Five top favorites, Eddie Cantor, George Murphy, Joan Davis, Nancy Kelly and Constance Moore, are starred in the film.

The action begins in 1914, with Cantor as a scared youngster making his stage debut in an Amateur Night performance at a Bowery theatre. Murphy is the star of the show, and he takes an interest in the lad's career and encourages him. Soon afterward Murphy and Cantor join forces with two girls of a sister act, Joan Davis and Constance Moore, and the quartette goes on to fame and fortune.

"Show Business" is one of the films selected by the Army Motion Picture Service and donated by the Motion Picture Industry for free showing to our troops in active combat on the battle-line and in hospitals on the far outposts all over the world.

ADDRESS.....

What's the Rush?

It's the telephone rush. Every night thousands of service men and women dash to the nearest telephones to talk with families and friends at home. Most of the Long Distance calls from camps and naval stations are crowded into a few short hours.

Many circuits are likely to be crowded at that time and it helps a lot when you "give 7 to 10 to the service men." That's about the best time for most of them to call.
