Pfc Jack Hodges left on Tuesday for Texas after spending a furlough with his wife and parents. His sister, igan State College, came home to spend the weekend with him.

Friday, Oct. 6-44

I should have written you some time ago, but I have been very busy. I have been doing a lot of travelling lately and have now reached my destination. I am stationed on an island somewhere in the Pacific. I appreciate the Clarkston News very much as it brings me news of the other boys in the service and also of the town are from Michigan and we have some old time chats which sure does help cur community on Hallowe'en night, to pass the time away. The weather It seems to be a four-way affair, with is very hot here. I cannot tell you the Student Council, Community Rec- anything about this place or even the name of it. In other words I can't talk, so maybe I had better close for now wishing you the best of luck and The usual cider and doughnuts are again thanking you for the News.

Yours Truly

Dear Mr. Stamp:

on.

Sophomores are doing the decoration for the dance and Walt La Plante's musicians are no doubt putting together some spooky numbers.

More details next week.

More details next week.

Inat I appreciate the Clarkston News that you have been sending me and I am sure that I am speaking for all the girls and fellows in uniform from home (Clarkston) when I say it is one of the most welcome sights to be seen when we receive them Some as excelling in sports have found to the part out a school paper every week.

Being editor of such a paper would naturally keep one very busy, but Miss Kloock also found time to keep an excellent scholastic rating, as well as excelling in sports have found to the paper week. times it takes a while for the paper to catch up with us but regardless of ball. how old they are they are read from University where she was president front to back and I know that there; is a lot of news that is new to us. Tuesday we decided to have three We get letters from our folks, it is true, but lots of times they slip up urday, the first starting at 9:00 a. m. unintentionally, for to them it is more or less a daily occurrence, but to us away out here, it's news (from

I am not much of a writer I know and not much of a hand at putting words together, so in plain language I wish to thank you again for sending me the paper from home, the town that backs every worthy cause to the

limit. There is a slight change in my address which you have noted. Thank-

ng you again. One of the boys in uniform.

THANK YOU, Mr. Curley. We value your letter of I friendly appreciation. It is stimulating to all of our people and is particularly appreciated by our Customers Service men. Even during wartime, The Detroit Edison Company has tried to maintain the high standards of service our customers expect and deserve. We know, however, that we are far from perfect, and we hope you will be equally prompt in telling us when we fail. That would be just as stimulating and even more helpful. Here is the record of Edison services in wartime:

LAMP EXCHANGES. Residence customers have always been able to exchange burnedout lamb bulbs for new bulbs without added charge. This service is now operating as usual

APPLIANCE REPAIRS. Despite the delay

and difficulty in getting parts, our Appliance Repair Division has kept in service tens of thousands of irons, toasters, percolators, clocks, etc. at only a nominal charge for repairs. IRON CORD EXCHANGES. Defective iron

cords (badly frayed or worn) are exchanged without charge for new cords of standard length. During the war we have rebuilt thousands of cords from salvaged materials. FIRST SUPPLY OF LAMPS. For thousands

of new war homes, and for other houses being

served for the first time, we have provided a

first supply of lamp bulbs without extra charge. TROUBLE CALLS. On emergency calls to restore service we were slowed somewhat by transportation difficulties but still answered a majority of these calls within an hour.

HOME SERVICE DEPARTMENT. The advice of our Home Service staff helps customers with rationing, sugar shortages, etc. They provide recipes and information about cooking, canning, special meals for school children, etc., as well as assistance with home lighting.

In war or peace, we try to furnish the hest electric service in the world. Always welcome are letters from our customers. Your criticisms and suggestions

guide us in making Detroit Edison policy

Serving more than half the people of Michigan

Community Activities

The Ways and Means Committee of the Women's Club is sponsoring a Brush Demonstration at the Club House this afternoon (Friday) beginning at 1:00. Everyone interested is invited to attend.

The Waterford Center Parent-Teachers Association is sponsoring a Community Fair at the Club House this (Friday) evening beginning at 6:00. There is to be a lunch counter selling chili, pie, and coffee. There will be a bazaar with many things to sell, a fish pond, fortune, movies, bingo, and dancing. Everyone is in-

There is to be no adult dance at the Club house Saturday evening because of the lack of heat. The next date will be announced later.

The Lutheran Church, holding ser-Building each Sunday at 9:00, will be the winter better if mulched wit. having a special service this Sunday as this is Organization Sunday. There will be Adult Baptism and Confirmation for both the young people and adults, besides some members being transferred by letter. The Rev. Theodore Matson, Regional Home Mission Director, will be the speaker of the day. Student Pastor Marvin Palmquist who worked in this field during the summor months will also be present with his bride. These services are open to the public. On Monday evening there will be a business meeting for the church members at the Waterford village school at 8:00.

Monday, Tuesday, Wednesday, an-Thursday evenings are to be work nights at the Club House and if more men could find it possible to contribute at least one night a week to this work it would hasten the work as well as cut down a great leal of expense for the Club. Those able to help are asked to contact Harry Har rup who will assign him to a crew doing a certain type of work.

From all indications the Waterford Center school e fibiren will be able to eccupy the two school rooms at the Companyly House early text week The with a that wie nearing only office.

October Suggestions For Gardeners

Here are a few suggestions for things for the flower gardener to do during the remainder of October, as outlined by the Michigan State colege horticultural specialists:

Plant lily bulbs as soon as they arive from the nursery.

Fall plowing or spading, particu larly in heavy soil, is desirable. Cut back hybrid tea roses about

me-half at this time. Hill the soil up around them to a depth of 6 inches and mulch with leaves or straw. Pot tulips and datfodil bulbs for winter forcing. Water them thorough ly, and if they are stored out-of doors

suring the early winter, cover them with straw and soil. and most all perennials will come thrugtan negotiate very difficult hills.

If you have no suitable place to store gladiolus bulbs inside, try stor

ing them in outdoor storage pit. Put your leaves in a compost pil to improve your garden soil, or spade them into the soil this fall.

Let's Face the Facts

Good government requires practical inwith executive ability and a strong sense of public responsibility. Michigan has found the right combination in the group of men who, under the leadership of Governor Kelly, will administer our State government during the next two years. Your Republican administration has increased Government efficiency, brought the

State through precarious war years in good shape, and has carefully planned for postwar employment, veteran re-employment, care of the dependent aged and children and a multitude of other immediate problems.

Good government has always been hard to get. Now that we, in Michigan, have it, let's keep it!

CLARKSTON NEWS ADS BRING RESULTS

In just 10 minutes they'll need your help

Back home, the headlines read-60 U.S. Planes Lost.

The full news account may mention that 600 airmen were shot down with them. But nowhere will you find mention about how many of those men landed alive and are now in enemy prison camps. There is no way of knowing.

Actually, about 60 per cent of all American airmen shot down over enemy territory survive-as prisoners of w

Some prison camps are devoted exclusively to air ... But these camps are little different from the others. In all, the men behind the barbed wire live the same empty life. There is nothing to do but wait-wait-and try to hold on to your sanity while you wait.

That's why War Prisoners' Aid was formed. It provides the wherewithal to buy for prisoners of war the things that will help them hold on to their sanity during those empty days of waiting. Books. Games. Athletic equipment. Make-up kits for amateur theatricals. Musical instruments.

It takes money to buy these things. More and more money as more and more of our men wind up in prison camps. The only way War Prisoners' Aid can get that money is through your contribution to your local community drive. Your gift is also shared by war refugees, the U.S.O., Merchant Seamen, welfare services here at home. Give once for all these.

Lieut. General Somervell Recently Said:

"Our guns will be pulled and troops and Supplies will move into Berlin and Tokyo by Truck."

This cargo-carrying, howitzer-hauling GMC military truck is one of thousands which have crossed invasion beaches with Allied fighting forces. Ahead of it is a big job, for truck transport is the main method of moving men and materials on war fronts where rail lines have been damaged or totally destroyed. You can see for yourself why huge quantities of trucks are necessary, when you know that it takes 3,000 tons of material

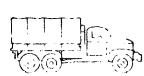

each day to keep just one Division in action. Yes, more trucks are the answer for greater speed in Allied advances, and more men are the answer for greater speed in GMC truck production. A wide variety of jobs is available at GMC and previous experience is not necessary. So, join the ranks at GMC Truck & Coach in order that more trucks may join our fighting forces on the roads that lead to Berlin and Tokyo

GET A WAR JOB and Stay on the Job

Victory depends on everyone, every day. Lost time puts a brake on America's final drive for Victory. Whather you're working at GMC or on some other war job, stay on it every minute. Under war conditions this is tough—but war is never easy. Reduce absenteeism and make time work for us-not the Axis.

Apply directly at the GMC Employment Office, 661 South Boulevard. Open from 8:30 A. M. to 5 P. M. Monday through Saturday.

"The war stories I like best, Judge, are the ones by the special writers overseas who live right with our troops. They give us a better idea of how our men react to things going on over there and back

here at home." "I agree with you, Sam. I never miss one of those stories in the papers or magazines. And there's one thing those writers seem to agree on no matter where they are stationed with our men...and that is that the men who have left their homes and families to go

away and fight this war don't want to come back and find that prohibition has been put over on them while they were away . . . either nationally or locally. They have heard about the attempts being made and they resent it bitterly."

"I agree with them, Judge, even though I don't happen to drink myself. Furthermore, I don't think it's fair for us at home to be making any major changes while 10,000,000 of our fighting men are away and have no chance to express their opinions."

Keep It Running!

Cars are going off the road at a dangerous rate and no one will attempt to guess when new cars will be available to the average man.

It is our job to keep your car in service as long as possible. We are short-handed but our appointment system assures you of having your car repaired with the least possible inconvenience to you.

Won't you let us help you keep the old bus running until new Fords are available?

Let us prepare your car for winter driving before the first unexpected cold snap arrives.

Only the best materials used.

WARNING TO DRIVERS

Watch for **Pedestrians**

Over 100 police agencies, local county and state, will begin appre hending motorists on October 22, who have defective headlight equipment.

This emphasis requiring safe headlights is a part of the State-Wide Pedestrian Protection Emphasis Program which began Oct. 15, 1944. All motorists will have one week of warning through the use of 1 million leaflets and 30,000 posters that good headlights are necessary to avoid hit- agent. ting pedestrians at night.

Accident records show that 3 out of

Profits Available In Cattle Feeding

Scarcity of well-fed heavy cattle on the markets is providing a splendid Holly. opportunity for farmers with extra grain and hay to make some profit this fall and winter, reports Karl D. Bailey, Oakland county agricultural

With the present big movement of grass cattle to market, carrying from pedestrians are killed at night due moderate to poor finish, prices are ecord they made last Wednesday in many instances to the fact that the slipping to levels where more feedmotorist did not see them far enough lot men can afford to buy them. Extra ahead to be able to stop before hit- grain and hay can be sold through fattening cattle at market prices, plus

E. L. Benton, animal husbandry specialist of Michigan State college, advises a short feeding period of per-(2) A headlight improperly aimed haps 90 to 150 days, using a heavy o that it glares or fails to illuminate feed of good corn slage and hay. Such a procedure, he says, will raise (3) A headlight that is so dim the price of thin cattle \$3 to \$5 per that it does not provide the amount 100 pounds of liveweight and boost the weight from 150 to 300 pounds.

Yearling cattle will make 100 driving in the daytime. They should silage, along with some good hay and (1) Watch for pedestrians stepping protein. Very often they eat up to 40 pounds of silage daily and gain 11/2

Feeder cattle can be purchased at 10 to 12 cents and after fattening A second phase of the program sold for 15 to 17 cents, according to dealing with safe walking by pedes- Benton. They can be expected to put trians and the apprehension of vio- on from 200 to 400 pounds of gain at feed costs of \$30 to \$60, thus leaving

> Farmers who wish to feed cattle and have no silage can use grain in most any form, Benton says. It may be fed in the bundle, as shelled corn, or as ground ear corn. If it is to be fed ground, it should be ground coarsely, as is true with other grains. Good quality alfalfa or clover hay is always desirable with grains.

Milkweed Said to Be Unprofitable Crop

Experiments carried on at Michigan State college by farm crops specialples, she makes these recommenda- ists indicate that there is little, if any, prospect for the establishment 1. Proportions most satisfactory of milkweed as a post-war cultivated crop in Michigan on a profitable farm enterprise basis at present prices paid for the pods. Proposals of this nature have been made during past months as the project of collecting floss from wild stands of milkweed, to serve in place of kapok in life preservers, has progressed throughout the

Studies of the possibilities of cultivating the weed have been made by C. M. Harrison, of the farm crops department. Included were determinations of the yield of pods from milkweeds under varying conditions and other factors of management which favor growth. It was learned that it takes approximately two years from the time of planting the seed until a pod harvest is possible.

A comparison of average yields and income from ordinary farm crops with the best observed yield and income from milkweed shows gross returns of nearly \$39 per acre for corn, nearly \$29 for wheat, \$199 for potatoes, and \$47 for dry beans, but only \$12 per acre for milkweed.

The many problems incident to growing milkweed would make it necessary for the farmer to receive a competitive price several times that being paid now for pods being gathered, Harrison concludes. However he makes it clear that these findings do not attempt to discourage the necessity of pod collections from wild stands during an emergency period when substitutes for kapok are neces-
