# **Beattie Motor Sales Building and Contents Destroyed By Fire**

## 3 Fire Departments Respond; Loss Estimated At \$30,000

the time the fire hose were stretched Since 1938 it has been known as the from the mill pond and the water pump started to work the flames were shooting many feet into the air. Robert C. Beattie, who was busy

counting votes in the Township Hall, at the Ford plant. When Bob reached S. Main Street and do the garage the scene the flames were shooting out around the large door on the garage and the front showroom was so Girl Scout News filled with smoke that he could not make his way through the building. around were protected. It was a a heretofore. great blessing that there was very by. The Kenneth Johnsons who live games. on the Church Street side of the garage had retired for the night and were quite unaware that they were in such grave danger. However the town firemen and some of the other willing workers who are always on out of part of the house and made times the roof of the house broke into Monday night. flames but the firefighters made sure the rooftop most of the time.

in Rudy's Market and the Recreation' should last for many, many years. room across the street were broken. K. P. for next meeting: Ainsley Electric wires were burned and for a Beattie, Beckman and Burns. time a live wire lying across Church street made the roadway impassable. The Orion fire department responded but they did not unroll the fire hose because the other two departments! had everything under control.

Everything in the place was destroyed including the Sashabaw ple at 12:30. All tickets and money school bus, a truck belonging to the Detroit Hume Pipe Co., a Plymouth car belonging to Lloyd Anderson, a at this meeting. Ford car belonging to A. C. Beemer and the Beattie Motor Sales wrecker. Besides being all the winter supplies for the garage, Mr. Beattle had just received the largest supply of inner tubes that he had had for many a month and these were all burned. A bigger and better stock for Christmas had just been nicely put on display and none of this was saved. The loss which is estimated at about thirty or thirty five thousand dollars is partially covered by insurance, Mr. Beattie had ust baid 8025 for redecorating the leterior of the building. In fact our of the work was just completed or Tuesday

The building would soon have been 25 years old. It was built by the Sceterlin Bros., in 1919-20 and there they carried on the Chevrolet Sales and Service. After a few years the building was sold to Robert Beattie's Huron, Pontiac, Mich. father, Reuben J. Beattie and it was

CLARKSTON TRIMS LINDEN 18-0

The Clarkston High School finished its football season of "44" with a rousing 18-0 win over the previously unbeaten Linden team. In the first period we exchanged the ball a few pushed across the pay line. Davison's kick was wide for the point. We scored again in the 3rd period with Waid bucking the line and Davison's kick for point was blocked. Our final score came in the fourth quarter, when La Plante on a double reverse took it over. Ronk made a nice kick for the point, but missed the ball, and kicked a hole in the ground. There were nine Seniors, who played their last game Friday. In all the team owes very much of the good season (Won-3, Lost-1, and Tied-1) to he coach—"Doc" Thayer.

# WORK AT GMC AND SEND MORE TRUCKS INTO ACTION

The GIs in the newsphoto above are speeding to the front lines in a GMC military truck which was built in Pontiac. This scene has been repeated thousands upon thousands of times because an army of olive-drab GMCs has moved mountainous loads of men and munitions in Africa and Australia, in Italy and Iran, in China, Russia, France and every other fighting front. Yes, these big, powerful sixwheel-drive trucks have been in the thick of the fight and have proved that they can "take it." Now, the Army has called for an increase in GMC production. The signpost in the photo

above points out the way to Victory on the fighting front. One way to Victory on the home front is a war job at GMC Truck & Coach in Pontiac. Come in today and help us send more of these vital vehicles into action!

### GET A WAR JOB and Stay on the Job

Victory depends on everyone, every day. Lost time puts a brake on America's final drive for Victory. Whether you're working at GMC or on some other war job, stay on it every minute. Under war conditions, this is tough—but war is never easy. Reduce absenteeism and make time work for us—not the Axis.

**EVERY MINUTE COUNTS** 

Apply directly at the GMC Employment Office, 661 South Blvd., Open from 8:30 a.m. to 5 p.m., Monday thru Saturday

**THOUGHTS** 

# **Armistice** Day

Heartening as we observe Armistice Day on Nov. 11th is the blueprint that is emerging for a world-wide organization of the United Nations to prevent War in the future, by the use of force, if necessary.

Twenty-six years have passed since an armistice ended the first World War on Nov. 11, 1918.

Sacrifices made by fighters in both the first and second World Wars will not have been in vain if the United Nations properly organize after final Victory is won this time to establish a program that will insure permanent Peace in the future.

value . . . helpful suggestions about

SAVE ELECTRICITY . . . Electricity requires coal for its manufacture. Thousands of tons are burned every day in Detroit Edison power plants. Every time you turn on an electric switch in your home, or plug in an electric appliance, you are actually burning coal . . . coal that has been transported by boat and by rail-coal that represents vital production and manpower, Coal is a critical war material. So is electricity, and it should not be wasted. Save electricity whenever you can, as much as you can: Help save urgently needed fuel.

29 MILLION TONS! . . . As a part of the nationwide National Fuel Efficiency Program to save 29 million tons of coal (or their equivalent) this winter, 1,800 business establishments-large and small-in southeastern Michigan have enrolled to put into effect fuel savings for this year's heating season. Coal rationing can be avoided if everybody helps by saving fuel!

GILDING THE HOT DOG . . . Meet the humble hot dog in a glorified dish, presented by our Home Service Department:

Crown Roast of Frankfurters Arrange frankfurters to form a crown in a shallow baking pen. Place stuffing in center and tie bacon strips around frankfurters to hold them in place.

Sweet Potato Stuffing Add one cup diced celery, one tablespoon minced onion, two tablespoons melted butter and 1/2 teaspoon salt to three cups mashed sweet potato.

CONVERSION ... The Dime and Ford Buildings in downtown Detroit have operated their own power plant for 31 years—and now have changed over to using Edison electricity and steam. 1,300 tons of coal and 120,000 gallons of fuel oil will thereby be saved for the war, it is estimated. Practically all the big buildings in downtown Detroit-one hundred million dollars' worth of them!-operate without furnaces or boilers. For light, heat and power, they depend wholly on Edison service.

**You save coal, transportation and manpower when** you save electricity
