Fine Program At School Next Wednesday Night

There is going to be an extra good program at the P.T.A. meeting next Wednesday night. You will have the privilege of hearing "Chick" Gaffney, boys' club leader from Pontiac. He has done some splendid work with young people and will most likely have many fine ideas to pass along to you. Another special feature for next Wednesday night will be the annual scout program. The Brownies, the Girl Scouts, the Cubs and the Boy Scouts will take part. The third grade mothers, with Mrs. Pettengill and Mrs. Taylor in charge, will serve refreshments. All parents and those interested in the school are urged to attend.

Home Extension Group Meets

The Home Extension group will meet Tuesday, March 27th, at 1:30 at the home of Mrs. George Perry on Dixie Highway. The lesson will be on "Recreation in the Home". Each one attending the meeting is asked to take along the following items: heavy cardboard (back of a tablet), a pasteboard suit box, scissors, scraps of floral print, crayolas, ruler, glue or paste, a newspaper. This promises to be an interesting meeting and is open to all who care to attend.

A Reminder

You are asked to remember your date for Saturday night, March 17th. The local O.E.S. Chapter is sponsoring a dance at the Community Activities Building, 5650 Williams Lake Road. Dancing will start at 9. There will be modern and old time dancing. Door prizes will be given and refreshments will be served. The proceeds will be used to buy arms and legs for disabled veterans. The public is cordially invited.

Megee, toastmaster, who introduced Mr. Cane, who gave a very interesting talk on "Britons in the War".

At the Rotary meeting next Monday night Paul Penfield, assistant sales manager of the Detroit Edison Co., of Detroit will be the guest speaker. His subject will be "Electrical Improvements due to the war".

Dear Mr. & Mrs. Stamp:
Well, here it is about time I wrote you a few lines and hope this finds all of the folks in Clarkston in the best of health. I'm feeling just fine and hope to continue that way.

I'm now back with my outfit—that is my regiment. We are with the 3rd army on the line. It is really rough, but that is just what a fellow has to put up with when he is in a place like this.

How is everything around Clarkston? I bet it sure has changed since I last saw it. I would give anything to be back there.

Well, the news is scarce, so I will close, with best of luck.
Sincerely
Richard See

To The Folks In Clarkston And Independence Township

I want to take this opportunity to thank each and everyone for your grand Christmas box. I received it a few days ago, and although it was a long time coming, all of its contents were in perfect condition.

I also want to extend my gratitude to Robert Beattie for his Greeting, which was so well written. I know that your thoughtfulness by sending those greetings and boxes to the boys that you know, have strengthened their courage.

We all know that you folks are doing a swell job on the home-front. So, until we all meet again, may God bless you.
M/Sgt Orson E. Coe.

He was in Japanese-occupied China from 1937 until Aug. 1942, spending about six months as a prisoner of the Japs.

He will tell of conditions in Japanese-occupied China, personal experiences at the hands of bandits, Communists, and Japs, the spreading of narcotics in Jap occupied territory and the power of the Gospel in liberating its victims. He will show from first hand experience the value of bringing the Gospel to the world, and discuss the attitude of the Chinese to Christianity.

Good Gospel music, and the singing of old and well-known songs of the church will make the atmosphere of these services cheerful and all are cordially invited to attend.

The annual meeting of Community Activities was very well attended last Thursday. The group voted to change time of the annual meeting from the second Thursday in February to the second Thursday in March; that the Ladies' Auxiliary shall elect annually its own officers and adopt its own governing rules not incompatible with the constitution and by-laws, and it shall be directly responsible to the board of directors; and that the youth council shall elect its own counselor, or counselors, with the approval of the board of directors to assist the youth, and to elect its own officers and rules not incompatible with the constitution and by-laws. REVEREND SAXMAN SPEAKS TO THE ECONOMICS CLASS
Reverend Walter Saxman spoke last Friday on ministry as a vocation.

There are no prescribed requirements for this vocation as each church has its own requirements and each denomination its own attitude, and the Federal or State governments have no requirements.

The occupation of Ministry or priesthood is of a varied nature. Traditionally it is one of helping the community and leading the people in ethical and religious beliefs.

It is one of the oldest occupations known. In the olden times the oldest person in the community was looked to for guidance and aid. Out of this developed the idea of the ministry.

A minister should be physically all right, although there have been great preachers who spoke from wheel chairs.

A preacher should be socially minded and see that every one in the community gets a fair deal.

The educational requirements for a standard Evangelistic minister are rather high. A high school education, four years of college and three years in a seminary are required. During the period in the seminary much time must be spent in state hospitals dealing with those mentally sick since there is often a close connection between mental and physical ills.

There is not much chance to become wealthy in this vocation as the average salaries of ministers in all churches is low.

However a minister does not go into the occupation for the money he can make but for the service he does.

The occupation has more advantages and help than any other occupation in the community. The working conditions are very good since there are no occupational hazards. However the hours are exceptionally long.

The social conditions are exceptionally varied. One enters into home life of every particular kind and is called upon to do many varied things, which are not always connected with the church.

90% BOND GOAL EXPECTED
The Clarkston School is trying to earn the Minuteman flag for defense stamp sales. To do this 90% or more of the school must participate in the buying of stamps for one month. We have been doing very well but we must do better. Last week our percentage was 80.

We are asking both students and parents to cooperate. Folks, won't you please remind Junior to bring that dime each Wednesday?

This week I will introduce two more members of our Sophomore class. They are Jeannine Flinn and Art Hutchinson.

Jeannine was born in Pontiac and moved here in 1936. She has attended school at Clarkston for ten years now.

She is about average height, dark hair and blue eyes. Her favorite sport is swimming. She also likes dancing and boys! She is very popular around school and her dimples attract quite a lot of attention.

Art has only attended school here at Clarkston since the ninth grade. Before coming to Clarkston he lived in Waterford and attended Waterford school.

Art is also about average height with brown hair and very bewitching eyes. Art likes football games. He also plays the cornet but he never comes out and shows us just how well he can do it.

Both Art and Jeannine seem to

ELEMENTARY ACTIVITIES
Ninety-one grade children won Paper Trooper badges for active participation in the February paper drive. The fact that the money from these paper drives is added to the P.T.A. Elementary Library fund gives the children an extra incentive.

Book shelves built by the 8th grade boys in Mr. Ridgley's shop class make an attractive addition to the third grade room.

Spring is in the air in the grad rooms. Safety units, clean-up posters, pussycats, bird calendars, kites, marbles, and jumping rope mark the change in seasons.

All grade children are enjoying regular gym periods. This semester Games, folk dances, and free play are some of the activities they enter into with much enthusiasm.

The inter-class sports and free movies furnish noon time entertainment for many children who stay for lunch.

Many budding young authors in the first grade are collaborating in writing a book about "Home". If enthusiasm counts the results will be one hundred per cent successful.

CHAMPION SPELLERS RECEIVE DICTIONARIES AS PRIZES
Spelldowns to determine the grade champions took place in the 5th and 6th grade rooms Friday, March 9. The winners were Maxine Sage—5th, and Mary Jane Beattie—6th. These girls will receive prize dictionaries from the Detroit News.

Mr. Webb of the Detroit Automobile Club visited the 6th grade recently and gave a brief talk to the patrol boys, complimenting them on their service, and urging special attention to safety education in all the rooms.

APRECIATION
I wish to thank my many friends for their acts of kindness and the lovely flowers, cards and gifts which I received during my recent illness. Words cannot express my sincere appreciation.

Food Is Still Important

The importance of the 1945 Victory Garden program can be summarized by the following quotations from recent talks given by nationally known authorities, Marvin Jones, National Food Administrator, Claude R. Wickard, secretary of Agriculture, and Chester Bowles, National Director of OPA.

Marvin Jones: "History shows that nations with ample food supplies are the ones that win victories. We cannot afford to gamble. We must do everything we can to make certain that every one of our fighting men has all the food he needs. Food is just as necessary as guns, tanks, and planes. Our Gardens produced over 40 per cent of the fresh vegetable supply in 1944 and we are asking you to exceed that record in 1945."

Chester Bowles: "The Victory Gardens of America are facing another big wartime responsibility this summer. If our families are going to be as well fed this coming year as they have been this last year, we are going to need a lot of Victory Garden crops. This will not only insure our full ration share, but will make more of our own food available to our many war workers and others who are not in a position to grow their own food."

It Took a Lot of Everything to "Take" Leyte

STAY ON YOUR WAR JOB So Our Fighters Can Stay On The Offensive

With typical American courage and fighting ability, MacArthur's men gave the Japs a terrific licking on Leyte. Landing a hundred thousand strong, they cleaned the enemy off the island in just 68 days. Typically American, too, was the quality and quantity of supplies brought up by boat and by truck to back them up. As the photo above shows, it took mountainous stacks of food, fuel and every fighting

item... literally acres of ammunition... to annihilate the Axis on this single island. Every war worker in Oakland County must realize that there are many more of these island assaults yet to come in the Pacific, plus large scale landings on the mainland. Millions of tons of war products will be needed and this county must continue to turn out its great share. Every worker must make the factory his fox hole, the bench his battle line and keep producing as long as our fighters are on the offensive.

FROZEN METALS Heat has been used in ancient times in the hardening of metals; the process is new. Cold-treating at 120 below zero F has a marked effect on the structure of metals which results in added durability and strength. It increases the life of grinding and cutting tools sometimes as much as 300 per cent. There are many other industrial applications of this new cold treatment for metals.

Wasting electricity is wasting badly needed coal

FOR ST. PATRICK'S DAY A timely recipe from our Home Service Department:

Hamburger Shamrocks
1 lb. hamburger 3/4 tsp. salt
1 egg 1/4 tsp. poultry seasoning
1/4 cup soft bread crumbs 1/4 tsp. pepper
3 green peppers

Beat the egg, add crumbs, poultry seasoning, salt and pepper. Add beef. Cut eight rings, 1/2-inch thick, from the green peppers. Pat hamburger mixture into rings. Broil seven minutes on one side and six minutes on the other.

QUIET, PLEASE... The Farmer Street Office of The Detroit Edison Company is located in an Edison substation, crammed with three stories of massive machinery directly over the office. But despite the constant, deafening roar from the machinery overhead, not a sound or quiver can be detected in the office. For the office is actually a "building within a building," completely isolated from the noise and vibration by a novel insulation of cork and sand, setting it off from the rest of the building.

Don't waste electricity during the coal shortage

KITCHEN CRAFT... When washing greasy dishes or roasting pans, add a few drops of ammonia to the water for faster, easier cleaning. If ammonia is not available, washing soda or borax is a satisfactory substitute.
