CLARKSTON, MICHIGAN, FRIDAY, MAY 25, 1945

NUMBER 39

Fall Is Fatal To Alfred C. Waters

Sadness came suddenly to one of Clarkston's homes last week when death claimed Alfred C. Waters after a 12 foot fall while at his work on Saturday morning.

Mr. Waters was born in Holly, July 6, 1910, the son of Cassius B. and Eva May French Waters. He attended the Holly schools and the Ferris Institute. In 1934 he married Miriam E. Dewey in Lansing. They came to Clarkston from Detroit five years ago. Since last fall he had been employed as office manager at the Kimball Brothers store in Pontiac. He was a member of the Clarkston Methodist church, Phi Sigma Chi fraternity, the Clarkston Dancing Club and the Bowling Club. For about two years he was scout master of the Clarkston Boy Scout Troop and as such he took an active part in all of the salvage drives to help the war effort. When the weather permitted, there was nothing he enjoyed more than a game of golf.

"Al", as he was known to most everyone in Clarkston, had a happy and generous disposition which won for him a large circle of friends. Word of his death on Saturday came as a shock to the whole community.

Surviving are his widow; two sons, John Robert, age 4, and William, 2 months; his parents of Holly and 3 sisters, Mrs. Charles Goring of Akron, Ohio, Mrs. John Kerkey, of Flint, Mich., and Mrs. Merrill Branch, of Miami, Fla.

The funeral service was held at the Oden-Kennedy Funeral Home on Monday afternoon with the Reverend Walter C. B. Saxman and Mrs. Waters' uncle, the Reverend LeRoy Dewey of Hillsdale, Mich., officiating. Burial was in Lakeview cemetery.

Burglars Fail to Open School Safe

Sometime Sunday night the Clarkston High School was broken into and an attempt made to force the safe. Although the burglars caused some damage and seemed to know just about where the money might be kept, they must have been pretty disappointed with the results of their night's work.

Mr. Brubaker and Mr. Ridgely's offices were entered as was Miss Tolman's room. Admittance was gained by smashing out the glass panes and opening the doors from the inside. Not content with drilling a hole in the big safe the burglars also knocked a big hole in the wall probably looking for money in the vault.

Although they went to a great deal of work only about eight dollars was taken. This from a change drawer in the book store.

The money loss as well as the property damage is completely covered by insurance.

My Dear Mrs. Stamp:
It seems as though I have been very neglectful in writing to you to thank you for sending me the Clarkston paper. I look forward to receiving it and especially now that the Mothers' Club has been so thoughtful in making arrangements to have the paper sent by first class mail. Received the first issue last week. There are a lot of news items that I am interested in and since I've been away from Clarkston for two years there are quite a few people that I do not know.

The weather here, so far, has been very nice except for a few occasional rain storms, which the islanders say is very unusual. I've done very little traveling around the island but the parts I've seen are very nice. Went into Honolulu one day. Honolulu is a very much of Boston place. Boston is quite an old city. The streets and stores are quite ancient in certain parts of the city. There are quite a number of good stores here and of course they sell mainland articles. One nice thing—shoes are not rationed here. I'm sure the people at home would like to be in a community where they could buy shoes at any time.

Our living conditions here are excellent. As a matter of fact, I can and will say they are better than when I was in Washington, D.C. At the present time I'm living in an apartment with two other girls. I believe these apartments, at one time, used to house the regular army personnel and their families before the war. Food is also very good. About the only thing I miss is fresh milk and eggs. As you probably know all foreign camps and stations use both powdered milk and eggs. Otherwise I might say we probably, in some instances, get more and better food than you people back in the States. Does this sound like I'm trying to recruit people for the Army? At least, we eat.

Recreational activities here are varied. Swimming is of primary importance; baseball, basketball and most any type of outdoor sport one could wish to participate in. We go to the movies quite often. I'm beginning to like to go to an outdoor movie much more than to a regular theatre. It really is a lot more fun.

Since I've been over here I've met two young fellows I knew back in the States. It seems funny to meet people here that you would never expect to see. Mrs. Spencer told mother that Les was on one of these islands. It would be very nice to see him again.

My first swim in the ocean was about two weeks ago. Swallow a lot of salt water and it tastes horrible. The waves sometimes are very high. Lots of fun to try to jump around trying to outrun the waves.

Well, Mrs. Stamp I must get busy with some of my work, so again I say thanks for the paper.

Sincerely,
Marian Yost

The following letters were received by Mrs. Clifford Bennett from Dick Tice who is stationed on the island of Okinawa—

April 9-45

Dear Mrs. Bennett:
I received the two Clarkston papers today which made me very happy. They are the first I have received in quite some time. I certainly appreciate it, your sending them to me first class.

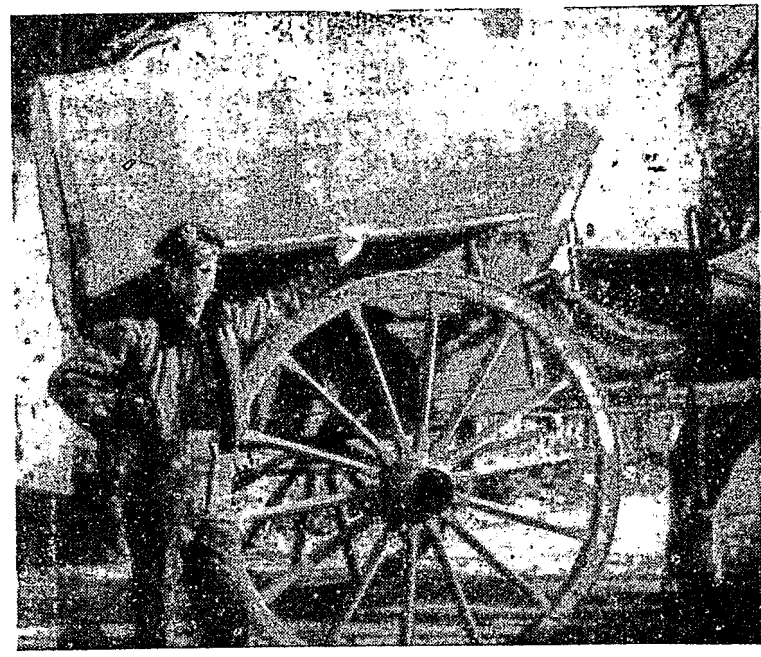

I should write to Bill Stamp again to let him know where I am at. This is a very nice island and the climate is about the same as in Michigan. It sure is a lot different than it was on Leyte in the Philippines. It was terribly hot there and I didn't care for it very much. How is everybody around Clarkston? I would sure like to be back there to see the town. It will be two years this June since I have been home. I imagine things are about the same there.

It is getting dark so I will have to close for this time. I hope to hear from you soon and thanks a lot for sending the papers to me.

As always
Dick

April 29-45

Dear Mrs. Bennett:
I just received your Easter card yesterday. It was held up some place along the line. I have received mail that was mailed in the States in December and just now receiving it.

This picture shows the main means of transport in France when Lt. Glen Batten is shown standing beside the cart.

Service Mothers Met Tuesday Night

On Tuesday night the Clarkston Service Mothers met at the Masonic Temple for a pot-luck dinner and special program. Their husbands were among the guests. Other guests included Frank Campbell, chief of the advertisement section of rehabilitation of the Veterans' Administration with headquarters in Dearborn and Mrs. Campbell; L. D. Himmigway, commander of the local Legion Post; Ray Ainsley, Chairman of the local Veterans' Counseling Center; and Mrs. Ainsley; Herbert Baynes, local Veterans' Counselor; Mrs. Baynes; Township Supervisor Floyd Andrews and Mrs. Andrews and Mr. and Mrs. Wm. H. Stamp. A guest who received special recognition was Walter Henry, PFC, of the U. S. Navy who was home on a delayed furlough enroute.

The tables were attractively arranged and decorated with blue streamers down the center of white table covers and on each table were red, white and blue candles in crystal holders. On the speaker's table was a centerpiece of carnations and fern and about the room were large bouquets of spring flowers.

Mrs. George Perry gave the invocation. After the dinner and the presentation of the Flag Mrs. Carl Irish, president of the Club briefly introduced Mrs. Baynes who presented the speaker, Mr. Campbell. He explained what the Veterans' Administration tried to do for the boys who were returning from the battle lines. He was well able to describe the feelings of the returning veterans because he was a disabled veteran returned from the Pacific area. His talk was exceptionally interesting.

Clarkston Locals

Mrs. William Pucker left last Friday to spend ten days with her husband who is stationed in Atlantic City.

Mr. and Mrs. John Beemer spent last Saturday evening at the home of Mr. and Mrs. Harold Sherman in Pontiac.

Mr. and Mrs. Marion Judd are leaving this weekend for a month's stay with their son at Empire, Mich.

Miss Charlotte Ann Maybee spent the weekend with her parents, Mr. and Mrs. Russell Maybee. The young son of Mr. and Mrs. Russell Wilson, who has been ill, has recovered and at the present time he is feeling fine.

I have noticed in the Clarkston paper that practically all of the boys are getting home. I am certainly glad to hear it. Maybe some day I can be home to see all of my old friends.

Things are pretty good here. We are still located in a town using the old Jap post office. It is small but it holds quite a bit of mail.

I haven't much more to write about. You folks hear more about this situation than I could tell you. I will sign off for now. Tell all of my friends I said "hello" and I hope to see them soon.

AT AN AIR SERVICE COMMAND DEPOT IN ITALY: Jubilation and a spirit of renewed resolution was the keynote as Pfc Stephen M. Jantz, 8510 Clark Rd., Clarkston, Mich., received the news of the final defeat of Germany. Pfc Jantz was on duty with the 907 Signal Co. en Avn. at an Air Force General Depot in Italy when the long-awaited announcement was made.

The Depot at which Pfc Jantz serves was organized at a key Italian port in October, 1943, shortly after Allied occupation, and has been instrumental in supplying and maintaining the 12th and 15th Air Forces during the entire Italian campaign. Depot personnel supported the Air Force phases of the Battle for Cassino, the Anzio landing, and the final shattering offensive that destroyed 22 German divisions in the Po Valley.

The difficult and vital task of redeploying our Air Force strength to the Far East was begun by Pfc Jantz and all personnel of this large Depot immediately after hearing the victory announcement.

Dr. A. W. Emery Has Narrow Escape

On Tuesday evening at about 4:45 Dr. A. W. Emery narrowly escaped death when his car was hit by a train at the railroad crossing on Clark Road a short distance west of the Dixie Highway. This road has many turns and the railroad crossing at this place is very dangerous as the view down the tracks is blocked by an embankment. Dr. Emery was surprised when he reached the crossing to see that the train was almost upon him. He applied the brakes and then hoped that he was safe. However the train caught the bumper on the fender and dragged the car for some distance before it was thrown into a field. In a few minutes Dr. Emery gained consciousness to find himself sitting in his wrecked car with one door open. He got out of the car and started towards the farmer who was coming hurriedly to his assistance. He then went to the farmhouse and phoned Mrs. Emery who rushed to the scene. Deputies were amazed when they saw the wrecked car and realized that the driver escaped with a small cut on the head and a couple of skinned knuckles.

On Wednesday Dr. Emery was back on the job and was really thankful to be alive.

RALPH L. LEE IS
COMMENCEMENT SPEAKER

Ralph L. Lee, member of the staff of the Department of Public Relations of General Motors Corporation, will be the speaker at the Clarkston High School Commencement June 13.

He received his early education in the public schools of Dayton, O., and at an early age, strongly urged by a desire to be around machinery, went to work in Dayton factories. One of his first jobs was in the inventions and engineering divisions of the National Cash Register Co. After a period of eight years there, he became a member of the engineering department of the Delco Light Co. Following a short period of designing mechanical apparatus, he was assigned to conducting research work in electrical and mechanical appliances. His progress was rapid and it was during this time that he was delegated to design a washing machine and vacuum cleaner. He displayed such enthusiasm in designing the washing machine that he was appointed sales manager of the washing machine division.

Mr. Lee himself, has been with General Motors for twenty-three years. In 1930 he became associated with the Jam Handy Picture Service, Inc. in Detroit, and served as an official of that company until 1935, when he rejoined General Motors on the customer research staff. He was promoted to the staff of R. H. Grant, vice president of General Motors in charge of sales.

A gifted speaker with inherent ability as an educator and essentially an engineer, Mr. Lee has been actively interested in the National Highway Safety Movement. He is the author of several outstanding articles and treatises on highway safety control. In recent years Mr. Lee has achieved national recognition in the field of personal relations in industry after developing a program for executives and supervisors which emphasizes the new importance of humanities in industrial operations.

Mr. Lee has widely varied interests outside business. He is an ordained Episcopal minister. He is an ardent aviation enthusiast and is a member of the Sportsman Pilots Association. He owns and flies his own airplane and has invented several air navigation instruments. Mr. Lee also plays the pipe organ and piano with equal ability and writes acceptable music compositions now and then. He also has turned out several etchings which have attracted attention outside of his own circle of friends.

Mr. Lee is married and lives in Birmingham, Mich.

CLARKSTON WALLOPS

AIR SHOW
The first annual air show in the history of Clarkston High on May 16 in the school auditorium. Due to bad weather the entire program had to be carried out in the gym. There was a very large exhibit and on the whole the air show turned out to be a huge success.

The exhibit was open to the grade pupils during the morning and the high school during the afternoon.

The entries were judged in three classes: the solid models, rubber band propelled, and gliders. They were judged by Robert Locher and Henry Huber.

The prizes awarded were a year's subscription for Air News for first prize and a year's subscription to Air World for second prize.

The first prize for the rubber band propelled was awarded to Jim Hack of the sixth grade. Jim had entered three planes in the contest and the winning plane was a Republic P-4. Second prize was taken by Martin Steiner.

First prize for the solid models was taken by David Lee whose entry was a Japanese Zero. David is a member of the fifth grade.

Mike Thayer took first prize in glider models with a Thermo Bagger. Mike is also in the fifth grade. Albert Beni took second place.

A movie was shown about the development of air power since the flight by the Wright Brothers to modern times. A technicolor movie (Continued on page 4)

By The Way

If we could just have some of the summer weather that we're hoping for, that worst of all meat shortages that we hear will take place between now and September wouldn't bother us much because we could have plenty fresh vegetables from the Victory garden.

Those who missed the school band concert on Wednesday night certainly missed a real treat. You've heard about the returned soldiers who are advocating pocketbooks with handles for the men to carry, well maybe there'll be other changes in the fashions for men. Our own Floyd Andrews is advocating babushkas for men—just to prevent embarrassing moments in Pontiac on windy days.

The children in the elementary grades at the Clarkston school will start using their new library on Tuesday, May 29th. There is a beautiful assortment of books and the library cards and new schedules are all in readiness. The library will be open one day a week and the children will be able to take a book home for one week and will be allowed a renewal for one week. Remember your date for tonight—the last school dance for the season and it is going to be an unusual event.

Paper Salvage Continues a "Must"

Over three years of war on two fronts have made untold demands on our paper supply. Our victory in Europe will not lessen the military demand for paper. In fact, it will increase, due to the necessity of packaging a staggering amount of supplies required in the Pacific in double and triple waterproof wrapping to withstand the long sea journey and intensified climate hazards. Since the war began millions of tons of paper have gone overseas in the form of protective wrappings. This is paper lost forever from salvage. There is increasingly less paper available for salvage in this country and by that very token every salvage scrap of paper that remains must be saved.

The next paper collection will be made in this district on Saturday, June 2nd. You are asked to have all bundles and boxes at the curb by 10:00 A. M. There is no home without some waste paper so there should be a bundle at the curb in front of every home.

4-H Club News

The Clarkston 4-H Club met at the home of Donna Richards on Thursday evening of last week. The leader, Gordon Bates, continues to be ill and was unable to attend. After the business meeting delightful refreshments were served. The next meeting will be at the home of Steven Hutton at 8 o'clock on Thursday evening, May 31st.

Barbara Craven celebrated her fifteenth birthday on Wednesday when she entertained several of her girl friends at dinner at her home. Dinner was served at 6:30 and later in the evening the girls went bike riding. The guests were Marjorie Collins, Elsa Olsen, Betty Nicholas, Joyce Stitt and Marian Emery.

Was It A Dream?

While in that stage twixt wake and sleep
One's thoughts oft travel far thru space,
To mountains high or valleys deep,
Thru countless worlds at lightning's pace.
Sometimes reposing in this state
One sees and hears astounding things,
That point his destiny and fate
While flitting by on spirit's wings.
Hundreds of faces I have seen
In passing thru on such a trip,
That might have been props in a dream.
To man and chart my slumber ship,
Yet now and then things seem so real:
As if awake, each place I go
Their very presence I can feel
And people there are those I know.
On such a trip I found him there,
My friend; who'd left us many years,
He had reserved for me a chair
Expecting me—so it appears.
He told of work caused by the war
As men who die pass in between,
The portals of that swinging door
That leads to lands of which I dream.

The Commanding General of the Army Service Forces also stated, "Our guns will be pulled and the supplies and troops will move into Berlin and Tokyo by truck . . ." Now, Berlin can be crossed off, but it's still a long road to Tokyo and the unconditional surrender of 70 million Japs! The GMC "six-by-six" military truck—the "Workhorse" of the Army—moved mountainous loads of munitions in North Africa, Sicily, Italy, England and France to help defeat Germany. Now, these powerful vehicles must handle a major part of the transport job in the Far East. And GMC Truck & Coach must build many, many more to fulfill the requirements of our Pacific Forces. GMC urgently needs more men and women for machine operation, assembly work, material handling and a wide variety of vital, well-paid jobs. Speed Victory by helping us to speed the "six-by-sixes" from Pontiac to the Pacific.

He was born in Davisburg, October 22, 1915, the son of Alfred W. and Ina Hutchinson. He attended the Davisburg and Holly schools, graduating from the Holly High School in 1934. He attended the Davisburg Methodist Sunday school and at the age of twelve he united with the church. He was 19 years old when he moved with his parents to Drayton Plains.

He was sent first to Camp Custer, Mich., and on July 8th he went west to Camp Haan, California, where he entered the anti aircraft corps and remained until April, 1944, when he was assigned to the Air Corps. After two months he returned to the anti aircraft. His next move was to Camp Howze, Texas where he received 8 weeks infantry training. He was ordered overseas on January 29, 1945 and landed in England the 7th of February. He went to France, on to Belgium and into Germany where he met his death.

THE OLD JUDGE SAYS...

MARY: "Jim, didn't you say you wanted to ask the Judge something about grain, the next time you saw him?"

JIM: "That's right, I did, Mary. Is it true, Judge, that distillers recover part of the grain they use in making war-alcohol?"

OLD JUDGE: "That's absolutely true, Jim. Whenever the government has permitted distillers to purchase the equipment neces-

sary to reprocess the used grain, at least 50% of the feed value (25% by weight) of the whole grain is recovered. It comes back to farms like yours in the form of premium-quality livestock feed... rich in vitamins B₁ and B₂."

JIM: "Is the same thing true when distillers are permitted to make whiskey, Judge?"

OLD JUDGE: "Yes, every bit as true, Jim."

Linda J. Myers
HIGHLIGHTS OF ANNUAL JR. AND SR. BANQUET

The annual Jr. and Sr. Banquet sponsored by the Jr. Class, was

held last Friday night, May 18.

The program started by singing God Bless America accompanied by Ted Rockwell at the piano. After the invocation by Rev. Saxman everyone sat down to a delicious meal prepared by the mothers of the Jr. Class, members of the Sophomore Class, and Miss Klock, the Home Ec. teacher.

After dinner a well-planned and interesting program began. Walt LaPlante, president of the Jr. Class, gave an inspiring welcome to our Seniors. Linda Myers, president of the Sr. Class gave an equal response to Walt's fine speech.

After these two well-given speeches the Sr. gittatory was given by Bud Kratt, Helen Denton, Johnny Ronk, and Sarah Collins, who presented humorous little gifts to the Seniors.

Frank Ronk then read the service honor roll. It included boys awaiting call into the service and those who have already entered military service from the Junior and Senior Class. Everyone said a silent prayer to these boys.

Miss Campbell, the Sr. Class advisor, was introduced and received a well deserved applause.

Following the service honor roll the annual awards were presented. Mr. Brabec presented the scholastic awards to Patricia Stites, valedictorian, and Helen Denton and Mary Drake, salutatorians for their fine scholastic achievements. Mr. Ridgley presented the well deserved citizenship award to Tom Waid. The music award was presented by Mr. Lamb to Dave Kinter who plays the baritone in the band. The last awards were presented by Doc Thayer who cracked a few jokes which brought a laugh from everyone before awarding the athletic awards. There were two given this year, one to Bud

Kratt and the other to Tom Waid.

The Juniors then presented the Senior prophecy which prophesied what the Seniors would be doing in twenty years. This was read by Barbara Krem, Jim Fosdick, Tomi Slick, and Bill Sharp.

Last to end the program, Bertie Lou Bachelor spoke the farewell to the Seniors.

Joyce McCann acted as toastmistress and did a fine job.

Dancing followed till 12:00. Music was furnished by Dave Diamond's orchestra from Detroit accompanied by a vocalist.

The gym was decorated very appropriately for the banquet. At the farther end was a scene depicting a moon shining down on a lake with a path bordered by flowers around white stones. A white picket fence enclosed the scene. Rustic lawn chairs were placed around the gym with branches along the sides. On the stage were two large baskets of spring flowers. Small vases formed the centerpieces on the tables. The band stand was decorated in blue and gold velvet. The punch table was placed in the front of the stage. The decorating committee is to be complimented on their fine work. Beautiful formal helped to complete the picture. It was indeed a joyous evening. We hope the Senior Class of 45 enjoyed it from beginning to end.

The Dionne Quints are 11 years old. And their precedent-shattering entrance may have started a trend in multiple births. At least, there have been numerous reports, some later authenticated, of the stork bringing along some extras and all since the Dionnes were born. Read about them in The American Weekly, the magazine distributed with this Sunday's (May 27) Chicago Herald American.

BABIES FOR SALE!
Wartime conditions, and an increasing demand for children for adoption, have set up a black market so brazen that it advertises. Genevieve Parkhurst, nationally known research authority, presents a frank revelation of this shocking social problem, in The American Weekly with this Sunday's (May 27) issue of The Detroit Sunday Times.

TELEPHONE LINES

ARE STILL LOADED WITH
WAR CALLS MARKED

"RUSH"

Only half the war is over . . . the other half still must be won. Long Distance telephone lines still are crowded with war calls that must get through promptly. Telephone service still must help speed arms and supplies to our fighters in the Pacific.

Until final Victory, will you help keep Long Distance telephone lines clear for war by cooperating if the operator asks you to limit your call to five minutes?
