Above: Just one of the many GMC "six by sixes" that are carrying the fight to Japan. (Signal Corps Photo.) Right: GMC "Ducks" play a vital role in amphibious attacks in the Pacific. (Marine Corps Photo.)

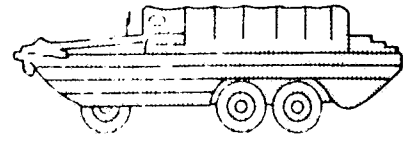

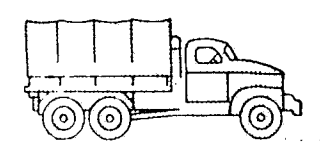

The American ability to out-produce the Axis in factories on the Home Front was a major factor in the glorious victory of Allied Armies in Europe. But, America's job is just half done for it will take a "whale" of a lot of fighting, to finish the Japs in the Pacific. One war commentator recently stated that our position in the Pacific theatre, today, is comparable to that of the Allied Forces when the German tide was turned in North Africa and Russia. It means that there's still a long, long road to travel before the Japs are crushed in China, Manchuria and their homeland. It means that GMC Truck and Coach must produce many, many more "6 x 6" military trucks and "Ducks" before final Victory. GMC needs more workers at once to help finish the fight. So come in today... roll up your sleeves... and "give it" to the Japs!

# THE 7<sup>TH</sup> WAR LOAN IS ON!

Yes, the Seventh War Loan is on right now! There are new planes to be built... new tanks... new ships. All to bring the war to an earlier close.

But Americans have never failed to meet a War Bond quota yet—and we won't fail now! So find out what your quota is—and meet it!

Our fighting men will do their job. But we must do ours!

And right now, the most important job we have is to meet our personal quotas in the Seventh War Loan drive!

Those quotas are big. Uncle Sam needs \$7,000,000,000 from individuals. For this loan is really 2 in 1—there had been 2 drives in 1944, by this time. So now—we've got to do a two-loan job in one.

**FIND YOUR QUOTA... AND MAKE IT!**

**BECAUSE SOMEONE BROKE THE STREET LIGHT!**

Bitter experience—reckoned in smashed cars and bleeding, broken bodies—proves that the less street light there is in a community, the more accidents.

And here's the point: Few streets in America have enough light at night. That makes every street lamp specially important.

Anyone who breaks a street light may be condemning a fellow American to sudden death or crippling injury at that darkened spot a few hours later. REPORT BROKEN LIGHTS to any Edison office or to the police.

We want you to know that we sincerely appreciate the beautiful floral tributes and the many kindnesses that were extended to us in our hours of sorrow. **What to do for BOWEL STOPPAGE in LIVESTOCK**

When a cow loses her appetite and refuses to eat, or eats very sparingly, the chances are that she is suffering from constipation, usually caused by partial paralysis of the bowels. To help relieve this condition, give:

**Dr. DAVID ROBERTS LAXOTONE**

Do not drench cattle for bowel stoppage! Give LAXOTONE dry, on the tongue. Easier, safer and more reliable than a physic or the old-fashioned drench, which is always dangerous. Don't be without a can of LAXOTONE handy at all times.

There is a Dr. David Roberts prescription for every curable animal ailment. We carry a complete line of these prepared prescriptions. Stop in and stock up the next time you are in town.
