CLARKSTON, MICHIGAN, FRIDAY, SEPTEMBER 7, 1945

Large Crowd Sees Parade

School Band furnishes music

All of the children and the majority of the grown-ups in Clarkston and vicinity were on hand last

Monday morning to participate in and to see the costume, pet and who is studying at Iowa State colhorribles parade sponsored by the lege says everything is going well Clarkston Rotary Club. At about with him and the tone of his let-9:15 the participants gathered at ter seems to indicate that he is Miller Road and N. Main St., and happy at his work. at about 9:45 when all was in readiness and the school band was

in line excitement spread up and down the street. Joe Secterlin, marshal, led the

parade. He was in costume and as always wore a big smile. Following him were five men on horseback and then came the Robertson Court kids in all kinds of costumes. The school band direct-

ed by Harold Lamb were next in line and as usual they added pep to the whole affair. Back of the band came children and adults from all over town and even from as far as Windiate Park. The crowd of onlookers were just as excited as those in the parade. They were amazed at the length of the parade and the amount of work that had been put on some of the costumes. Costume, pets and horribles was a good name for the parade because it was just that. The pets were admired by old and young and the children exhibiting the pets had need to be proud. Dick Dean of Windiate Park drew much attention with his little homemade jeep. He fooled many who thought he might stall on Main St.

The parade ended on E. Washgot to run. Bye now, ington St., and there the prizes were distributed and refreshments were served to all of the children. A. E. Butters, general chairman, is to be congratulated on the success of the whole affair. It was well managed and the men in costume taking care of the traffic did an excellent job. There were no accidents and everyone had a grand time. Many remarked that they hoped the Rotarians would make it an annual event.

Best wishes to the boys and girls of this community as another school year opens. An Edcation is worth more to the individual than rubies or gold. So make the most of your opportunities.

We also extend a cordial welcome to members of the teaching staff, many of whom, no doubt, have passed up jobs and fat salaries in other fields to stick to their profession. More power to you-and may you enjoy a most successful school year.

۴.

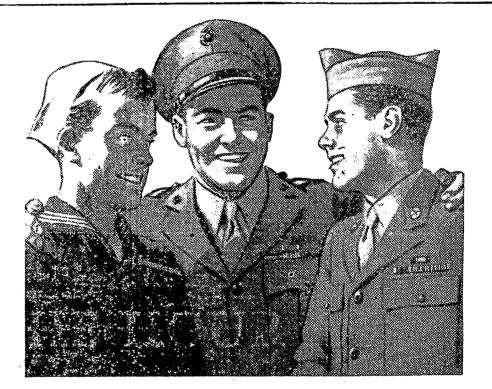

In my new conveniently arranged Kitchen I won't have to do a lot of unnecessary walking back and forth. A modern Gas range will cook the meals quickly and efficiently. And a big new Gas refrigerator will put an end to countless marketing trips to say nothing of the savings and new delightful dishes I'll be able to serve. A dependable automatic Gas water heater will make my kitchen work easier and faster. It's a real joy to plan and dream about this kind of living and ' new that this terrible war is over, my War Bonds are going to help me enjoy living by making my dream a reality.

BY THEIR RIBBONS YOU SHALL KNOW THEM

You've seen many of them already. You're going to see more and more of them as time goes on-ribbons, stars, decorations that speak a language of service and combat in every corner of the globe.

None of us here at home can fully appreciate the sacrifices and heroism for which these strips of colored ribbon have been awarded. But we can learn what they mean so we can recognize them on sight.

Here at Michigan Bell, we'll need the help of our returning veterans in the enormous

post-war job of expansion and improvement which we intend to push as rapidly as conditions permit.

In order that we may all welcome them with some knowledge of their wartime records, every Michigan Bell employee is being furnished with a pocket card illustrating and explaining various service ribbons.

These ribbons are badges of honor. The least we can do is to know what they mean.

FREE TO YOU AT MICHIGAN BELL OFFICES -

The same pocket card which illustrates and identifies service ribbons for Michigan Bell employees is yours for the asking. Telephone or stop at any Michigan Bell office for your free copy.

"The operation of the automatic washer was simply amazing to me. The only time my hands get wet is when I remove the damp-dry clothes from the washer. That's all. Of course, there will always be some work to ironing, but the ironer does a magical job of reducing it to a minimum. The ironer speeds through flat work and also simplifies handling shirts, dresses and wash suits. I almost forgot to mention my dryer. I don't have to worry about washday weather. I don't have the work of hanging up and taking down. No, sir. The dryer does the trick-gets clothes ready for ironing, and in just a few minutes, too. I'm looking forward to the time when all my friends also can ask. 'What's work about doing a wash?' "

Electric laundry equipment is not generally available for sale now. Some is being manufactured and distributed. It will be to your advantage to have your name on your electrical dealer's list, so that you will be able to get it at the earliest possible time.

Scarcely a day passes without some new use for electricity coming into being. No small number of the new uses are for the convenience of the family in the home. And so, many thousands of families are keeping abreast of the "new" in electrical appliances and refinements. You, too, can well afford to follow their example. For the old-fashioned way is a wasteful way, and the road to comfort and convenience in your home can be opened by turning on the electric life.
