The Reverend and Mrs. Walter C. B. Saxman have records of the favorite Christmas carols. They decided they would like to share this beautiful Christmas music with the people of the community. So, through the kindness of Robert Waters, they were able to get. Alfred Summers of the Electronic Engineering Service of Pontiac, to install a loud speaker in the belfry of the church and connect it to the machine in the house. The music can be heard in all directions and for several miles.

For many, World War II has ended and for many, World War The next waste paper drive in II will never end. There are those years that thoughts of those who made the supreme sacrifice and those who are away in some camp, have been o'ershadowed by the hustle and bustle of shopping and celebrating. However, in Clarkston, there is an orginization, The Service Mother's Club, whose thoughts have been with the boys far away and the boys who will be with us in spirit at this Christmas time. These sincere thoughts prompted the mothers to place at the base of the Township Honor Roll in front of the Township Hall, on Clarkston's Main street, a large wreath bearing the names of those men who gave their all. The wreath, which is made of magnolia leaves, has a diameter of 4 with tiny white rosettes. At the white and blue bow and at the bottom is a large gold star. The wreath is enclosed in a large case with a glass front. The back of the case is hinged so that access to the wreath can be made should

repairs be needed. The mothers had planned a dedication service but on account of the cold weather and so much sickness, they thought it wise to postpone it.

We are located between two small mountains and it makes the day kind of different from the ones we have back home. It is quite cold in the morning and then turns real warm in the afternoon. The ground is always wet and it makes it very uncomfortable when we have to lie on it.

Please excuse the writing and the spelling as you cannot concentrate around here because on Sundays it is like a mad house. By the looks of things I had better get used to the noise because they say that we will be here for seventeen weeks and then we have a 100 percent chance of going to the S. I suppose it would sound funny to hear a soldier write home and tell everyone to take care of themselves, but by the news that I have received I guess I am much safer in the Army.

From Bustles ...

TO BOBBED HAID.

To Belloy Sox

Big things have happened in women's fashions since 1904... and since 1918. Yes, and the big changes have taken place in the telephone system since bustles were

• In 1904, Michigan Bell had only 65,000 telephones. Total cost of buildings, equipment, wires, telephones, etc., was only 10 million investment dollars.

• By 1918 there were 260,000 telephones; the cost had risen to 38 million dollars.

 Beginning in 1945 there were 1,122,000 Michigan Bell telephones, and the cost stood at 242 million investment dollars.

You see, to add more telephones, and continually improve service, we must invest more money for central offices and switchboards, more for wire and cable - more for everything it takes to provide service.

Right now, 125,000 families want service that we can't supply. We already have started work on a 5-year \$120,000,000 program to enable us to fill waiting orders . . . to care for future growth . . . to resume extension of rural service . . . to put into use new technical improvements . . . and to give you the service you want in the future.

Rates charged for telephone service do not supply sufficient moncy for expansion. Such investment dollars must come from the savings of thrifty Americans willing to buy Bell System securities. And - in order to attract

their money - earnings must be sufficient to assure reasonable dividends, now and in the future. If not, those folks will place their money elsewhere.

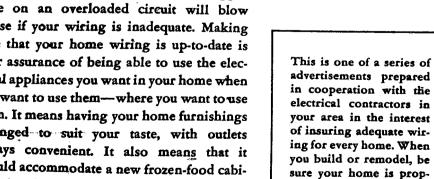

Too long a continuation of a rate of earnings substantially below that of other industries would weaken our ability t raise the money required to meet expected telephone needs. So the future quality of your telephone service depends on telephone rates sufficient to produce earnings attractive to investors.

Michigan Bell customers want good service. The telephone bill is so small an item in their regular expenditures that customers want really good service even though it might cost a trifle more than they would need to pay for inferior service.

Poor Albert is taking a beating during this holiday shopping season. His wife doesn't realize that his carrying capacity is already "overloaded." In fact, Albert is about to "blow a fuse." Similarly, one more electrical appliance on an overloaded circuit will blow a fuse if your wiring is inadequate. Making sure that your home wiring is up-to-date is your assurance of being able to use the electrical appliances you want in your home when you want to use them-where you want to use them. It means having your home furnishings arranged to suit your taste, with outlets always convenient. It also means that it should accommodate a new frozen-food cabinet, electric range, automatic laundry, electric dishwasher or any other electrical appliance you want. And, of course, if your plans for tomorrow include a brand-new home, adequate wiring is an "A-1" item to check in plans and specifications.

#### Loan Programs To Homemaker Groups

A new loan program service for nome extension groups and other organizations in the state is now being offered by the home economics extension department at anchigan State college.

The loan program topics deal with information in home economics or related fields. The material is in addition to that presented by specialists at training schools held in the counties four times yearly, explains Miss Rachel Markwell, state home demonstration leader Loan programs may be presented in talks by a leader or member of the club, or by panel or club discussion. Instruction sheets for the program leader are included.

The programs may be secured by writing to the Home Economics Extension Office, Michigan State college, East Lansing, Mich. First and second choices should be given as well as name, or organization, number of members, date of meeting, and name of person to whom the material should be sent. Requests should be made a month before the meeting date to allow ime for preparation.

Topics available are: Using less sugar in cooking, morale in the home, family relations-the foundation of human relations, your rural community, youth looks to your community, economic adjustments of the rural family, house

or final return for the federal in-

ome tax are being received by the

farm management department at

Arthur H. Haist, tax specialist

i the department, points out that

egulations are the same this year

s last. Either an estimate or the

final return must be made by Jan-

uary 15, 1946. If the final return can be made before that date, the

estimate is not necessary. If an

estimate is turned in before Jan-

uary 15, then the final return is

necessary on or before March 15. However, the farmer who has

been using a 12-month period other than the calendar year as the

basis for paying his income tax

may file his estimate 15 days af-
