TRY OATMEAL BREAD FOR TASTE DELIGHT

For a welcome change in winter fare and a boost in vitamins and minerals, there isn't anything better than oatmeal bread. It keeps moist in sandwiches and makes a hearty after-school snack.

To make two medium loaves: Add 2 teaspoons salt to 2 cups boiling water and stir in 1 cup rolled oats and 1 tablespoon shortening. Let stand about an hour or until lukewarm.

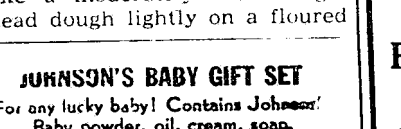

Crumble 1 cake of compressed yeast into a large mixing bowl; add 1 teaspoon sugar and 1/4 cup lukewarm water; let stand an hour, then add 1/2 cup brown sugar dissolved in 1/2 cup lukewarm water.

Stir 2 1/2 cups sifted flour into the yeast mixture; beat until smooth. Add the rolled oats mixture and enough more flour to make a moderately stiff dough. Knead dough lightly on a floured

surface. Roll out to 1/2 inch thickness. Cut into loaves. Bake in a moderately hot oven (425 degrees F.) for 15 minutes, then reduce heat to 375 degrees F. for 25 or 30 minutes more.

Presents Farm View of Strikes,

A successful strike by farmers would look like a pink tea, but thinking farm leaders are not considering a strike, R. B. Corbett, secretary of the American Farm Bureau Federation, said at an annual Conference on Rural Living held at Lansing, February 19th.

"Farm leadership will tell you that progress will be made when there is cooperation in labor and management, can agree that we need state leadership—not strikes," Mr. Corbett said.

Farmers have definite opinions on the underlying situation affecting strikes, he said. They are aware that production is fundamental and that higher wages and higher prices are meaningless without production.

"Production cannot be obtained without incentives. After all, most men are as lazy as they dare be. Protect a man in laziness and you will not get production. No individual or organization can dodge this fact."

As for strikes and lockouts, Corbett said both corporations and labor unions must take responsibility for their acts. If the activities of any groups result in the destruction of property, that group must take responsibility for it.

Prominent Citizen Taken By Death

A. T. Stewart, former fish hatchery head, passed away last Friday night in Atlanta, Ga., following a heart attack which he suffered while attending the theatre that night. Three weeks ago Mr. and Mrs. Stewart flew to Atlanta to visit their son.

Mr. Stewart was born in Wixom June 30, 1870. For a few years after he left school he worked in a furniture factory in Northville. In 1893 he took up fish propagation work which he served as head of the largest hatchery of its kind in the nation. He started in a minor position with the United States Bureau of Fisheries at its Northville plant and most of the 28 years he was there he served as superintendent of the hatchery. In 1921 he was appointed state superintendent of fish hatcheries and acted in that capacity until he came to Drayton Plains 23 years ago. While at Drayton Plains Hatchery a great expansion program was carried out.

Mr. Stewart was responsible for the restocking of hundreds of the lakes in southeastern Michigan. Many of these lakes had been fished out but through his efforts most of them now furnish better fishing than ever before. In 1943 Mr. Stewart retired at his own request and was succeeded by Harold L. Hughes who had worked with him for many years. However, he continued to make his home in Drayton Plains and at various times had returned to the hatchery to help with some extra work.

Besides his widow, he is survived by two sons, Russell A. Stewart of Atlanta and Howard M. Stewart of Drayton Plains and six grandchildren.

The funeral service was held on Wednesday afternoon at the Drayton Plains Community Presbyterian church with the Reverend C. J. Sutton officiating. Burial was in Drayton Plains cemetery.

THE OLD JUDGE SAYS... HENRY: "I've heard that same thing several times lately... that alcoholics are really sick people. It was news to me. Do you agree with that statement, Judge?" OLD JUDGE: "Yes, it's true, Henry. It's no notion of mine... it's a statement made by scientists who have studied the subject." HENRY: "What did they find out, Judge?" OLD JUDGE: "Well, as a result of their medical research, they found out that approximately 95% of the people who drink, drink sensibly. 5% do so unwisely, at times. Included in that 5% is the small percentage known as alcoholics." HENRY: "But why are they called sick people?" OLD JUDGE: "Because it has been discovered that, in many cases, excessive drinking is a symptom of some physical or emotional maladjustment... not the cause of it." HENRY: "Now I understand it, Judge. I am glad to hear of the modern approach to this problem and that so much is really being done to help these folks."

"Kitchen" is Note At Meeting Of Homemakers
The kitchen is the homemaker's work shop. "Improve your Kitchen Cupboards," is the subject for the training school of local leaders to be held according to the following schedule:
March 5th at Pontiac, 52 1/2 Wayne street; March 8th, Oxford at the high school; March 12th in Holly at the Council room; March 14th at Rochester in the Avon Township hall.

The meeting at Pontiac will be conducted by Miss Julia Pond, Extension Specialist in home management. The other five meetings will be conducted by Mary Woodward, Home Demonstration Agent.
"More places for things," is the cry of most homemakers. Every woman, however, can make better use of the present kitchen. Old cupboards may be improved by replacing or adding shelves, building partitions, adjusting work surface heights, and providing for additional work table space. This same information can be used by families who are planning to remodel their kitchens or to build new homes. The local leaders will not only discuss ways of increasing storage space but also where to store different articles in cupboards. For further information contact the county extension office at 15 1/2 West Huron street in Pontiac, 14, Michigan.

Our Policy on NEW CAR ORDERS

in accordance with fair procedure

We are now accepting orders for earliest possible delivery of new cars. However, as you know, there are not enough new cars for all who want them. Therefore, we want to make a clear statement of our policy . . . so that everyone will know exactly how we are handling orders for and delivery of new cars during the current shortage period.

- 1 We intend to fill orders for new cars in the order in which they are received. There are two exceptions to this basic rule—
- 2 We will definitely reserve a percentage of our cars for those who have served in the Armed Forces. We feel sure that all our customers will agree with the justice of this exception.
- 3 If definite need for a new car is a factor, we will, in the public interest, determine such cases on the basis of the now abolished, but publicly accepted, OPA priority lists.

This policy is in your interest. We are following it because we want to serve you fairly and as well today as in the past. The Ford Motor Company and we ourselves are making every effort to deliver your new car promptly and honestly.
