Spring Dance Draws Huge Crowd

A large gathering of World War I and II veterans, their ladies and friends stepped out on the floor of the high school gym on Saturday night to the strains of Chuck Chandler's theme song, "Blues," played the way Clarkston likes it. Amid a veritable bower of spring flowers, flags and Chinese lanterns the crowd enjoyed a full evening. A vocalist accompanied the well known band and rendered many pleasing selections. Circle dances mixed the crowd and created lots of fun. Refreshments were served by the Auxiliary during intermission.

Distinguished guests included Colonel Whitney A. Smart of Ferndale, chairman of the Child Welfare Committee of the seventeenth district of the American Legion, who introduced L. Harvey Lodge, chief assistant prosecuting attorney of Oakland County, who was guest speaker at Pontiac's Army Day program on Saturday afternoon. He, in turn, introduced Captain Frederick A. Trumpf, army recruiting officer for Pontiac and Oakland County.

The Legion and Auxiliary were highly commended on the fine party and received special comment on the number of World War II veterans present. Many requests were received from patrons for a May Dance with Chuck Chandler's band furnishing the music. The auxiliary will put forth every effort to make this possible.

The Auxiliary wishes to thank the Clarkston Rotary Club, the Board of Education and the high school personnel and all committees who made such a pleasant evening possible. It was a Spring Frolic in every sense of the word.

P. T. A. To Hear Rev. Voltan Irshay

Clarkston is very fortunate in having the Reverend Voltan Irshay as the guest speaker at the P. T. A. meeting next Wednesday night. Rev. Irshay is the director of the Delray Christian Neighborhood House in Detroit and is a very fine speaker. His subject next Wednesday night will be "What Americans can do toward assuring Peace." Everyone in the vicinity, whether members of the P. T. A. or not, are invited to take advantage of this rare treat and be at the school on the night of April 17th at 8 o'clock.

Also on the program will be some very fine music. Mrs. Martin Wager of Waterford and Mrs. Virgil Campbell of Clarkston will play the last two movements of "The Sonata" for violin and piano by Cesar Franck.

At the business meeting the new officers will be installed and at the close of the evening the Orlo W. Willoughby and Mrs. Ralph Secord in charge, will serve refreshments.

Stork Shower Held Wednesday

Last Wednesday Mrs. George Willis and Mrs. Keith Lowrie entertained at a one o'clock luncheon and stork shower at the Lowrie home honoring Mrs. Allan Hinz.

The luncheon table was centered with pink and white snapdragons and the places were marked with pretty little stork favors. During the afternoon appropriate games were played and lovely gifts were presented to the honoree.

The guests were from Clarkston, Waterford and Detroit.

The Hilltopper ECONOMICS CLASS HEARS MR. TERRY

Last Thursday, April 4, Mr. Terry spoke to the Economics class on his business—groceries. Buying is the first step in the trend of business. For wise buying one must get good quality and good quality means higher price.

There are three departments in Mr. Terry's Store: meat, produce and bakery goods. The meat department is cut up first, priced according to OPA and displayed nicely. The produce must be trimmed and attractively displayed. Dry groceries must be kept fresh and that too must be neatly and attractively displayed.

The store must always be neat and clean and foods arranged as to be eye appealing to the meal planning customer. That brings in another phase of the grocery business which is the cleaning that keeps the store bright, and then, too, there is the bookkeeping, which must be done for your own efficiency and because there is a Federal law which requires that a business keep a complete set of books.

Usually there is no special training outside of high school required to work in the store, since the owner likes to teach his own way of doing business. One planning to own a store should get as much education as he can.

One must be physically fit because there are long hours of hard work. One must be able to get along with people and to be broadminded about them. A successful merchant should take part in civic and social functions. The owner gradually learns more and more how to get along with people if he keeps an open mind toward the public. He also must keep up with the trend of business.

The amount of money that one makes varies. It depends on the amount of money invested, the location and the amount one wants to work.

The advantages are that you are your own boss; your contacts with people and community; you have good conditions to work under and the surroundings are nice.

The disadvantages are that one doesn't have as much capital as he would have in a partnership and must always make all of the decisions.

The ethical standards in this town are very high because all of the merchants are very friendly toward each other.

Rosemary DePiazza, a student nurse at Highland Park General Hospital, gave a very interesting and instructive talk before the class on Friday, April 5. Rosemary graduated from Clarkston High last year. She invited the girls of the class to visit the hospital on Wednesday P. M. of this week.

Several accepted and had a very enjoyable and enlightening time. Today Mr. Harold Kennedy is coming to speak about the work of a mortician.

WOMEN HATERS ???

"A woman is a horrible thing!" At least, that's what the boys on the Hilltop think (this week). The males officially declared the past week "Woman Hating Week."

Dear Mr. Stamp:
I really should have written this letter long before now but seeing as I haven't, here goes.

First of all, I want to thank you and the Service Mothers Club for the Clarkston News which I receive as regular as possible. It is really a welcome paper and it helps a guy catch up on all of the things that he misses most.

I wish you would stop sending the paper because I expect to start for that part of the world just as soon as "Shipping becomes available," as the Army says.

I will close this note for now and hope to see all of you soon.

Sincerely,
Sgt. Willis Ross

Boy Scout News

Last Saturday we went to Detroit and saw many interesting things. Among these were the following: the Flower Show with its many beautiful exhibits; the Army Day exhibit of 3 tanks, 2 airplanes, a quack, a hat full of army uniforms and many jeeps. We also visited the Detroit News, where we learned many facts about newspapers. From the News we went to the Radio Station, WJW, by way of a tunnel under the street.

Saturday night we went on a hike out to Mr. Ivonen's farm. There were 8 scouts present, most of whom passed some requirements at their ranks.

At the scout meeting on Monday we had re-registration. Seventeen scouts were re-registered. Two new candidates came. They are Kenneth Ross and Earl Budrow. After this we played "steal the bacon." We closed our meeting with the scoutmaster's benediction.

Achievement Day Tuesday, April 23

The Home Extension Achievement Day will be held at the Congregational church in Pontiac on Tuesday, April 23, beginning at 10:00 a. m. The women of the church will serve a luncheon at the church at 12 noon. Reservations and money for tickets must be sent in by April 15th, to Miss Mary Woodward, 15 1/2 W. Huron St., Pontiac. Austin Grant will be the speaker of the day.

The boys went their separate ways as if no such thing as a female existed in existence. Some of the weaker males refused to ban with them or forgot themselves and became sociable with the ladies. We hear there was a committee that took care of that bunch quite well.

I suppose you are wondering how the girls took this. Well, as a whole, they got quite a big laugh out of it. Everything in their power was used to "blitz" the boys into a friendly word so that they would meet their fate from the rest of their sex. Finally, after that plan proved quite unsuccessful, they agreed to forget, for the time being, to curl their hair, wear make-up or make themselves attractive in any way. The girls turned out clad in dungarees, baggy slacks and old sweaters. If they were to be ignored, they were going to make it complete.

We are all wondering what the outcome will be. Will the girls have a "man hating week?" We hope that things will be normal once again next week.

Several oranges were left in each homeroom and about half a bushel was put in the home economics refrigerator last week. Mr. Ben Powell had made the generous gift of a bagful of Florida oranges which he brought from the south. The oranges were juicy and tasty. We wish to thank Mr. Powell for his nice gift.

Curtis, director of customer relations for the Michigan Bell Telephone Co., who talked about the contribution made to the war by the Michigan Bell Telephone Co., and its subsidiaries. He mentioned the \$150,000,000 post war program for Michigan and stated that Michigan Bell expects the Pontiac exchange to be nearly three times as large in 1950 as it was in 1939 and for that reason will install a great deal of central office equipment to handle the increased number of calls. \$100,000 worth of equipment will be put in this year and another \$275,000 in the following four years. This year's projects alone involve \$366,000, of which \$42,000 is for new cables in the Drayton Plains, Waterford and Clarkston sections. It is scheduled for completion early this summer. Mr. Curtis concluded his talk by saying that a dollar spent for telephone service today buys much more than it did 20 or even 10 years ago.

House Passes Petrillo Bill

This week the U. S. House of Representatives, by an overwhelming margin, voted to approve the conference report on the Petrillo Bill, legislation long sought by Congressman George A. Dondero of the 17th Michigan District. Upon approval of the conference report by the Senate, the bill will go to the President for signature.

Briefly, the bill, as approved by the House, declares it to be unlawful, by the use of or the threat of the use of force, violence, intimidation, duress or other means to coerce, compel or constrain a radio broadcaster to do any of the following:

1. Employ personnel in excess of the number needed for actual service.
2. Pay tribute in lieu of employing excess personnel.
3. Pay more than once for service performed.
4. Pay for services not performed by the recipient.
5. Refrain from broadcasting non-commercial programs for which performers receive no money other than for expenses.
6. Refrain from broadcasting any radio program originating outside the United States.

Interference by James C. Petrillo with the broadcasting of Interlochen programs gave rise to Congressman Dondero's initiation of legislation to put an end to coercion and intimidation to keep non-commercial cultural radio programs off the air.

Buy your ticket from a scout while they are available. The proceeds will be used for buying tents to be used at the annual jamboree in June.
 Members of the Lutheran Guild have tickets for the annual Mother and Daughter Banquet which they are sponsoring at the Club House on April 30. The public is invited to this banquet.
 About one hundred persons enjoyed the Open House which the Woman's Club sponsored last Sunday at the Club House. The ladies were very proud to show Friendship Hall, which they so recently decorated and furnished with the able assistance of George Carter. The group was happy to present Mr. Carter with a gift on Sunday in appreciation for his help.
 Two years ago this building was purchased and through the untiring efforts of both the men and women the whole building is now in use and in much demand. There are five rooms which can be used for meetings as well as the Scout's club room in the basement and 2 kitchens. The building is used for all types of programs and is enjoyed by many. The community library which is housed here is really growing and is a project to be very proud of.

MURDER BY STARVATION
 Reminiscent of the brooding horror of an Edgar Allan Poe shocker is the true story of a Viennese socialite who methodically beat, tortured and starved her 14 year old housemaid. Read "Murder by Starvation," by Peter Levins, in The American Weekly with this Sunday's (April 14) issue of The Detroit Sunday Times.

SELECT YOUR PHYSICIAN WITH CARE AND CONFIDENCE

★ The study of medicine is a selective process in itself. Seven years of intensive study in college, plus one year of practice in a hospital, are the minimum requirements. It is wise to trust your precious health only to a conscientious physician of recognized standing. Avoid the quack, the charlatan, the "cure all" type of doctor. Almost invariably they do more harm than good. Select your physician as you should your pharmacist—with care and confidence.

When your physician writes a prescription, bring it to us to be filled. We are specialists at this work.

DARDLING & COMPANY

It's a neat trick

but we can't do it

ADVENTUROUS little boys risk their hides on hazards like this every day. But most grown-ups shy away from risks—especially if they have a responsibility to other folks. Here at Michigan Bell, we have a vital 24-hour-a-day responsibility to millions of Michigan people. We have to keep our feet solidly on the ground.

This rule applies to every phase of our business, including the company's earnings. Good telephone service depends on adequate earnings, and we must avoid any risks that might jeopardize them.

Here is why. Thousands of thrifty people have their savings invested in Bell System securities. Their money makes good telephone service possible. In fact, Michigan Bell's 5-year \$150,000,000 expansion program will be financed by these and other investors. And that program will provide more and better telephone service for you.

So you see, our earnings are important all around. And telephone rates—such a small part of your monthly budget—must be maintained at a level which will keep our earnings adequate. Otherwise, investors would put their money into some other business, and the future quality and extent of your telephone service would suffer.

We believe our customers want good telephone service, even if it costs a trifle more than inferior service.

Technical improvements in the past brought rates for good service down and have kept them down in the face of rising costs. As rapidly as future improvements will permit, we expect and want our rates to come down still further. For, Michigan Bell wants rates no higher—and no lower—than necessary to insure good telephone service.

The Proven Way

To Greater Farm Income—

Mow curing of hay is a practical and efficient method of producing more higher-quality hay from the same field. It is a proven method which has been put to use by hundreds of farmers—and the system pays for itself in one season.

Hay is allowed to dry in the field for 4 or 5 hours, during which time the moisture content is reduced from 75% to 45%. The hay is then stored in the mow—on the same day it is cut—and the curing is completed by forcing air through it with an electrically driven fan.

Mow Cured Hay Is the Best Substitute for Fresh Pasture

Forage crops can be cut at the right stage of maturity and cured in a way that conserves the leaves and most of the green color. The result is hay with double the protein and carotene content. In your herd this higher quality hay means better physical condition, longer productive life, greater milk production, and milk of greater vitamin content—all of which means greater profit to you.

Consult our Farm Service Advisor at the nearest Detroit Edison Office. He will be glad to give you detailed advice on a mow hay curing system especially suited to your needs.
