CLARKSTON, MICHIGAN, FRIDAY, MAY 10, 1946

Denton-Sands Vows Spoken Saturday

The Clarkston Methodist church was the scene of a pretty wedding last Saturday afternoon at 2:30 o'clock when Helen Denton, daughter of Mrs. Charles Denton of Clarkston and Robert Sands, son of Mr. and Mrs. Ernest Sands of River Rouge spoke their marriage at a double ring ceremony performed by the Reverend Walter C. B. Saxman.

The bride, given in marriage by her brother, David, was attractive in a princess styled, white silk jersey gown with flowing train. Her fingertip veil of illusion was caught to a tiara of pearls shaped into sprays of orange blossoms. She carried white carnations and snapdragons.

Evelyn McAtee of Dearborn and Mildred Snyder of River Rouge, as bridesmaids, were dressed alike except that Miss McAtee's gown of satin and net was blue and Miss Snyder's pink. Their matching shoulder veils were held in place by halos of starched net. They carried pink and white carnations tied with contrasting ribbons.

Roy Sands assisted the bridegroom as best man and seating the guests were Robert, Jack and Frederick Denton, brothers of the bride.

Mrs. Denton and Mrs. Sands were both attired in dark ensembles and wore corsages of pink rosebuds.

Following the ceremony a reception was held in the church parlors. Jean Dunn and Jean Reeder of Detroit and Mrs. Jack Denton presided at the tea table.

For travelling Mrs. Sands chose a spring print dress with black accessories. After a short wedding trip the young couple will make their home in Ecovase.

The bride is well known in Clarkston having attended the local school. She graduated from the high school and was salutatorian of the class of '45.

Mary Circle Has May Breakfast

On Tuesday the Mary Circle of the Methodist W.S.C.S. met at the home of Mrs. Garnet Poulton for a May breakfast and the regular business meeting. The breakfast was served to 23 Mrs. Briggs and Mrs. Glennie were guests. Mrs. Glennie became a member. The breakfast tables were centered with pretty arrangements of Iceland poppies. Assisting Mrs. Poulton were Mrs. Roy Gundry, Miss Floss Hubbard, Mrs. Lloyd Sibley, Mrs. Roy Spencer and Mrs. W. H. Stamp.

Following the breakfast the group sewed cancer pads and by the time the business meeting opened about sixty pads were ready for delivery. Mrs. Lloyd Sibley, chairman, opened the business meeting with a tribute to Mrs. Owen Virgin who passed away since the last meeting. The group sat with bowed heads while Mrs. Sibley read the 23rd Psalm. Mrs. O'Dell, who lead the devotions, read a short but interesting article on "Building Peace".

The Mother and Daughter banquet on May 18th was announced and also the rummage sale at the Township Hall on May 24th and May 25th. Committees were appointed to have charge of the Rotary Club dinners during July. Mrs. Lee M. Clark read a letter from the church board thanking the women for their share in helping to improve the appearance of the interior of the church. Mrs. Roy Gundry read a short article on "African Babyhood".

After the business meeting the group enjoyed a guessing game with Mrs. Glennie and Mrs. Clark winning the prizes.

Henry Huber Announced Valedictorian; Joyce McCann Receives Second Honors

The top honor this year was achieved by Henry Huber. Henry was born on February 4, 1929, in Moline, Ill., the son of Mr. and Mrs. Henry Huber.

Henry Huber

He attended school in Pontiac and Lansing and came to Clarkston school in the 6th grade. All through grade school and high school he has maintained an average of 3.46. His favorite subjects are science and mathematics.

Henry is an Eagle Scout and is Junior Assistant Scout Master and he is business manager of the yearbook the "Hilltopper". His favorite pastime is camping and this summer Henry will spend some of his vacation hours at the Wolverine Boys' State in East Lansing.

He plans on a college education if possible, in engineering at Michigan State or University of Michigan. Mr. Huber, his father, is a mechanical engineer at Reo Motor Corporation.

Second place honors this year were achieved by Miss Joyce McCann. Joyce was born on June 5, 1928, in Clarkston, Michigan.

Obituary

Lillian Beatrice Quick
Last Friday Mrs. Lillian Beatrice Quick of White Lake Road passed away in Goodrich Hospital. She was born in Clarkston on July 14, 1928, the daughter of Mr. and Mrs. Clarence Gilbert. On October 9, 1944 she was married to George Quick.

Besides her husband she is survived by her parents, four sisters, Mrs. Ruth Cowell and Mrs. Leola Grech of Pontiac and Dorothy and Geraldine Gilbert, at home; four brothers, Charles Gilbert of Rochester and Lloyd and Jerry, at home. The funeral service was held at the Oden-Kennedy Funeral Home on Monday afternoon with the Reverend Walter C. Ballagh, pastor of the Clarkston Baptist church officiating. Burial was in the Ottawa Park cemetery.

Funeral services were held at the home of the deceased on Monday afternoon with the Reverend Walter C. Ballagh, pastor of the Clarkston Baptist church officiating. Burial was in the Ottawa Park cemetery.

Second place honors this year were achieved by Miss Joyce McCann. Joyce was born on June 5, 1928, in Clarkston, Michigan.

Joyce McCann

She began her schooling at Waterford Village School and continued there through the tenth grade. In September, 1944 she transferred to Clarkston for the remaining two years of high school.

All through grade school and high school she has maintained a high scholastic record, graduating with an average of 3.41.

Joyce has been active in all school events. She is treasurer of the Senior Class and editor-in-chief of the yearbook the "Hilltopper". Joyce has no plans after graduating but believes she would like to do something along the secretarial line. She is the daughter of Mr. and Mrs. Ralph McCann of 6201 Maybee Road.

JANET NELSEY IS TWO YEARS OLD

On Tuesday afternoon Mrs. Orville Nelsey of Clarkston Station entertained a group of little folks at her home honoring her daughter, Janet, on her second birthday. The children had a good time from 2 until 4 o'clock and then had birthday cake and ice cream.

Janet received many pretty gifts and the best wishes of her little friends.

The guests included Mary Jo Ephraim, Carol Orr, Sharon and Neal Norgrove, Ellison Murton, Marsha Ann Marshall and Gail and Harold Weston.

JUNIOR LITERARY CLUB MEETS IN PONTIAC

The Junior Literary Club met in Pontiac last Thursday night at the home of Mrs. Charles St. John. All the members answered Roll Call which was in the form of a spelling bee.

At the short business meeting plans were completed for a Mother's Day party at the home of Mrs. Harold Weston on Womple Drive on Thursday evening, May 16th.

After the usual Penny March Mrs. Arthur Hesburn gave a very interesting paper.

The evening closed with the serving of dainty refreshments by the hostess.

Coming Events

May 17th, Friday evening—The W. S. C. S. of the Seymour Lake Methodist church will serve a roast beef dinner at the church house. Serving will start at 5:30 o'clock. The public is invited.

needed for shipment abroad, and can maintain good diets "at home". —Clinton P. Anderson, secretary of agriculture.

Our Boys and Girls In the Service

Mrs. Elizabeth Ronk has received several interesting letters from John who is now stationed in Okinawa. The following are excerpts from two or three of them:

Okinawa
Sun. 14th, 1946
9 p. m.

Dear Mom:
Well we have finally reached our goal. We have been wading in mud all day and it is just the beginning of the rainy season. We are living in tents and wooden huts. The sides are wood and the roofs are canvas. There are twelve men in our hut and we are really going to live in luxury compared to the rest of the guys. They live in tents that have no floors but we have a good solid wood floor to stand on.

We left Seattle at 5:00 p. m. on the 1st and we dropped anchor in the harbor at 4:06 on the 13th. We had a fairly good trip and it was really a lot to see—water on the right, left, forward and behind you and that is all we saw for 12 days, except for one tanker that we saw on the horizon.

I will try to tell you something about the trip. We boarded ship, "U. S. S. Admiral H. Rodman" at 5:00 p. m. We were stationed in our quarters and then went on deck to watch everyone wave 'goodbye' as we left (very touching, ha! ha!). The next day we were awake at 6:30 and went on deck but couldn't see land anywhere. The water was quite calm around where every door and passageway led to. On Wednesday when we woke up we had a funny feeling. Some guys were just lying in bed not even wanting to get up for chow. I felt kind of weak but I got up and ate and felt better. The next day the sea was quite rough and it was making some guys real sick. They would have jumped overboard if they had thought that they could have made it back to land. I felt a little worse than I did on Wednesday but I wasn't really sick. On Friday the water was quite calm all day though it was very windy. We saw some dolphins but they were quite a ways away. I felt better today. On Saturday the sea was as rough as we had ever seen it but we were soon changing our minds about that. We saw more fish and this time they were quite close and we got a good look at them.

Gulls followed the ship all day and it was really a sight to watch them swoop down real low to the water and go out of sight between the waves.

On Sunday we attended church services on number five hatch. It was quite windy and rained a little bit. We just sat around all day and read anything we could get our hands on. On Monday we crossed the international date line and lost a day. That was my first six day week. The sea was fairly calm on Tuesday but on Wednesday it was really rough. We were to hit a storm but only got a part of it. It was foggy all day and they used radar and blowing whistles all day. On Thursday it was foggy in the morning but cleared some in the afternoon. We started to notice how warm it was getting. We had showers every night on deck. We went to them regardless of the weather. About 9 p. m. it really poured rain but we watched the show anyway.

On Friday it was very hot. I really got a good sunburn. On Saturday it was very hot again but cooled a little about 2 p. m. and it was a welcome sight. A few minutes later we saw Okinawa and dropped anchor at 4:06. It got so hot in the bay that we slept on deck. We left the ship at 11:00 a. m. in L.C.T.'s. They are a little smaller than the L.S.T. but they still get over 400 men on each one. As we hit the beach it started to rain and that made everything a mess.

I will tell you more about the place when I get a chance to see it. There are six air bases and seven golf courses. This certainly isn't a place of beauty as it has been shot to pieces.

Don't worry because I guess that I can survive for a while anyway.

All my love,
John.

A later letter says that the place isn't quite as bad as at first because the mud had dried up and a couple of days had gone by without rain. In the next letter he says the island is 60 miles long and about 20 miles wide in the widest places and about a mile wide in some places. They were running around the island in jeeps. He says he got a break when his "second lieutenant", a swell guy, gave him an M.O.S. 746 which is "airplane mechanic". In his last letter he says the temper-

Annual Musical Tea Wednesday, May 15

The Clarkston P.T.A. is sponsoring a Musical Tea at the school on Wednesday, May 15th, for the benefit of the school's elementary library. The fact that the library project was started only a year and a half ago and there are now approximately 400 books on the shelves is proof that much can be done if the parents and friends of the school cooperate.

The program for the Tea is varied and promises to furnish a fine afternoon's entertainment. From 2 to 3 o'clock the parents are invited to visit the classrooms and they are urged to visit the elementary library. A group will be present to care for the little children while the parents attend. From 3 until 4 there will be a musical program as follows: Violin solo by Spenceley Butters accompanied by his mother, Mrs. A. E. Butters, at the piano; Piano solos by Allan Porritt, Caroline Yoder and Norma Terry; a group of songs by Loisjune Raese and a group of songs by Orlo J. Willoughby; an instrumental trio by Mrs. Virgil Campbell, violin, Mrs. Martin Wager, cello and Mrs. William Watson, piano; two 2-piano numbers by Mrs. Watson and Mrs. Wager. From 4 to 5 there will be a social hour with "Tea".

If you are interested in furnishing a book for the library all you have to do is contribute \$1.50 and a book will be purchased and your name will be inscribed on a name plate in the front of it. There is plenty of room on the shelves for many more books. The library is open one day each week with volunteer help.

Remember the date of the "Tea" is Wednesday, May 15th. Plan to attend.

WESLEYAN GUILD ELECTS OFFICERS

The Wesleyan Service Guild of the Methodist church met at the church last Monday evening. A delicious dinner was served by Mrs. Lee M. Clark, Mrs. Agnes Beardsley and Marjorie Vliet.

At the business meeting the following officers were elected: president, Mrs. Wallace Ridgley; vice president, Mrs. Howard Boyens; secretary, Mrs. Robert Waters; treasurer, Mrs. Elizabeth H. Ronk.

The next meeting of the Guild will be on Monday evening, June 10th.

MOMS AND GIRLS TO BANQUET THURSDAY

Have you made reservations for the Mother and Daughter banquet at the Clarkston Methodist church next Thursday evening, May 16th? The tickets are limited to 150 persons and after this number has been sold no more reservations will be taken. In order to have a place at the banquet you must have a ticket before reaching the dining room. It would be wise to make your plans now.

MRS. PAUL HENRY IS HOSTESS TO CIRCLE

On Tuesday afternoon the Martha Circle of the Methodist W.S.C.S. met at the home of Mrs. Paul Henry on Orion Road. At 12:30 a luncheon was served at a table with an attractive arrangement of sweet peas as a centerpiece.

There were ten members and two guests present. The two guests, Mrs. Herbert Baynes and Mrs. C. J. Cheeseman became led the devotions. During the business meeting the women busied themselves making cancer pads. Committees were appointed for the Rotary Club dinners and also for the Mother and Daughter banquet. Donations for the rummage sale on May 24th and 25th were mentioned and the members were asked to notify their friends and neighbors that all contributions will be gratefully received. Take all articles to the Township Hall on Thursday, May 23.

Mrs. William Dunston assisted Mrs. Henry.

Waterford-Drayton Rotary Club News

The Waterford-Drayton Rotary Club enjoyed a dinner dance at the historic Botsford Tavern on Grand River on Wednesday night. Besides the wives and families of some of the members and a few special guests, the guests from out of this vicinity included Harry O. Cromie Palmer, governor of the 153rd District, Rotary International, and Mrs. Palmer of Walkerville, Ontario; Joseph Brady, governor-elect of the district and Mrs. Brady of Howell, Mich.; and Mr. and Mrs. Joe Haas of Holly.

Before the dinner the group had a good time visiting. After entering the dining room the ladies were each given a beautiful rosebud corsage. Cliff Schoenals gave the invocation. After a delicious dinner Norman Roth, president of the club, introduced the special guests. Governor Palmer spoke briefly and thanked the club for their cooperation during his term of office and wished them well in the years ahead. George H. Kimball then introduced the speaker of the evening, Joe Haas of Holly.

Mr. Haas, who has made quite a study of "the tavern" and its origin. He mentioned many of the taverns that existed on the Dixie Highway, then the Saginaw Trail. The history of Botsford Tavern as told by Mr. Haas was very interesting. This was the third time Mr. Haas had been the guest speaker for the club and feeling right at home with the members he felt free to express many witticisms.

Shortly after 9 o'clock the crowd went to the ballroom on the second floor and had a good time dancing. The very capable master of ceremonies kept the square dances going smoothly which made the dances a real pleasure, not only for those taking part but for the onlookers as well.

The consensus of opinion when the lovely affair ended was summed up in one idea—"When will the club have another guest night?"

Temperature is 124 degrees and they claim that isn't even summer weather yet. In this letter he enclosed some Japanese military currency—one yen and ten sen. 100 sen equals one yen and 15 yen equals one dollar.

Methodist Choir Gives Concerts

Last week the choir of the Clarkston Methodist church was kept busy when they presented three programs, one in Clarkston on Wednesday night, in Romeo on Thursday night and in Lake Orion on Sunday night.

Those who heard the program were delighted. Many of the folks here remarked that they were surprised to find out that Clarkston had such a fine group of singers.

The program included sacred as well as secular numbers. Among the soloists were Mrs. Orlo Willoughby and Mrs. William Mansfield who sang "The Lord's Prayer" by Malotte, Adele Thomas played a piano solo, "Rhapsody in Blue" by George Gershwin and Spenceley Butters played two numbers on his violin, "Romance" by Svendsen and "Spanish Dance" by Rehfeld. Ruth Davies was the piano accompanist for Spenceley. Adele Thomas and Mrs. Evert Campbell presided at the organ and piano for the chorus numbers.

One of the numbers that was especially liked by the audience was "The Galway Piper" by Clough-Leigher. The chorus made the story in this song really live and the pretty piano accompaniment helped you visualize the piper as he played the bright, lilted tunes.

The whole program was a credit to the leader, Orlo J. Willoughby. He spent many hours planning the concert but he proved that a great deal can be done with the individual's singing voice with a little effort and enough practice.

This was the second annual May Festival presented by the choir. The folks who heard the program last year say that they are getting better all the time and will be looking forward to hearing them next year.

Grand Opening and House Warming

As a grand opening and house warming there will be a dance at the Edw. D. Whipple garage on N. Main St., Clarkston, on Friday night, May 17th from 9 until one o'clock. The Waterford Community Melodiers will be featured in modern and square dancing. The public is invited to attend this very unusual affair.

The dance is a benefit for the local American Legion Post. Edw. D. Whipple who is a member of this Post has recently built the large show room to house the new Pontiac cars and the large service room where the dance will be held.

Clarkston Locals

Several of the young people from Clarkston attended the Youth Fellowship sub-district rally at the St. John's Methodist Church in Pontiac last Sunday evening. Patricia J. Watson led the devotional service.

Community Activities

The Oakland County Council of Parent-Teachers Association will meet at the Club House for an all day meeting on Friday, May 17, with Waterford as one of the hosts. There will be a pot luck dinner at noon. As many as possible are urged to attend.

Lost: A tray from the new cart at the Club House disappeared last weekend and the ladies would appreciate the return of it in the near future.

About three hundred youth enjoy getting together each Wednesday evening. The hour for this get-together is from 7 until 10.

At the Community Sing Tuesday evening the group voted to postpone the Sing until next fall when everyone isn't as busy as they are now.

The heads of the different groups from Community Activities, Inc. met at Knoty Pine Inn Tuesday evening for a dinner meeting with Bonner Crawford and made plans for a future meeting with all heads of the Community groups with George Kimball as chairman in the near future. Harry Harrop conducted Tuesday's meeting.

Holly Theatre

"The Friendly Playhouse"

FRI.-SAT., May 10-11, 2 Big Features. Ruth Nelson, Dorina Chilton in "THE GIRL OF THE LIMBERLOST". Penny Singleton, Arthur Lake in "LIFE WITH BLONDIE".

SUN.-MON., May 12-13, Randolph Scott, Ann Dvorak, Edgar Buchanan in "ABILENE TOWN".

TUES.-WED.-THURS., May 14-15-16, Charles Boyer, Lauren Bacall, Peer Lorrie in "CONFIDENTIAL AGENT".

Preacher-Scientist Comes to Clarkston

Vivid full-color scenes from astronomy and natural science are featured in "The God of Creation", sound motion picture to be shown at 7:30 o'clock Monday night, May 13, in the Baptist Church, 54 South Main Street, according to the Rev. Walter C. Ballagh, pastor.

Produced in the West Coast laboratory of Moody Bible Institute by Irwin A. Moon, Sc. D., "The God of Creation" is the second in a series of evangelistic films. The first film by Dr. Moon, "They Live Forever", had a large showing in all parts of the country.

The program included sacred as well as secular numbers. Among the soloists were Mrs. Orlo Willoughby and Mrs. William Mansfield who sang "The Lord's Prayer" by Malotte, Adele Thomas played a piano solo, "Rhapsody in Blue" by George Gershwin and Spenceley Butters played two numbers on his violin, "Romance" by Svendsen and "Spanish Dance" by Rehfeld. By The Way

The weather is always a timely subject and no doubt everyone is going about shivering and wondering about the fruit crop but the weather is one thing you cannot do much about so you might better enter into the doings about town wholeheartedly and forget about it. These are busy days for most of the folks in town—the dance at the school tonight after the Junior-Senior banquet—Mother's Day on Sunday when special messages will be heard in the churches—the musical tea at the school on Wednesday afternoon—the Mother and Daughter banquet at the Methodist church next Thursday evening—the Housewarming Dance at Edw. Whipple's garage on Friday night, May 17th—the rummage sale at the Township hall on May 24 and 25—the Poppy Day Dance at the school on Friday, May 24 and many other affairs that have not been reported. This morning we do come to this office of wilful destruction of property in this locality. Everyone realizes what the housing situation is at the present time and those who are trying to build know what it is to try and get material. It seems that a few houses are being built on Walton Road just about a mile east of the school. There are four of these houses already ready for occupancy. Some one from here or elsewhere has thrown large rocks through the siding, broken windows and wrecked door frames. This is a pitiful situation from all standpoints because all property around is endangered. The person or persons guilty of such misdemeanors certainly do not realize what it costs today for building material that is so hard to get.

Produced in the West Coast laboratory of Moody Bible Institute by Irwin A. Moon, Sc. D., "The God of Creation" is the second in a series of evangelistic films. The first film by Dr. Moon, "They Live Forever", had a large showing in all parts of the country.

chased a home, and he will enter the electrical business. The Hardley's were given a surprise party following the special services in the Community church on Monday night and were presented with a lovely lamp.
 The annual church meeting and election of officers of the Community church will be held on Tuesday at 8 p. m. at the church. All members and friends are invited to attend.
 Dr. Harold Furlong, veteran of two World Wars, will be guest speaker at the Veteran's banquet sponsored by the Mom's Club at the Community Activities Bldg. on May 16. Servicemen and women are urged to make reservations by Saturday (tomorrow).
 Mrs. William Starkford went to Sault Ste. Marie on Tuesday where she will be a delegate of the local P.T.A. at the annual P.T.A. convention.
 Robert Brill, A.R.M. 2/c, was recently discharged at Great Lakes after 28 months of service and is at the home of his parents, Mr. and Mrs. Julian Brill.

The Mom's met on Wednesday at the home of Mrs. Robert Van Marter with eleven members present. Plans were completed for the Veteran's Dinner to be given at the Community Activities Bldg. on May 16. Mrs. Arthur Armstead is general chairman. Mrs. Clifford Wood and Mrs. Elmer Gomp are co-chairmen for the dining room.
 Mrs. James Sutton is chairman of the program committee. There will be no charge to the veteran and he may bring one guest. Reservations must be in by May 11 and can be made by calling Mrs. Arthur Armstead, phone 31-1551, Mrs. Robert Van Marter, 31-1416, Mrs. C. W. Armstrong, 31-0639, or Mrs. J. H. Ettinger, 31-1707.
 The next meeting of the group will be May 22 at the home of Mrs. J. H. Ettinger.

On Thursday the Ladies Auxiliary of the Community Church met at the home of Mrs. H. B. Mehlberg with Mrs. E. D. Spooner as co-hostess. Twenty-eight members were present. Another afghan was completed which will be sent to Veteran's Hospital at Dearborn. The next meeting will be at the home of Mrs. Will Hunt at which time members are asked to bring gifts such as stationery, toilet articles, etc. to be sent to Percy Jones Hospital and Veterans Hospital at Ft. Custer. All those who wish to contribute clothing for the Childrens Orphanage in Ives, Ky., may bring their contributions to the next meeting. The election of officers will be held at this meeting. New members joining were Mrs. Bruce Witherspoon, Mrs. Roy Parmenter, Mrs. Lawrence Giddings and Mrs. James Sutton.
 Mr. and Mrs. George Harrup of Brandon, Manitoba, arrived Monday and are guests of the former's brother, Mr. and Mrs. Harry Harrup.
 Mr. and Mrs. Elwood Johnson of Moline, Ill., spent a few days the first of the week at the home of Rev. and Mrs. Philip A. Jordan. Mrs. Chauncey Durman, who has been here for several weeks with her daughter, Mrs. Jordan, returned home with the Johnsons.

Drayton Plains
JOINT MISSIONARY GROUPS TO HEAR SUDAN MISSIONARY
 Mrs. W. J. Adair, a missionary on furlough from Egyptian Sudan and who soon will return to her field, addressed a joint meeting of the three missionary groups of the Drayton Plains United Presbyterian church on Thursday evening at 7:30.
 The Ladies Auxiliary of P.V.W. Post 4102 held their regular meeting Wednesday, May 8, at 8 o'clock in the school auditorium.
 Mrs. James Boaz, president of the P.T.A., entertained the officers of 1945 in her home on Tuesday morning at 10 a. m. This was the

last meeting for these officers. New officers will be installed at the next P.T.A. meeting to be in the school auditorium by Mrs. Max Williams. Those present were Mr. James Den Herder, principal of the school, Miss Lela Jeffery, Mrs. Earl Rives, Mrs. Leo Baumgartner, Mrs. Nolan Brown, Mrs. Gwendell Purkiss, Mrs. Daril O'Dea, Mrs. Peder Neilson, Mrs. Glenn Sutton, Mrs. Wayne Behler, Mrs. William Grosline and Mrs. Ivan Johnson. Coffee and donuts were served.
 The Men's Club and Ladies Auxiliary held their regular meeting Monday evening in the school auditorium. Several new business matters were brought up by the Men's Club and will be announced later.
 The Ladies Auxiliary voted to change their meeting night from the first Monday of each month to the first Tuesday. Plans were made to prepare and serve a supper on May 20 for the Men's Club and guest committees will be named. The Ladies Auxiliary is also sponsoring the fair to be held May 29 in the school auditorium. This is usually conducted by the P.T.A. Their project this year was the Amateur Contest.
 The Ladies Auxiliaries of Men's Club, V.F.W. Post 4102 and the Blue Star Mothers will hold a joint rummage sale this month. Time and place to be announced later.

Youth group at 7:00 Wednesday evening until 10:00.
Servicemen's Banquet at 6:30 Thursday evening.
Woman's Club at 8:00 Thursday evening.

“Feed Humans, Not Bugs”

Flour eaten by weevils will feed no starving children says Mary Woodward, home demonstration agent of Oakland County.

She advises you to watch your flour and keep away the “bugs”. As soon as news got around that flour might be a little different, some persons couldn't resist the temptation to stock up. Judging from grocery sales reports, some apparently bought more than they can possibly use before it spoils.

Any flour is the natural food for weevils. It may become infested in hot weather or if kept in a warm kitchen. Keeping flour in a refrigerator isn't the answer either, because it will take up too much moisture there.

Darker flours contain more of the germ. The germ is fat, and will become rancid if the flour is kept in a warm place.

For warm months, observe these rules in the care of all flour and cereals. First, buy as you go. Second, keep it dry and cool.

“Feed humans, not bugs”, advises Miss Woodward.

PLAN SUMMER CUT FLOWERS

When the neighbors begin cutting fine summer bouquets is no time to wonder why you can't have flowers like that. Begin planning and planting now, suggests Jack Rose, gardening specialist at Michigan State College.

Don't forget or neglect the vegetable garden in order to raise flowers. Food is too important this year. But Rose says a few flowers for cuttings will take only a little time and space.

Marigolds and zinnias can be seeded outdoors about May 10 to 15 to make good summer cut flowers. Gladiolus bulbs can be planted all during May. Space plantings about 10 days apart. Cosmos, nicotiana, African daisy, larkspur, baby's breath, bachelor buttons, candytuft and petunia can all be seeded outdoors right now to fill your summer bouquet.

Conservation News

Owners of hunting dogs who want more sport in the fall will take care to confine their dogs in spring and summer, say conservation department officials, commenting on reports of stray dogs harrying nesting pheasants.

Training dogs on game has been out-of-season since March 15, but innocent of the law as their masters are negligent, the dogs have been having great fun scaring up the nesting birds. Owners of free-roving house cats are held equally guilty of avoidable damage to the season's bird crop now in the making.

GREEN MANURE CROP FOR BEANS SHOULD BE PLOWED BY MAY 15

To conserve moisture and produce higher yields, green manure crops on fields to be sown to beans should be plowed under not later than May 15. H. H. Pettigrove, extension specialist in farm crops at Michigan State College, says experiments show this pays big dividends. Yield of the following crop is doubled when the sod is plowed under before May 15 rather than just before seeding time.

Where beans are to be planted on a field not in sod, plowing by May 15 is not as important, Pettigrove says.

Bean planting will start about the last week in May and continue past mid-June. A large acreage of possibly 600,000 acres is anticipated.

A subscription to the Clarkston News is the best dollar and a half investment anyone can make—call Clarkston 4321 for a renewal.

THE COST OF MEDICAL CARE

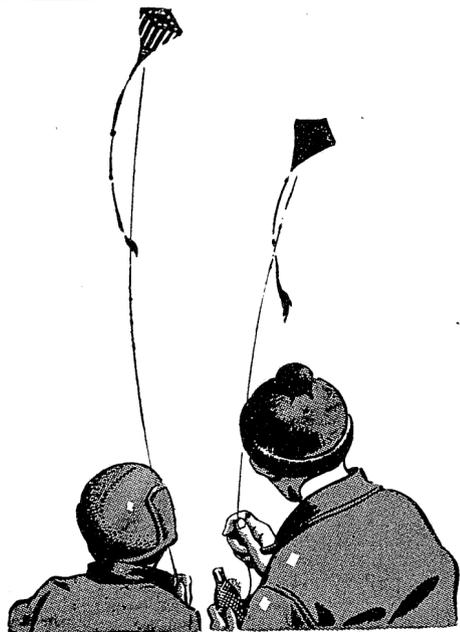

★ That the cost of medical care has risen, no one can deny. But the rise has not been out of proportion to the general advance in the cost of living. At the same time the quality of medical service has been immeasurably improved.

Consider that today your physician has invested from eight to ten years and about ten thousand dollars in his education alone. He has no chance to earn until he is twenty-six or twenty-seven years old. He must have an office in a good neighborhood, good equipment, a car, good clothes.

Pharmacy, too, has stepped up its standards. Almost every state now requires four years of college and a year or two of practice before registration. All this adds up to better medical service for you.

Drayton Drug Store

E. G. Greer, Prop. Drayton Plains

Fly 'Em Safely!

Kite flying time is here again. A real sport for boys and girls everywhere! Yet there are certain dangers you must guard against if kite flying is to be all the fun you want it to be.

The greatest danger to a kite flyer is an electric wire. Fly your kite in the open—away from any wire. If your kite swoops over and touches an electric wire, the electricity in that wire can cause severe burns or even death.

Do not use a metal kite frame. Use only wood. If a metal kite frame touches electric wires, a short circuit can result which can make the wires fall and cause great damage to you and to other people as well.

Do not use wire or tinsel twine for a kite string. The metal or tinsel can carry the dangerous electricity down to your hand.

Wet string can carry electricity too, so never fly a kite on a rainy day.

Do not climb a pole or a tree to get your kite down. You may be injured by electric wires or by a fall.

Serious injury can result from careless kite flying. By observing these rules, kite flying can be a safe and sane sport:

- Fly kites in open fields, away from electric wires.
- Use only wood for kite frames—no metal.
- Use no wire or tinsel twine for a kite string.
- Do not fly kites in rainy weather.
- Do not climb poles or trees to bring down tangled kites.

THE DETROIT EDISON COMPANY

YEARBOOKS ARRIVE

The students were very happy to receive their yearbooks last Friday. The name of the book is the “Hilltopper”, and from cover to cover it contains many interesting pictures of the faculty, high school, junior high, elementary grades, and the organizations and athletics. The book is dedicated to Mr. Brablec.

This is the first time in many years that the school has produced an annual. Its purpose is to enable the students to remember their school life at Clarkston and their classmates and teachers.

Thanks go to the fine staff of the yearbook who co-operated so well to make it a success. Special thanks go to Miss Bierlien, who worked with the staff so faithfully, and to the editor-in-chief, Joyce McCann; business manager, Henry Huber, and to Phyllis Fullerton for her original illustrations in the book.

Mr. Ridgley sold the books out of the book store and had a very ready group of customers. Two hundred copies were printed and only seven are left in the office at this time.

—Joyce Lawson

SIGHT-SAVING PICTURES SHOWN WEDNESDAY

Clarkston upperclassmen saw a film which was presented by the State Optometrist Association last Wednesday. A representative from the association addressed the students on optometry as a vocation. There is considerable need for more trained people in sight-saving and sight correction. Our Juniors and Seniors learned about the opportunities and responsibilities of this profession.

GRADE NEWS

In social studies the third grade has been reading about silkworms. We have some silk cocoons that are very interesting. Would you like to come and see them? We read “Ice Cream” booklets telling us how ice cream is made. We have completed our poem books.

On May Day, the fourth graders left May baskets at the doors of all the grade rooms. One group in reading has just completed scrap books of water color pictures the children have drawn and painted.

NEW FREEZING INFORMATION

The 1946 revision of the bulletin on preservation of fruits and vegetables by freezing by Michigan State College extension specialists is ready. Demand for this publication (Extension Bulletin E-208) during the war years increased annually. With more locker storage plants and home freezer units available, a heavy demand is anticipated for the latest revision. The bulletin is available from The Bulletin Office, Department of Public Relations, Michigan State College, East Lansing. It may also be obtained from county extension offices.

LAND SURVEY BEGINS IN MICHIGAN

Cooperating with the federal land ownership survey, the farm management department at Michigan State College has sent approximately 5,000 questionnaires to Michigan landowners. E. B. Hill, head of the department, said the government is studying farm ownership with reference to discovering how farmers obtained their land and their plans for disposal of the farms.

In addition, Hill said, the survey will give a general idea of the number of farms available for purchase by returning veterans. It will also determine the number of farmers who expect to retire in the near future and how many who intend to transfer their land to their children.

Late this year, findings of the survey will be prepared in a special Michigan report by the farm management department. Similar surveys are being made in all states.

“We urge farmers who receive questionnaires to fill out and return them as soon as possible”, Hill added.

extension division of the state library will speak at the Community library at 1:30 next Tuesday afternoon. He is anxious to meet librarians and friends of the library. He was in charge of the library program for the Army personnel in the European theatre of war prior to the end of the war and up to his return to the States.

Everyone interested is urged to attend.

Community Party at 8:30 Friday evening.
Library open at 8:00 Friday evening.

Youth group at 7:00 Wednesday evening until 10:00.
Servicemen's Banquet at 6:30 Thursday evening.
Woman's Club at 8:00 Thursday evening.

The MOMs are sponsoring a banquet for all returned veterans of World War II at the club house on May 16 and each veteran will be allowed to bring one guest. There will be no charge but each one attending is asked to make reservations with Mrs. Robert Van Marter, phone 31-1416; Mrs. C. W. Armstrong, 31-0639; Mrs. J. H. Ettinger, 31-1707; or Mrs. Arthur Armstead, 31-1551. Mrs. Armstead is general chairman of the affair.

About 215 fathers and sons enjoyed a banquet at the club house last Thursday evening, May 2, which was sponsored by Scout Troop 31 and served by the mothers of the Scouts with Mrs. Leo Larkin as general chairman for the dinner. The Rev. Philip A. Jordan gave the invocation.

William Donelson was master of ceremonies; Edward Leland, Scout Executive, introduced Scout Master Carl Putman, and the committeemen, Sidney Geal, director of Pontiac Y.M.C.A. was the speaker.

Several Scouts received advancements during the program. Merit badges went to Tony Siegman and Richard Allen. The only one to become a Star Scout was Richard Allen. Those becoming Second Class Scouts were Earl Lambertson, Louis Rizzolo, Lloyd Gidley, Ronald Bartell, Daniel Siegman, James McEvers, Robert Minton, Dean Parmenter, James Stockford, Jack Emery, James Kephart, Richard Campbell, and Stanley Larkin.

Those becoming Tenderfoot Scouts were Billy Jacober, Kenneth Schluckter, Joe Sutton, Clifford Wood, Robert Putman, David Tucker, Lynn Wyckoff, and Dean Van Camp.

Irving Lieberman, head of the

ORDINANCE NO. 2 OF THE TOWNSHIP OF INDEPENDENCE, OAKLAND COUNTY, MICHIGAN

Effective June 3, 1946

INDEPENDENCE TOWNSHIP RURAL ZONING ORDINANCE

TITLE: AN ORDINANCE, to establish zoning districts within the unincorporated portions of the Township of Independence, Oakland County, State of Michigan, within which districts the use of land for trade, residence, recreation, agriculture, forestry, soil conservation and water supply conservation shall be regulated, prohibited or encouraged, and the use of natural resources, buildings and structures shall be regulated and restricted; designate the trades and industries that shall be permitted or excluded or subject to special regulations within such districts; to regulate and restrict within such districts the location of trades, industries and the location of buildings designed for specific uses; to regulate and limit within such districts the height, area and size of buildings hereafter erected, and the area of land, yards, courts and other open spaces; to regulate the minimum construction requirements of buildings, including dwellings; to regulate within such districts the uses for which buildings or structures, including tents and automobile trailers shall or shall not be erected, altered or used; to limit and restrict the maximum number of families which may be housed in dwellings hereafter erected or altered within such district; to provide for the administration of this Ordinance and to provide penalties for the violation thereof; to provide for the collection of building permit fees; and to provide for a Board of Appeals and its duties and powers and for a map of the zoning district.

THE TOWNSHIP BOARD OF INDEPENDENCE TOWNSHIP OF COUNTY OF OAKLAND, STATE OF MICHIGAN ORDAINS:

PREAMBLE: Whereas, The Township Board of Independence Township has and does hereby determine it to be necessary to adopt an Ordinance to promote and preserve the public health, safety, morals, and general welfare and to regulate and restrict within such districts the location of trades, industries and the location of buildings designed for specific uses; to regulate and limit within such districts the height, area and size of buildings hereafter erected, and the area of land, yards, courts and other open spaces; to regulate the minimum construction requirements of buildings, including dwellings; to regulate within such districts the uses for which buildings or structures, including tents and automobile trailers shall or shall not be erected, altered or used; to limit and restrict the maximum number of families which may be housed in dwellings hereafter erected or altered within such district; to provide for the administration of this Ordinance and to provide penalties for the violation thereof; to provide for the collection of building permit fees; and to provide for a Board of Appeals and its duties and powers and for a map of the zoning district.

In order to more effectively protect and promote the public health, safety and welfare, and to accomplish the aims and purposes of the comprehensive plan set forth in the title and in this Preamble, the unincorporated portions of the Township are divided into districts as indicated on the zoning map of such number, shape, kind and area and of such common use of purpose, adaptability or use that are deemed most suitable to insure the best use by the community in general, with reasonable consideration of other things to the character of the district, its peculiar suitability for particular uses, the conservation of property values and natural resources, and the general trend and character of land, buildings and population development; and by further regulations to limit the location, use and occupancy of buildings, structures and lands to be used for trade, industry, residence, agriculture, recreation or other purposes, and also the height, area, size and construction of parcels, setbacks, sizes of yard and other open spaces.

Section 1. TOWNSHIP ZONING ORDINANCE.

Section 1.1. NAME. This Ordinance, of which the annexed zoning map is a part, hereafter shall be known and may be cited as the Independence Township Rural Zoning Ordinance.

Section 2. DEFINITIONS.

For the purpose of this Ordinance certain terms used are herewith defined. When not inconsistent with the context, words used in the present tense include the future, words in the singular number include the plural number and words in the plural number include the singular number. The word "shall" is always mandatory and not merely directory.

Section 2.1. ALLEY. A public thoroughfare or way not more than thirty (30) feet wide and which affords only a secondary means of access to abutting property is an alley.

Section 2.2. ALTERATIONS. Any change, addition or modification in construction or type of occupancy, any change in the structural members of a building, such as walls or partitions, columns, beams or girders or alterations, the consummated act of which may be herein referred to as altered or reconstructed.

Section 2.3. BASEMENT. A basement is that portion of a building partly below grade but so located that the vertical distance from the grade to the floor is greater than the vertical distance from the vertical distance from the grade to the ceiling; provided, however, that the vertical distance from the grade to the ceiling is five (5) feet or more, such basement shall be considered as a story.

Section 2.4. BUILDING. A structure having a roof supported by columns or walls for the shelter, support or enclosure of persons, animals or chattels is a building. When any portion thereof is completely separated from every other part thereof by division walls from the ground up, and without openings, each portion of such building shall be deemed a separate building.

Section 2.5. BUILDING, ACCESSORY. A subordinate building or structure on the same lot, or a part of the main building, occupied by or devoted exclusively to an accessory use is an accessory building.

Section 2.6. BUILDING PERMIT. A building permit is the written authority issued by the Building Inspector of the Township or by the Appeal Board permitting the construction, removal, moving, alteration or use of a building in conformity to the provisions of this ordinance.

Section 2.7. COMMERCIAL USE. "Commercial use" relates to the use of property in connection with the purchase, sale, barter, display or exchange of goods, wares, merchandise or personal services and the maintenance or operation thereof of offices or recreational or amusement enterprises.

Section 2.8. DWELLING. A dwelling is any house or building or portion thereof which is occupied wholly as the home, residence or sleeping place of one or more human beings, either permanently or transiently, but in no case shall a trailer coach, automobile chassis, tent or portable building be considered a dwelling. In case of mixed occupancy where a building is occupied in part as a dwelling, the part so occupied shall be deemed a dwelling for the purpose of this Ordinance and shall comply with the provisions thereof relative to dwellings. Neither garage space, whether in an attached or detached garage nor utility rooms shall be deemed a part of a dwelling for area requirements.

Section 2.9. ONE FAMILY DWELLING. A one family dwelling is that occupied by but one (1) family, and so designed and arranged as to provide living, cooking and kitchen accommodations for one (1) family only.

Section 2.10. MULTIPLE DWELLING. A multiple dwelling is a dwelling other than a single family dwelling designed with facilities for use by more than one family.

Section 2.11. ERECTED. Includes built, constructed, reconstructed, moved upon, or any physical operations on the land required for the building. Excavations, fill, drainage, and the like shall be considered a part of erection.

Section 2.12. ESSENTIAL SERVICES. The phrase "essential services" means the erection, construction, alteration or maintenance by public utilities or municipal departments or commissions, of underground or overhead, gas, electrical, steam or water transmission or distribution systems, collection, communication, supply or disposal systems, including

poles, wires, mains, drains, sewers, pipes, conduits, cables, towers, fire alarm boxes, police call boxes, traffic signals hydrants and other similar equipment and accessories in connection therewith but not including buildings reasonably necessary for the furnishing of adequate services by such public utilities or municipal departments or for the public health, safety or general welfare.

Section 2.13. FAMILY. Any number of individuals living together and cooking together on the premises as a single non-profit housekeeping unit, as distinguished from a group occupying a hotel, club or similar structure, together with all necessary employees of the family.

Section 2.14. FARM. All of the contiguous uniting or associated land operated as a single unit on which bona fide farming is carried on directly by the owner-operator, manager or tenant-farmer, by his own labor or with the assistance of members of his household or hired employees; Provided, however, that land to be considered a farm hereunder shall include a continuous parcel of not less than ten (10) acres in area; provided, further, farms may be considered as including establishments operated as bona fide greenhouses, nurseries, orchards, chicken hatcheries, poultry farms, apiaries; but establishments keeping or operating, furbering animals, game, fish hatcheries, piggeries, stockyards, stone quarries or gravel or sand pits shall not be considered farms hereunder unless combined with bona fide farm operations on the same continuous tract of land.

Section 2.15. FARM BUILDINGS. Any building or structure, other than a dwelling, moved upon, maintained, used or built on a farm which is essential and customarily used on farms of that type for the pursuit of their agricultural activities is a farm building.

Section 2.16. GARAGE, PRIVATE. A private garage is a space, suitable for the storage of motor vehicles, having no public shop or service in connection therewith, for the use solely of the owner or occupant of the principal building on a lot, or of his family or domestic employees.

Section 2.17. GARAGE, PUBLIC. A space or structure, other than a private garage, for the storage, care, repair or refinishing of motor vehicles is a public garage, except that a structure or room used solely for the display and sale of such vehicles, in which they are not operated under their own power, and in connection with which there is no repair, maintenance or finishing service or storage of vehicles other than those displayed, shall not be considered a public garage for the purpose of this ordinance.

Section 2.18. GRADE. When the word "grade" is used herein in relation to a building, it shall mean the line on the foundation wall where the ground meets or is intended to meet the wall, unless such has been officially established.

Section 2.19. HEIGHT, BUILDING. The vertical distance measured from the curb level or the grade at the front of the building to the highest point of the roof for flat roofs; to the deck line for mansard roofs; and to the mean height level (between eaves and ridge) for gable, hip and gambrel roofs is the height of a building. Where a building is located upon a terrace, the height may be measured from the average ground level of the terrace at the building wall.

Section 2.20. HIGHWAY. A highway is any public thoroughfare or street, except alleys, including Federal, State, County and Township roads and those appearing on recorded plats.

Section 2.21. LOT. A lot is a piece or parcel of land occupied or to be occupied by a building and its accessory buildings, or by any other activity permitted thereon and including the open spaces required under this Ordinance and having its frontage upon a public street or any private way used for street purposes. A lot may or may not be specifically designated as such on public records.

Section 2.22. LOT, CORNER AND DEPTH. A lot situated at the junction of two or more streets is a corner lot. In the case of a corner lot, the owner may elect by statement on his plans, either street boundaries at the front and side of a lot is the mean distance from the center of the front to the center of the rear boundary of an irregular four-sided plot.

Section 2.23. FRONT LOT LINE. The front lot line is that boundary of a lot which abuts on a highway unless such lot extends between a highway and a lake or river in which case both the highway boundary line and the lake or river boundary lines shall be considered front lot lines.

Section 2.24. REAR LOT LINE. The rear lot line is that boundary which is opposite and most distant from the front lot line. In the case of a lot pointed at the rear, the rear lot line shall be that assumed line parallel to the front lot line, not less than ten (10) feet long lying farthest from the front lot line and wholly within the lot.

Section 2.25. SIDE LOT LINE. The side lot line is any lot boundary line not a front lot line or a rear lot line. A side lot line separating a lot from a street is a side street lot line. A side lot line separating a lot from another lot or lots is an interior side lot line.

Section 2.26. MOTOR SUPPLY STATION. A motor supply station is a building or structure designed or used for the retail sale or supply of fuels, lubricants, air, water and other operating commodities for motor vehicles, and including the customary space and facilities for the installation of such commodities on or in such vehicles, but not including space or facilities for the storage, repair, refinishing or other servicing thereof.

Section 2.27. PUBLIC UTILITY. Any person, firm, corporation, municipal department or board duly authorized to furnish and furnishing under municipal or state regulation to the public, transportation, water, gas, electricity, telephone, steam, telegraph, sewage disposal or other essential services.

Section 2.28. ROAD SIDE STANDS. A roadside stand is a temporary or permanent building operated for the purpose of selling only produce raised or produced by the proprietor of the stand or his family, land which would otherwise be an agricultural district, nor shall its use be deemed a commercial activity, but such stand if of a permanent character shall not be more than one story high nor larger than 20 feet by 20 feet and must be set back from the nearest highway right of way line at least 30 feet.

Section 2.29. SETBACK. The minimum horizontal distance between the front line of the building, excluding steps and unenclosed porches and the front street or right of way line is the setback.

Section 2.30. STORY. That portion of a building included between the surface of any floor and the ceiling next above is a story. A basement shall be considered a story if its ceiling is more than five (5) feet above the average established grade or if it is used for business purposes.

Section 2.31. STORY, HALF. A story which is situated within a sloping roof, the area of which at a height four (4) feet above the floor does not exceed two-thirds (2/3) of the floor area directly below it, wherein living quarters are used only as a part of the dwelling situated in the story below.

Section 2.32. SIGNS. Any structure or part thereof on which there is lettered, pictured, or displayed matter, the chief purpose of which is for advertising or publicity, is a sign.

Section 2.33. TOWNSHIP BOARD. Whenever in this Ordinance appears the words "township board" it shall mean the Township Board of Independence Township.

Section 2.34. TENTS. Tents as used in this Ordinance shall not include those used solely for children's recreational purposes.

Section 2.35. TRAILER COACH. Trailer coach as used in this Ordinance shall include all houses or devices for human habitation which were originally designed to be moved about on a chassis or wheels, whether or not the said chassis or wheels have been removed and whether or not a permanent or temporary foundation has been substituted therefor.

Section 2.36. TRAILER COACH PARK. Any site, lot, field, tract or parcel of land upon which two (2) or more occupied trailer coaches are harbored either free of charge or for revenue purposes, is a Trailer

Coach Park, and this designation shall include any building, structure, tent, vehicle or enclosure thereon used or intended for use by the occupants of the trailer coaches.

Section 2.37. USE. The purpose for which land or buildings thereon are designed, arranged or intended to be occupied or used, or for which they are occupied or maintained is hereby termed the use.

Section 2.38. USE, ACCESSORY. A use naturally and normally incidental to, subordinate to, and devoted exclusively to the main use of the premises is termed an accessory use.

Section 2.39. NON-CONFORMING USE. The use of a building or land that does not conform to the regulations of this ordinance for the district in which it is located is a non-conforming use.

Section 2.40. UTILITY ROOM. A utility room is a room in a dwelling, not located in the basement, the use of which is primarily for storage, or for housing a heating unit, or for laundry purposes.

Section 2.41. A FRONT YARD is an open space extending the full width of a lot and of a uniform depth measured horizontally at right angles to the front lot line from the nearest side of the right of way line of the highway and shall be unoccupied from the ground upward except as hereinafter specified.

Section 2.42. A REAR YARD is an open space extending the full width of a lot and of a uniform depth measured horizontally at right angles to the rear lot line and unoccupied from the ground upward except as hereinafter specified.

Section 2.43. A SIDE YARD is an open space extending from the front yard to the rear yard and of a uniform width measured horizontally at right angles to the side lot line and unoccupied from the ground upward except as hereinafter specified.

Section 3. GENERAL PROVISIONS.

Section 3.1. USES. Except as hereinafter provided, no building, lot, land or part thereof shall be used, altered, reconstructed or reconstructed, nor shall alterations be made in any existing building in Independence Township except in conformity with the provisions of this Ordinance which apply to the zone in which it is located.

Section 3.2. NON CONFORMING USES. Any lawful non-conforming use existing at the time of passage of this Ordinance may be continued provided that the building or the lot or land involved shall neither be structurally altered nor enlarged unless such altered or enlarged part shall conform to the provisions of this Ordinance for the district in which it is located.

Section 3.3. FORFEITURE OF RIGHT TO CONTINUE NON-CONFORMING USE. When a non-conforming use of property is discontinued through vacancy, lack of operations or otherwise for a continuous period of six months, thereafter no right shall exist to maintain on said property a non-conforming use unless the Board of Appeals grants such privilege within an additional six months period.

No non-conforming use if changed to a use permitted in the district in which it is located shall be re-used or changed back to a non-conforming use.

Section 3.4. RECONSTRUCTION OF DAMAGED NON-CONFORMING BUILDINGS AND STRUCTURES. Nothing in this Ordinance shall prevent the reconstruction, repair or restoration and the continued use of any non-conforming building or structure damaged by fire, collapse, explosion, acts of God or acts of the public enemy, subsequent to the effective date of this Ordinance, wherein the expense of such reconstruction does not exceed sixty (60) per cent of the fair valuation of the building or structure at the time such damage occurred. Provided, That such valuation is approved by the Board of Appeals, and Provided, further, That said use be identical with the non-conforming use permitted and in effect directly preceding said damage.

Section 3.5. CONFLICTING LAWS, ORDINANCES, REGULATIONS AND RESTRICTIONS. It is not intended by this Ordinance to repeal, abrogate, annul any existing provision of the law, ordinance, or any rules, regulations or permits previously adopted or issued pursuant to laws or ordinances relating to the use of buildings or land; nor is it intended by this Ordinance to abrogate or annul any existing easement, covenants or other agreements between parties; Provided, however, That where any provision of this Ordinance imposes restrictions or limitations upon the use of land or buildings or upon the height of buildings, or requires larger yards, land areas or open spaces than are imposed or required by the provisions of any other law or ordinance, then the provisions of this Ordinance shall govern. The requirements of this Ordinance are to be construed as minimum requirements, and shall in no way impair or affect any covenant, easements, agreements between parties, or restrictions running with the land, except where such covenant, easement, agreement between parties or restriction imposes lesser requirements.

Section 3.6. DISTRICT BOUNDARY CHANGES. When district boundaries shall hereafter be changed, any non-conforming use may be still continued but subject to all other provisions of this Ordinance.

Section 3.7. SUBSTANDARD OCCUPANCY. Nothing in this Ordinance shall prevent the continued occupancy of any existing dwelling whose area is four hundred (400) square feet or greater at the time of the passage of this Ordinance and having an area less than four hundred (400) square feet at the first floor level, may at the discretion of the Board of Appeals hereinafter provided, be granted for a period not to exceed two years an un-renewable temporary Certificate of Occupancy.

Section 3.8. EXEMPTION OF ESSENTIAL SERVICES. Essential services shall be permitted on any lot authorized and regulated by laws and ordinances of the Township to exempt such essential services from the application of this Ordinance.

Section 3.9. INTERPRETATION. The provisions of this Ordinance shall be liberally interpreted for the purpose of promoting the purposes set forth in the Preamble and the limitations herein set forth shall be construed as the minimum limitations.

Section 3.10. TEMPORARY DWELLINGS. It shall not be lawful for any person to erect or occupy a temporary dwelling on any lot; provided, however, that a garage may be occupied as a temporary dwelling for a period of not more than six months if construction of a permanent dwelling is actually under way and in active progress during occupancy of the garage. Said garage shall be provided and equipped with garage doors. In the event that any person shall reside in any such temporary garage home for a period of more than six months, the Building Inspector or any member of the Board or any member of the Township Board, or any place may proceed to have such extended use abated as a nuisance.

Section 3.11. UNLAWFUL BUILDING. In case any building or part thereof is used, erected, altered or occupied contrary to law or the provisions of this Ordinance, such building shall be deemed an unlawful structure and a nuisance and may be required to be vacated, torn down or abated by any legal means and shall not be used or occupied until it has been made to conform to the provisions of this Ordinance.

Section 3.12. HOUSEHOLD PETS. Nothing in this Ordinance shall prevent a family from keeping on a parcel of land used by them as a home, such number of household pets as they desire except animals weighing 100 pounds and upwards. Provided, however, there are no restrictions as to the number and size of animals that may be kept on parcels of land having not less than 40,000 square feet of area, if the facilities for housing such animals, unless kept in the dwelling, are twenty-five feet from the boundaries of said parcel of land and the keeping thereof does not constitute a nuisance.

Section 3.13. SIGNS. No signs larger than 20 square feet shall be erected nor shall any sign be within 1000 feet of another sign, nor within 50 feet of the nearest right of way line of a highway.

Section 3.14. QUALIFYING SPACE. No building

shall be erected, nor shall an existing building be altered, enlarged or rebuilt nor shall any open spaces surrounding any building be encroached upon or reduced in any manner, except in conformity with the regulations hereby established for the district in which such building is located. No portion of a lot used in complying with the provisions of this Ordinance for yards, courts, lot area per family or percentage of lot occupancy, in connection with an existing or projected building, or structure, shall again be used to qualify or justify any other building or structure existing or intended to exist at the same time.

Section 3.15. OCCUPIED SPACES. Outside stairways, fire escapes, fire towers, porches, platforms, balconies, boiler flues and other projections shall be considered as part of the building and not as part of the yards or courts or unoccupied spaces. This provision shall not apply to one (1) fireplace or one (1) chimney, projecting not more than twenty-four (24) inches into side yard space and not more than eight (8) feet in length, nor to unenclosed outside porches not exceeding one (1) story in height, which do not extend into the front yard or rear yard a greater distance than ten (10) feet from the front or rear walls of the building, nor to one (1) such porch which does not extend into the side-yard a greater distance than six (6) feet from the side wall of the building or exceed ten (10) feet in its other horizontal dimension, or to cornices not exceeding sixteen (16) inches in width including the gutter, if there remains a free vacant space of at least 2 feet along the entire side lot line.

Section 3.16. CATCH WORDS AND LINES. Catch words and catch lines shall in no way by their presence or absence limit or affect the meaning of this Ordinance.

Section 3.17. HEIGHT. All dwellings shall have a height above grade of at least 12 feet; such height shall not exceed 35 feet.

Section 3.18. UNOCCUPIED SPACE. Except in Commercial and Manufacturing Districts, there shall be an absolutely free and unoccupied space of at least two feet along the entire side lot line.

Section 3.19. CLASSIFICATION OF MOVED BUILDINGS. Any building moved within a district and placed upon a foundation or any building moved into a district from without shall be considered a new building and be subject to all the limitations and requirements herein set forth relating to uses, construction, permits and certificates.

Section 4. DISTRICTS.

For the purpose of this Ordinance, Independence Township is hereby divided into the following Zoning Districts which may be referred to either as Districts or Zones:

- A. RESIDENCE 1 DISTRICT
- B. RESIDENCE 2 DISTRICT
- C. RESIDENCE 3 DISTRICT
- D. COMMERCIAL 1 DISTRICT
- E. MANUFACTURING DISTRICT
- F. SUBURBAN FARMS DISTRICT
- G. AGRICULTURAL DISTRICT

The boundaries of said districts, shown upon the map marked and designated Zoning District Map of Independence Township which is attached hereto and made a part of this Ordinance are hereby established; said map and all notations, references, and other information shown thereon shall be as such a part of this Ordinance as if the matters and information set forth by said map were all fully set forth and contained herein.

Section 5. HEALTH, SANITARY, SAFETY AND PROTECTIVE MEASURES.

Section 5.1. BASEMENTS.

(1) Each dwelling where a basement is used shall have continuous solid masonry walls at least eight (8) inches in thickness. No basement shall be located adjacent to any lake, stream or other natural overflow area, or within a partly drained depression, unless it is so situated that the basement floor shall be above the high water level. All basement walls shall be water-proofed with materials and methods determined acceptable by either the Building Inspector or the Township Board.

(2) If the first story is of timber construction and no basement is provided, the building shall rest on a continuous solid masonry foundation adequate to support proposed dwelling. Footings shall extend below the front line and there shall be a clear space of no less than eighteen (18) inches under the joists. The grade of this unexcavated area shall be filled to slightly above the grade surrounding the building, and unexcavated space shall be properly ventilated and drained.

Section 5.2. CHIMNEY. The chimney of each dwelling shall rest upon solid masonry foundations carried below the average frost line, be carried vertically to a height at least two feet above the highest ridge of the roof, and be constructed of fire-resistant material approved by the Building Inspector or as determined by the Township Board. A list of such materials shall be supplied by the Township Building Inspector upon request. Flue linings shall be provided unless flues are surrounded by eight (8) inches of brick.

Section 5.3. CONSTRUCTION. All buildings shall have finished outside walls of such material as shall be approved by the Township Board. No exterior of tar paper or similar material shall be built. In the interest of fire protection the exterior of each dwelling shall consist only of one or more of the following materials:

- Brick
- Wood siding
- Cement Block
- Stone
- Asbestos siding
- Shingles

and such additional materials as may be approved from time to time by the Township Board or Building Inspector. A list of such materials may be obtained from the Building Inspector upon application.

Section 5.4. CEILING HEIGHTS. There shall be a distance of not less than eight feet from the center of the floor to the center of the ceiling in each room on the ground floor, and such distance may be reduced to seven feet for the second floor rooms.

Section 5.5. WINDOWS. Every room, except closets, of each dwelling shall have at least one glass window.

Section 5.6. MEANS OF ENTRY AND EXIT. Each dwelling shall have at least two means of entry and exit, consisting of doors, one of which shall be at the front, and the other at the rear or side thereof.

Section 5.7. ELECTRICAL WORK. All electrical work must be installed in conformance with such standards as are established by the Township Board.

Section 5.8. PLUMBING. All plumbing installations shall be in conformance with the standards as are established by the Township Board.

Section 5.9. OUTSIDE PRIVIES. No outside privies shall be built, constructed, or used, except in connection with a farm, and then only if they are more than 200 feet from the boundary line of the farm and from all highways.

Section 5.10. RENTAL OF ROOMS OR LIVING QUARTERS. The fee owner or contract purchaser of a single dwelling may rent in a residential district in a home occupied by him, not more than two rooms for occupancy by not more than two persons per room, or may rent a portion of said dwelling for use as separate living quarters as an apartment by not more than four persons, if there are separate toilet facilities, without violating the provisions of this Ordinance, providing such rental is not to transient guests or to persons for continuous period of less than 60 days.

Section 6. RESIDENCE 1 DISTRICT.

Section 6.1. USES. In a Residence 1 District no building or land, except as otherwise provided in this Ordinance, shall be erected or used except for one or more of the following specified purposes:

- (1) Dwellings.
- (2) Farms.
- (3) Churches, public schools, public libraries, museums, private schools and educational institutions.
- (4) Public hospitals (but not including institu-

tions for the care of the feeble minded or insane), when permitted by the Board of Appeals.

(5) Community buildings, country clubs, fraternal lodges, or similar civic or social clubs (but not a residential club or one operated as a commercial enterprise), when permitted by the Board of Appeals.

(6) The use of open land and waters for privately owned and operated parks, picnic grounds, golf courses, or similar facilities for outdoor exercise and recreation (not including boat livery and bathing facilities) which may not be operated for profit and provided such use does not impair the natural appearance of such land or tend to produce noise or annoyance to surrounding properties only when permitted by the Board of Appeals.

(7) Accessory uses customarily incident to any of the above permitted uses including, but not more than one private garage in which there is housed therein not more than one commercial vehicle of not to exceed one and one-half (1 1/2) tons capacity for each lot, and including signs pertaining to the sale, lease or use of a lot or building placed thereon, and not exceeding eight (8) square feet in area on any one lot, except by authorization of the Board of Appeals. Dwellings for the use of domestic employees of the owners, lessees or occupants of the principal dwelling on a lot shall be considered accessory buildings but if containing a complete housekeeping unit or units, shall conform to all the height and yard requirements for dwellings in the District in which they are located.

(8) The use of trailer coaches, tents, or portable dwellings shall not be considered either as a dwelling as herein defined and permitted nor as a legal accessory use in this district if the same are used for human habitation nor shall the same be used for the shelter of animals.

Section 6.2. AREA OF BUILDING. No dwelling shall be erected or altered in this district which provides less than five hundred twenty-eight (528) square feet of floor area per family at the first floor level, exclusive of any garage area or area in any accessory building. The area of a utility room in a dwelling constructed without a basement shall not be included in the computation of square feet.

Section 6.3. FRONT YARDS. In a Residence 1 District, there shall be on every lot, a front yard the minimum depth of which shall be forty (40) feet.

Where a front yard of greater or less depth than the above specified exists in front of a dwelling or dwellings in existence at the time of passage of this Ordinance, on one side of a street in any block, the depth of the front yard of any building subsequently erected on that side of the street in that block shall not be less and need not be greater than the average depth of the front yards of such existing dwellings, but this shall not be deemed to require in Residential 1 District, a front yard of greater depth than fifty (50) feet or permit a less depth than twenty-five (25) feet in any case.

Section 6.4. SIDE YARDS. In a Residence 1 District there shall be on each side of every lot a side yard, the minimum width of any side yard shall be 3 feet, but one side yard shall be not less than ten feet in width.

On a lot occupied by a church or other building in which persons congregate, or which is designed, arranged, remodeled, or normally used for the congregation of persons in numbers in excess of twenty-five (25), the width of each side yard shall be not less than fifty (50) feet.

The width of a side yard abutting upon a street shall be not less than the minimum front yard depth required on an adjoining interior lot fronting upon such side street, but this shall not reduce the buildable width of any lot of record at the time of passage of this Ordinance to less than twenty-five (25) feet at the ground story level.

Section 6.5. REAR YARDS. In a Residence 1 District, there shall be on every lot a rear yard, the minimum depth of which shall be twenty (20) feet for a one-story building. Provided, however, a private garage may be constructed in said rear yard.

On a lot occupied by a church or other building in which persons congregate, or which is designed, arranged, remodeled, or normally used for the congregation of persons in numbers in excess of twenty-five (25) the depth of the rear yard shall be not less than fifty (50) feet.

The depth of a rear yard abutting upon a street shall be not less than the depth of front yard required for a building of the same size and kind on an adjoining interior lot fronting upon such rear street.

Section 6.6. AREA OF LOT. No dwelling shall be erected or used on any lot having a minimum width of less than sixty feet and an area of less than seventy-five hundred (7500) square feet for each family housed thereon; except that this shall not prevent the use of one family of any lot existing and of record at the time of passage of this Ordinance having an area of 3000 square feet and a minimum width of at least 30 feet.

Section 6.7. BUILDINGS ON FIRE ESCAPE LOT. Accessory buildings and portions thereof not exceeding one story or fifteen per cent (15%) of the lot area, and such

District, there shall be on every lot a rear yard, the minimum depth of which shall be twenty (20) feet for a one-story building. On a lot occupied by a church or other building in which persons congregate or which is designed, arranged, remodeled or normally used for the congregation of persons in numbers in excess of twenty-five (25) the depth of the rear yard shall be not less than fifty (50) feet.

The depth of a rear yard abutting upon a street shall be not less than the depth of front yard required for a building of the same size and kind on an adjoining interior lot fronting on such rear street.

Section 7.6. AREA OF LOT. In a Residence 2 District, no dwelling shall be erected or used on any lot having a minimum width of less than 75 feet and an area of less than ten thousand (10,000) square feet for each family housed thereon; except that this shall not prevent the use for one family of any lot existing and of record at the time of passage of this Ordinance if said lot has an area of at least 3000 square feet and a minimum width of at least 30 feet.

Section 7.7. BUILDINGS ON THE SAME LOT. Accessory buildings and portions thereof not exceeding one story or fifteen (15) feet in height may occupy not more than ten per cent (10%) of the lot area. Where a rear yard abuts for its full width upon a street, accessory buildings shall not occupy any of the minimum required rear yard space. On a corner lot accessory buildings shall not occupy any of the minimum required side yard space abutting upon a street nor any of that portion of the rear yard lying nearer to the street than the width of side yard required on such lot and butting on such rear street.

Section 8. RESIDENCE 3 DISTRICT.
Section 8.1. USES. In a Residence 3 District no building, lot or land, except as otherwise provided in this Ordinance, shall be erected or used except for one or more of the purposes set forth in Section 6.1 hereof.

Section 8.2. AREA OF BUILDINGS. No dwelling shall be erected or altered in this District which provides less than seven hundred twenty (720) square feet of floor area per family at the first floor level, exclusive of any garage area or area in any accessory building. The area of a utility room in dwellings constructed without a basement shall not be included in the computation of square feet.

Section 8.3. FRONT YARDS. In a Residence 3 District, there shall be on every lot a front yard the minimum depth of which shall be forty (40) feet.

Section 8.4. SIDE YARDS. In a Residence 3 District, there shall be on each side of every lot a side yard, the minimum width of any side yard shall be 3 feet but one side yard shall be at least ten feet in width.

On a lot occupied by a church or other building in which persons congregate, or which is designed, arranged, remodeled or normally used for the congregation of persons in numbers in excess of twenty-five (25) the width of each side yard shall be not less than fifty (50) feet.

The width of a side yard abutting upon a street shall be not less than the minimum front yard depth required on an adjoining interior lot fronting upon such side street, but this shall not reduce the buildable width of any lot of record at the time of passage of this Ordinance to less than thirty (30) feet at the ground story level.

Section 8.5. REAR YARDS. In a Residence 3 District, there shall be on every lot a rear yard, the minimum depth of which shall be twenty (20) feet for a one-story building. On a lot occupied by a church or other building in which persons congregate, or which is designed, arranged, remodeled or normally used for the congregation of persons in numbers in excess of twenty-five (25) the depth of the rear yard shall be not less than fifty (50) feet.

The depth of a rear yard abutting upon a street shall be not less than the depth of front yard required for a building of the same size and kind on an adjoining interior lot fronting on such rear street.

Section 8.6. AREA OF LOT. In a Residence 3 District, no dwelling shall be erected or used on any lot having a minimum width of less than 100 feet and

an area of less than twenty thousand square feet for each family housed thereon; except that this shall not prevent the use for one family of any lot existing and of record at the time of passage of this Ordinance having an area of 3000 square feet and a minimum width of at least 30 feet.

Section 9. COMMERCIAL DISTRICT.
Section 9.1. USES. In a Commercial 1 District, no buildings or land, except as otherwise provided in this Ordinance, shall be erected or used except for one or more of the following specified purposes:

1. Any use permitted in a Residence 1 District.
2. Public and ecclesiastic buildings and properties.
3. Schools and hospitals (but not institutions for the care of the feeble minded or insane).
4. Parish houses, community buildings, apartment houses and clubs.
5. The executive or administrative offices or departments of professional, philanthropic and commercial activities, theaters and other places of amusement and recreation; mercantile establishments for the sale of goods at retail; public garages, and the repair, conversion, alteration, finishing, assembling, fabrication or storage of goods or for sale at retail on the premises; provided there is not in connection therewith the operation of any machinery or the storage or display of goods in such manner as to be noxious, or offensive by reason of the emission of odor, fumes, dust, smoke, waste, vibration or activity involving the use of machinery in excess of five horsepower, except with the approval of the Board of Appeals.

6. A motor supply station when so arranged and maintained as not to adversely affect the normal development or use of neighboring property in the same District or adjoining Residence 1 District, Residence 2 District and Residence 3 District, when permitted by the Board of Appeals.

7. A Trailer Coach Park if the Board of Appeals finds such would be constructed and operated in accordance with the State law, but no permit therefor shall be issued until after a hearing has been had thereon by the Board of Appeals after 5 days previous notice thereof has been given to a majority of property owners within 1000 feet of the perimeter of the site of the proposed Trailer Coach Park, and the Board of Appeals determines after such hearing that the use of the proposed site as a Trailer Coach park would not be detrimental to the interests of the majority of the property owners within 1000 feet of the perimeter of the proposed site.

Section 9.2. SIDE YARD. In a Commercial 1 District side yards are required along interior side lot lines if all walls abutting or facing such lot line are of fire masonry proof construction and wholly without windows or other openings. If walls facing such side lot lines contain windows or other openings side yards of not less than 10 feet shall be provided.

Section 9.3. REAR YARDS. In a Commercial 1 District there shall be on each lot a rear yard the depth of which shall be not less than 15 feet. Such rear yard shall at all times be kept free from obstructions for the ingress and egress of fire fighting equipment, where the rear yard abuts upon a street the depth of rear yard shall be the same as that required for a front yard of a building on an adjoining lot fronting on such rear street.

Section 9.4. HEIGHT. In a Commercial 1 District no portion of building used as a dwelling shall exceed a height of two (2) stories, or of thirty (30) feet. Buildings or portions of buildings not used for dwelling purposes shall not exceed a height of two and one-half (2½) stories or thirty-five (35) feet, except that towers, steeples and similar structures may be erected to a greater height when permitted by the Board of Appeals.

Section 9.5. AREA. In a Commercial 1 District a dwelling and accessory buildings shall be subject to all the requirements and limitations of similar struc-

tures in a Residence 1 District except that the Board of Appeals may modify the requirements of space in the front and rear yards.

Section 9.6. AREA OF BUILDING. No building for a commercial use shall be erected or altered in this District which provides less than seven hundred twenty (720) square feet at first floor level exclusive of any garage area or area in any accessory building. Excepting a motor supply station may be built with an area of not less than 400 square feet.

Section 9.7. BUILDINGS ON THE SAME LOT. Accessory buildings for a commercial use may be erected in addition to the principal building on a lot in such manner as to not occupy in the aggregate more than the total space permitted for a single building on such lot.

Section 10. MANUFACTURING DISTRICT.

Section 10.1. USES. In a Manufacturing District, no land or building shall be used or erected except for the following:

- a. Uses permitted in both residential and commercial and agricultural districts.
- b. Light manufacturing uses that by their nature do not, through noise, dirt, soot, offensive odor or unsanitary conditions or other means, constitute either a public or private nuisance.

Section 10.2. All buildings used for manufacturing purposes shall be of fireproof masonry construction and not more than 35 feet in height and comply with all Federal, State and Municipal laws and regulations in relation to sanitation, health and safety of the occupants of the buildings.

Section 10.3. Buildings used for commercial or dwelling purposes in a Manufacturing District shall be subject to all the requirements and limitations set forth herein in Section 9 in relation to such buildings.

Section 11. SUBURBAN FARMS DISTRICT.

Section 11.1. USES. In a Suburban Farms District no building or land shall be used except for either residential or truck gardening purposes but such use may include the keeping and raising of poultry and animals and the proper housing thereof and necessary accessory buildings for permitted uses.

Section 11.2. AREA OF BUILDINGS. No dwelling shall be erected or altered in this district which provides less than six hundred twenty-four (624) square feet of floor area per family at the first floor level, exclusive of any garage area or area in any accessory building. The area of a utility room in dwellings constructed without a basement shall not be included in the computation of square feet.

Section 11.3. YARDS. In this district there shall be a front yard of a minimum depth of forty feet and side yards of minimum widths of seventy-five feet.

Section 11.4. TOILETS. No outside privies shall be permitted in this district and all dwellings shall be equipped with inside toilets connected with adequate septic tanks.

Section 11.5. REFUSE. No piles nor accumulations of refuse or manure shall be permitted in this district unless they be at least one hundred fifty feet from all highways and seventy-five feet from all boundaries.

Section 11.6. HEALTH. All dwellings in this district shall be subject to the provisions of Section 5 hereof.

Section 11.7. TRAILER COACHES, etc. The use of trailer coaches, tents, or portable dwellings shall not be considered either as a dwelling as herein defined and permitted nor as a legal accessory use in this district if the same are used for human habitation nor shall the same be used for the shelter of animals.

Section 11.8. TENANT HOUSE. No auxiliary dwelling in this district shall be built on an area of less than 3 acres of land for use in connection with the principal dwelling unless it be a tenant house, which shall have at least 528 square feet of floor area at the first floor level, the occupants of which are employed in connection with the land by the owner thereof.

Section 11.9. ROAD SIDE STANDS. Road side stands shall be permitted in this district.

Section 12. AGRICULTURAL DISTRICT.

Section 12.1. USES. In an Agricultural District no land or buildings shall be used or erected except for one or more of the following purposes:

- a. Farms and general farming if the individual parcel is ten acres or more in area, including horticulture, dairying, livestock and poultry raising, farm forestry, and other similar enterprises, or uses, but no farms shall be operated as piggeries, or for the disposal of garbage, sewerage, rubbish, offal or rendering plants.

b. Boat liveries when operated by the owner of the fee, contract purchaser or lessee of the land adjoining the water.

c. Churches, schools, cemeteries, community and public buildings, and customary farm buildings and dwellings.

d. Road Side Stands when operated by and for the exclusive use of the occupants of the land on which the stand is maintained.

e. Any use customarily incidental to any and all of the foregoing uses and buildings of any size, height and area may be erected and used for said purpose so long as they do not violate any laws and do not constitute a fire hazard.

Section 12.2. DWELLINGS. All dwellings hereafter erected in this District shall provide an area of at least 624 square feet exclusive of the area of utility rooms in dwellings constructed without a basement and shall comply with and be subject to all provisions of Section 5 hereof, and shall have a front yard the minimum depth of which shall be forty feet and side yards of at least 200 feet.

Section 12.3. AREA. No auxiliary dwelling in this District shall be built on an area of less than 10 acres of land for use in connection with the principal dwelling unless it be a tenant house, which shall have at least 528 square feet of floor area at the first floor level, the occupants of which are employed in connection with the land by the owner thereof.

Section 12.4. ACCESSORY BUILDINGS. All accessory buildings shall consist of farm buildings as herein defined and must be built at least 200 feet from the highway and from the boundary line of the farm.

Section 12.5. REFUSE. No piles nor accumulations of refuse or manure shall be permitted in this District unless it be at least 200 feet from all highway and side boundary lines.

Section 13. ADMINISTRATION.

Section 13.1. BUILDING INSPECTOR. The Township Board of Independence Township shall appoint a Building Inspector to perform the duties herein set forth to be performed by such officer.

Section 13.2. EXEMPT REPAIRS. No existing building shall be altered or repaired at a cost of more than \$200.00 more frequently than every three months, nor shall any work be begun for the construction or erection of a new building or excavation therefor, nor any existing structure moved from without into another district nor moved within a district and placed upon a new foundation until after a building permit therefor has been issued by the Building Inspector of the Township.

Section 13.3. APPLICATIONS. Applications for the repair, alteration or construction of a building shall be filed in triplicate with the Township Building Inspector upon forms furnished by him or approved by the Township Board and said applications shall be in ink or typewritten, and shall furnish a general description of the contemplated construction and definite information as to area of the lot on which the building is to be constructed and its location thereof and the materials which will be used in the foundation and on the exterior, which applications shall be accompanied by bankable funds as herein required payable to the Township of Independence.

Section 13.4. FEES. A fee equivalent to one-quarter of one per cent of the estimated cost of the improvements indicated on the application for a permit shall accompany the application. Provided, however, there shall be a minimum fee of \$2.00 and a maximum fee in Residential, Suburban Farms and Agricultural Districts of \$25.00 and a minimum fee of \$4.00 and a

maximum fee of \$50.00 for a permit in a Commercial or Manufacturing District. The fee in all cases shall be immediately remitted by the Building Inspector to the Township Treasurer.

Section 13.5. PERMITS. If the Township Building Inspector finds the application conforms to the requirements of this Ordinance and the Statutes, he shall mark all copies of the application approved over his signature, one copy of which shall be retained by him, one copy shall be filed with the Township Clerk and the other copy shall be returned to the applicant, together with a construction card signed by the Building Inspector stating the extent of the work authorized which card shall be attached to and remain on the building during the progress of the work authorized. The approval of the application and the issuance of construction card by the Building Inspector shall not be binding upon the Township Board or the Board of Appeals, in case it is subsequently discovered that the plans or the completed building do not conform to the requirements of this Ordinance.

Section 13.6. USE AND OCCUPANCY CERTIFICATE. No building constructed or altered at an expense of \$200.00 or more nor any building moved into nor moved within and placed upon a foundation in a Manufacturing, Commercial or Residential district shall be used or occupied until the Building Inspector has, after inspection, issued a certificate of occupancy and compliance. No fee shall be charged therefor and such inspection and certificate shall be issued within five days after request therefor has been made if at the time of the inspection, the improvement has been completed.

Section 13.7. The Board of Appeals shall consist of three members, who shall be appointed and have the duties, responsibilities and powers that are provided for them to have herein and by Act 184 of the Public Acts of the State of Michigan for 1943 and all amendments thereto, and which may hereafter be made or granted by new statutes hereafter passed, and in addition may in specific cases where there are practical difficulties or unnecessary hardships in complying strictly with the provisions of this Ordinance, add just such conditions in harmony with the purpose and intent of this Ordinance so that the public health, safety and general welfare may be secured and substantial justice done and issue appropriate orders and permits in such case.

Section 14. VIOLATIONS AND PENALTIES.

Any firm, corporation or person who is convicted of violating any of the provisions of this Ordinance shall be fined not less than \$25.00 nor more than \$100.00 for each offense or shall be punished by imprisonment in the County Jail for a period not to exceed 90 days for each offense, or may be both fined and imprisoned as provided herein. Each day a violation occurs shall constitute a separate offense. Any building which is erected, repaired, altered, moved or converted, or any use of land which is begun or changed subsequent to the effective date of this Ordinance and declared a nuisance per se. The Board of Appeals, any person designated by the Township Board, or any aggrieved person may institute a suit to have the nuisance abated and the Board of Appeals is hereby charged with the duty of enforcing the within Ordinance. The rights and remedies provided herein are cumulative and in addition to all of the other remedies provided by law.

Section 15. VALIDITY AND EFFECT.

The provisions of this Ordinance are hereby declared to be immediately effective to preserve the public health, peace, safety and morals and should any section, clause or provision of this Ordinance be declared by a Court to be invalid, the same shall not affect the validity of the Ordinance or any part thereof other than the part so declared to be invalid.

The provisions are hereby declared to be immediately necessary for the preservation of the public health, peace and safety and are hereby ordered to take effect thirty (30) days after final passage. Made and passed this 3rd day of May, 1946.

NIGHT AND DAY
Greyhound plays a vital part
in the life of

Twenty-four hours a day—throughout the year—Greyhound serves our city and our state... providing continuous highway transportation that benefits everyone.
Big, comfortable buses operating on time-saving schedules, offer the convenience of "door-step" transportation service... to the factory, to the farm, to the office. These same Greyhound super coaches cruising over scenic routes, carry passengers to pleasurelands all over the nation. Work or play, Greyhound serves our people twenty-four hours a day.
This vital, uninterrupted service provides steady wages for Greyhound employees and brings new business into our town. It helps build a happy and prosperous community.
Greyhound truly shares in the life and interests of the people it serves.

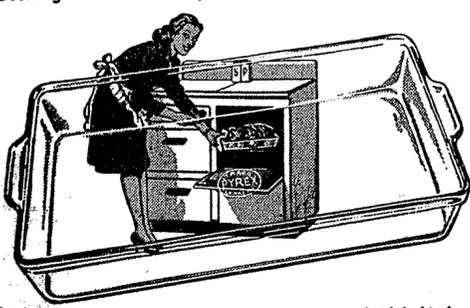

More Buses, More Service Needed and on the way
Today people are on the move as never before. With every bus working regularly, with everyone at Greyhound doing his utmost, travelers still are sometimes inconvenienced.
Hundreds of new buses are on order. When they are delivered, you can expect finer, and more frequent service, additional comfort... better travel in all respects than America has ever known.

Roll — Dunston, yes; Holcomb, yes; Megee, yes; O'Rourke, yes; Squier, yes; Waters, yes. Motion carried. Moved by Megee that William Dunston be appointed as deputy clerk. Seconded by O'Rourke. Motion carried. Moved by O'Rourke that meeting adjourn. Seconded by Dunston. Motion carried. RUSSELL COLTSON, Village Clerk.

THE AMERICAN LEGION NEWS-LETTER

Perhaps this will give the Good Neighbor policy a boost. Forty-six Mexicans at Saginaw, veterans of World War II, have organized the Latin-American Post of The American Legion. Valentino Gallejos heads the group as commander, while other officers include Frank Mendoza and Louis Ceja and Augie Rocha. In addition to the 46 charter members there are more than 100 other Mexicans in Saginaw eligible to join the new post.

Latest membership figures show that the Ford Motor Company post at Dearborn has signed up 1,096 members to become one of the six American Legion units in

New Science Building for Michigan State

Architect's drawing of Michigan State College's proposed new \$2,000,000 science building, work on which will begin soon. Largest classroom structure on the M. S. C. campus, the four-story building will be 700 feet long. It will be built on a site just east of the dairy building. The new building will house classrooms, laboratories, and offices for the departments of botany, entomology, zoology, geology and geography. The contract for erecting the new building has been awarded to the Reniger Construction Co., Lansing.

Michigan to pass the 1,000 mark this year. Saginaw Post No. 22 still tops the list with 2,072 members, while the others are located in Bay City, Port Huron, Battle Creek and Detroit.

A recent Veterans Administration survey which indicated that the great majority of World War II ex-servicemen would probably let their government life insurance policies lapse has disturbed top American Legion officials in Michigan and the nation at large. They are urging veterans everywhere to keep this insurance in force as it is a most valuable asset.

Originally issued on what is called the Five-year Level Premium Term Plan, this government term insurance has now been extended to eight years. Any time after it has been in force a year and before the term period is up, it may be converted into ordinary life, 20-payment or 30-payment life, in multiples of \$500 over and above the first \$1,000.

Cheaper than ordinary insurance, the government policy is particularly valuable to veterans who through disability or impaired health might be unable to obtain any other life insurance protection.

Two Michigan men saw this happen, but where are they now? "I wish I knew," mourns World War I vet John Bruton of Box 391, Colorado City, Texas.

"Me and my horse, we was proceeding peacefully along between Chalons-sur-Marne and Gondrecourt back in the summer of 1918 when up comes one of those road-hogging army trucks and slams into us. Bingo! My nag gives me the old heave-ho and I wake up on a pile of rocks in the ditch with my side, back and hip all out of line. Misery I've had, off and on, ever since, but it's no dice for government compensation until I find those two Joes who saw it happen.

Now Bruton is asking the Michigan American Legion to help him locate his witnesses. Their names and last known addresses are: Adam F. Wisneski, c/o J. T. Williams Klouwski, 304 St. Aubin Ave., and Edwin Beasars, c/o Mrs. Martha J. Beasars, 60 Locust St., both of Detroit.

Bruton was a member of Co. K 126th Infantry, but was on detached duty with a remount detachment when he and his steed came to grief. A word to him, or to state American Legion Headquarters, 602 Barlum Tower, Detroit, concerning the present whereabouts of his witnesses, will be greatly appreciated but it is

believed the horse is beyond repair.

After naming the new American Legion Post at Trout Creek in Ontonagon county in memory of two World War II heroes, the members asked the school board to name the high school gymnasium and athletic field in honor of two other young men in the community who also lost their lives in combat.

News To Farmers

Oakland county farmers are getting ready to plant a part of Michigan's 1,800,000-acre corn acreage this week, according to Karl Bailey, county agricultural agent. "This year the crop is as important as during the war years. Europe faces a famine and here in this nation a food shortage is apparent," Mr. Bailey added.

J. W. Thayer Jr., farm crops specialist at Michigan State College, says the old saying that the time to plant corn is when oak leaves are as big as squirrel ears is pretty good advice. In Oakland county the most appropriate date, according to tests, is May 12-20.

The county agent suggests that a good seed-bed be prepared. Ground should be worked in advance to planting to kill the weeds. Immediately before planting, a good firm seed-bed should be prepared by disking and dragging.

If you have a mechanical corn picker, you will probably find it more successful to plant in rows. However, check planting is popular for those without pickers. It makes it easier to cultivate both ways to control weeds.

Mr. Bailey recommends planting from 7 to 10 pounds of seed per acre. A bushel of seed should plant 6 to 8 acres. "Of course, we expect our farmers in Oakland county to plant hybrid seed", the agent said. Those recommended for this locality include: Ohio M-15, Mich. 51-B, Mich. 24-B, Mich. 36-B, DeKalb 240, DeKalb 404-A, Kingscrest D-4 and Pioneer 355.

KILL GARDEN CUTWORMS Garden and flower injury from cutworms can be avoided. Prof. E. I. McDaniel of the Michigan State College entomology department, says spreading poison bait on the soil several evenings before setting transplants or just before seeding will get results. Cutworms work at night and if the bait is spread late in the afternoon or early evening, it is more attractive. If spread early in the day it dries out before the caterpillars come out to feed. Cut-

worms winter as half-grown caterpillars and have ravenous appetites after their long fast.

Most of the early cutworms desire wilted food. To insure the next meal, they cut plants off below the surface of the soil and leave them until the next night. They destroy many times more plants than they consume. Professor McDaniel concludes.

The formula for poison bait may be found in extension bulletin 271, "Controlling Diseases and Insects on Garden Crops" available from your county extension office or from the Bulletin Office, Department of Public Relations, Michigan State College, East Lansing.

KITCHEN REMODELING HINT

The homemaker's dream is a convenient kitchen. The average homemaker spends 45 percent of her working day in the kitchen. That fact alone justifies her dream. And the mere fact that a well-planned kitchen, saves her time justifies an expenditure to make it modern.

To help those who are thinking of convenient kitchens, Michigan State College home economics extension specialists have prepared a revised bulletin, "Convenient Kitchens," extension Bulletin No. E-185 (revised). It is ready for the homemaker who plans to do something about her old kitchen.

County extension offices or the Bulletin Office, Department of Public Relations, East Lansing, can furnish copies. Ask for it by name and number.

PUBLIC HEALTH NEWS

Diphtheria rose 8th place among the leading causes of death for children between the ages of one and five in Michigan in 1945.

"This fact should remind parents that the simple, sure protection of diphtheria toxoid should be given to every child before his first birthday," says Dr. William DeKleine, state commissioner of health. "Diphtheria increased in Michigan during the war and immunization is the only way to stop its continued rise."

During May, health departments and physicians are stressing the importance of protecting children against preventable diseases. Injections of diphtheria toxoid are recommended for the child at 9 to 10 months and again at school age.

Between January 1 and May 1 a total of 187 diphtheria cases was reported to the Michigan Department of health. This is more than twice the number of cases for the same period of 1942, the year when diphtheria began to rise. Of the 1946 diphtheria cases 9 were from Oakland county.

Caught in the Wake

A little boat upon the sea Just bobs along contentedly; It's quite well pleased within its course To float, without some stirring force To drive its hull from crest to crest, Denying it of peace or rest.

It matters not how it behaves, For some great ship, that plows the waves, Will come too close while passing by To toss it up on billows high. The ships, great troughs of waters make To toss small boats within their wake.

So man, who lives a peaceful life, Is caught, unwillingly in strife; Pathetically is tossed around, His hopes are lifted then are drowned.

As he is caught within the wake Of things that stir the human lake.

How pitiful starvation rides Grottesquely on our man made tides.

We bow our heads in utter shame While nations, out for greedy gain, Draw countless millions in their wake.

Where life itself is held at stake. —Robert C. Beattie (All rights reserved)

If you have anything to sell or rent, or if you want to buy something you can't find ordinarily, try using a Clarkston News Want Ad. Just phone Clarkston 4321.

FARM FORESTRY

The average Michigan farm needs about 25 cords of fuel wood 25 fence posts and 2,000 board feet of lumber a year for heating and repair purposes.

A well managed woodlot of 16 to 20 acres can supply these requirements but a neglected woodland needs about twice that acreage to do so.

We can substitute coal for wood for fuel, and metal posts for wood posts. In some cases, steel may be a substitute for wood, but generally speaking, it is difficult to substitute for lumber in making repairs around the farm.

Now that western and southern pine are expensive and hard to get, we should turn to the use of home grown timber for our lumber supply. Native hardwoods properly sawed and seasoned, have a high value in the farm program.

Information on the use of home grown hardwoods can be obtained from your County Agricultural Agent, Michigan State College or the Farm Forester, for your county, Shirley L. Gowing of LaPeere.

Card of Thanks

We wish to thank our many friends in this vicinity for their acts of kindness and expression of sympathy through cards and flowers in these trying days following the sudden death of our brother, Kenneth F. Lord, of Farmington, Mich.

Mr. and Mrs. Howard Lord and Children.

BENEFIT DANCE

FRIDAY, MAY 24 Get ready folks! Another American Legion Benefit Dance is on the way. On Friday night, May 24th, at the Clarkston school, Chuck Chandler and his band, accompanied by his soloist, will again produce their haunting strains of melody which are so pleasing to those of us who enjoy good music, good dancing, good friends and a good time.

This is to be a Puppy Day dance with decorations to suit the occasion. Refreshments (sandwiches and coffee) will be served and dancing will be from 9 until one o'clock. Favors for the occasion will be given with admission tickets which are priced as before.

Everyone is looking forward to a fine time and the sponsors wish to extend an invitation to all. Mr. Chandler promises an even better orchestra than before and will oblige with any special numbers requested by the guests.

Come on Clarkston. Let's make it a howling success.

SERVICE MOTHERS

MEET NEXT THURSDAY The Clarkston Service Mothers will meet at the Masonic Temple on Thursday May 16th. There will be a short business meeting and tea will be served starting at 2:30. This afternoon affair is to honor the GI brides of Independence Township.

Born to Mr. and Mrs. Ralph Secord a 7 lb. 6 oz. daughter, Jaye Lynn, on Sunday, May 5th at the Pontiac General hospital.

HOUSE PLANTS NEED SPRING CARE NOW
Use caution in the placing of your house plants out of doors before June, recommends Charles E. Sherwood, Michigan State College floriculturist. The sunshine

and balmy weather are excellent tonics for most of your plants, but for many, the night temperatures will still be too cold outside. Repotting should be done now, unless the plants are to be set directly into porch boxes or the garden. Use a soil mixture consisting of one part garden dirt, one part coarse sand, and one part organic matter such as peat or leafmould. To each quart of this soil, add one-half teaspoonful of 4-12-4 fertilizer. Use a pot only one size larger, and place a piece of pottery and a little sand over the drainage hole. If the roots are abundant, loosen them with the fingers or a clothespin. Set the old plant at its previous depth and firm the soil about it. After potting, set the plant in water for five or ten minutes, then drain.

Dirty, unsightly foliage may be cleaned by gentle rubbing with a moist, damp cloth. One-half ounce of soap per gallon of lukewarm water makes a safe cleansing solution. Recovery from the anemic appearing winter growth will often be hastened by twice-a-month watering with a well mixed solution made by adding one teaspoonful of 4-12-4 fertilizer per quart of water.

New plants may be started from cuttings now. You may start them in water, or moist sand, or even in soil. Sherwood invites those with difficult cases regarding flowers to write the floriculture department at Michigan State College for specific information.

HORMONE INJECTIONS DELAY FRUIT BLOSSOMS
Undaunted by only a slight response, Michigan State College horticultural specialists are continuing their experiments to forestall blooming in fruit trees by hormone injections. Drs. Charles L. Hammer and J. E. Moulton, who started the experiment in March, announced today that trees treated showed a "slight" effect, but the delay in bloom was not as marked as they hope to attain with further experimentation.

The original idea was to use some of the plant hormone sprays, injections, and soil applications in an attempt to hold back buds and

blossoms until after late spring frosts and freezes had passed. The scientists believe that the application of hormones either in the fall or winter may tend to have a still greater effect. "We got a slight effect, but not enough response to make it practical", Hammer said. He added, "We will continue with the work and someday we hope to discover the right time, and the right amount to produce results".

Michigan's \$20,000,000 fruit crop is jeopardized almost annually by late frosts and freezes which come after the trees have blossomed.

Home gardens will assure you of plenty, and make more canned goods available to ship to Europe. Have you planted your garden?

FARMERS FACE PROBLEM IN STRETCHING FEED

Stretching the limited feed supply is one of the biggest problems facing the Michigan farmer today. To help the farmer with the situation he faces, specialists at Michigan State College have prepared hints on how feed can best be utilized.

- Here are 10 general suggestions:
1. Use feed-grains with utmost efficiency, and release any excess for food.
 2. Balance livestock operations on the farm with the feed supply.
 3. Feed less grain to low-producing stock.
 4. Sell cull stock on the present favorable market.
 5. Sell hogs at lighter weights and cattle with moderate finish, if short of feed.
 6. Avoid wasting grain by (a) killing rats and mice, and (b) con-

trolling disease and parasites. 7. If short of grain, buy amount needed to last to harvest, when possible. 8. Use hay, pasture, and other roughage as much as possible to lessen grain needs. 9. Fertilize pasture to increase its feed production. 10. Increase the acreage of spring grains.

While feed-grains in Michigan were slightly above normal on January 1, 1946 little will be received until after harvest. Michigan normally feeds more livestock than its grain production will support.

Specific recommendations are made for poultry, dairy cows, and general livestock fattening. The complete information was published as extension folder F-98, "How to Stretch Your Feed Supply". Copies may be obtained from your county extension office or by writing to the Bulletin Office, Department of Public Relations, Michigan State College, East Lansing.

PROFITABLE PROSPECTS FOR BEAN PRODUCTION

Prospects are bright for profitable field bean production in 1946. This is the belief of K. T. Wright of the farm management department, and A. A. Johnson of the farm crops department at Michigan State College.

Higher prices for the beans are assured by government support prices. This factor, with the application of good field bean production practices, and favorable weather, can work together to provide for Michigan bean growers the highest per acre value in history.

Conservation News

Fifty picnic sites are being developed in 11 southeastern Michigan recreation areas as the conservation department's parks and recreation division, though limited by construction material shortages, is moving to make newly acquired areas useful this summer.

All sites will be in scenic spots along established roads. To the smaller ones, with one or two rustic tables, picnickers will have to bring their own drinking water, but larger sites with a dozen or more tables will be equipped with wells, stoves and toilets.

Sites now being cleared and equipped are in Pontiac Lake, Island Lake, Highland, Rochester-Utica, Proud Lake, Brighton, Met-

amora, Pinckney, Bald Mountain, Holly and Ortonville state recreation areas.

The revised edition of "Landscaping the Home Grounds", extension bulletin E-199, is ready for distribution. One of the most popular bulletins ever prepared by Michigan State College the 67-page book by C. P. Halligan, head of the landscape architecture department, is again in county extension offices.

With a large number of people landscaping grounds, the new revised edition will prove a good guide for the urban, suburban and rural home owner. Copies may also be obtained from the Bulletin Office, Department of Public Relations, Michigan State College, East Lansing.
