At a pretty, candlelight service at the Clarkston Baptist church last Saturday night at 8 o'clock Barbara Jean Strickland, daughter of Mr. and Mrs. Kenneth A. Strickland of Andersonville Rd., and Private First Class John Thomas Waid, son of Mr. and Mrs. Frank Waid of Clarkston, spoke their marriage vows at a double ring ceremony read by the Reverend Walter C. Ballagh, before about 200 relatives and friends. Paul VanBuskirk, representing he Huron-Clinton Metropolitan authority, was the guest speaker at the Waterford-Drayton Rotary Club meeting last week. Mr. Van-Buskirk outlined the joint program being carried on by the state and his organization. He pointed out that the idea to provide recreational facilities for Detroit and the metropolitan area was promoted a number of years ago but due to the war and other deterrents, nothing much has been done

until recently. The proposed project follows the Huron and Clinton rivers and forms an arc, 120 miles long with one end stopping at the Detroit river and the other at Lake St. Clair. The beach now being prepared at Lake St. Clair will accomodate approximately 65,000 persons. The projects of most immediate interest to Oakland county, he believes, is the 115 acres on Cass Lake donated by Mr.

Bloomer and the bathing beach now underway on Pontiac Lake. He concluded that the overall

project when completed will be one of the most beautiful and most modern recreational areas to be found anywhere.

★ "Give me health and a day and I will make the pomp of emperors ridiculous" was Ralph Waldo Emerson's terse but eloquent opinion of the value of health. The vibrant, glowing health of which he speaks is seldom an accident of birth. Its price is constant vigilance, with proper regard for rest, fresh air, exercise, and diet.

At the first sign of illness see your family physician. He is your skillful and never-failing ally in the preservation of health. If, in his judgment, medication is needed, bring your prescription to us.

# These 5 Men May Save the World

This group of 5 distinguished Americans was closeted together by Uncle Sam for 8 long weeks.

They had a supply of midnight oil to burn. And the toughest problem of the century to lick.

The problem: To draw up a plan by which mankind can conquer, not be conquered by. Atomic Energy.

Now that their plan has been drawn up, it's being hailed both here and abroad. But it still lacks a most important element.

In the words of one of the group. TVA's David B. Lilienthal:

"... our plan must be understood and wanted by you and all the people of the world. We have the frame of a plan, but it's your living room talk, your arguments around the table, in your clubs and union headquarters, which will put life in it."

That's the job "This Week" Magazine has set for itself. "A PLAN THAT CAN We've invited Mr. Lilienthal to give you the plan in our pages.

just as he might describe it to his next-door neighbor. Here's an article that affects

the lives of every man and woman in the land. Written in your language . . . so that you'll read it Sunday in "This Week" Magazine . . . and help America do aomething about it . . . before it's tee late.

It's true that today's modern labor-saving appliances help to make Spring Housecleaning easier. But there's no getting around the fact that this type of work can still tire the most energetic person. One of the best remedies for this tired feeling is a good hot relaxing shower or bath. It will soothe those tired aching muscles and give you renewed vigor that will make life rosy again.

An ample supply of hot water also makes cleaning easier. Nothing will take the place of good soap and hot water when it comes to cleaning out winter's dirt and grime.

Plan now to make Spring cleaning easier and living more enjoyable with an automatic gas water heater. It's quiet, quick, clean, dependable and so economical to operate. See your Gas water heater dealer today. Place your order now for the earliest possible delivery. You'll be glad you did.

# or Chilly Spring Mornings an ELECTRI HEATER FURNISHES GLOWING WARMTH

No need to fire up the furnace these chilly spring mornings when an electric heater will give instant warmth . . . where you want it . . . when you want it. Safe, clean, economical, an electric heater is ideal for warming your dressing room, bathroom, or other small rooms.

Just a Few Cents an Hour Is All It Costs... but unlimited use can cause abnormally high electric bills. For example, a 1000-watt heater at residence rates, costs only 171/2c a week when used one hour daily for seven days. The same unit used 8 hours daily costs \$1.40 a week, and adds \$10.20 to your two months' bill. Consult a reputable electric dealer who can recommend a heater of sufficient wattage to suit your particular needs. He can also tell you just what it will cost to operate.

These days-LEARN TO DIAL BY EAR

3. When you hear until you hear

THAT dial tone is mighty important. It means that the switching equipment in the central office is ready to handle your call. If you dial before you hear it, you'll get a wrong number or no number at all.

Right now there are times when the dial tone is delayed. That's because, in a continuing effort to give some kind of service to as many waiting applicants as possible, we are loading our central office equipment far beyond its mormal capacity-even at the risk of lowering the quality of service.

This situation is only temporary. We will restore service to normal as quickly as enough dial equipment can be provided.

Meantime, please remember to listen for the dial tone before you dial.
