CLARKSTON, MICHIGAN, FRIDAY, JULY 26, 1946

## By The Way

The bathing beach on the east side of the bridge at Deer Lake is now protected by guard posts installed along Depot Road. . . .  
Slightly, one by one, new products are appearing in the stores. Sooner or later your attention will be called to them by the merchants. And now, if our readers, including the three or four new subscribers who are added to our list each week, will allow us the space, may we call to the attention of the merchants the fact that the advertising columns of the News can make those sales come sooner. Every week new firms are starting out in the business world and using the News' columns to tell this particular part of the world all about it. If you don't tell about yourself you may lose your customers to the new competitor. . . .  
Last week we had the pleasure of seeing the old swimming hole that old people think and dream about. We visited the picnic and outing grounds owned and operated by George D. Walter on Cranberry Lake. . . . The new building being erected on M-15 near the Dixie will be the future home of the Clarkston Feed Store. Incidentally the proprietor, Glenn Boner, says the structure will be a Quonset steel building. . . . New parallel parking signs, properly cemented in the ground, have been installed on Main Street in Clarkston. . . . Please don't run us out of town for this, but perhaps parking meters would help the parking situation. Somehow I think I should have left that idea out. . . . Mowing lawns is not in my category of crimes, but perhaps it would be better to mow my lawn than have a vacation due to the hot sun burning the grass and making lawn mowing unnecessary. . . . Being that this is quite a district for fishing, perhaps it would be a good place to give a definition of a fish line: A fish line is the shortest distance between two suckers.

## ATTENTION! SERVICE MOTHERS

The Clarkston Service Mothers held their regular meeting last week. Many of the members of the club are mothers of boys who have been discharged from service and these mothers have been active in the club for the past five years. It is now time for election of new officers and it is decided last week that the mothers of boys now in service or of those who are apt to be in the next few months would like to do their part and so make the boys who are far from home feel that the Service Mothers at home did not "let them down". Every mother of a boy in service who is not now a member of the club or those who are members but have not been attending the meetings, are asked to contact Mrs. George Perry, Mrs. Paul Henry or Mrs. Garnet Poulton. Do this at once. Remember that there are many things that you can do for your boy, through the club, that will help to keep him from getting lonesome.

## OAKLAND FARM BUREAU TO HOLD PICNIC AUGUST 3

The Oakland County Farm Bureau picnic will be held on Saturday, August 3 at Highland Dodge Park. Pot luck dinner will be at noon. Each family will provide their own service and sugar for coffee which will be furnished. Mr. Jack Yaeger from the state office will be on hand. Each group is to provide five minutes of entertainment. There will be games for all ages.

## ELEMENTARY LIBRARY OPEN THURSDAY

The elementary library at the school is open every Thursday morning from 10 until 12 o'clock. Children are urged to make use of this opportunity during their vacation. There are many books in the library suitable for the high school group and these young people are invited to visit the library and enjoy some good reading during the next few weeks.

## Holly Theatre

"The Friendly Playhouse"

FRI.-SAT., July 26-27 — 2 Big Features. Maria Montez, Robert Paige, Sabu, in TANGIER. Also William Gargan, Janis Carter, in NIGHT EDITOR.

SUN.-MON., July 28-29—Merle Oberon, Turhan Bey, Thomas Gomez, in NIGHT IN PARADISE, in Technicolor.

TUES.-WED.-THURS., July 30-31, August 1—Marjorie Reynolds, Fred Brady, Jinx Falkenburg, in MEET ME ON BROADWAY.

## Obituaries

### MRS. ELSIE MAXAM SUTTON

Word was received on Tuesday night from Mr. and Mrs. William Vliet who have been vacationing in the west and are now in Tacoma, Wash., that his aunt, Mrs. Elsie Maxam Sutton, age 69, had passed away at her home in Tacoma. Mrs. Sutton, daughter of the late Mr. and Mrs. L. P. Maxam of Waterford, was born in Cheney, Sedgewick county, Kansas, July 22, 1877. She is survived by two sisters, Mrs. J. M. French of Tacoma and Mrs. Milan Vliet of Clarkston; one brother, LeRoy Maxam of Detroit and a nephew, William Vliet of Clarkston. Burial was in the Tacoma cemetery.

Mrs. Sutton was a graduate of the Waterford high school. She attended the Michigan State Normal College at Ypsilanti and received her master's degree at the Washington State University in Seattle. She was a teacher in the Tacoma Junior High school for many years and was interested in the educational and charitable work of the city and state. On December 26, 1926, she married William J. Sutton of Cheney who died in 1939.

### FRED HAMPSHIRE

On July 23rd, 1946, Fred Hampshire passed away after an illness of five months. He was born in New York state on October 9, 1858. In December, 1882, he married Linda Barrows. She passed away in July, 1915.

They had two children: a daughter, Mrs. Lottie Russell of Swartz Creek, who passed away in March, 1944 and a son, Clyde Hampshire, who lives in Columbus, Ohio. Other survivors are two grandchildren, Mrs. Frieda Russell of Swartz Creek and Billy Hampshire of Columbus; four great grandchildren and a niece, Mrs. Della Huntoon now living in Clarkston.

The funeral service was held in Pontiac on Thursday afternoon at 2 o'clock.

## Clarkston Locals

Among the Girl Scouts at Camp Sherwood this past two weeks is Sue Shanks, daughter of Mr. and Mrs. Leslie Shanks of S. Main St. Clarkston. Brownies who are spending this week at Camp Sherwood are Mildred Ballagh, Nancy Morgan, Kay Robinson, Laura Ruggles and Judy Walker.

Mr. and Mrs. George A. Perry had as their dinner guests at Green Acres last Saturday evening, Mr. and Mrs. W. J. Perry of Grand Blanc and Mr. and Mrs. Ford Peirson of East Aurora, N. Y. Lanny Leak, son of Mr. and Mrs. Keith Leak, is visiting for a few weeks in Royal Oak with his uncle and aunt, Mr. and Mrs. R. Bird.

Mrs. Keith Leak spent the first part of the week in Ann Arbor with Miss Getrude Tew, who is attending summer school at the university. A guest for a few weeks at the home of Mr. and Mrs. Clare Rasmuson in Drayton Plains is her mother, Mrs. L. McCarthy of Hinton, W. Va.

Mr. and Mrs. Floyd Terry and granddaughter, Rosanne, and Mr. L. D. Hemingway and daughter Sylvia spent the week end with Mr. and Mrs. Carl Terry and family at Bear Lake. While there they engaged in cherry picking and brought some home with them.

Mary Lee Volberding returned home Sunday from a very pleasant four weeks vacation. One week she went to Ithaca, N. Y., with her uncle and aunt, Mr. and Mrs. T. Schmidt and their daughter, Natalie, of Elmhurst, Ill. They visited many interesting places along the way. At Ithaca they were joined by Howard Schmidt who had been attending Cornell University and he returned home with them. Mary Lee enjoyed the rest of her vacation at the Schmidt home in Elmhurst.

Mr. and Mrs. Howard Lord and sons, Donald and Richard, returned home Sunday from their vacation at Hubbard Lake. Donald left Wednesday for two weeks at Camp Iroquois, East Tawas, Mich.

Mr. and Mrs. Ina Jones are spending two weeks at the home of their son Ed Jones in Port Huron while he and his family vacation in northern Canada.

## Births

Born to Mr. and Mrs. Lyle Rexford a 7½ lb. son, David Lynn, on Wednesday, July 17th, at the Pontiac General hospital.

Born to Mr. and Mrs. Harry Wagner of 6470 Waldon Road, a 7 lb. 12½ oz. daughter, Judith Ann, on Monday, July 22, at the Woman's Hospital in Detroit.

## Local Youths Go to Conservation Camp At Higgins Lake

Forty boys of Oakland County, between 14 and 17 and representing every section of the county, will leave next Monday morning (July 29) for a week's training-outing at Conservation Department Training School at Higgins Lake.

Those from this area include: Bruce Watson, 17 N. Holcomb St., Clarkston; Robert Lowry, Waterford; Bud Baumgartner, Drayton Plains and Marvin Potter, Ortonville.

This delegation of Junior Oakland County Sportsmen's Club members are being sent, with all expenses paid, by the Senior OCS. This is the second annual trek of a similar delegation from OCS. Detroit Sportsmen's Congress will have 40 boys at Higgins Lake Training School at the same time, the state's two largest sportsmen's clubs having taken over the Conservation Department's "College of the Wild" for the week. The Oakland County and Detroit boys will return home Saturday, August 3.

The two clubs have chartered special busses to take the boys north.

At an outlay of approximately \$700, the OCS is sending the 1946 delegation of worthy boys to the school, as leaders among boys of their age in their respective communities, to learn and pass along the facts a sportsman should know about game and fish, hunting and fishing, use of the rifle and fly-rod, archery, woodcraft, forest fire, canoe safety, woods lore and etiquette. Swimming, softball, horseshoe pitching and other sports, as well as learning how to keep a camp shipshape by doing their own chores, will balance the program under kindly, watchful and skilled guidance of Conservation Department specialists.

The 40 Oakland County Junior OCS members chosen for this year's camp trip will assemble in Pontiac next Monday morning to start their journey to Higgins Lake.

## Council of Veterans Urges Enforcement Of Traffic Laws

The Oakland County Council of Veterans, composed of delegates from The American Legion, Veterans of Foreign Wars, Disabled American Veterans, Amvets, United Spanish War Veterans and the Canadian Legion, unanimously adopted a resolution recently condemning the flagrant disregard of traffic laws which has led to such an appalling accident rate in Oakland County. Special emphasis was placed on the improper operation of bicycles, which has been the cause of many accidents. Copies of the resolution were mailed to all law enforcement officers of Oakland County urging them to bear down on traffic violators in order to reduce the serious hazards on our streets and highways. Attention was called to the practice of riding bicycles at night without lights—often in the center of the highway or to the left of the road.

Commenting on the action of the Veterans Council, Clarkston Police Chief Ed Seeterlin declared that it would be well for cyclists in Clarkston to heed the appeal in order to prevent a possible tragedy right here in our own community.

## Clarkston Locals

Dr. and Mrs. Frank Cormia left on Friday morning for the east after spending a short vacation in Clarkston. They are going by way of Canada and will visit interesting places along the way. Before going to their home in New York they intend to visit his sister in Vermont.

Guests at the home of Mr. and Mrs. Frank Strother are his mother, Mrs. M. V. Strother and his sister, Miss Josephine Strother of Charleston, Va., and his brother and sister-in-law, Mr. and Mrs. John Strother and their son, John Jr., of Atlanta, Ga.

Over the weekend Miss Gazy Wompole will be as her guest, her college roommate, Miss Barbara Gantz of Lapeer.

This week Miss Adrienne Volberding and Miss Patricia Sities received word that their University of Michigan Regents' Alumni scholarships had been renewed for two more terms. Needless to say both girls were pleased. They are graduates of the Clarkston High School.

Dinner guests at the A. B. Wompole home on Wednesday evening were Dr. and Mrs. Frank Cormia of Bayside, Long Island.

## LETTER OF THANKS RECEIVED FROM GREECE

Many will remember gathering clothing and getting it in shape to send to the suffering in Europe. At that time Mrs. Kenneth L. Johnson packed a snow suit and in so doing she put her name and address in the pocket. She wondered just where the suit would go and if some child would really receive it. The following letter received by Mrs. Johnson proves that the clothes that went from Clarkston were really appreciated:

April 4/46  
Kozanes, Greece  
Good Luck to American:

For the trouble you went through I thank you for the clothes that helped to cover the child of ours. Mrs. I cannot return my appreciation from my children when we received help that covered the body. The jacket you sent came to a family of 6 children, the smallest is 4 years old and the oldest is 15 years old girl and is as you imagine in bad condition. You can learn from the papers what we went through in the war. The clothes that you sent kept us from death. Our lives yet depend on you people and God give you everything you want. Mrs. I thank you very much for the help that you sent us and please do not forget us because we will die from the cold. We are completely nude. Help us from this. We need any clothing and old dresses because we will die from the cold weather. The clothes you throw away send to us people and God thank you and "Good Luck". Help the poor because we are people that don't forget too easy.

In the next letter I will send you a picture of the children. Show the letter to the beloved people. Americans to help people in Greece, to us send clothes, even old clothes, because we are without clothes.

This is all I have to write. I thank you very much to all the people in America and first to the poor ones.

We greet you and we thank you very much.

Write us and send us just clothes.

Efstadiss Nicholas Adanasiades, Mavrodendri Eordaias, Kozanes, Greece

(The letter was written in Greek and was translated by Antonia J. Couritas of Pontiac).

## Cooperation Urged For Famine Relief

Mrs. L. L. Northrup, chairman of nutrition for the Oakland County Chapter of the American Red Cross, offers many suggestions to residents of Oakland County who wish to assist with the Famine Relief program which has been instituted in this country in order that food promised by the United States may be shipped to hungry Europe. Northrup states "You would never let a next door neighbor starve or turn a hungry child away from the door. You would gladly give up some of your own food rather than let anyone starve. Our neighbors overseas are hungry. They haven't enough to eat and we have plenty. Housewives can do many things which will relieve the situation."

Serve potatoes instead of bread. The only place that potatoes do not make a good substitute for bread is in a sandwich. Watch bread waste. If every family in the United States would save only half a slice of bread a day the total saved would be half a million loaves a day. Save fats by using the frying pan less and the oven, broiler and stew pan more. Use fat drippings for baking and seasoning.

Home preservation of foods is a way that much canned goods can be released for the countries which are in dire distress. The Michigan State College at East Lansing, extension division, publishes a bulletin, "Wartime Canning". This bulletin with complete directions may be secured from the college. Many other bulletins can be secured from the U. S. Department of Agriculture at Washington, D. C.

## CAMPAIGN LAUNCHED FOR BAPTIST ORGAN

The Fellowship Bible Class of Clarkston Baptist Church has launched a campaign to purchase an electric organ for the church.

The order was placed July 2, 1946 and it is hoped delivery will be made by Christmas. Members of the committee are Rev. Walter Ballagh, Weber Ware and Mrs. Howard Lord.

Now that the dry weather is approaching it would be a good idea to use a little care in tossing matches away. Put 'em out first!

## F. J. Stein Dies In Scaffold Fall

### Funeral Service Held Wednesday

Sadness visited the F. J. Stein home at 7860 Perry Lake Road last Sunday when a telephone message said Mr. Stein had fallen from a scaffold while doing some concrete work on a building in Pontiac and had been taken to the General Hospital where death came at about 9:50 o'clock Sunday night. Due to the character of the work it was necessary for Mr. Stein to do this particular job on a Sunday in order to avoid a traffic hazard on a Pontiac busy thoroughfare during the week.

F. Joseph Stein was born in Sanilac county on August 12, 1890, the son of August and Anna Stein. He attended school there. In 1914 he married Lillian Robinson in Detroit. For about sixteen years he was employed at General Motors and during the war he was associated with a factory in Dearborn. He came to Clarkston in 1934 and for the past few years he has owned and operated the Oakland Colorcrete Service. For a time he was associated with the Clarkston Food Lockers and the colorcrete work on that building was one of the first colorcrete jobs in this district. He was a member of St. Michael's church in Pontiac.

Mr. Stein's colorcrete work was his only hobby. He enjoyed his work and took great pride in doing a job well. Perhaps growing good peaches could be considered his hobby too, because when he had any extra time he spent it in his peach orchard.

Besides his widow, he leaves five sisters, Mrs. William Messing of Ruth, Mich., Mrs. B. Messing of Minden City, Mich., Mrs. Michael Gentry of Detroit, Mrs. Joseph Shock of Bad Axe and Mrs. Dolph Shock of Minden City and three brothers, Edward Stein of Ruth, Charles of Minden City and Henry of Saskatchewan, Canada.

A rosary service was held at the Ogdan-Kennedy Funeral Home on Tuesday evening. The funeral service was held at St. Michael's church on Wednesday morning with the Reverend Father Mahoney officiating. Burial was in Lakeview cemetery at Clarkston with four nephews carrying Mr. Stein to his final resting place.

The many beautiful floral tributes from Clarkston friends and business associates were significant of the high regard with which Mr. Stein was held.

## Michigan Air Show At Selfridge Field Set for August 10-11

The Michigan Air Show, largest air show ever to come to Michigan, will be held at Selfridge Field, Mt. Clemens, on Saturday and Sunday, August 10 and 11.

Sponsored by the Michigan Wing Civil Air Patrol for the benefit of its cadet training program, the show will feature the celebrated 56th Fighter Group, commanded by Col. Dave Schilling, and a special group of pilots and planes organized by the Army Air Forces for this exhibition. The spectacular P-80 jet-propelled Shooting Star will make its first appearance in Michigan during the showing.

B-29 Super Forts, B-25 Mitchell bombers, A-26 Invader Attack bombers, P-51 Mustangs, P-47 Thunderbolts and C-54 Sky-masters will also take part.

An exhibition flight by a radio-controlled target plane, helicopter demonstrations, mass maneuvers, acrobatics, group parachute jumps, simulated aerial combat, strafing runs and special flying exhibits will be worked into the three-hour afternoon show using AAF and CAP planes.

Showings of combat films, plane and equipment exhibits and entertainment features will start at 10:00 o'clock each morning and continue until the start of the air show at 1:30 p. m. Gates will open at 9:00 a. m. each day.

The closing ceremony for each day's show will be the review of the 200 Civil Air Patrol Cadets stationed at Selfridge Field for their summer encampment.

Admission is \$1.20, including tax, and tickets are being sold throughout the state by CAP Squadrons and Cadets. Children under twelve, accompanied by adults, will be admitted free of charge.

The CAP Cadet program, recipient of proceeds from the show, is credited with 10,000 enlistments from Michigan in the Army Air Forces during the war.

## Clarkston Team Wins Sunday Game From Florida Bar

The Florida Bar baseball team took a drubbing from Lee Kelley's Clarkston team last Sunday at the local diamond. The score was 9-3. Nesmith, pitching for Clarkston, was in exceptionally good form, while Hopp of the Florida Bar nine was excessively wild. He walked 12 men throughout the game.

Following is the box score for Sunday's game:

Clarkston	R	H	E
0 0 2 0 1 3 3 0	9	5	2
Florida Bar	R	H	E
0 0 0 0 0 0 1 0 2	3	6	2

**The Lineup**  
Walker, cf Hitchcock, c  
L. Kelley, ss Second, 3b  
Wilkinson, 1b Cole, 2b  
G. Kelley, lf Nesmith, p  
Hauer, rf

Next Sunday's game will be with Mikado and will be played at Auburn Heights. Mikado beat Clarkston 6-5 at Mikado on June 23, so this return match should be really good. The Clarkston boys are out to even the score and there is no question but what they will give their opponents a run for their money and the spectators a good ball game.

## West Side Canteen Is Now Open

The Canteen on the west side of the Dixie Highway in Springfield Township has been opened by Reed and Royden Forsythe, both veterans of World War II.

Reed, a single man, served for 4½ years as mess sergeant. He was in the African campaign and then on into the European theater of war. Royden is married and they have a small daughter who will attend Clarkston school this coming year. He was in the service for 3½ years as a mess sergeant. He served in France and Germany. See the advertisement on page 5.

## Michigan Bell Plans Radiotelephones For Key Highways

The Michigan Bell Telephone Company plans to inaugurate general mobile radiotelephone service on all important highways in the southern part of the state by next spring.

President Thomas N. Lacy announced that the company will apply to the Federal Communications Commission for permission to install transmitting and receiving stations at Detroit, Lansing, Grand Rapids, Flint, Jackson, Port Huron, Kalamazoo and Bay City-Saginaw.

Lacy said that, although the proposed installations initially will operate as separate stations serving those and nearby communities, they later will become links in a general highway service, not only for southern Michigan but also to nearby state through similar Bell System installations.

The new service will provide auto-telephone communications on highways south of the Bay City-Saginaw line in eastern Michigan and south of Grand Rapids in the western part of the state, Lacy said.

Proposed installations are in addition to those planned this fall in Detroit where the first urban mobile service will be inaugurated in Michigan. That service will be provided over a different frequency and it will be necessary to install new stations at Detroit for general highway operation.

Highway service will provide two-way telephone communication between cars, trucks and other mobile units and any telephone connected with the nationwide Bell System lines. Stations at coastal points also could serve harbor and shipping craft.

Calls to and from vehicles will travel part way by radio and part way by wire, each transmitter-receiver along the highways being linked by wire with a telephone central office.

## STORK SHOWER HONORS MRS. B. C. RASMUSON

On Wednesday afternoon of last week Mrs. Clifford Waterbury Jr. was hostess at a pink and blue shower honoring Mrs. B. C. Rasmuson. The happy event took place at Green Acres.

After the delicious luncheon the many gifts were opened by the honoree who responded in her usual sweet and capable manner. Guests included Mrs. K. L. Leak and Mrs. George A. Perry of Clarkston; Mrs. Ray Fanger, Miss Phyllis Wernet and Mrs. Don Maun of Pontiac; Mrs. Reginald Bird of Royal Oak and Miss Gertrude Tew of Lake Odessa, Mich.

## Clarkston Rotary Has Play Day

On Wednesday about twenty members of the Clarkston Rotary Club went in groups to Detroit. They left Clarkston about 10:30 in the morning and went directly to the Statler Hotel where they were guests of the Detroit Rotary Club. The occasion honored Richard (Dick) Hedke, a member of the Detroit Club, who was recently elected president of Rotary International. There were delegations from several clubs and all had a good luncheon and a good time.

Mr. Hedke received many lovely gifts from the Detroit club; the Windsor, Ontario club and from the club at Queensland, Ohio. President "Dick" made a very fine response and then talked briefly on "What Rotary Means" to the members and to the community. He mentioned the community service angle from the friendship point of view and also business relationship. His talk was very inspiring and all the members left feeling that Rotary would make great strides this year under his leadership.

Following the luncheon the groups went to Briggs stadium where they saw the Washington Senators win a close game from the Detroit Tigers with a score of 1-0. The score would denote that it was a pitcher's battle which would tend to make the game exciting.

The Clarkston club had started out with the intention of "making a day of it" so after the game they drove to Kingsley Inn at Bloomfield Hills and enjoyed a turkey dinner. This occasion honored Robert C. (Bob) Beattie, an ex-president of the Clarkston club, who, on account of business location, had withdrawn and joined the Waterford-Drayton club. In behalf of the Clarkston group Gerald "Gerry" O'Dell presented Bob with a beautiful pen and pencil set. After the dinner they held a short meeting and discussed a few projects.

To complete the day someone suggested that they stop at the Elk's carnival in Pontiac before heading for home. This seemed like a good climax for a fine day and so to the carnival they went. Some of the games of chance added extensively to their day's bank roll but to the displeasure of many Clarkston Rotarians only one carried away a prize and that was Joe Seeterlin. It was a late hour when the group arrived in Clarkston, or maybe an early hour. They were tired but happy because the day had been ideal.

## Life's Race

The maddening rush of man for life That's better than his neighbor lives Has added much to restless strife. That takes a lot, but little gives. Man's race for wealth at break-neck speed

Has took its toll, as lap on lap His soul is goaded on by greed That closes up the exit gap.

A greater force push some along To be the big shots of the hour. The weak are trampled by the strong.

Whose aim in life is greater power. The unsuspecting too, are caught Up in this whirlpool of the race To follow paths that others wrought.

Who went ahead to set the pace. In all this rush we haven't time To think, or plan, or friendly be. Or help the under dog to climb. Where life is good and worry free.

**The Clarkston News**

Published every Friday at 6188 S. Main Street, Clarkston, Michigan. William H. Stamp, Publisher. Subscription price \$1.50 per year, in advance. Entered as second-class matter, September 4, 1931, at the Post Office at Clarkston, Michigan, under the Act of March 3, 1879. Phone 4321

**WATERFORD**

If you have any items of interest for the Clarkston News call Mrs. Joseph Helman, your correspondent. For the past number of years Mrs. William Chase kept the Waterford column alive. She was a fine worker and The News will miss her writings. However, Mrs. Helman is now ready to take over and she asks your cooperation.

Mrs. I. J. Budwig returned to her home in Chicago on Tuesday after having been the house guest of Mrs. Walter Kuhn for two weeks. Mr. and Mrs. Lee Jensen, also of Chicago, were week end guests at the Kuhn home.

Mr. and Mrs. Stillwell of Akron, Ohio are house guests at the Isaac Shook home for two weeks. Mrs. Stillwell and Mrs. Shook are sisters.

Leslie Holt is confined in Pontiac General Hospital with an injured back.

Mrs. James Amos is confined to her home this week because of illness. Her daughter Sheila returned home on Sunday from a weeks stay in Ohio.

Sunday callers at the E. D. Spooner home were Mrs. Vera Rowley, Clara McKibben, and Mr. and Mrs. Homer VanAtta of Detroit, and Mary Beth Donaldson of Denver, Colo.

Mr. and Mrs. Harold Granger of Pontiac spent Sunday with their parents, Mr. and Mrs. William Granger.

Donna Kay Lamberton returned home Tuesday evening after a two

weeks visit with relatives at Richmond.

Mr. and Mrs. James Lamberton and family spent Sunday at East Tawas.

George Carter and family are enjoying a trip into several western states. They plan to make Yellowstone National Park one of their most interesting stopping points.

Mr. and Mrs. John Miller attended the annual Miller reunion Sunday.

Mr. and Mrs. Kenneth McVittie Jr. announce the birth of a seven pound son, Peter Scott, at Pontiac General Hospital Sunday evening, July 21.

Mr. and Mrs. William Wagner Jr. announce the birth of a six pound eight ounce daughter, Susan Virginia, at St. Joseph's Mercy in Pontiac on Friday, July 19.

Mr. and Mrs. Louis Dorman Sr. left on Tuesday for a two weeks trip into Canada. Bobby Dorman will visit his aunt and uncle, Mr. and Mrs. Donald White, while his grandparents are away.

Mr. and Mrs. Alfred Gale returned home from Kansas City on Monday where they spent a week with a daughter. They report that the weather was very warm there also.

About eighty young people from Flint, Waterford, Pontiac and Berkley attended the Luther League meeting at the Stanley Hawkins home on Williams Lake last Sunday afternoon. The group enjoyed swimming, a ball game, refreshments, and the evening closed with a hymn sing around the campfire.

The first round of the Waterford Cub baseball tournament has ended in a three way tie. The Waterford Batbusters, Windate Wildcats, and Williams Lake Giants have each won three games and lost one. The Dixie Sluggers have won two and lost two. The Williams Lake Tigers have lost

four games but are showing much improvement and may surprise the other teams in the second round which began Monday evening with a game between the Batbusters and the Wildcats. The Batbusters were defeated in this game.

Miss Audrey Williams entertained her Sunday School class Tuesday evening with a picnic supper at her home on Floyd St.

Mrs. Jerry Mejeur Sr. and daughter, Miss Trena Mejeur, is the house guest at the home of Mr. and Mrs. Jerry Mejeur Jr. The mother and sister are from Kalamazoo.

The Daily Vacation Bible School at the Community Church closed last Sunday evening with a program put on by the children. The church was full of onlookers who enjoyed all of it. Awards were given for bringing the most pupils to the Bible school. Patricia was first with 41 pupils. Lucille Thomas was second with 28 and Carol France was third with six.

The largest number present any one day of the school was last Friday when 201 pupils were on hand. About 260 children altogether were enrolled.

Twenty five persons helped Rev. Wright VanPlew, who was general superintendent. Mrs. Stephen Phetteplace was superintendent of the junior and intermediate department, and Betty Jencks had charge of the beginners and primary department.

Secretary of the Bible school was Charlotte Fenzell. Mrs. Arthur Davis played the piano for the group in the church auditorium and Mrs. Henry Mehlberg was the pianist for the group downstairs.

This was the largest Bible school ever conducted at the church and was also the most successful.

The annual picnic of the Community church Sunday school and Bible school will be held Saturday afternoon at 1:00 o'clock at Waterford Center school. A basket lunch will feature the event. Waterford Center school is located on Pontiac Lake and Airport Roads. Supper will also be eaten here. Each family is to bring their own food. The beverages will be furnished.

The Rev. Wright VanPlew and several boys from his Sunday school class camped on the John Ingemells farm the first of the week. There is no question but what a good time was had by all.

**Community Activities**

Library open at 8:00 Friday evening.

Community party at 8:30 Friday evening.

Catholic instruction class at 10:00 Saturday morning.

Modern and old time dancing between 9:00 and 1:00 Saturday evening.

Library open at 9:00 Saturday evening.

Catholic mass at 8:15 Sunday morning.

Lutheran Sunday school at 9:45 Sunday morning.

Lutheran services at 11:00 Sunday morning.

Waterford-Drayton Rotary meeting Tuesday noon.

Boy Scout meeting at 7:15 Tuesday evening.

Library work period between 1:00 and 4:00 Wednesday afternoon.

Youth meeting between 8:00 and 11:00 Wednesday evening.

The Woman's Club met with Mrs. Albert Dryden, Mrs. George DeLap, Mrs. Lester McFarland, and Mrs. L. T. Kaines last Thursday evening for the regular monthly business meeting with 22 members present. The ladies voted to turn \$350 over to C.A.I. and to go to Bob-Lo on August 1.

The Boy Scouts are not meeting every week during the summer but next Tuesday is a night for a meeting. All Scouts in Troop 31 are urged to attend this meeting.

The Lutheran Church is sponsoring a summer vacation Bible school from August 5 through 16. All children in the community are invited to attend.

The Lutheran Church is sponsoring a summer vacation Bible school from August 5 through 16. All children in the community are invited to attend.

Pontiac performed the double ring ceremony.

The bride, given in marriage by her father, was attractive in a powder blue dress with a shoulder corsage of gardenias. Charlotte Freeman attended the bride. She wore a yellow dress and had a corsage of assorted white flowers. Charles Sniffen assisted the groom.

For her daughter's wedding, Mrs. Neal wore a coral colored dress with white accessories and a corsage of gardenias and roses. Mrs. Sniffen chose a blue and black dress and a corsage of roses.

Following the ceremony a luncheon was served to approximately 35 relatives and immediate friends of the newlyweds. The table was beautifully decorated with a 4-tier wedding cake which was made by the bride's uncle, Mr. Carl Neal of Flint.

In the afternoon from 3 to 5, Mr. and Mrs. Neal were hosts to an informal reception at their home for 100 guests.

Mr. and Mrs. Largent left immediately after the reception for a trip in northern Michigan, after which they will make their home in Rochester, Michigan.

Out of town guests were from Toledo and Lima, O., Flint, Kingston, Rochester and Pontiac.

Cubs of Troop 31 along with Cubmaster George Attwater, den mothers and committeemen, attended the Detroit-Washington game at Briggs Stadium on Tuesday. The group went in a chartered bus.

Mr. and Mrs. Henry Mehlberg, Mr. and Mrs. David Mehlberg, Robert Mehlberg, and Susan McMacken who is the house guest at the Mehlberg home spent Saturday at the home of Mr. and Mrs. Fred Tuck on Saturday. Mrs. Tuck was celebrating her birthday.

Mrs. Wright VanPlew and Mrs. William Granger will entertain the Ladies' Auxiliary of the Community Church in the church parlors next Thursday. Pot luck dinner will be served at 1:00. The business meeting will follow with Mrs. Henry Mehlberg in charge.

About forty adult choir members of the Community Church and their families enjoyed a party at the Lawrence Giddings home last Friday evening. Those attending report having had a good time in spite of warm weather and a shower.

Mr. and Mrs. Al Kray, daughter Joan, and Martha Davidson left last weekend for a vacation in Iowa with relatives.

Mrs. Isabella Pratt from Detroit spent last Friday at the Henry Mehlberg home.

Mrs. Robert Mawhinney returned home from Goodrich Hospital last Sunday. She underwent an appendix operation about a week ago.

William VanZandt recently was injured while working in the hay field.

★ Recently, a study was made to determine the present state of health and well-being of 78 diabetics who had been placed on a diet and insulin twenty years before. Previous to Dr. Banting's discovery of Insulin in 1922, their chance of survival for more than two or three years would have been slight.

It was found that 77 of the 78, or 98 percent, were alive and living active, useful lives.

Diabetes cannot be cured, but scientific management under the direction of a physician gives comfort and happiness to otherwise hopeless people. Do not be misled by claims for so-called diabetic cures. There is but one safe treatment, and it is thoroughly understood by your physician.

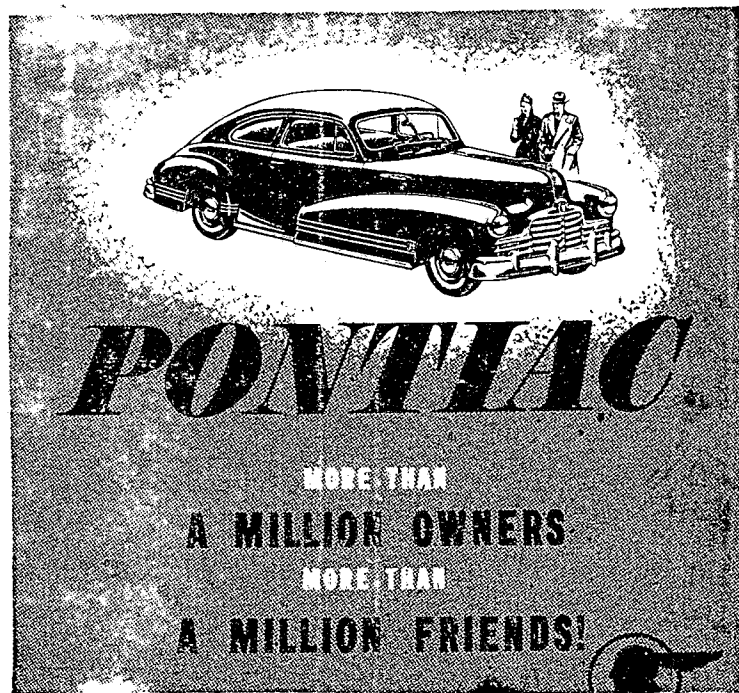

We maintain complete stocks of diabetic supplies, subject to your doctor's specifications.

**Avoid Crowds  
To Help Prevent  
Infantile Paralysis**

Remaining away from crowds when infantile paralysis is prevalent probably is the best way to guard against contracting the disease, according to Dr. Gordon C. Brown of the University of Michigan School of Public Health.

"Such voluntary isolation doesn't mean a person should shut himself off from civilization," the assistant professor of epidemiology indicates, "but does mean staying out of crowded public places, such as swimming pools, restaurants and theatres.

"The method of transmission of the disease has not been established at the present time but it is thought by scientists that the overall method of isolation is the best way to guard against contracting it", Dr. Brown explains.

Although conclusive proof is lacking, researchers think the respiratory route and the gastrointestinal route present the most likely methods of transmission of the disease which usually strikes children from five to 15 years of age during July, August and September, but may attack at any time of the year. They also see the possibility that some insects, including flies, may be involved in transmission in some circumstances.

Parents should be on the alert for symptoms of the early stages of the disease in children. Such symptoms can be headache, fever, nausea and/or vomiting, diarrhea or stiff neck, but these also may indicate presence of some other disease instead, Dr. Brown states.

Since the virus of poliomyelitis can be isolated from the gastrointestinal tract of patients and has even been found in sewage contaminated water, this method of transmission is suspected, he says. The virus also has been isolated at infrequent intervals in the respiratory tract of patients and on flies.

Epidemics of the disease, which may attack adults as well as children, occurred in Detroit in 1939 and 1944 and 1945. The rest of the state, excluding Detroit, suffered an epidemic in 1940.

**A New Era in Railroading**

Picture shows one of the new GM Diesel locomotives placed in operation by the Atlantic & East Carolina Railway, which thereby becomes the first American short line railroad to use mainline Diesel locomotives. Three Diesels will replace seven steam locomotives of ancient vintage.

NEW BERN, N. C.—A new era in railroading became a reality here when the Atlantic & East Carolina Railway, only 94 miles in length became the first American short line railroad to use mainline Diesel locomotives.

Railroad executives attending inaugural ceremonies both here and at Morehead City, the other terminus of the railway, predicted the ultimate extension of main line Diesel operation to scores of other American short line railroads throughout the country.

They pointed out that hundreds of small farming and manufacturing communities would be benefited and made to prosper, because cheaper operating costs with Diesel power would enable many short line railroads to better their services to shippers and passengers and show profits instead of losses.

The two 1,350 horsepower mainline General Motors Diesel locomotives placed in service plus another 1,000 h.p. GM mainline locomotive to be delivered later in the year, will completely Dieselize the freight and passenger operations of the Atlantic & East Carolina Railway, and will replace seven steam

locomotives of ancient vintage. The new Diesels are versatile enough to handle trains in regular service and also do all necessary switching at terminals and at stops en route. Additional passenger coaches will soon augment the new motive power equipment.

Inauguration of the new Atlantic & East Carolina Diesel service began here with the acceptance of the new locomotives by H. P. Edwards, Chairman of the Board and directing head of the railroad which is owned by the State of North Carolina and leased to the operating company.

Before leaving for an initial run, both locomotives were christened with champagne, and later were placed on exhibition both here and at other cities along the line.

Guests invited on the premier trip included Governor R. Gregg Cherry of North Carolina; J. H. Hood, president of the American Short Line Railroad Association, mayors of cities along the railroad, officials of the Electro-Motive Division of General Motors, which built the locomotives; and newspapermen, members of the legislature, shippers and railroad officials.

**Veterans News**

The early diagnosis and prompt treatment of tuberculosis among hospitalized war veterans is assured in Veterans Administration hospitals in Ohio, Kentucky and Michigan, with the inauguration of a new program calling for chest X-rays of all patients.

When a veteran is admitted to a hospital, or when he reports for a medical examination at an outpatient clinic, chest X-rays will be made, regardless of the disability for which the ex-serviceman or woman is hospitalized or examined. Periodic surveys of all general and neuropsychiatric patients at the end of each 12 months' hospitalization have also been authorized.

Thus, the chests of several thousand veterans in the three states

will be X-rayed annually, possibly saving many lives and averting prolonged hospitalization of tuberculous veterans.

More than 1,000 veterans are now receiving treatment for tuberculosis in VA hospitals in the three states. A tuberculosis hospital is located at Outwood, Kentucky and tuberculosis wards are maintained at most of the eight other hospitals in the area.

About 360,000 veterans had drawn self-employment allowances throughout the United States up to June 1, the Veterans Administration announced. While engaged in 250 distinct types of business enterprises, 90 per cent are engaged in agriculture. Repair services are next in popularity, constituting 4 per cent of the claims. General retail trades follow accounting for 3 per cent.

Under the G.I. Bill, self-employed World War II veterans may apply for the difference between their net earnings and \$100 a month through the state Bureau of Unemployment or the USES.

**156,000 Telephones Installed  
in Michigan in 6 Months...**

**But 100,000 families are still waiting**

Severe shortages of lead, copper and other materials which go into telephone equipment have upset our time-table for clearing up waiting lists.

Even so, during the first half of this year, Michigan Bell

- Installed new telephones at the fastest rate in its history—an average of 26,000 per month.
- But also received new orders at the fastest rate in history—an average of 27,000 applications per month.
- Added 340,000 miles of wire and installed enough additional central office switching equipment to serve 50,000 new customers.
- Cleared waiting lists in 27 Michigan Bell exchanges.

As the second half of 1946 gets under way, there are still 100,000 families waiting for telephones. Of these, 49,000 have placed their orders since the first of the year.

We still have to expand our facilities in 200 exchanges to give service to everyone who has ordered a telephone.

We now hope that most of the orders for service received before January 1, 1946, can be filled by the end of the year. In some areas, of course, we expect to complete many orders received this year, but it may be late 1947 before we can return to a "ready-to-serve" basis everywhere.

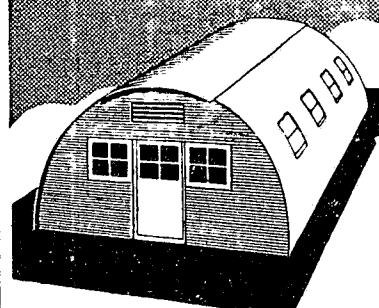

Meanwhile, we are loading our present equipment far beyond its normal capacity, to shorten the wait for as many folks as possible. This may affect the quality of service for the time being. But normal service will return as we install the needed lines and equipment.

Waiting applicants can be certain that we are just as anxious as they are to see their orders filled at the earliest possible date.

★ Long Distance lines and switchboards serving Michigan resort areas are extra busy this summer. On calls to and from those areas, you'll get better service by avoiding the rush hours—10 A.M. to noon and 7 to 9 P.M. Keeping calls brief will help too.

**Tourist and Resort Operators Given Aid**

As an aid and guide to persons who may be considering operating tourist and resort facilities in the state, Michigan State college has prepared a 24-page cir-

cular on "Tourist and Resort Services for Michigan". It will also help those in the business who desire to expand their services. This new, highly illustrated booklet in color is one of many similar publications being issued by the extension service and agricultural experiment station of the

college to assist in building the state's ever-increasing tourist facilities. Working with the Michigan Tourist Council, the college has organized its facilities to serve the state's tourist and resort interests. L. R. Schoenmann, director of the conservation institute at the college, is in charge of the project. Staff members from the departments of hotel administration, home economics, agricultural engineering and landscape architecture have been called in to aid the prospective and existing operators.

The new circular gives suggestions on the selection of type of business, choice of location, planning the site and buildings, regulations and obligations which must be met, how to figure costs and returns, and personal qualifications desirable for persons entering tourist and resort business. Prospective operators are urged to consider every phase of the business before investing time and money, and questions are listed which the prospect may ask himself in lining up his fitness for the business.

Copies of the circular (R-101) are available to prospective operators and those now in the business from county agricultural agents, from the conservation institute or the bulletin office at Michigan State college, East Lansing.

new canes complete their growth the first summer, bear a crop the next year and then die. They are then ready to be removed. If they are not, the patch soon becomes choked with dead canes, literally a bramble patch. Old canes also harbor insects and diseases.

Michigan State college extension folder F-74, "Hints on Raspberry Growing", gives a pruning program to follow. It suggests that immediately after harvest all old canes be cut out and burned. Don't leave these old canes piled near the planting, Rose warns. Burn them as they are cut out to check the spread of insects and disease.

Remove all suckers of red raspberries that have come up outside of the hill or row.

**Legal Notices**

Pelton, McGee, Howlett & Hartman, Attorneys at Law, 1001 Pontiac State Bank Bldg., Pontiac, Mich. No. 9980

STATE OF MICHIGAN, in the Probate Court for the County of Oakland. At a session of said Court, held at the Probate Office in the City of Pontiac, in said County, on the 2nd day of July, 1946.

Present: Honorable Arthur E. Moore, Judge of Probate.

In the Matter of the Estate of Oliver H. P. Osun, deceased.

Grace Richmond Bannhart, having filed in said Court her petition praying that said Court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit his real estate of which said deceased died seized.

It is Ordered, That the 29th day of July, 1946, at nine o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said County.

ARTHUR E. MOORE, Judge of Probate. Pelton, McGee, Howlett & Hartman, Attorneys at Law, 1001 Pontiac State Bank Bldg., Pontiac, Mich. July 5, 12, 19, 26.

Estes & Cooney, Attorneys at Law, 812 Pontiac State Bank Building, Pontiac, Michigan. STATE OF MICHIGAN, The Probate Court for the County of Oakland. No. 49308

At a session of said Court held at the Probate Office in the City of Pontiac in said County on the 2nd day of July, 1946.

Present: Honorable Arthur E. Moore, Judge of Probate.

In the Matter of the Estate of Louis F. Walter, deceased.

Lawrence A. Webb, administrator of said estate having filed in said Court a petition praying for decree to sell at private sale the interest of said

estate in certain real estate therein described.

It is Ordered, That the 5th day of August, 1946, at nine o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said Court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said County.

ARTHUR E. MOORE, Judge of Probate. Estes & Cooney, Attorneys at Law, 812 Pontiac State Bank Building, Pontiac, Michigan. July 12, 19, 26, August 2.

Estes & Cooney, Attorneys, 812 Pontiac State Bank Bldg., Pontiac, Michigan. STATE OF MICHIGAN, The Probate Court for the County of Oakland. No. 50,086

At a session of said Court, held at the Probate Office in the City of Pontiac, in said County on the 19th day of July, A. D. 1946.

Present: Honorable Arthur E. Moore, Judge of Probate.

In the Matter of the Estate of Edward L. Davis, deceased.

Alice H. Davis, having filed in said Court a petition praying that the administration of said estate be granted to petitioner or to some other suitable person.

It is Ordered, That the 19th day of August, A. D. 1946 at nine o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said County.

ARTHUR E. MOORE, Judge of Probate. Estes & Cooney, Attorneys, 812 Pontiac State Bank Bldg., Pontiac, Michigan. July 19, 26, August 2, 9.

**NEW PAY SCALE**

IN ADDITION TO CLOTHING, FOOD, LODGING, MEDICAL AND DENTAL CARE, AND LIBERAL RETIREMENT PRIVILEGES

	Starting Base Pay Per Month	Monthly Retirement Income After Service	
		20 Years' Service	30 Years' Service
Master Sergeant or First Sergeant	\$165.00	\$107.25	\$185.63
Technical Sergeant	135.00	87.75	151.88
Staff Sergeant . . .	115.00	74.75	129.38
Sergeant . . . . .	100.00	65.00	112.50
Corporal . . . . .	90.00	58.50	101.25
Private First Class	80.00	52.00	90.00
Private . . . . .	75.00	48.75	84.38

IN ADDITION TO COLUMN ONE OF THE ABOVE:

- 20% Increase for Service Overseas.
- 50% Increase if Member of Flying or Glider Crews.
- 5% Increase in Pay for Each 3 Years of Service.

**Highlights of Regular Army Enlistment**

- Enlistments for 1 1/2, 2 or 3 years. (One-year enlistments permitted for men now in the Army with 6 or more months of service.)
- Enlistment age from 18 to 34 years inclusive (17 with parents' consent), except for men now in Army, who may reenlist at any age, and former service men depending on length of service.
- A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 90 days after last honorable discharge.
- Up to 90 days' reenlistment furlough with pay, depending on length of service, with prescribed travel allowance paid to home and return, for men now in the Army who reenlist.
- Consult your Army Recruiting Officer for other furlough privileges.
- Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
- Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. (Retirement income in grade of Master or First Sergeant up to \$185.63 per month for life.) All previous active federal military service counts toward retirement.
- Benefits under the GI Bill of Rights assured for men who enlist on or before October 5, 1946.
- Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

**The House That Jack Built**

This is the house that Jack built.

This is the wife that keeps house in the house that Jack built.

This is the washer that does the wash that helps the wife keep house in the house that Jack built.

This is the iron that irons the wash the washer washed, that helps the wife keep house in the house that Jack built.

This is the wire that carries the power that heats the iron, and turns the washer that does the wash, that helps the wife keep house in the house that Jack built.

THIS is the story of better living—of electric living—in Jack's house. The tale could go on endlessly. For electricity is a servant of many talents, of which washing and ironing are but two.

The electric power that helps Jack's wife is always ready, dependable, available in any quantity at any time. And Jack doesn't need much jack to pay the bill.

This is the company that strings the wires and makes the power that gives the Jacks—and countless families like them—all the comforts and convenience of electric living.

Enjoy "THE SUMMER ELECTRIC HOUR" with Anne Jamison, Bob Shanly, The Sportsmen, and Robert Armbruster's Orchestra. Every Sunday afternoon, 3:30, Station WJR.

**Geological Report Says State is Rich In Mineral Deposits**

Oil exploration should be scientifically pursued in the Mackinac Straits area of Michigan, good commercial limestone probably is available between Black Lake and Rogers City and abundant salt is present in virtually all of the northern half of the southern peninsula.

These predictions are made by three University of Michigan geologists—K. K. Landes, George M. Ehlers and George M. Stanley—following a geological study of the Straits area. The study was made under a contract between the University and the Michigan Department of Conservation and the results have just been published by the department in a 204-page report, "Geology of the Mackinac Straits Region".

Prof. Landes, chairman of the Department of Geology at the university, wrote most of the report. In the section dealing with the economic geology of the Straits region, he declares that "more oil pools might be discovered throughout northern Michigan by scientific prospecting with core drill and seismograph".

The northern Michigan area has been largely ignored as possible oil-bearing territory because the Dundee formation, which is the leading oil-producing strata of Michigan, rises to the surface in the Straits sector, he says. "Experience has shown that oil is no respecter of formation names or even of geologic age", Prof. Landes declares. "As oil-bearing formations rise toward the surface, the oil reservoirs drop stratigraphically". This means that oil may be locked up in some of the older formations below the Dundee.

The Dundee formation also is the one which is a source of limestone, the report continues. In the Straits area, this formation is right below the glacial drift and lies in a curving belt from Presque Isle on Lake Huron to the north side of Little Traverse Bay on Lake Michigan. The western half of the belt is well buried under the glacial drift, the report says, but the covering is much thinner between Black Lake and Rogers City and "it is quite possible that commercial stone is at quarryable depths at places in this area".

The report says salt is abundant at moderate depths except in the tip and northwestern half of the area. A pessimistic note is sounded as to prospects for obtaining commercial quantities of dolomite and gypsum from the rocks investigated. The dolomite is reported to be buried beneath thick glacial drift, and the gypsum beds north of the Straits are below lake level.

with quarrying involving high, if not prohibitive, pumping expense. South of the Straits, gypsum is not present at reasonable quarrying depth.

**Good Practices Keep Hens Laying**

The hot season of the year is when laying hens normally slump in production. J. M. Moore, extension poultry specialist at Michigan State college, says once they quit laying, hens are valuable only as meat. Then they should either be marketed or prepared for home consumption.

The poultry specialist says, however, this slump can be minimized by proper summer management practices. He suggests a few such practices to be followed by the poultryman who wants to keep production at a high level.

Hot weather causes poor appetites in hens too. Reduce the amount of scratch feed given and force them to eat more laying mash. Eight pounds of scratch grain per 100 hens daily is adequate for July and August feeding, Moore declares. Feeding of wet mash at noon will increase feed intake. Use milk or water to make the laying mash crumbly wet, and give the hens only what they will clean up in about 15 minutes time is Moore's suggestion.

Lice and mites do much to cut summer egg production. Lice live on the birds. Mites stay in cracks and crevices near the roosts and nests. The treatment must be different for each parasite.

For lice, Moore advises you to apply a very thin strip of Black-leaf '40 on each perch in the afternoon and be sure all birds use the perches that night. To kill the second generation, repeat the treatment in 12 days.

For mites, paint the nests, perches and perch support with equal parts of crank-case oil and kerosene, Moore suggests. Another sure treatment is to use a material such as carbolineum or C-A-Wood Preserver in the same manner. These last two materials should not be allowed to come in contact with the human skin, Moore warns.

"Lice and mites are two of the worst egg-thieves the poultryman can allow in his laying house", the poultry specialist charges.

**Cross-Breeding Of Dairy Stock Brings Questions**

Cross-breeding of dairy cattle without a plan is to be frowned upon, but cross-breeding by using a succession of proved sires will bring productive results, says A. C. Baltzer, extension dairy specialist at Michigan State college. Recent announcement of cross-breeding of dairy stock at the U. S. Department of Agriculture dairy farm at Beltsville, Md., has caused many questions regarding cross-breeding to reach Michigan State college dairy specialists.

Dairy stock of rich milk and percent test inheritance will bring productive results in cross-breeding, Baltzer explains. Dairy cows can be highly productive only if they have inherited the milking and butterfat producing factors and receive from their owner good feed and treatment.

"It is not a question of grade or registered stock. It is a question of more economical and efficient production as proved through rec-

ords obtained from dairy herd improvement associations", says Baltzer, concerning cross-breeding of dairy stock.

He points out that by using artificial insemination, the dairy farmer is able to build up the production quality in his herd because of proved sires. More than 95 per cent of all the dairy cows in Michigan are graded cows, Baltzer points out. He adds that they are excellent grades because of their registered sire parentage with a background of high production of quality milk.

**Imagination Helps In Food Shortage**

Imagination oftentimes works out better than the cook book, thinks Mrs. Vivian P. MacFawn, extension specialist in foods and nutrition at Michigan State college.

When bread, sugar, flour, butter, meat and even many meat substitutes, are off the cooking list, substitute large quantities of imagination, mix well with milk, eggs, vegetables, fruit and oatmeal and have wholesome, hearty and attractive meals. It is not that simple, but it works, she contends.

When the main dishes are sticklers, omelets with vegetables will fill in. If the family gets tired of fish twice a week, cover it with some special and different sauces. Grind the lunch meat and use in meat loaves or in patties. Oatmeal makes a good stretcher, and eggs a good binder.

To save that limited bread supply, skip the toast for breakfast and make oatmeal do the job. Use the bread for lunch only and then substitute plenty of the abundant potato crop for the bread at supper. If potatoes are distasteful without butter, try white sauce gravies filled with hard-cooked eggs, peas, carrots or perhaps some cheese.

To save the sugar, eat dried fruit dishes like prune whip instead of cake, pie and sweet rolls. Molasses or syrup will substitute for sugar in many recipes for cookies.

Mrs. MacFawn suggests that, in general, eat twice as much milk, eggs and vegetables in place of meat; use potatoes and oatmeal in place of bread and other cereal products; try fruit in place of sugar products and exercise imagination instead of a recipe book.

**Rabies Can be Controlled**

Controlling rabies is merely controlling the dogs. But Dr. B. J. Killham, extension specialist in animal pathology at Michigan State college, says controlling dogs is not so simple. Sentimental consideration for dogs and other factors interfere with well-entrenched quarantine restrictions, dog ordinances, and regulations.

While most species of animals, including man, may become infected, the spread of hydrophobia is usually through the dog. It is not necessarily a seasonal disease, but it is more prevalent during warm weather because then the dogs travel most, Dr. Killham contends.

A dog, bitten by a rabid animal, may not develop rabies for weeks or even months after introduction of the virus, Dr. Killham explains. By that time the dog may be many miles from the location where infected. He then starts a rampage of his own. Dr. Killham says actual reports show dogs travel as

far as 60 miles while engaged in biting animals and persons.

Dr. Killham tells of a vaccine that has now been developed which will protect most dogs for a period of about a year after one treatment. Control of rabies, however, will never be effective until the movement of dogs is restricted; stray dogs eliminated; dog laws, ordinances and regulations obeyed and due regard given to dog quarantines.

"If the disease kills a child, that is a tragedy which we must charge to our own unwillingness to comply with sane, even though irksome, restrictions", Dr. Killham insists.

**Bible Translated In 65 Languages**

The Bible in 65 translations, ranging from Anglo-Saxon to Zulu, is available in the University of Michigan library.

Many of the editions are in ancient languages and are used only by scholars of Biblical literature. Comparison of different versions and texts is of use in determining the most nearly accurate translation of the Bible into modern language.

In addition to Bibles in ancient and modern languages, the University also has copies of translations of the Bible into Indian languages and into tongues of native tribes of Africa and the Pacific islands. Most such translations were published by missionary groups.

Rare Bible texts, original copies of which are not available here, may be used by Michigan scholars in printed facsimile form or on microfilm.

**Sign Language For the Future?**

"One World" advocates please note: sign language may be the world language of the future.

Recently a University of Michigan professor of education, Fred S. Dunham, suggested that English probably will become a world language. A letter of protest has come from a Battle Creek citizen, who insists that the sign language used by deaf mutes has all the characteristics of universality. Since it does not depend upon an alphabet, it would be more easily learned than another spoken language.

### Waterford-Drayton Rotary Club News

At this week's meeting of the Waterford-Drayton Rotary club "Ed" Biddinger played a piano solo—his own interpretation of "Somebody Stole My Gal". President Shunk read a detailed report of the activities of the Oakland County Crippled Children's Society.

The Honorable Arthur E. Moore, Oakland County's Juvenile Court Judge and president of the Pontiac Boys' Club, was the principal speaker. He complimented the citizens of Waterford Township for providing youthful activities for the young people at the Community Activities building. "The Prevention of Delinquency" was his main topic. According to Judge Moore delinquency is not a crime but a perversion due to wrong associations usually beginning at the home and due to lack of youthful occupation and a definite objective. Judge Moore concluded that 80 per cent of delinquency is due to parental and community neglect, leaving the youngsters sad and lonely in an indifferent world. Our great country ought to find the means to help the delinquent before he becomes a vicious and costly adult criminal.

Among the guests were Durand Ogden and Harold G. Kennedy of the Clarkston club and M. D. Holmes.

### Soil Conservation Covers 40 Percent Of Michigan Farms

Approximately 40 per cent of Michigan's 196,000 farms are now under soil conservation districts. R. G. Hill, executive secretary of the state soil conservation committee and Michigan State College extension specialist, reports that eight new districts have been organized since Jan. 1, 1946. This brings the total number of farms under these districts to 75,000.

The latest to be organized is the Galien River Soil Conservation district in Berrien County.

Michigan's first soil conservation district was organized in Ottawa County in 1938, shortly after enactment of the district law by the Michigan legislature. This was also the first district organized in the United States. Of the 2,400 farms in the Ottawa district, about 1,100 are in the program.

Soil conservation districts are administered by boards of directors, consisting of five farmers. Farmers in a district may obtain assistance with their soil conservation problems by applying to one of their district directors. Hill said.

#### CARD OF THANKS

I wish to extend my sincere thanks to my neighbors, friends, relatives and business associates for the beautiful floral tributes and acts of kindness extended me during my recent bereavement.

Mrs. F. J. Stein

### Airborne Divisions Invite Enlistments

Colonel Walter C. Cole, commanding officer of the Michigan Recruiting district announced today that a new field of enlistment is now available to young men who are interested in joining the army and enlisting for the Eleventh Airborne Division, Pacific Theater, or the Eighty-Second Airborne Division, Zone of the Interior.

Past experience, Colonel Cole announced, shows that only the "cream of the crop" can make the grade for this highly desirable branch of service.

Enlistment for these units will be made for a three year period only, but additional enlistments for Airborne unassigned may be made for 1 1/2, 2, or 3 years.

In addition to this choice assignment, enlistees are now entitled to the additional pay raises the Army has recently received.

A young man now entering the Army will receive \$75 a month in addition to his clothing, food, lodging, medical and dental care, and liberal retirement privileges. This is the initial pay only, and does not include the many additions the Army offers such as 50% as a member of a flying or glider crew, 20% for overseas duty, 5% increase in pay for each 3 years of service, \$10 per month extra for combat infantrymen, and additional allowances for married men.

### 208 Killed by Fire In State Last Year

A toll of 208 lives and property destruction exceeding \$19,500,000 was Michigan's 1945 fire loss, according to figures just released by Oscar G. Olander, Commissioner of the Michigan State Police and state fire marshal.

While this was an increase of 15 lives and approximately \$200,000 in property loss over the preceding year, it was not in proportion to the increase in the country as a whole.

Two fires, one at Muskegon on March 16, in which five died from suffocation while fighting fire in the hole of an old ship, and one at the Export Box and Sealer Company, at Detroit, August 13, in which 15 persons met death, sent Michigan's fire death toll to an all-time high it was pointed out by Arnold C. Renner, Chief of the Fire Division of the state police.

An analysis of the report shows that of the number killed by fire in the state during 1945, 49 per cent were children. High on the list of causes of this loss of young lives, Renner said, was leaving children alone.

The job of fire fighting, the survey shows, grows more hazardous each year. Eight firemen lost their lives in the performance of duty during 1945. This was double the number killed in 1944. Three were killed in 1943, and none in 1942. The survey lists 787 fires attributable to carelessness, which was 226 fewer fires than were recorded under the same heading in the 1944 report. This would indicate that spreading the gospel of fire prevention is having some effect, Renner said.

There was an upswing in the number of fires traceable to malicious mischief of juveniles in 1945, with 408 being recorded as against 219 in the preceding year.

From all other causes with the exception of a few perennials as overheated irons, overheated stoves and furnaces, and the use of petroleum liquid to kindle fires, there was a notable decrease in the number of fires.

A recapitulation of the survey shows the following: Loss of life by fire, 208; total loss on buildings, \$10,400,319.74; total loss on contents, \$7,075,439; rural fire loss, \$2,072,948.39; total fire loss, \$19,549,707.37.

The report shows there were 49,167 fires in Michigan in 1945.

#### NOTICE TO WHOM IT MAY CONCERN:

The Village Council of the Village of Clarkston will the 12th day of August, A. D., 1946 at 8 o'clock at the Council chambers of the Village of Clarkston conduct a public hearing to determine whether or not the zoning map of the Village of Clarkston shall be changed so as to provide by suitable ordinances that the property hereinafter described shall hereafter be designated as Commercial District and shall be subject to the uses, regulations and restrictions relating to Commercial Districts as set forth in Ordinance No. 34, being the zoning ordinance in the Village of Clarkston.

The property to which this notice refers is described as:

a—Lot 64 "Assessor's Plat of Clarkston," a replat of part of the original plat of the Village of Clarkston and all of Cobb's addition; also a subdivision of part of the South 1/2 of Section 20 and of part of the Northwest 1/4 of Section 29, Town 4 North, Range 9 East, Village of Clarkston, Oakland County, Michigan, as recorded in Liber 35 of Plats, page 47 of the Oakland County Records. b—All of that portion of Lots 434, 435, 436, 437, 438, 439, 426, 427, 428, 429, 430, 431, and 432 of Clarkston Estates No. 2, a subdivision of part of the West 1/2 of the Southeast 1/4 of Section 20, Town 4 North, Range 9 East, Michigan, as recorded in Liber 49 of Plats, page 27 of the Oakland County Records that lie within the limits of the Village of Clarkston.

By order of the Village Council of the Village of Clarkston.

Russell Colston, Village Clerk.

thoroughly, the berries should be packed into an airtight moisture proof container with either no sugar; with a 40% (3 cups sugar to 4 cups water); or with 1 cup dry sugar to 6 cups fruit.

Black Cumberland or Logan raspberries are slightly seedy for dessert purposes but may be handled the same as red raspberries except they should be prepared with 40% syrup.

A revised card of preservation of fruits and vegetables by freezing is now available at the County Extension Office. Anyone who wishes may get one by writing to the office at 15 1/2 West Huron St., Pontiac and asking for Extension bulletin 208.

### City People Buying In Farm Sale Boom

The number of transfers of farms in Michigan in the last three years has been about double the normal turnover according to Karl T. Wright, farm management specialist at MSC. A survey, being conducted by this department with the U. S. Department of Agriculture, also reveals that about half of the buyers of Michigan farm land are city persons.

Wright believes this is a higher percentage than in other states. He believes that many persons, living in our industrial cities, were raised on farms and have a "yen" to own a farm.

There are two types of buyers of this group. One is the factory worker who went through the last depression in the city. He thinks a small place in the country would provide him greater security in the event of another depression. The other city buyer is one of the wealthier class who wants a farm as a hobby. His income during the war years has been high, and even if he loses money operating the farm, the reduction in his income tax will almost equal the loss," Wright explained.

The other half of the buyers, Wright says, are either farm owners or tenants purchasing farm land. Most of these are owners who

are buying additional land to have a larger and more efficient farming unit. The smallest group is that of tenants becoming established as owners.

Michigan land prices remain above the U. S. average and the March 1946 figures were 13 points above the 1920 peak, Wright pointed out. Before the price break in 1920, Michigan land prices stood lower than the United States average, Wright's figures reveal.

### Pressure Canning Undergoes Changes

For many years, since home canning has been done in pressure cookers, vegetables were processed at 15 lb. pressure. This pressure is no longer used, according to Mary Woodward, county demonstration agent.

If the gauge registered correctly, the resulting products were sterile and kept well but at times seemed to be overcooked, "mushy", or darkened.

The new government canning bulletins for vegetables, meat, fish and poultry state only 10 lbs., but use longer processing periods. Michigan State college experiments have also shown this pressure to be more practical.

The canning bulletin may be obtained from the County Extension office at 15 1/2 West Huron Street, Pontiac. Ask for the bulletin on "Home Canning of Fruits and Vegetables" AWI-93.

Ten lbs. pressure is 240 degrees F. The aim in processing food under pressure is to kill spoilage or harmful bacteria which may be present.

Quart jars of greens (any kind) need 105 minutes at 10 lbs. pressure. Corn takes 75 minutes and snap beans need only 40 minutes.

**Frozen Raspberries For Winter Treat**  
Frozen red raspberries are considered as one of the better winter treats and can be prepared with no sugar according to Mary Woodward, county home demonstration agent.

Experts in frozen foods research at Michigan State College agree that most fruits keep color, flavor and texture better if they are frozen with sugar or sugar syrup. Raspberries are the exception. Sugar is not necessary.

The Taylor or Latham varieties are the best for freezing and must be at the exact peak of ripeness when picked. If the berries are overripe or are picked after a rain, or during a very hot spell, they will turn dark.

Raspberries, because of their delicacy, should be handled as little as possible and very quickly without crushing.

After washing and draining
