**WATERFORD**

Mrs. Fred Mitchell, Mrs. Agnes Flickinger, and Mrs. William Hunt were co-hostesses at a bridal shower Monday evening for Lucy Shepherd. The shower was held at the Mitchell home. The evening was spent playing fifty-fifty. The honoree received many lovely and useful gifts. Dainty refreshments were served by the hostesses. The guests present besides the honoree were Patricia Stites, Vivian O'Roark, Mrs. Gerald Shell, Mrs. Bernice Holmes, Mrs. Bertha Saylor, Mrs. Ray Bush, Mrs. Adrian Howell, Peggy Brown, Ruth Thomas, Mrs. Robert Bliss, Mrs. John Jacober, Mrs. Joseph Helman, Mrs. Leona McCaffrey, Mrs. Susie Bliss and Mrs. Edward O'Roark.

Miss Shepherd is employed at the Waterford Post Office and will be married on August 3 to Richard Cole at Standish. The young couple plan to live in Waterford.

E. D. Spooner who has been ill for the past week is again able to be out in the yard.

Mrs. F. M. Thompson is confined to her bed at home. Colonel and Mrs. Fred Thompson are here with their mother.

Captain John Bozek returned home on Sunday after having recently returned from the Pacific zone. Captain Bozek received his discharge on Thursday after two and a half years in the service and is at home with his parents, Mr. and Mrs. John Bozek Jr.

About one hundred persons enjoyed the annual picnic of the

**Community Activities**

Community church last Saturday at the Waterford Center school. The new Brownie Troop No. 6 of Waterford met at Susan Clelands house last Thursday for a weiner roast. The Brownies present besides Susan were Shirley Lambertson, Judy Materna, Esther Tassi, Carol France, Virginia Valentine and Dona Zwicker. The committee members present were Mrs. Ruth Cleland, Mrs. Lorraine Lambertson, Mrs. Gertrude Kenifeck, and Mrs. Alma Materna. The afternoon was spent playing games and riding a pony.

Mr. and Mrs. Fred Mitchell returned home Thursday evening from a week's vacation in Canada. They were with friends and made the trip around Lake Huron.

Mr. and Mrs. Harold Kruger and three daughters left on Saturday for a week's vacation in northern Michigan.

John Bozek Jr. returned home on Friday after a three weeks business trip in western states.

O. L. Siegman is a patient at St. Joseph's hospital in Pontiac.

Mr. and Mrs. Ben Robinson returned home last Friday evening from a week's vacation in Canada.

Mr. and Mrs. Harold Frack and three children left on Saturday of last week for a ten day trip in northern Michigan.

Mrs. Agnes Flickinger spent last weekend with her son and daughter-in-law, Mr. and Mrs. Jack Flickinger, and family in Ferndale.

Mrs. Robert Barnes is ill at her home on West Street.

Mrs. Henry Mehlfert entertained the Good Will Club last Thursday. Plans were made for a picnic supper at the summer home of Mr. and Mrs. Percy Hunt at Watkins Lake on August 15 with the husbands of the members as guests.

There are two more weeks of the summer recreation program and the children are having a grand time.

The children of the community are invited to attend the summer Bible school for the next two weeks at the Community Activities building. The Lutheran church is sponsoring the school and the classes will begin at 9:00 and run until 11:30. There will be periods of study, recreation and handwork.

Miss Betty Jencks left on Tuesday for a trip to the Straits with

**Waterford Community Church To Hold Missionary Day**

Missionary Sunday will be observed at the Waterford Community Church on August 4, with Dr. Paul H. Brown, M. D. as the guest speaker for the entire day.

Dr. Brown, recently released from army service, will soon leave for the Belgian Congo as a medical missionary under the Africa Inland Mission. He is well prepared to serve in this needy field, as previous to his call to army duty, he served for a year and a half as a medical missionary to the Navajo Indians, and was superintendent of the Rehoboth Mission Hospital in Rehoboth, N. M.

The program for the day will begin with a combined session of the Sunday school at 10 a. m., followed by the morning worship at the regular time. Dr. Brown will address both services, and communion will be held at the close of the worship service.

In the evening, the young people will meet at 6:15, and in addition to Dr. Brown's address, a special musical program will be presented under the direction of Mr. Bryant Schlutow and the Griffin Male Quartet, from Pontiac. Immediately following, the evening service will be held at 7:30, and will feature missionary hymns and music, with a closing message by Dr. Brown. All are cordially invited to attend.

There were 22 members present at the Blue Star Mothers picnic held recently at Indian Lake.

Mr. and Mrs. Delbert Motley and son Robert have returned from a week's vacation at Mid-Forest Lodge.

Mr. and Mrs. Earl Paine of Drayton Plains announce the engagement of their daughter, Helen Jean to Earl F. Belisle, son of Mr. and Mrs. A. J. Belisle of Cross street. No date for the wedding has been announced.

Mr. and Mrs. Ray Allen and Henry Reibling attended a family

reunion Sunday at the home of Mr. and Mrs. Walter Rock of Detroit. Mr. and Mrs. Louis Glum and Mrs. Emerson Bennett spent the weekend at Au Gres.

Mrs. Neil Gundry accompanied by her house guests, Mr. and Mrs. Skelley of Clearwater, Fla., have returned from a vacation at Mid-Forest Lodge.

Mr. and Mrs. Earl Morey and daughter Kathleen accompanied by Mr. Morey's mother, left Tuesday for a week's vacation at Mid-Forest Lodge.

**DONKEY SOFTBALL GAME DRAWS LARGE CROWD**  
A large crowd witnessed the yearly donkey softball game played at the Waterford township park on Monday evening. There were lots of laughs and spills for everyone. The donkey game was preceded by an all star game between two chosen teams selected from the league with Elmer Johnson managing team number 1 and Charles Sniffen managing team number 2. The results were a tie game—4-4.

The league is now starting on its fourth and last quarter for the season with Soda Grill holding first place with 12 wins, 3 losses and one tie. Oasis is second with 9 wins, 7 lost; Dell's third with 7 wins, 6 lost, 2 tied; Drayton Food Mkt., 7 wins, 7 lost, 1 tied; Drayton Drug, 7 wins, 9 lost and Keego Hardware 2 wins and 13 lost.

Proceeds from the games Monday were added to the park improvement and light fund.

**Selfridge Air Show Is Expected to Break Attendance Record**  
Anticipating that the AAF-CAP Michigan Air Show, August 10-11, will draw the largest crowds ever handled at Selfridge Field, the staff at the base and the Civil Air Patrol have already acted to remove the obstacles to public and private transportation that have plagued past public demonstrations at the field.

The Automobile Club of Michigan is heading a committee, which includes representatives from the State Police, Macomb County Sheriff, Mt. Clemens Police and the Selfridge Field Provost Marshall, which has arranged for the

use of gates previously closed to the public. This move opens up additional access highways to the field. Additional parking areas on the base for several thousand extra automobiles are being provided by the Provost Marshall.

Arrangements have been made with Great Lakes Greyhound for continual shuttle service from Mt. Clemens to Selfridge which will connect with all busses entering Mt. Clemens from other parts of the state.

Direct Detroit to Selfridge service will also be provided every fifteen minutes during the two-day show.

**Drayton Plains ANNUAL PLAINS TO HOLD ANNUAL COMMUNITY PICNIC AT ROCHESTER, AUGUST 10**  
Plans have been made to hold the annual Drayton Plains Community Picnic at Avon Park, Rochester, on Saturday, August 10. Each family is to bring a basket luncheon and plan for an all day and evening of fun. There will be games and races for both children and adults, the big event being a tug-of-war across the creek.

**LEGION ELECTS OFFICERS AT SPECIAL MEETING**  
A special meeting of the Waterford Township American Legion Post 431 was held at the Old Mill Hotel Tuesday which included the annual election of officers. Louis Dorman Jr. was elected Commander; Richard Lambertson, senior vice commander; Robert Wagner, junior vice commander; G. L. Towner, adjutant; Lyman Girst Sr., finance officer; William Pelton, chaplain; John VanEmerick, sergeant at arms and Harry Howard, historian.

### Fertilize Rhubarb And Asparagus Now

Feeding rhubarb and asparagus plants now means a heavier crop next year, says Jack Rose, Michigan State college extension specialist in home gardening. Both of these perennial crops are busy

making and storing plant food in their roots. This stored reserve will be used next spring to produce the early crop for harvest. Fertilizers applied after the harvest season provide materials to help the plant make a better growth and store more food.

For the home garden, straight nitrogen fertilizer such as ammonium nitrate or ammonium sulfate may be used. A mixed fertilizer such as the 10-6-4 lawn fertilizer will do. Apply fertilizers as a side dressing along the row, using 5 or 6 pounds of nitrogen fertilizer per 100 feet of row or 10 to 12 pounds of the 10-6-4 material. Of course, asparagus and rhubarb should have an application of fertilizer again next spring.

### CARAVAN SUCCESS REACHES FAR PLACES

Success of Michigan's Rural Progress Caravan last winter, brought a request to the Michigan State college extension service from the U. S. Department of Agriculture for the loan of George Amundson to tell other states about the Michigan labor-saving device show. Amundson, agricultural engineering extension specialist at Michigan State college and director of the show, is now in the southeast section of the United States explaining the program to extension officials of those states. He will spend two weeks out of each month for the next four months contacting other states for the Federal Emergency Farm Labor program.

### Pay Higher Profits Producing Cows

Five high-producing cows can easily produce more profit over and above feed costs than 25 low-producing cows, according to A. C. Baltzer, extension dairy specialist at Michigan State college.

For this reason, the problem of the dairyman is about the same as it has always been—that is, getting milk production returns to exceed feed and labor costs.

The dairy specialist points out that as production per cow year increases, feed costs per hundred pounds of milk produced go down. Owing to exceedingly high costs of feed and labor at this time, quality milk cows are paying off higher percentages of returns than in low feed and labor cost periods. Dairyman can best cut down the feed cost by the following methods:

Seed supplementary pasture crops for late summer and fall use; Use more and better roughage; Weed out unfit, low-producing and inferior cows.

Condition dry cows and heifers due for fall freshening.

High labor cost, Baltzer said, is another problem the dairyman is facing today in making a profit. L.e.s. labor is required, he points out, to handle a few good high-producing animals than a large number of poor milk producers.

### Sleeping Sickness Fatal to Horses

Just because sleeping sickness of horses failed to touch Michigan extensively last summer is no reason horse owners need not be cautious about preventing outbreaks. This word was received by K. D. Bailey county agricultural agent from Dr. B. J. Killhan, extension specialist in animal pathology at Michigan State college.

Sleeping sickness in horses (equine encephalomyelitis) can be prevented by vaccination.

Two types of sleeping sickness virus are found in Michigan—both the eastern and western, Mr. Bailey informs. A vaccine prepared for one virus will not protect the other. This requires that two vaccines be used. It is recommended that a veterinarian be consulted for vaccination. In case of an outbreak, contacting a veterinarian is very important. Treatment is difficult and often not too successful.

The disease is not transmitted directly from one horse to another, but is carried by vectors. The mosquito is a commonly known carrier, the county agent reports.

The disease appears in horses usually in the late summer and disappears with the coming of killing frosts in the fall.

The county agent urges persons with valuable horses to have them vaccinated as a precaution against any outbreak which might occur.

### Blueberry Pickers Advised on Rules

Pickers preparing for the annual "blue gold" blueberry harvest are advised that on state lands this season the picking will be by hand.

Rule 12 of rules for state land use forbids rakes, cradles or other mechanical devices in gathering blueberries. The conservation commission waived the rule in two of the war years when labor was scarce and food supplies short, but no suspension of the rule this season is contemplated.

A late spring that delayed blossoming until danger of frost damage passed and heavy rains while the berries were forming are getting credit for the good crop now maturing on some "plains" of the upper peninsula, where the harvest is important commercially. Blue-berry picking already has begun in some southern Michigan counties, where the yield is limited this season.

Yes, the pickers are talking of higher prices, too.

Your individual share of all the power developed in the United States amounts to about ten horsepower, continuously, day and night.

### Veteran's News

#### SELF-EMPLOYMENT ALLOWANCES AVAILABLE

Veterans' self-employment allowances are continuing the upward trend that has prevailed since the first of the year. A total of 308,409 veterans filed self-employment claims in May, compared with 33,000 last December.

Under the GI bill, allowances are available to veterans engaged in full time self-employment for profit. If their net earnings for a given month are less than \$100, Veterans Administration pays the difference between the net earnings and \$100.

The period for which a veteran is entitled to allowance depends upon his length of service in the armed forces, with a maximum entitlement of ten and two-fifths months if the veteran has over nine and one-half months of service to his credit.

#### DEPENDENT'S TRAVEL REFUND EXPLAINED

Veterans who have married overseas and have paid for their wives' transportation to this country out of their own pockets should present the following information when requesting a refund:

1. Copy of dependent's travel orders.
2. Dependent's full name.
3. Date and place of marriage.
4. Name of vessel on which travel was performed.
5. Date and port of departure from overseas.
6. Date and port of arrival in the United States.
7. Amount of fare paid and to whom.
8. Serviceman's full name, rank, serial number, military address while stationed overseas, and military address at time dependent's travel was performed.

itary address at time dependent's travel was performed.

The information should be sent to: Chief of Transportation, Pentagon, Washington 25, D. C. Attention: Movements Control.

#### VA FILE SYSTEM KEEPS TAB ON YOU

The master index file of the Veterans Administration comprises 20,000,000 cards, each containing the veteran's name, rank and organization, serial number, home address at entrance into the service, dates of birth, enrollment and discharge, and any file numbers assigned to him.

There are some 138,000 veterans listed by the name of Johnson, some 210,000 Smiths and more than 13,000 John Smiths.

This illustrates the necessity for every veteran including his full name and address, service serial number, VA file numbers and all other available identification when writing to the VA. Complete, pertinent information about the veteran concerned should be included in every communication to the VA.

#### NO DISABILITY BENEFITS WHILE IN TRAINING

The Veterans Administration has announced that it has no authority to pay any benefits to a veteran for injury, or aggravation of a previous condition, while he or she is enrolled for educational or training benefits of the Servicemen's Readjustment Act.

This is based on a decision of the Solicitor for the Administrator of Veterans Affairs. It also states the VA does not have the authority to pay benefits where an injury is the result of medical, including surgical, treatment furnished by

the school or training institution as an incident of the education or training under this act.

However, under Public Law 16 providing vocational rehabilitation for disabled veterans, the VA is authorized certain benefit payments to a veteran injured in the course of training.

#### WHAT'S IN A NAME?

Conservation officers Fish and Hunt are appropriately assigned to aid those who fish and hunt in this and the adjoining county. Officer Ed Fish of Three Rivers has been stationed in St. Joseph County for six years, but Officer Max Hunt was not assigned to Dowagiac, Cass County, until this season.

**DARLING & COMPANY**

Thrilling moment in the 20-year-old film DON JUAN, featuring John Barrymore. This was the first full-length sound movie.

## The modern movie is 20 years old on August 6

Twenty years ago the movies added sound to sight. DON JUAN was the film. A year later came THE JAZZ SINGER, the first feature to use lip synchronization.

Both were produced and presented by Warner Brothers. The equipment which made them possible was developed and made by Bell Telephone Laboratories and Western Electric Company. These two Bell System units have continued to apply their skills to improve sound reproduction. They have contributed greatly to the excellent sound in today's movies.

Bell scientists were able to solve the talking picture problem because of their continuous study of every means to improve communication. The "talkies" came directly out of telephone research.

The modern movie has grown so that it speaks in peace and war around the world. It has become one of the great agencies affecting the heart and mind of man.

**MICHIGAN BELL TELEPHONE COMPANY**

### Attempt is Made To Standardize Clothing Sizes

Something is being done about clothing for short and tall women. According to Michigan State college, average sizes of ready-made garments are also being sized to height. That is, garments—including slips, dresses, coats, and suits—are being made in proportionate length which will fit the short, average, or tall, even though all three wear size 14.

Manufacturers who made garments for women in the armed services became aware of the variations in length. To cut down costly adjustments after garments were made, fabric was cut into correct proportions.

This brought about a standardization of sizes. Manufacturers are endeavoring to make sizes uniform.

The junior miss, as its name implies, is for the teen-agers or small younger women. These sizes run 9, 11, 13, and 15. Misses' sizes are 10, 12, 14, 16, 18, and are designed for the lucky person who is well-proportioned, broad-shouldered, small-waisted, and slim-hipped. Sizes 36 and up are the women's sizes intended for the more mature figure of average or taller height.

Women of stocky build can be fitted in half sizes.

Manufacturers are also reported to be standardizing sizes of from 7 to 14 for young girls with special consideration to stature, height, weight, and girth measurements.

In other words, clothing manufacturers are endeavoring to make clothing lines that will fit more of their potential customers with little or no alteration.

### 7 State Hatcheries Producing Minnows

Thirty-one ponds covering 46 acres at seven Michigan fish rearing plants are now devoted to experiments by the conservation department's fish division in propagating bait minnows. Spurred by scarcity of minnows both among bait dealers and in some waters which formerly supplied local fishermen, the division is developing the "know how" of minnow raising, so dealers will be encouraged to grow their own.

The Drayton Plains, Hastings, Harrisville, Comstock Park and Wolf Lake state hatcheries, and the federal hatchery at Northville, and the Almena state rearing station are participating in the experiments, now in their second year. Records will show the prospective private minnow raiser not only which methods are practical, but the equally important facts on costs.

Typical of the information already acquired are the facts that creek chub eggs are readily incubated in hatchery jars and chub fry are hardy enough to withstand long hauls in milk cans, but that suckers are delicate in the fry stage, and not easily handled without considerable mortality. Besides chubs and suckers, golden shiners are now being grown, and northern pearl dace and northern minnow scale dace each have a pond set aside for them.

A handbook of minnow culture, based on the experiments, will be issued later this year. Last season the division sold a small surplus of minnows produced in the experiments, for two cents apiece, and this year it has an estimated 1,000,000 on hand, with orders for 100,000 already booked.

### Beekeepers' Picnic At Davisburg Park Sunday, August 4

Davisburg Park has been selected as the spot for a get-together of Beekeepers of Wayne and Oakland Counties on Sunday, August 4.

The two associations will hold a joint meeting and picnic, which promises to be one of the good "old-fashioned" kind.

According to Henry Saeger, President of the Oakland County group, he has obtained the following speakers: Dr. E. R. Root, Editor of a National Bee Journal; Clarence Bolander, Deputy Director of the Michigan Department of Agriculture and Professor R. H. Kelly, Horticultural Department, Michigan State College.

Not until most of the hay and grain is cut will conservation department game men be able to make definite numerical estimates of the 1946 pheasant crop, but current reports contain little encouragement for the hunter hoping for birds in pre-war abundance.

An average of nine chicks is reported for 78 broods observed by conservation officers in June, but none of the officers is optimistic in his comments. Several of them saw many hens without broods.

Of the several hundred volunteer reporters in pheasant territory whose help Joe Linduska, conservation department pheasant specialist, has enlisted this season, rural mail carriers have been most cooperative. Driving 50 to 100 miles daily over the same route, they are in an excellent position to make comparisons. Their daily counts and comments make it clear that this season's production is not to be compared with the big birdcrops of the early '30s. Like the officers and game men, however, they grant that roadside weed cover and standing crops may conceal some pheasants, and are keeping their fingers crossed until hay and grain is harvested.

### 1946 Peach Crop May Break Record

According to the most recent crop estimates, Michigan again is going to be one of the top peach producing States in the Nation. It is estimated the production for this year will reach 4,320,000 bushels. This has a chance of being the third largest crop in the history of the State, Charles Figy, Director of the Department of Agriculture, reports that Michigan's 10-year average (1935-1944) for peaches was 2,801,000 bushels, which figure will be far exceeded again this year.

Last year Michigan peaches were shipped to every county in the State. Besides this, shipments were made to 28 States and into Canada. If nothing interferes with the harvest, the supply this year will be plentiful and consumers will be able to get as many peaches as they will need.

Another week will find some of the earlier varieties of peaches on the market and the later varieties will be available in most peach producing areas until the middle of September.

At a session of said Court, held at the Probate Office, in the City of Pontiac, Michigan, on the 19th day of July, A. D. 1946, the Honorable Arthur E. Moore, Judge of Probate, in the Matter of the Estate of Louis F. Walter, deceased, Laurence A. Webb, administrator of said estate having filed in said Court a petition, praying for license to sell at private sale the interest of said estate in certain real estate therein described.

It is Ordered, That the 5th day of August, 1946, at nine o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said Court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said County of Oakland.

ARTHUR E. MOORE, Judge of Probate.

Estes & Cooney, Attorneys at Law, 812 Pontiac State Bank Building, Pontiac, Michigan, July 12, 19, 26, August 2

### LOCAL ANGLERS HAVE EDGE

Resident anglers who know when and where the fish are likely to be biting continue to hold a definite edge over visiting fishermen, the institute for fisheries research nineteenth general creel census report for 1945 reveals. Local fishermen averaged 1.1 fish per hour while nonresidents' fish-per-hour rate averaged only 0.9.

The general creel census is based on reports by conservation officers who last season interviewed 42,283 fishermen and tabulated their catch.

### Pheasant Outlook Not Very Bright

Not until most of the hay and grain is cut will conservation department game men be able to make definite numerical estimates of the 1946 pheasant crop, but current reports contain little encouragement for the hunter hoping for birds in pre-war abundance.

An average of nine chicks is reported for 78 broods observed by conservation officers in June, but none of the officers is optimistic in his comments. Several of them saw many hens without broods.

Of the several hundred volunteer reporters in pheasant territory whose help Joe Linduska, conservation department pheasant specialist, has enlisted this season, rural mail carriers have been most cooperative. Driving 50 to 100 miles daily over the same route, they are in an excellent position to make comparisons. Their daily counts and comments make it clear that this season's production is not to be compared with the big birdcrops of the early '30s. Like the officers and game men, however, they grant that roadside weed cover and standing crops may conceal some pheasants, and are keeping their fingers crossed until hay and grain is harvested.

At a session of said Court, held at the Probate Office, in the City of Pontiac, Michigan, on the 13th day of July, A. D. 1946, the Honorable Arthur E. Moore, Judge of Probate, in the Matter of the Estate of Edward L. Davis, deceased, Alice H. Davis, having filed in said court a petition praying that the administration of said estate be granted to petitioner or to some other suitable person.

It is Ordered, That the 19th day of August, A. D. 1946 at nine o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said county.

ARTHUR E. MOORE, Judge of Probate.

Estes & Cooney, Attorneys, 812 Pontiac State Bank Bldg, Pontiac, Michigan, July 19, 26, August 2, 9

At a session of said Court, held at the Probate Office, in the City of Pontiac, Michigan, on the 19th day of July, A. D. 1946, the Honorable Arthur E. Moore, Judge of Probate, in the Matter of the Estate of Louis F. Walter, deceased, Laurence A. Webb, administrator of said estate having filed in said Court a petition, praying for license to sell at private sale the interest of said estate in certain real estate therein described.

It is Ordered, That the 5th day of August, 1946, at nine o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said Court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once in each week for three weeks consecutively, previous to said day of hearing, in the Clarkston News, a newspaper printed and circulated in said County of Oakland.

### MALE FIELD SPARROW NOT ALWAYS BOSS

The male field sparrow sometimes can be a coward and, like many another timid husband, let his wife take the missions requiring a little boldness.

So concludes Conservation Officer Vern Dockham, of Mio, Mich., whose special interest is ornithology, after witnessing some field sparrows' domestic drama here in Oscoda county.

Curious about why the male was carrying food not directly to the nest but to a tree limb where the female snatched it and took it to the nestlings on the ground, Dockham found a porcupine had casually stopped to rest a few inches from the nest. So while Papa sparrow did his duty in providing food, he left it to Mamma sparrow to brave the porky's presence, and deliver it to the young.

The national goal of 20 million gardens for 1946 is an increase of more than a million over 1945.

**THESE ARE THE BENEFACTORS**

★ One of the greatest accomplishments of civilization has been the remarkable progress made in increasing the average life expectancy. In the Middle Ages the average life span was twenty years. In the seventeenth century it had advanced to twenty-five years. Through the years there has been a steady increase until, today, the life expectancy is sixty-three years for men and sixty-six for women.

Authorities agree that the most productive years of life lie between the ages of forty and sixty. Medicine and the allied sciences have thus been indirectly responsible for all progress. Good minds that had sickened and died before reaching their zenith now live to apply the judgment and experience of maturity. As pharmacists, we are proud of our function in the distribution of lifesaving medical supplies.

**\$122,000,000<sup>00</sup> FOR THE "GENERAL WELFARE"**

Through the ten years ending with 1945, The Detroit Edison Company paid taxes totaling more than \$122,000,000. Those taxes were collected from us, under the authority of the Constitution, to "provide for the common defence and promote the general welfare."

More than \$55,000,000 of that amount was paid to LOCAL units of government. That means it went to the cities, counties, villages and townships right here at home, in the territory which The Detroit Edison Company serves.

The tiniest village has Edison taxes in its treasury. The little red schoolhouse got its share of the \$55,000,000. Edison tax payments were a major contribution to the funds necessary to meet the ever-growing governmental obligations of the City of Detroit.

In 1945, Detroit Edison's local taxes passed \$6,000,000, for a new high, higher than our Federal taxes for the first time since 1940.

There is no intent either to boast or to complain about this record of tax payments. The Detroit Edison Company prizes its position as a private citizen, and with that position goes the obligation to be a tax payer rather than a tax consumer.

Let it also be made crystal-clear that you, the buyers of Edison power and light, paid that \$122,000,000.

It was a part of your electric bill, but it was not a charge for electricity. It WAS a part of your cost of government.

**THE DETROIT EDISON COMPANY**

Romeo Midget Races Thrill Large Crowds

The second twilight race card staged at the Romeo Speedway by the Lions Club served a thrilling spectacle for the large crowd.

Neil Carter, Toledo driver, won the 15 lap feature; Bill Clifton came in second and Harold Jagers, popular Detroit driver, third.

The feature was slowed somewhat when Louis Luedtke and Al Momenee plugged up on the east turn and Harold Jagers followed, compelling all races to run under the caution flag on this portion of the track.

Norman Raymond won the 4 lap dash and third elimination. Neil Carter won the first elimination. Al Momenee the second and Bill Clifton the fourth.

Fifteen cars were at the track on Sunday with two failing to get beyond the qualifying stage due to mechanical difficulties.

Michigan has two less Mud lakes and one less Bullhead lake since the U. S. Board on Geographic Names approved three name changes.

You can buy, sell, swap or rent anything with a Clarkston News Want Ad.

Battle is On To Control Erosion Of Lake Frontage

Cottage owners eager to keep high-priced lake frontage from being eaten up by wave action are asking conservation department's geological survey for economical methods of erosion control.

The beach erosion problem is now acute in a relatively few places on Lake Michigan, Lake Huron and Lake Erie shores.

Ideal control devices would be simple enough so small groups of cottage owners could put in their own, cheap enough so the ice could be allowed to wreck them in winter, and not unsightly.

Eventually the survey hopes to cooperate in wave tank studies with the University of Michigan.

Canned Blueberries Require No Sugar

Sugar saved in canning blueberries may be used for other fruits. The following canning method dates back several years and is the best way possible to can blueberries for pies and other desserts.

Place one to two quarts of berries in a square of cheesecloth and plunge into a kettle of rapidly boiling water, then into cold water and drain well.

Michigan State college experiments show best blueberries for freezing are Jersey, Pioneer, Rubel, Ransocas and Wild Low.

If blueberries are to be canned to use as sauce, add 1/2 cup sugar to each quart of fruit, cover pan, bring to boil and cover with hot liquid.

Milford Fair Opens Tuesday, August 7

The Milford Fair opens Wednesday, August 7 and will continue for four days, up to and including August 10.

There will be a soft ball game starting at 4:30 every afternoon of Thursday, Friday and Saturday.

Headed by the bill of entertainment will be the Barnes & Carruthers Circus and High Wire acts.

The premium list is now ready.

Recordings to Cheer GI Hospital Patients

Thousands of exclusive phonograph recordings, made by the stars of stage, screen and radio for GIs during World War II, will be made available to entertain ill and disabled veterans in Veterans Administration hospitals.

The basic libraries, each containing 3,600 records, have been obtained from the armed forces radio service and will be distributed to hospitals and homes.

The recordings range from talks on popular science, comedy skits and music by name bands to drama and opera.

Off to California — on foot

Two miles an hour is fast enough pace for S. J. Norton of San Jose, Calif., now on his way home after a vacation here.

Norton, old and bearded, was a picturesque sight in Orchard Beach state park, where he was fond of lying in his hammock while reading the Bible.

### Parents to Blame For Pupil Failures

Parents and teachers are more to blame for failures of high school students than are the pupils themselves, a University of Michigan educator believes.

George E. Carrothers, director of the university's bureau of co-operation with educational institutions, says that among major reasons for high school failures are the heavy load carried by teachers, parental unconcern for the education of their children and community misunderstanding of real education.

"Increasing the number of teaching and other duties merely spreads the teacher a bit thinner and makes the teaching less satisfactory to both staff and pupils," Carrothers comments. "When we turn to the schools for help on every conceivable type of community enterprise, it is no wonder that the teaching is not up to standard."

Nearly 100 per cent of the poor performance of children is the fault of adults, Carrothers charges. Parental indifference is demonstrated by the failure of parents to visit the schools and become acquainted with teachers, by their failure to supervise the study of their children, and by their unwillingness to stay home evenings with their children to develop a satisfactory home life.

The community at large likewise shares in the blame for school failures, the educator believes. Communities oftentimes do not realize or understand what education really is. They mistake diplomas or grades for education, and therefore insist that children receive passing grades or be graduated from high school whether or not they have learned anything.

Of course, there are other reasons for pupil failure, Carrothers admits. Among these are lack of interest on the part of the pupil, lack of understanding of pupils by the teacher, inability of youth to do the work expected.

### 'How Your Television "Commercial" Will Look

To enhance an impressive list of manufacturing "firsts," Chevrolet now engages in another pioneering venture as the first motor car manufacturer to sponsor a regular commercial television show. Admittedly an exploratory venture to evaluate the possibilities of television as an advertising medium, these broadcasts were the first employing live talent to be sponsored by any automobile producer. Four weekly shows were staged by Chevrolet and broadcast through the facilities of the American Broadcasting Company's television network. The shows were telecast at the Dumont Studios in New York for the three stations currently teamed in the ABC television network. Shown above is a scene from the second of the series, a half-hour program titled "Roads to Romance."

### Red Cross News

Mrs. Layton L. Northrup, chairman of nutrition of the Oakland County Chapter of the American Red Cross, is making an urgent appeal to housewives of Oakland County to help fight the famine which is threatening the lives of hundreds of millions of people in foreign countries. It will be necessary for this country to continue to share its food supply for at least

another year. Housewives can assist by food preservation. Wheat will be scarce for months to come. To safeguard diets it will be necessary to eat more of other foods. Vegetables are plentiful and many more of them will be eaten this year to replace some of the food values and "filling" quality of the wheat that goes abroad. The U. S. Department of Agriculture has a number of bulletins available for

distribution, among them "Home Canning of Fruits and Vegetables" and "Home Canning of Meat". Also, "Home Freezing of Fruits and Vegetables" may be secured by anyone who wishes to have this information. Mrs. Northrup also states America throws away the richest garbage in the whole world and that housewives can help to save by serving simple meals; avoiding the overloading of plates; squeezing of the grapefruit; tilting the bowl; picking chicken bones; serving sandwiches with crusts; refusing food that will not be eaten.

years, directed the sending of inquiries abroad as well as the delivery of messages locally. She is a member of the Home Service Corps only recently having received a certificate for the basic training course.

The executive office of the Oakland County Chapter of the American Red Cross is now in a new location having recently moved to the Huron Building, 53 1/2 West Huron Street. The Volunteer Special Service office and Junior Red Cross will move next week to the same location. Home Service will remain at its present address, 410 Pontiac State Building. Marshall Smith, chairman of the chapter, requests all volunteers as well as individuals who may have occasion to call at any of the offices to note where the offices are located.

Marshall Smith, chairman of the Oakland County Chapter of the American Red Cross announces that Mrs. T. W. Eustis of Birmingham has recently been appointed Home Service Chairman of the local chapter, to replace Mrs. Sheldon Noble who has resigned. Mrs. Eustis brings to this committee a number of years experience in this Red Cross Service as she has been a Home Service Volunteer for many years. Originally serving as chairman of inquiry and information. Mrs. Eustis, during the war
