By The Way

Here's one person's description of "a boy" that will bring back nostalgic memories to many of us and a knowing smile from most parents. After a male baby has grown out of long clothes and triangles and has acquired pants, freckles and so much dirt that relatives do not dare kiss it between meals, it becomes a BOY. A boy is Nature's answer to that false belief that there is no such thing as perpetual motion. A boy can swim like a fish, run like a deer, climb like a squirrel, balk like a mule, bellow like a bull, eat like a pig or act like a jackass, according to climatic conditions. He is a piece of skin stretched over an appetite. A noise covered with smudges. He is called a tornado because he comes at the most unexpected times, hits the most unexpected places and leaves everything a wreck behind him. He is a growing animal of superlative promise, to be fed, watered and kept warm, a joy forever, a periodic nuisance, the problem of our times, the hope of a nation. Every boy born is evidence that God is not yet discouraged of man. Were it not for boys, the newspapers would go unread and a thousand picture shows would go bankrupt. Boys are useful in running errands. A boy can easily do the family errands with the aid of five or six adults. The zest with which a boy does an errand is equalled only by the speed of a turtle on a July day. The boy is a natural spectator. He watches parades, fires, fights, ball games, automobiles, boats and airplanes with equal fervor, but will not watch the clock. The man who invents a clock that will stand on its head and sing a song when it strikes will win the undying gratitude of millions of families whose boys are forever coming to dinner about supper time. Boys faithfully imitate their dads in spite of all efforts to teach them good manners. A boy, if not washed too often and if kept in a cool, quiet place after each accident, will survive broken bones, hornets, swimming holes, fights and nine helpings of pie.

THE HILLTOPPER

CONFERENCE

Mr. Ridgley has returned from a conference at Ann Arbor which was held last week to discuss problems of interest to education, business and industry. Mr. John R. Miles of the U. S. Chamber of Commerce, reported his findings from comparing educational advantages with community commercial success. He found that where people had better educational facilities industry benefited. Several educators who had made the rounds of big business in Chicago, Detroit, and New York reported what industry wanted from schools today. Mr. Ridgley came back from the conference with the thought that now is the time for industry and education to get together so that both may be benefited.

ATHLETIC ASSOCIATION

The Twin County Athletic Association met last Tuesday at Big Beaver at 4:30 to pick an all star football team from the league and to discuss basketball rules and schedules for 1946-47. Mr. Thayer and Mr. Brablec attended.

ITALY

Mr. Brablec presented a colorful account of his bicycle trip through Italy to the combined Latin classes last Friday. He began by describing his approach to Rome early one morning and went on to tell about the Roman roads and mile-stones, the bath of Caracalla, aqueducts, triumphal arches, and bridges across the Tiber, and many other interesting points on his journey. His story of how an island formed in the middle of the Tiber after grain barges were sunk created interest.

Some of the hunters are Lawrence Westover, who will go to West Branch; Dale Sutphen and Jack Selby to Roscommon; Wayne Longair to Mio; Phyllis Barber to Rose City; Jim Fuller to Lewiston; Bob Kratt to Calumet; Albert Potter to Alpena; Don Orr to St. Helene's; Charles Webster to Atlanta and Mr. Brablec to Rogers City.

MRS. CLARK

This week may we present Mrs. Monzelle Hoffmann Clark? You've seen the results of her efforts in the fine speech assembly and the recent Senior play. Mrs. Clark's chief interest is dramatics and speech which she has revolutionized here in Clarkston since her arrival. New lighting for the stage, 12 foot stage sets, more varied plays, and many other innovations have appeared.

Mrs. Clark lived in Birmingham and attended Baldwin High School. From there she went to Olivet for her degree and then to Columbia School of Speech in Chicago. She went back to Olivet to teach dramatics.

For several years she left teaching and worked out of New York for Saled Affiliates Incorporated, demonstrating Revelon products to beauty schools.

Recently she returned to teaching and last summer spent a very interesting term directing plays at the Cranbrook Summer Theatre. The production of "Return Engagement" culminated her summer's work. Next summer she plans to go East to participate in one of the Theater Guild summer stock theaters if possible.

Mrs. Clark's chief hobby is her nine year old daughter, Mary Jane, who, imbued with her mother's talent and enthusiasm, claims she is going to grow up to be an actress.

LAKE ORION

Came the down! Out of the blue in the first half of the second quarter the Clarkston Wolves started to click at the Lake Orion game last Friday. As a team they swept down the field. The story can be told in five words. Clarkston 18, Lake Orion 13.

In the first 15 minutes of play Lake Orion crossed Clarkston's goal twice. The score was 13-0 and everyone looked for a defeat for the Wolves. Then the team started pushing its way to the Lake Orion goal. Line plunges and end plays got the ball down to the few yards area and Smith scored Clarkston's first touchdown. The next score occurred when Adams snagged a pass from Davison and ran 30 yards to score.

Clarkston came back at the half trailing 13-12 but the score didn't last long. McGee received a passed ball from Davison and waited over the line to score in the third quarter. The final score was 18-13. Starting lineup for Clarkston was Fell, Greathouse, Davison,

Legion to Head Drive for Gifts

Christmas gift boxes for every one of Michigan's 12,000 hospitalized war veterans is the goal of The American Legion's "Gifts for the Yanks Who Gave" campaign, the third successive year. All Legion posts in the state, with their Auxiliary units, will cooperate in the program, to the end that no sick or disabled veteran shall be forgotten on Christmas day.

The generous aid of all citizens will be solicited to help provide the great array of gifts required. Donors may either contribute cash for the purchase of gifts by the Legion committees, or prepare their boxes individually.

Legion posts will act as receiving stations for the Christmas boxes and assemble them for delivery late in December to all hospitals in the state where veterans are patients.

Rural Caravan To Visit County Early Next Year

The Michigan State College Rural Progress Caravan will visit Oakland County on January 29, 1947. It was announced today by Karl D. Bailey, county agricultural agent. The show, sponsored by the extension service of MSC will be held in Pontiac at the Armory. It will be open for inspection from 10 a. m. to 3:30 p. m.

This year's caravan will carry a theme of planning the farm and farmstead, since many farmers are considering remodeling or building whenever materials are available. Stress will be put on the need for proper planning of construction.

The "back forty" will not be neglected in the caravan displays, as college officials realize that the production from the farm acreage is responsible for the funds available to improve the farmstead.

The first caravan, which toured Michigan from January through March early this year, showed before 92,000 people—nearly double the number anticipated at the beginning. A total of 4,000 people viewed the one-day exhibit here.

Construction of the exhibits is now underway at Michigan State College. The show will open on January 2 at Mason in Ingham County. All of the counties in the lower peninsula will have a one-day showing.

Formed by some as "The Farmers' Week on Wheels", the caravan will partially take the place of the usual Farmers' Week at the college. This event has been crowded off the schedule because heavy enrollment allows no facilities for holding meetings or housing and feeding visitors.

The county agent said more details concerning the caravan would be announced later.

The lesson on "Christmas Ideas" will be given by Mrs. William Edgar and Mrs. Ralph Thayer. Those attending are asked to bring a wire coat hanger, evergreen branches, green cord or light weight wire, pins, shears and paper to cut patterns from.

All women in the community who are interested in Home Extension work are cordially invited to attend.

MRS. HOWARD JOHNSON OPENS HER HOME TO ROYAL NEIGHBORS

On Wednesday afternoon the Clarkston Royal Neighbors met at the home of Mrs. Howard Johnson. A pot-luck luncheon was served about one o'clock. There were eighteen present.

A short business meeting was held after the luncheon. Plans were made for a chicken dinner in January.

The next regular meeting will be held on Wednesday, Dec. 11th at the home of Mrs. Howard Sage with a pot-luck luncheon at noon.

DECEMBER WEDDING ANNOUNCED

The marriage of Miss Hazel Lee Klump, daughter of Mrs. Ada Klump of Pontiac, formerly of Clarkston, and the late Mr. Klump to Royal S. McGill, son of Mr. and Mrs. Hartley McGill of Clarkston will take place at the Klump home on December 6.

Subject to Decay

The clothes I have might last a year
If I should give them proper care,
Then they must be replaced I fear
For clothes succumb to daily wear.

In places will keep a day or two
In frills cool upon a shelf,
Then they give way to something new
In line with things to feed myself.

My car deteriorates with age
And I can tell when going fast,
It soon will pass the useful stage
Although I try, it cannot last.

My home is subject to decay
It can't long stand the wind and rain,
It gets less valuable each day,
And sags beneath the weather's strain.

The only things improved by time
That elements won't tear apart,
Are broadened knowledge of the mind
And mellowness of soul and heart.

Waterford P.T.A. CARNIVAL FRIDAY, NOV. 22
Final plans for the Waterford P.T.A. carnival Friday, November 22, are being whipped into shape and if it isn't the biggest and most popular affair the community has ever had it won't be the fault of the committees responsible. Twenty-six booths are already a certainty, and more may be added. One new feature is a Jitney Dance with Don Kratt and his 7-piece band furnishing the music. Robert MacDonald, a Pontiac veteran and a popular entertainer at camp-shows during the war, will be certain to attract crowds to the magician act. The Junior class, under the direction of Mrs. Helen Sanford and Miss Rosamond Haebler, are working hard on a show in which clever impersonations, fast patter, and musical

skits will predominate. The old nickelodeon is also back with five-cent movies for the children. Mrs. F. L. Finkle promises no inflationary prices on the plate supper of baked beans, scalloped potatoes, hot dogs, salad, and rolls, which will be served in the basement from five o'clock on. Two rooms of bingo, two fish ponds, a toy grab-bag, a "five-and-dime" booth, six tables of gifts and related items, seven food and soft drink bars, fortune telling, cake walk and pie promenade complete the features planned by the program committee. This committee consists of Mrs. K. B. Valentine, chairman, Don Weaver, Tom Corbin, Mrs. D. W. Kenifick, Mrs. Wm. Shunck, and Miss Beatrice Chircosta, faculty representative. Mr. Arthur Johnson, principal, has worked right along with the committee, as have all the teachers, and a good share of the credit will be due to them. Two room mothers from each grade are also giving much of their time helping the teachers with decorations for the booths as well as collecting items to be sold. The best decorated booths will receive prizes. Judges include Mrs. William Stamp, editor of The Clarkston News; Henry Reibling, president of the Drayton Plains Men's Club; and Harry Hurrup, president of the Community Activities, Inc. Newspaper publicity is in charge of Mrs. Joseph Helman; posters with Mrs. William Shunck in charge, are being made by the upper grade art class. Mrs. Alfred Beebe is in charge of tickets. No

general admission is to be charged, but strips of five-cent tickets to be used in the various concessions will be on sale at all three entrances. Numbers, for door prizes, will be issued with each dollar's worth of tickets. Mr. and Mrs. James Lynch entertained three friends from Chicago, four from Allegan, and four from Detroit over the weekend. The men of the group were Marine buddies of Mr. Lynch's. Twenty-one members of the Luther League of Christ Lutheran Church met at the home of Ronald Grover Sunday evening. "The Gratitude of St. Paul" was the theme for the Thanksgiving program. During the business meeting, which was conducted by Martin Wager Jr., the group voted to purchase a hymn board for the church. As the meeting was breaking up the group was surprised to have five members of the Flint League drop in. Nearly 20 from the Waterford League will attend the league convention in Bay City this weekend. Mr. and Mrs. Ernest Stevens are in northern Michigan. Mr. Stevens will be hunting at White Fish Point while Mrs. Stevens is visiting relatives at Manistee. The P. L. McLaughlins will also be up north as will William and August Jacober. Many from this vicinity are expected to be among those who will be bringing home with them a buck. Vivian Wormnest has returned to Cleveland after a twenty day leave here and with relatives at

Grand Rapids. Mrs. Harry Wormnest also spent some time in Grand Rapids with her daughter. Don't forget that there are three church services in our community on Sunday. Catholic mass at the Community Activities Building at 8:15; Lutheran Sunday school at 9:45 and church services at 11:00 at the Community Activities Building; and Sunday school at 10:00 and church services at 11:15 at the Community Church. The public is invited to any of these services. Twenty-four people attended the monthly Bible class meeting at the home of Mr. and Mrs. George Slayton in Clarkston Tuesday evening. Mrs. Henry Mehlberg conducted the business meeting in the absence of Mrs. Ernest Stevens and Mrs. William Granger. Mr. Mehlberg gave the second of a series of lessons from the book of Ephesians. The class will help with the Sunday school Christmas treat. The next meeting will be a joint affair with the Ladies' Auxiliary at 8:30 on December 10. A verse of scripture will be repeated by those present and is to contain the word "Faith". Jack McCaffrey, H. A. 1/c, is now home on terminal leave after a year and a half of navy service.

dinner to about 250 members of the Michigan Dairy Association Monday. The committee was a bit weary on Tuesday. Couples are invited to play pinochle Monday evening at 8:00. Six and eight tables are usually occupied. A Senior Girl Scout troop now meets here on Thursday afternoon after school hours with Mrs. Kenneth Valentine as leader. This community is very fortunate in having adults interested in both the Boy Scouts and the Girl Scouts. Both groups are very active. Don't forget the firemen's benefit party on Tuesday. This group helps the community a great deal.

They have some equipment which they would like to add to the department. They not only bought the inhalator last summer but they also furnish the oxygen from the proceeds of these benefit dances. Come on Saturday evening and enjoy an evening of modern and old time dancing between 9:00 and 1:00.

 BEFORE YOU DIAL YOUR TELEPHONE**

Not that it's against the law to dial before you hear it, but if you do you'll either get a wrong number or no number at all.

That delay means that all the central office dial equipment is momentarily tied up. So please wait until you hear the hum—your signal to go ahead and dial.

Today, there are more telephones and more calls than ever. Occasionally, when you pick up the receiver, there may be a slight delay before you hear the hum of the dial tone.

The biggest white ash tree in Michigan has been located six miles northwest of Buchanan, Berrien County, by the conservation department's farm forester Louis Miller, of Cassopolis. **SIXTY YEARS
 OF LIGHT..**

Just sixty years ago this week, electric lights winked on for a handful of Detroiters—eighty-nine, to be exact. Amid applause and excitement, four little generators in the Edison power plant at Washington Blvd. and State St. (which now houses Detroit Edison's downtown office) had begun to hum.

As overworked housewives cleaned the soot from kerosene lamp chimneys, they thought enviously of the new lamps. Off and on, they had been thinking of them ever since Thomas Edison invented the incandescent lamp seven years before. But, though some of these women might have foreseen a day when they could flood their homes with sunlight at the flip of a switch, they couldn't have dreamed of a time when lamps would purify the air they breathed or sterilize the food they cooked. And they would have been incredulous had they been told that electricity soon would be accomplishing a score of household chores.

Similarly, the husbands of these women, reading by flickering lamps about John L. Sullivan's latest battle, might have looked forward to a day of better lighting. It isn't likely, though, that many of them foresaw the growth of southeastern Michigan into a great industrial giant. How could they visualize vast factories lighted day and night by hundreds of thousands of fluorescent lamps?

Yes, it was an historic event for Michigan. But the Edison Illuminating Company did not consider itself a public benefactor—bringing Edison's priceless gift of light to a darkened city. Far from it. It thought of itself as just another small business—it had little realization of its destiny.

The first bills were high. Many of those eighty-nine customers used their current recklessly, demonstrating their lamps to friends and playing with them as though they were toys. It was November, when the nights are long and the days are dark. And the rate was more than six times as much as you pay today.

As people saw the advantages that electricity had for them, they sought electric service. The business grew. With its growth, service improved and rates began to go down. They are still going down.

Today, more than 850,000 customers are served with light and power by Detroit Edison. Quite a contrast to the eighty-nine of sixty years ago.

**International Show
Opens This Month**

After a war-time lapse of five years, the country's largest agricultural show, the International Live Stock Exposition and Horse Show, will be held in Chicago November 30 to December 7.

It will take place at the Chicago Stock Yards in the International Amphitheatre, which for the past four years has been occupied by the army and used for military purposes.

Those in charge of the Exposition report that the early entry is the heaviest in the 46 year history of this event. They predict that by the closing of entries for the livestock classes on November 1 more than 12,000 head of cattle, horses, sheep, and swine will have been registered for the "Victory" show.

They will represent 29 breeds, comprising four breeds of beef cattle, 11 of sheep, nine of swine, and five of draft horses. There will also be several hundreds of the best pleasure horses and ponies of the United States and Canada, competing in harness and under saddle, in the International Horse Shows. Horse shows are scheduled for every evening and on five afternoons during the eight day run of the Exposition.

One of the big features of the Exposition will be the International Junior Live Stock Feeding Contest in which farm boys and girls will exhibit upward of 1,500 steers, lambs, and hogs of their own raising. This event, limited to exhibitors between 10 and 21 years old, will be held on the opening day, Saturday, November 30.

The country's champion sheep shearers—both juniors and adult—will compete for national titles in a shearing competition. The adult contest is open to all competitors, the junior to farm boys who have qualified for participation by winning statewide contests earlier in the year.

At the last full International Live Stock Exposition, which closed at midnight, December 6, a few hours before the attack on Pearl Harbor—every state in the Union and five provinces of Canada were represented by exhibits.

Included on the program of the Exposition is the International Grain and Hay Show—world's largest competitive farm crop competition. According to the management, entries for this department were accepted until November 10.

**Deer Hunters
Will Spend 7 Million**

Deer hunters may smile at so conservative an estimate of a season's expenses as \$25. But the conservation department points out that even at this minimum average rate, this year's anticipated 3,000,000 hunters will spend a collective \$75,000,000 for goods and services in pursuit of their sport.

A season's 270,000 hunters are expected to have spent in excess of six million dollars. At the current license fee rate of 5, less than 10 per cent of the hunter's \$25 is paid toward "cement and protection of the deer herd."

"Last Roundup" Before Thanksgiving

An abundant turkey crop for 1946 promises that the nation will observe Thanksgiving in the established tradition. But not every family will dine on a gobble chosen "on the hoof." Pretty Marys Pascoe, of Detroit, Mich., made sure of her selection by driving her new Chevrolet out to Shady Valley Farms, one of the largest turkey farms in the country, where Orville M. Felmeier assisted in the selection.

AUXILIARY MEETS

Mrs. Eugenia Rizzolo of Diveron, Ill., is visiting in Windiate Park with her son and daughter-

in-law, Mr. and Mrs. Louis Rizzolo, and their son Louis Jr. for two weeks.

The officers of the Ladies Auxiliary of the Waterford Township American Legion Post 431 will be installed and initiated in the

East Hall of the Community Activities Building on November 25 by the drill team of the Oakland County Salon 224 of the "Eight and Forty" assisted by Mrs. Roy May, president of the 17th district Auxiliary, and Mrs. Lee Hill Jr., past president of the 17th district. The public is invited. Refreshments will be served.

Mrs. E. D. Spooner and Mrs. Henry Mehlberg attended a "get-together" of the old Lucy Webb Hayes Circle of the Central Methodist Church at the home of Mrs. T. G. Mapley in Pontiac last Friday afternoon. Twenty-six ladies were present.

Mrs. Howard Burt spent last Thursday at the home of Mrs. Henry Mehlberg and enjoyed attending the Auxiliary meeting at the Community Church.

Mr. and Mrs. Irving Brown announce the birth of an eight pound four and three quarter ounce son, Richard William, at Pontiac General Hospital last Wednesday morning, November 6. Mrs. Brown is the former Evelyn Chase.

Mrs. Isaac Shook has religious cards and wrappings for sale for the Ladies' Auxiliary of the Community Church.

William Koethaus returned home from Bedford, Pa., where he has been working for the past two months.

Twelve girls have signed up as a Girl Scout troop to meet at the home of Mrs. D. W. Kenieck in Windiate Park each Thursday afternoon after school. Mrs. Percy Wood is the assistant leader.

A few from Waterford attended the roast beef dinner put on in the Geringville Community House last Sunday by the Moms and Country Club and report having enjoyed it a great deal. The club is about a year old and is really doing a lot of good for the community.

Culling Team Helps Oakland Farmers

A team of 4-H club members trained in "poultry culling" work have been doing a good service to farmers in Oakland County this summer.

Last spring these boys and girls attended a poultry culling class conducted by Mr. Otis E. Shear, poultry specialist from Michigan State College and learned how to take non-producing birds out of farm flocks.

The culling is done by members of the 4-H club team at a cost of 2 cents per bird to the farmer. The farmer saves, many times, the cost by reducing his food expenses.

Arrangements for securing the services of the poultry cullers can be made through the County Extension Office, 15 1/2 W. Huron St., Pontiac, or phone 4-3941.

The poultry culling team for Oakland County is comprised of: Ronald Jackson, 1931 Crooks Rd., Route 6, Pontiac; Bernard Hale, Route 4, Pontiac; Neil Nutter, 2640 Crooks Rd., Route 6, Pontiac; David Strassburg, 3371 Baldwin Rd., Route 4, Pontiac; Jack Heslip, Route 2, Northville; Shirley Rhodes, Route 3, Pontiac; Karl Rhoades, Route 3, Pontiac.

Turkey Producers Prepare for Holiday

Michigan turkey producers are busy preparing for the Thanksgiving market a large number of quality turkeys. Although the total production of turkeys in Michigan is approximately 900,000 birds, that's only about half of the annual Michigan turkey consumption.

Otis E. Shear, extension turkey specialist at Michigan State College, says Michigan producers have found a reasonably good market this year. While he does not predict a turkey shortage for the holiday season he does advise buyers who desire small turkeys to place their orders early.

At the holiday season there's a big demand for the small turkeys—dressing from 8 to 15 pounds. Most of Michigan's production of turkeys is of the Bronze breed, which usually weigh considerably more.

Many Michigan turkey growers, near to large markets, have installed poultry picking machines and are dressing and marketing their own birds instead of selling through poultry firms, Shear said. Because of the dry year, turkey flocks were more free from disease and other problems than in other years, Shear said.

The nation over, there are probably plenty of turkeys for all. But if you want one of a particular size, the poultry specialist thinks you had better place your order

early and not wait until the day before you want to prepare it for the roaster.

CARD OF THANKS

Words fail to express my appreciation to my friends for the many acts of kindness and thoughtful deeds during my illness at home and in the hospital; also for the cards, plants and flowers. I especially wish to thank the W.S.C.S. ladies and the Reverend Walter C. B. Saxman, the O.E.S. Baptist Ladies' Auxiliary and the Service Mothers' Club.

—Mrs. J. P. Hubbard

CARD OF THANKS

My heartfelt thanks to all of my friends and neighbors who remembered me with gifts, flowers and cards while I was in the hospital and while recuperating at my home. To know that others are thinking of you brightens what would otherwise be long, dreary days.

WAA to Donate Thousands of Books

Boy Scout troops and school lunch rooms will receive a donation of approximately 3,700 books which War Assets Administration has determined have no commercial value.

Scouts will get 2,500 copies of the "Bluejackets Manual", a navy

book containing information on how to tie knots, hoist a lifeboat, elements of navigation and piloting, communications and signals.

Approximately 1,200 book books, formerly used by Naval air technical training centers, will be turned over to the department of agriculture for distribution to schools having hot lunch programs.

Small Fruit Business Pays Dividends

Have you ever had the idea you wanted to try to get into small fruit production? Perhaps you had such an idea and later found that it was not so easy or profitable as it seemed on the outside.

Karl D. Bailey, county agricultural agent, says any person thinking about going into the business, or already working at small fruit farming, should have a new bulletin published by the Michigan State College Agricultural Experiment Station.

The bulletin—Circular Bulletin 203, "Small Fruit Costs in Michigan", gives details of the average costs of establishing small fruit plantings. Prepared jointly by the sections of horticulture and farm management of the experiment station, the publication breaks down the costs for each of several fruits.

Strawberry, raspberry and blueberry costs as well as yields and returns are all shown.

Data compiled for the bulletin shows that good care and careful management paid the growers high returns for extra labor.
