Dorcas Circle Has Fine Attendance

The Dorcas Circle of the Methodist Church met at the home of Mrs. Floyd Hammond on Holcomb St., on Wednesday afternoon. Twenty-three persons attended the luncheon served by the committee at 12:30. W. H. Stamps Return From Southern Trip

Last Thursday night the publisher and his wife arrived at their home on S. Main Street after a four weeks' trip to the sunny south. They spent two days in historic, old New Orleans, America's most interesting city and then continued on their way around the gulf stopping in Gulfport, Pensacola and Sarasota. They inquired for the trailer camp where the Fred Beckmans are vacationing but without results. Unfortunately the address of the trailer camp had been left behind in the hurry to leave Clarkston. From Sarasota the Stamps continued south to Naples and then crossed on the Tamiami Trail into Miami where they were guests of the J. Thompson Millers. There were not many places of interest in or about Miami that were not visited. After ten and a half pleasant days in Miami the return trip was started. In passing through Boynton Beach at about the noon hour on Sunday, Jan. 26, they stopped at the George King home and found Mr. and Mrs. King had gone out. Continuing up the east Florida coast to Melbourne they enjoyed the ocean drive and many pretty towns. At Melbourne they turned east going to the center of the state and then north to Orlando where they made an overnight stop and enjoyed more real southern hospitality. Monday was another bright, sunny day and the trip was continued. By Wednesday night Mr. and Mrs. Stamp were in Cincinnati and the rainy weather had started. From there on driving was not very good as the north and central states had just suffered a snow and sleet storm which had blocked many roads. However the trip was completed and although the temperature this week has been to zero and below the fact that the winter was shortened by a month makes it easier to take.

Clarkston's starting team included: Adams, Meggie, Greathouse, Ludwig, Davison and Dubats. Entering the game later in the evening were Longair, Smith, Leak, Devaney, Anderson and Fell. Clarkston Locals

Mr. and Mrs. Robert Jones and son have returned to their home on Robertson Court after vacationing in Florida for the past three weeks.

This week the Clarkston News received a subscription order from the Carl Mayers who are wintering in Sarasota, Fla. They say they are enjoying summer weather and the day the letter was written their neighbors had gone out for picnic dinners. They wished to be remembered to all of their friends in Clarkston.

Mr. and Mrs. Charles S. Matthews returned to their home late Saturday afternoon after enjoying a trip to Quebec City in Canada. They stayed at the Chateau Frontenac while there and were delighted with the hospitality of the French people. The only disappointment they had was that while this part of the country was suffering from storms and cold, I got the box from the Service Mothers and it was really swell. I want to thank everyone for the wonderful boxes, cards and letters that I received. I am going to try and answer all of them before too much time goes by.

I have a new address now—Headquarters and Headquarters Squadron, 22 A.D.C., A.P.O. 105, c/o P. M. San Francisco, Calif. I hope that this will be the last address that I have before I leave here. Every time we have a change of address our mail is held up for a week or two.

I hate to write such a short letter but I can't seem to think of anything else to say. —JOHNNY RONK. P.S.—The paper is coming to me every week now and I enjoy it a lot.

Friday, Jan. 17 Dear Mr. and Mrs. Stamp: Just a short note to thank you and the Service Mothers for sending me the Clarkston News. Boy, when you are as far away from home as I am it sure helps to be able to keep track of your friends. I suppose you have heard that before but believe me it's true.

They say some people have all of them. I sure was lucky for me that was stationed here in Pearl Harbor. The climate is just perfect and the work is easy and very interesting, as you would imagine in a place like this. I won't bother you with long descriptions as you probably have heard most of it. Thank you again, very much, for the paper. I really do appreciate it. Yours truly, GLENN ARTHUR.

ATTENTION, CUB SCOUTS

The Cub Scouts of Troop 49 will attend the morning service at the Methodist Church on Sunday, Feb. 9. You are requested to wear your uniform and meet at the church at 10:45.

VILLAGE CAUCUS Notice is hereby given that a Citizens Village Caucus will be held at the Village Hall, on the 17th day of February, 1947, at 8 o'clock p. m., for the purpose of placing in nomination candidates for Village Offices for the ensuing term and for the transaction of such other business as may properly come before it.

Have your bundles of waste paper ready for the pick-up on Feb. 15.

Geo. J. Sutphen Is Rotary Speaker

At Monday's meeting of the Clarkston Rotary Club Geo. J. Sutphen director of safety education of Pontiac Motor Division, gave a very inspiring talk on safety, not only in industry, but in the home and in business. Last year there were more deaths caused by accidents in the United States than was caused by the loss of our boys in World War II. For the year 1945, 96,000 people were killed by auto accident alone.

Norman R. Bartel of Waterford presented to the club the need of financial co-operation from Clarkston, for the building of a new Community Activities Club House, which was recently destroyed by fire.

Visiting Rotarian was Howard Huttenlocher of the Pontiac Club Bill Church of New Orleans was the special guest of Bill Burns. Ladies who served the dinner were: Mrs. Orlo Willoughby, Mrs. Howard Huttenlocher, Mrs. John Alexander, Mrs. Kenneth Johnson and Mrs. Margaret Harris.

Boys Far Away Appreciate Paper From Home Town

The following letters have been received from home town boys who appreciate news from home:

Dear Mr. and Mrs. Stamp: It is about time you heard from me, isn't it? I will have to make a New Year's resolution to write more often. I hope this letter finds everyone well and full of Christmas cheer. We didn't have snow for Christmas but it was quite cold. The high humidity makes it seem colder than it really is.

I got the box from the Service Mothers and it was really swell. I want to thank everyone for the wonderful boxes, cards and letters that I received. I am going to try and answer all of them before too much time goes by. I have a new address now—Headquarters and Headquarters Squadron, 22 A.D.C., A.P.O. 105, c/o P. M. San Francisco, Calif. Earl-Hahn Rites Read Wednesday

On Wednesday the marriage of Ruth Earl daughter of Mr. Walter Whitfield of Williams Lake Road and Walter Hahn of Flint took place at 4 o'clock in the afternoon at the Central Methodist Church in Pontiac. The bride was charming in a floor length pink gown with a matching bandeau on her head. She carried a white prayer book on which was a small shower bouquet of gardenias. Her only attendant was Janet Dahlgren of Detroit who was gowned in aqua and wore a corsage of gardenias. Assisting Mr. Hahn as best man was the bride's son, Wallace Earl. Following the ceremony a wedding dinner was served at the home of the bride's brother-in-law and sister Mr. and Mrs. Robert C. Beattie, in Clarkston. Centering the table was a large wedding cake which was topped with a miniature bride and groom. Mr. and Mrs. Hahn left on a month's trip to the southern states where they will visit his folks. On their return they will make their home with her father on Williams Lake Road.

In God Is My Trust

I should never envy another's success,
Or be critical of his efforts unless
I've put forth all the labor that
is required
To obtain the good things that he
has acquired.
I should never stand at an opening
gate
To block your progression by
making you wait
Till I have progressed so's first to
pass through
To fields of great knowledge just
waiting for you.
I should be willing my good
fortune to share
With those who are burdened with
sickness and care.
Before I condemn and another
abuse
I should place myself in the other
man's shoes.
If I have been wronged I should
not bear a grudge,
For none here on earth have the
power to judge
Another man's actions if right or
wrong,
So his conscience alone must
guide him along.
I should not become so enveloped
in pride
That I could not take defeat in my
stride.
I should pray to our God for things
that are just,
Let this be my motto: "In God
is my trust".

MSC Students To Get Training In Small Factory

Mechanical engineering students at Michigan State College will learn machine shop practice by operating a miniature industrial plant starting next fall, Prof. L. G. Miller, head of the department of mechanical engineering, has announced.

Under the new plan, seniors, juniors, and sophomores in the department will work together on a production line making air compressors. Professor Miller explained. This new type of instruction will replace the manual training type now in use. At present each student works on an individual project, independently of other students.

The production type plan will give the mechanical engineering student the opportunity of studying production methods and working out improvements in the processes. Sophomores will be machine operators. Juniors will be inspectors, setup men and exercise other advanced functions. Seniors will hold the top management posts in the small industrial plant. Members of all three classes will work together.

One of the main objectives in changing the plan of instruction, according to Professor Miller, is to provide a course of training that will be practical and up-to-date and at the same time adapt present college facilities to the greatly increased enrollment in the school of engineering.

WORRY AND INDIFFERENCE

★ Overanxiety, particularly about health, is a disease in itself. Physicians call it hypochondria. Those who "enjoy" ill health only make themselves and those about them miserable. Opposed to chronic worry is complete indifference, to the point of disregard of commonsense health rules and contempt for medical care. Between these two absurd extremes lies the sane middle road. Petty, transient discomforts need not cause grave concern and frequent trips to the doctor. When symptoms persist or recur with annoying frequency, it is then time to seek professional assistance. Indifference under these circumstances only invites more serious trouble. Visit our modern prescription department. We are prescription specialists.

Information for those who wish to order a PONTIAC

Because of their goodness and beauty—and their wonderful war-won reputation for dependability—the Pontiac Silver Streaks are in unusual demand. Furthermore, because of strikes and material shortages, production at the factory has not reached the levels which had confidently been expected. As a result, some of you who wish to order Pontiacs will experience delay in delivery. In order that you may know just how we are handling the cars which we receive from Pontiac, we publish below the major points of our distributing policy.

The Sooner You Order Your Pontiac the Quicker You'll Get It
It is obvious that—regardless of any priorities which may be involved—the sooner you order your Pontiac the earlier you will get it. So place your order now for future delivery.

Your Order Will Be Filled According to These Priorities
We feel duty bound to give preference in the order of delivery to certain users whose work is in the public welfare, and to veterans with certain occupational requirements. Otherwise, your order for a Pontiac will be filled on the basis of the date it is received.

We Want Your Order Whether You Have a Used Car or Not
We need used cars to take care of our regular used car customers and will give the highest appraisals possible on the basis of current values. We think you will find it to your advantage if you trade your car to us. But whether or not you have a used car, we want your order for a new Pontiac.

You Will Pay the Prices Which Are Current at Time of Delivery
We have at all times a published list of current Pontiac delivered prices in this community. That is the price you will be asked to pay when your car is ready for delivery.

Your Pontiac Will Come Equipped as You Specify on Your Order
Insofar as factory production of accessories will permit, your car will be equipped as you want it. You do not need to purchase equipment you may not want in order to get a new Pontiac.

We Will Give You Our Best Estimate as to Delivery Date
Due to conditions beyond our control, we cannot say exactly when your car will be delivered. However, when you place your order, and at any time after that, we will give you our best estimate of when you may get your car. But we say again that, regardless of the "wait"—you will get your car earlier if you place your order now.

WHEN EDISON SHOCKED THE FRENCHMEN...

When the committee of a noted French scientific society, splendid in cutaways and silk toppers, called at Menlo Park to present the society's medal, Edison was engaged in an important experiment. He was dirty, perspiring and shirtless. After much persuasion and without dressing, he took off just enough time to accept the medal and express his appreciation of the honor.

Like all truly great men, Mr. Edison hated sham and pretense. He was always as natural as an old shoe. He could laugh at himself and admit himself wrong. He was honored by the entire civilized world, yet on one occasion he refused an award because it required his wearing a sash.

"You have to have dirt on your hands to get along with the Old Man," one of his laboratory employees taunted a white-collar worker. And another summed him up with "He ain't got no side—he ain't got no front—he's just a genius."

He was a man idolized and eulogized by millions. He could walk with kings—yet he kept the common touch.

Today, as we approach the centennial of his birth, we are proud that our company, like many other independent electric companies, bears the name of this great American.

Use Frozen Cherries For February Menu

February is an excellent time to serve some of your favorite sweet or sour cherry desserts. Frozen cherries suggest many delicious reasons for carrying out the George Washington theme in your menus.

Pauline C. Paul of Michigan State college has some interesting and helpful suggestions about the use of frozen cherries. According to the foods and nutrition specialist you can thaw a pint or pound size of cherries in an hour by setting the package in front of an electric fan. Or, if the package is water-tight, set it in a large pan of cold water. Use cherries as soon after thawed as possible, or they lose their juice and firmness.

Sweet cherries are delicious plain, as a topping for ice cream, or in pie. For a pie, drain juice from the cherries and thicken it with corn starch. When cooled, stir in the cherries and pour in a baked pie shell. Garnish with whipped cream or serve with ice cream. For variation, add some lemon or orange juice or grated orange rind to the mixture before putting it in the pie shell.

Your gelatin salads will be improved by the addition of frozen cherries too. Use the juice from

the package as part of the liquid in making the salad.

Sour cherries require much more sweetening than sweet ones, and you probably will prefer them cooked. Thawing takes the same time as for sweet ones but sour cherries are usually pitted and that's a time saver.

Instead of the traditional cherry pie, you may fill your pie or tart shell with ice cream or vanilla pudding, and then pour the thickened cherry mixture over the top.

New International Trucks Announced By Local Dealer

International Harvester has just announced a new line of Motor Trucks. The initial showing of these new "KB" models was in Fort Wayne, Indiana, a few days ago before a gathering of several hundred members of the press from all parts of the United States and officials and department heads of the company. Included in the exhibit were Harvester's recently introduced "Western" models.

At the same time, according to Al Poole of The Clarkston Motor Sales, local International Truck dealers, ceremonies depicting the company's 40 years of progress in the truck industry were conducted.

"International Harvester is introducing new models now for two reasons," said Mr. Poole. "First, to provide operators with improved truck performance; and second, to provide operators with better looking trucks. Even though new models are being introduced, production has not been slowed down. The old models are rolling off the line right alongside the new ones—without a single moment's assembly line stoppage. Trucks are too badly needed to stop production for a minute.

"This year," continued Poole, "has a special meaning for Inter-

Military training in the Reserve Officers training corps at Michigan State college keeps pace with the modern mechanization of warfare. This 40-ton tank arrived on campus recently to serve for the instruction of advanced students in the infantry and armored (formerly cavalry) branches. Lieutenant Colonel Gerald Peterson takes the delivery of the papers from his assistant, Major George Sapora.

national Harvester, quite aside from the fact that we are building new models. This is Harvester's fortieth anniversary year as a truck manufacturer. Yes, forty years ago Harvester began production of the then impressive schedule of one hundred International Auto Wagons, high-wheeled, low-powered vehicles designed, as we then said, "to pull the farmer out of the mud."

"Contrast between the first International and the new 40th anniversary models is marked, I assure you. But as antique-looking as the 1907 International Harvester Auto Wagon is, it was the glamor wagon of its day, and served American businessmen and farmers both profitably and well."

Throughout Harvester's new "KB" line of trucks, in addition to the new styling, are 95 features or mechanical improvements. All of these are contributions to improved performance, longer life and greater economy. International models, Harvester officials point out, are not matters of the calendar. New features and improvements are under constant study and constant test. As quickly as a new feature or improvement proves its worth, it is incorporated into current production. That's the way the new Internationals were created. New features and im-

provements were steadily incorporated into current production until the features and improvements themselves, with some new styling, created the new models.

Mr. Poole also called attention to the fact that there are 21 basic models in the International truck line—15 "KB" models and 6 "W" or "Western" models. The gross vehicle weight ratings of these 21 models range from 4,400 to 90,000 pounds.

"Notice that I said 'basic models,'" said Poole, "I use that term 'basic models' because job adaptations and conversions of the 21 models produce more than 1,000 different transport units, all of which might be called models: it may be truthfully said that in the International line today there are more than 1,000 different vehicles."

From the front, new International light-duty models display almost passenger car elegance. Extensions of the chrome radiators, grille flow out over the fenders in graceful curves. Above the grille is the well-known International truck Triple Diamond emblem in a newly-styled setting. At the top and front of the hood is a striking ornament. At the sides of the hood the name "International" appears newly designed in chrome, with the model number of the vehicle beneath. Styling of the heavy-duty models, while less elaborate than that of the lighter units, shows the same modern trend.

CROP IMPROVEMENT GROUP MEETS

The Michigan Crop Improvement association will hold its annual meeting on Thursday, Feb. 6, in East Lansing. The potato growers conference will be held from 10 a. m. until noon in the Peoples Church, just off the Michigan State College campus. MSC Establishes Public Opinion Survey Service

Expanding its services to the people of the state, Michigan State college announces the establishment of a new agency to be known as the Social Research Service. Dr. Charles P. Loomis, head of the department of sociology and anthropology and director of the new service, states that its function will be to survey public opinion and study human relations.

The college thus will offer its facilities to a wide variety of both public and private agencies, including business and industrial firms, for the purposes of surveying public opinion, analyzing consumer preferences, determining locality groupings, trade center boundaries and leadership patterns.

The service already is conducting public opinion polls for such agencies as the State Department of Public Relations, the Extension Service of the college, the emergency farm labor program, and county library associations in Livingston, Ionia, Van Buren and Lenawee counties.

Several studies have been undertaken in various rural areas of the state that will be beneficial in the development of extension programs, health programs and in solving problems concerning community needs.

The research service is supported financially by the college, Agricultural Experiment Station and Extension Service. Other private and public agencies may secure its services on a fee basis. Activities of the Social Research Service will supplement the studies currently financed and carried out under the section of sociology and anthropology of the Agricultural Experiment Station.

Trout Hatcheries Are Being Stocked For Record Season

Working to keep trout lakes and streams stocked in 1947 and 1948 for the great numbers of anglers indicated by the record fishing license sales of the current year, the conservation department's fish division is supplying its hatcheries this month and next with more than three and a half million trout eggs.

The 2,000,000 brook trout eggs purchased from a commercial supply source have been split among five hatcheries: 200,000 to Watersmeet, 800,000 to Thompson, both in the upper peninsula, and 450,000 to Oden, 300,000 to Harrietta and 250,000 to Wolf Lake, in lower Michigan.

From the hatchery at Paris where the fish division produces its own trout eggs from brook stock, 100,000 eggs have been sent to Watersmeet, 100,000 to Thompson, 125,000 to Oden, and 150,000 to Wolf Lake. Another 100,000 have been retained at Paris for hatching, while 100,000 brown trout fingerling have been shipped to Harrietta, and an equal number of fingerlings furnished Grayling.

Soon after the first of the year a million rainbow trout eggs, produced at the Harrietta hatchery, will be allotted according to a schedule that provides 200,000 eggs each for Watersmeet, Thompson, Oden, and Wolf Lake hatcheries. Harrietta will retain and rear 150,000, and Grayling, which maintains no hatching facilities will receive 150,000 fingerling for rearing.

Some trout can be reared to the legal length of seven inches in a single season, but the bulk of 1947's legal-size planting from the fish now growing in hatchery ponds and rearing stations.

Farm Trials Held To Determine Best State Oat Variety

Farmers in Oakland County, according to Karl D. Bailey, county agricultural agent, have been somewhat uncertain as to the best variety of oats to plant during the past several years. Last summer a variety comparison trial was conducted on the farm of Andrew Mathews near Clyde, where it was found that "Eaton", a new oat variety recently developed by plant breeders at Michigan State college gave best results. Similar trials were conducted in other counties and in most cases Eaton was superior to every other variety tried. A summary of the Mathews trial is as follows:

Eaton, 82.6 bushels per acre; 0-9, 74.1 bushels; Marion, 77.2; Vicland, 76.3; Huron, 65.9; and Worthy, 62.3.

The Eaton variety is resistant to all forms of rust—has white grain and a test weight equal to any other Michigan variety except Huron. There was no lodging with Eaton, whereas some of the other varieties lodged badly.

GETTING THE JOB DONE IN CLARKSTON

For many months people have been waiting for telephones in this community, because we could not obtain the wire and poles we needed to link their homes with the central office.

Although poles still are scarce and shortages of copper have curtailed wire production, we're glad to report that some materials are arriving. So, construction crews are busy expanding the local telephone system. As the work moves along more families will be getting telephones.

Meanwhile, in order to give service to as many waiting applicants as possible, we've loaded our present equipment to the limit.

If you are waiting for a telephone, you can be sure your order will be filled just as soon as possible.

Detroit Edison Co. Sponsors Broadcast

Detroit Edison Company will sponsor a series of Tuesday evening broadcasts of the Detroit Symphony Orchestra which will begin February 11 under the baton of Valter Poole. The broadcasts will be from 7:30 to 8:00 p. m. over station WWJ.

"These broadcasts", according to Angus D. McLay, vice president of Detroit Edison, who made the announcement "will feature enduring music of wide popular appeal for the people of south-eastern Michigan whom we serve. We feel that it is appropriate that this series of broadcasts should start on the hundredth anniversary of Thomas Edison's birthday".

For the first time since the beginning of the war, the power plants of the Detroit Edison Company will be open for public inspection during the week of February 9, Mr. McLay announced. As part of Detroit's participation in the national observance of the Thomas A. Edison Centennial, the huge plants at Delray, Trenton Channel, Connors Creek and Marysville will be open to the public from 1 p. m. to 3 p. m. and from 5 p. m. to 8 p. m. Monday through Friday, and from 10 a. m. to 4 p. m. on Saturday. During these hours, guides will be on duty to conduct groups through the plants on explanatory tours. It is requested that children be accompanied by their parents during

these visits. As a souvenir of visits to the power plants, the Company will distribute a booklet reviewing the highlights in the life and works of Thomas Edison.

End-of-War Edict Clarified by VA

President Truman's recent proclamation ending hostilities has no effect on most of the laws administered by the Veterans Administration, according to an official ruling received by the VA office governing this territory.

Foremost among these is Public Law 346 (GI Bill).

VA's central office in Washington held that the official termination of the war, rather than the cessation of hostilities, is the determining factor in establishing the deadline for the educational, loan and readjustment allowance provisions of the GI Bill.

The same ruling applies to vocational rehabilitation under Public Law 16 for disabled veterans, VA said.

Under the GI Bill, loans may be guaranteed or insured by VA up to 10 years after the end of the war. Education or job-training may be started up to four years after the war. Readjustment allowances for discharged veterans expire two years after the end of the war.

Disabled veterans eligible for education or training under Public Law 16 face no specific deadline, but they must complete their training within nine years after the end of the war. In non service-connected death and disability cases, rights depending on war veteran status alone, such as hospitalization, domiciliary care and burial allowance, will be accorded only to those who served between December 1, 1941, and the date of the presidential proclamation, Dec. 31, 1946.

The VA ruling specified that war-time rates of compensation will continue to apply to service-connected disability and death

cases for members of the armed forces until the official termination of the war.

Boy Scout Day Sunday, Feb. 9

Sunday, Feb. 9 has been designated Boy Scout day. The Boy Scouts and Cub Scouts of Troop 49 and the Explorers of Post 49 and their leaders will attend the Methodist Church in a body. Rev. Walter C. B. Saxman is speaking on "Reverence in Life". A special musical program is planned. There will be a vocal solo by William Mansfield and the double quartet will sing "I Heard the Voice of Jesus Say", by Bohn.

EXTRA CLOTHING WILL BE ACCEPTED

Although the clothing drive for the needy in Europe closed Wednesday, Feb. 5, there is still time to get in that extra bundle. If you did not get your bundle of necessary articles to the school or the township hall this past week do not give up the idea. Take your bundle to the township hall any time before Saturday noon, Feb. 8, and it will be in time for this shipment.

Sewing Equipment Must Be Right Kind

You can save time and temper if you start your home sewing with the right kind of equipment. The right kind of needles, pins, scissors and tape measures can mean as much as your sewing machine.

Mary J. E. Woodward, county home demonstration agent, believes that your equipment should meet certain requirements.

You should have at least one good pair of scissors — and two pairs are better. One pair should be either 6 or 8 inches long and the other a small pair with sharp fine points for fine work. Save them for sewing.

... for the patience you have displayed waiting for your new Ford. Our deliveries are one-third of our pre-war rate and with the urgent need for new cars we have only been able to deliver to a small percent of our orders. However, we have been honest with the trust you have placed with us. We have not taken any black market money which was so freely offered to cheat you out of your place on our list. Neither have we demanded a trade in. We are in the new car business and we are trying hard to merit your trust.
