Nuptial Vows spoken Last Saturday Eve

Audrey Wiechert and George Edward Keyser Jr., spoke their nuptial vows on Saturday evening at 8 o'clock in the First Baptist church in Clarkston before 150 guests.

The bride is the daughter of Mr. and Mrs. Roland H. Wiechert of Dixie Highway, Clarkston, and Mr. Keyser is the son of Mr. and Mrs. George E. Keyser Sr., of Milford.

The Reverend William S. Ross of Clarkston read the double ring rites by candlelight before an altar banked with palms, baskets of carnations, baby mums and cathedral candles.

Mrs. Howard Lord played the wedding music and accompanied Pat Hoyt who sang "Because" and "Always".

Given in marriage by her father, the bride wore a gown of candlelight satin made princess style with long bodice, fitted sleeves extending into points over the hands; tiny satin covered buttons extended down the back to the waistline and the full skirt was made of fine net, extending into a long full train. The bride's fingertip veil of illusion which was finished with lace along the bottom was held in place by a crown of seed pearls. Her jewelry was a single strand of pearls, the gift of the bridegroom. The bridal bouquet was of white roses and carnations centered with an orchid, with long satin streamers to match her gown.

The bride's only attendant was her sister, Mrs. William Allen, as bridesmaid. She was gowned in pale pink taffeta and lace. The bodice was fashioned of taffeta, with cap sleeves and the skirt of shirred lace made princess style. Her gloves and picture bonnet matched her gown. She carried a shower basket of pink carnations and roses.

The best man was William J. Allen of Clarkston and groomsmen were Lyle Wiechert, brother of the bride, and Fred Olson.

Mrs. Wiechert, mother of the bride, wore a dark brown suit with aqua accessories and a corsage of pink carnations. Mrs. Keyser, mother of the bridegroom was dressed in dark blue, figured crepe, with blue and white carnations.

Following the wedding, a reception was held in the church parlors for 150 guests. The bride's table was laid with a white linen cloth, centered with the bride's cake and tall white tapers in crystal holders.

After traveling the new Mrs. Keyser wore a pink wool dress, a black dressmaker coat. Pink and black accessories completed her ensemble. She wore the orchid from her bridal bouquet.

After a wedding trip through the south they will be at home in Milford.

Out of town guests were present from Bad Axe, Sebawaing, Detroit, Ohio and Caro.

Mrs. Keyser Jr. is a graduate of Clarkston High school and is now employed at the Whizzer Motor Co., in Pontiac. Mr. Keyser Jr. was graduated from Milford High School.

Large Crowd Enjoys P. T. A. Hobby Night

A large crowd of adults and children attended the Hobby Show sponsored by the P. T. A. at the school on Wednesday night. Mrs. James Glennie and her committee had the displays nicely arranged. It was interesting to note the variation in the hobbies. There were displays of buttons, rocks, shells, dolls, moths, pennants, stamps and many others. It was a real task for the judges to decide where the prizes should go. After much deliberation they were awarded to the 6th grade, receiving a year's subscription to the magazine, "Children's Activities"; Mary Porritt, a subscription to "Seventeen" and David Lee a subscription to "Craftsman".

A short business meeting was held and an hour or so more was spent viewing the displays and visiting. The third grade mothers served refreshments from a table attractive with a hobby centerpiece arranged by Mary Lee Venter, one of Clarkston's talented young artists.

Explorer's Post

Wednesday evening of last week members of the Clarkston Explorer Post were invited to the Otto E. Ivonen residence, for dinner.

They went by Gulfport, Miss., Texas and the southern route and enjoyed good roads and fine weather. They say they are having a good time and are on the go every day for there is plenty to see. Clarkston Defeats Auburn Heights

In one of the most interesting games of the Twin County League, the Clarkston Wolves defeated Auburn Heights 33-31 last Tuesday night at Clawson.

"Doc" Thayer started Davison, Greathouse, Ludwig, McGee and Longair. Again the Wolves' outstanding teamwork was evident from the start. Auburn Heights zone defense immediately bottled up any shots close to the basket and McGee, from the side, sunk the first tally. Using a sliding defense so that at least two men were guarding Auburn Heights "wonder man", Dell, at all times, Clarkston as a team did an excellent job of stopping Heights' offensive tactics.

The first quarter closed at 7-7. Clarkston's offense became "hot" through the end of the half so that at that time Clarkston was in the lead. However Heights was ahead at several points in the game. In the first quarter Adams was put in for Longair.

Clarkston led throughout most of the second half. At the last quarter the Wolves, with an eight point lead, tried to slow down the game. Dubats in the last quarter did much to "hold" the ball, although Heights scored 8 points to Clarkston's 2 in the last four minutes, the final score was 33-31 in Clarkston's favor. Assistant Coach Bonner commented: "Great, but too close for comfort!"

The outstanding impression of the game was the Wolves' good teamwork, but the side shots of McGee, the center baskets of Davison, the excellent defensive guarding of Ludwig and Greathouse should be noted. This game gives a co-championship (with Log Cabin) to Clarkston in the League.

Clarkston to Clarkston in the league. The cheerleaders—Ida Beattie, Ruthie Davies and Shirley Burns and the Clarkston cheering section gave the team much encouragement at the game.

Clarkston will play Holly here tonight with the second team beginning at seven o'clock.

Tune in on WWJ each morning at ten to hear special Lenten messages sponsored by the Detroit Council of Churches.

Bill Sharp Says "Thankyou Folks"

Dear Mrs. Bennett:

I received the Christmas box when I was in Philadelphia at the Navy Yards. It was late due to my being transferred, but nevertheless was very welcome.

I am very sorry that I didn't write sooner and express my thanks to all those who made the boxes possible and to "Bob" Beattie for his very nice poem.

Since receiving the box I have been transferred to the Patuxent River Naval Air Station. It was built in 1942 as a secret test base. It is situated in what is known as Cedar Point, so named because of the cedar forests around here. It reminds me very much of the Northern part of Michigan. The base is at the junction of the Patuxent River and Chesapeake Bay. It is 60 miles from Washington, D. C., the nearest big liberty town. It is one of the biggest bases ever built. It covers 25 sq miles and is more than a hike to walk from one end to the other. Time for lights out so I'll close and thanks again for the swell box.

Sincerely,
Bill Sharp

The Clarkston Rotary Club has the pleasure of having two executive members of the Oakland County Crippled Children's Society as their guest speakers. William Burns, program chairman, introduced Mr. Garnet A. Swezey, President of the organization who in turn introduced Miss Hope Scott, the executive secretary. She gave a very inspiring talk about the grand job these handicapped people are doing to make themselves useful, such as weaving, leather-work, and knitting. An appeal was also made for help to come down to Pontiac, to stuff letters and campaign stamps in envelopes which are going out to approx. 65,000 people in Oakland County. Incidentally Bill Burns is well known down at headquarters as an active participant in these time-consuming jobs. Let's go down with him next time and find out about the fun we've been missing in aiding this worthy cause.

Visiting Rotarians from the Waterford - Drayton Club were: Emory Beedle and Ed Lambertson. Mr. Narrin of Ernst & Ernst in Detroit was the guest of Robert Jones.

Ladies who served the dinner were: Mrs. Wm. Dunston, Mrs. Garnet Poulton, Mrs. Roy Tonkin, Mrs. Russell Colton and Mrs. Wm. Johnston.

Thoughts For Tomorrow

Let us project upon life's screen, The thoughts we'd like to have come true. And let those thoughts be good and clean, For all the world to come and view.

If thoughts are things, then let us build The nobler things for future date, Exactly as our hearts have willed. In glory let them radiate.

Be lifetime's journey, short or far, Beset with handicaps or clear. We're always what we think we are. Within ourselves is our career.

The picture on the screen but shows Impressions passed before a light, Through space in magnitude it grows To be a grand or ugly sight.

So let us learn at early age, To think the things we'd like to be. Let us perform upon life's stage, The parts we'd like the world to see.

Waterford

About thirty members of the Waterford Township American Legion Post No. 431 and its Ladies Auxiliary met at the Old Mill Tavern Hotel Tuesday evening for the monthly joint social meeting.

This Post has received the Charles M. Giberson membership community and has some of its district for being the first post to meet its years membership quota and for having the highest percentage of new members over last year's membership. A National Citation was also received for having bettered last year's membership. Commander Louis Dorman presented G. L. Towner with a past-commander's award.

The Post has over \$80 to give to Community Activities, Inc., towards a new building. This money was raised on a Valentine dance at the Old Mill Tavern last Friday evening. Assembly

Tuesday the high school, sixth, seventh and eighth graders were delighted by an assembly program sponsored by the senior class and Miss Niblack. Mr. Al Pernell and Joy, his seeing eye dog, a Doberman pinscher, explained the work of the guiding dogs.

Mr. Pernell who is totally blind and partially deaf, first told of the training of seeing eye dogs. Joy, who comes from Rochester, Michigan, is one of the many police dogs, pinschers and Dalmatians trained yearly. Mr. Pernell said that size and intelligence, not pedigree, were the cri-

teria for selecting the dogs. They are put through rigid traffic training and as a test are made to lead a blindfolded trainer through the heavy traffic. After the dog is trained he is fitted to a blind master by a month's training at the school.

Mr. Pernell then had Joy lead him down the steps, fetch, and lead him back up the steps.

A question period concluded the program. At this time Mr. Pernell told of experiences he had had in Detroit traffic, how he finds different kind of stores down town, and different things about the Seeing Eye organization.

Mr. Pernell was introduced by Mr. Brabec who in turn was presented by Ken Hempstead, senior class president.

BIG BEAVER FADES BEFORE WOLVES

Last Friday night the Clarkston Wolves defeated Big Beaver 43-26. Playing the first game of the evening, the Wolves had little difficulty in staying in the lead throughout the game. The starting line-up was Davison, Greathouse, McGee, Ludwig, Longair. Other players in the game were Adams, DuBats, Anderson, Smith, Doyle, Devaney, Leak, and Fell. Davison's accuracy on free throws (5 and 6) brought his total points up considerably.

Quarter's scores were 12-5, 24-13, 34-18, and 43-26.

The most vital game as far as Clarkston was concerned was the Log Cabin win over Auburn Heights, which put all three teams in a tie for first place.

ECONOMIC CLASS

Mr. Stamp addressed our Clarkston economic class, Friday, February 14th, on the subject of "Publishing a Newspaper"—its qualifications and training, advantages, disadvantages and its ethical standards.

As to the general nature and description of publishing a newspaper, the publisher must publish news of interest to the readers, and bring to notice different articles for sale.

For qualifying for the work a publisher must know how to hire persons to carry out the work in a good manner. He must be a clear thinker and have the ability to start the job and finish it. Mr. Stamp summed this up in the sentence: "We are what we think we are". The newspaper brings a person in touch with nearly all of the public.

The education needed is a reasonable, good background in English and an excellent understanding of spelling.

Profit from publishing is summed up in the phrase: "You get out of a thing just what you put into it."

Some advantages of the business are that you get to know the people and the community you serve.

The disadvantages are that the paper must be out on schedule and there is little time for vacations.

Mr. Stamp also gave his opinion of what he thought was a successful person. You must like the town and the people, support the churches, pay your school taxes,

and have room in your mind for taking care of your business and not worry about the business of others.

Mr. Stamp's speech was considered very interesting and wholesome by all of the students.

M. S. C. Veterinary Dean Retires

Dean Ward Giltner, of the school of Veterinary Medicine at Michigan State college, has been granted a one year leave of absence, effective June 30, 1947, prior to his retirement from the faculty to take effect June 30, 1948.

Dean Giltner, who will reach retirement age on April 5, has been on the faculty at East Lansing since July, 1908. At the time of his formal retirement he will have completed 40 continuous years of service for the college.

He joined the staff as a research assistant in bacteriology. He became professor of bacteriology and hygiene in 1912. In September, 1923, Dean Giltner became the dean of the division of Veterinary science. He is also at the present time professor and head of the department of bacteriology and hygiene and director of the divi-

ion of biological science in the School of Science and Arts.

No action has been taken to appoint successors to any of the three posts held by Dean Giltner.

Maple Sap Runs Expected Soon

Warm weather in January started sap runs in some parts of Michigan. Ira Bull, extension forester at Michigan State college, says that February sap runs often yield 10 to 25 gallons of syrup.

Early tapping is one way that farmers can produce more syrup and sugar and increase their income.

Experiments with early tapping at the MSC sugar bush have shown that sap runs as well from the early taps as the later ones. A freeze after early tapping does not dry the tap holes. In fact, frequent freezes are necessary during the syrup season to produce a good run of sap.

The U. S. Weather Bureau will forecast sap weather over Michi-

gan State college station, WKAR, 870 kilocycles, on every news cast during the day. These reports can be heard at 11:30 a.m., 1:55 p.m., 2:55 p.m.; 4:55 p.m.; and 5:45 p.m. News Ads bring results.

Rural Telephones Coming Through!

Our big 5-year \$13,500,000 rural expansion and improvement program is moving right along. Last year we added nearly 10,000 miles of wire and provided telephone service for 24,000 more customers in rural areas.

And while extending service to new rural users, we made improvements for many present customers. For example, we reduced the number of parties per line on nearly 3,000 lines.

In addition, in 1946 we liberalized our rural construction plan allowing an average of one-half mile of free line-construction for each new rural customer.

At the present time some 11,000 rural applicants in Michigan Bell territory are still waiting for service. And we're keeping right at the job until every last one of them has a telephone, and rural service is better than ever.

ers' Affairs operates a program of emergency hospitalization for World War II veterans. Full details are available at all Veterans' Counseling centers.
 Medical care for non-service connected disabilities in private hospitals was provided for women veterans by an Executive Order issued in 1933. At that time, very few World War I women veterans were eligible for VA medical care, and it was considered more economical to authorize private treatment and hospitalization than to construct additional facilities in VA hospitals.
 There were 1,339 women VA patients in Va or other hospitals under contract to VA on November 30, 1946. Of these, 890 were veterans of World War II and 449 veterans of World War I. VA also stated that 14,989 women veterans are now receiving pensions or compensation payments. Of this number, 13,533 are service-connected cases and the remaining 1,456 are non-service connected.

8 times. Seven of the sprayings included DDT.
 D. L. Clananhan, farm crops specialist for the Upper Peninsula, says that higher yields per acre result in a lower cost per bushel. Growers have been encouraged to enter the contest to show what high yields can be obtained if good methods of cultivation are followed.
 In 1945, they were only 95 members of the 300 bushel club among tablestock potato growers. The high yield was 477 bushels. The 1946 contest had 207 with 300 bushel averages and a high yield of 643 bushels by the Vitton Brothers. The 1946 average for all potato growers in Michigan was 123 bushels per acre.

a single term enrollment of 13,280, established last fall.
 Of the total enrollment, 5,605 students are living in college-operated housing, Starr Keesler, college housing director, reports. This includes 4,106 men and 1,499 women. All existing college housing is being used to capacity during the winter term.
 It is hoped that other construction now in progress will be completed to accommodate more students by the opening of spring term late in March. Some of the new dormitories were to be ready in February. Snyder hall, new men's dormitory, probably will be occupied first. Phillips hall, also for men, is expected to be ready soon thereafter. The two together will house 1,320 men.
 First women's dormitory to be ready will be Landon hall, which will house 450 women students. It is not expected that this building will be ready before spring term opens. Yakeley and Gilchrist halls, also for women, probably will not be ready for use before fall.
 Preliminary work for the construction of three major additions to the Union Memorial build-

ing at Michigan State College has started. Actual construction probably will get underway early in the spring.

Women Veterans To Get Medical Care

Women veterans are reminded that they are entitled to the same medical care for service disabilities as male veterans. In addition, they may be treated for non-service connected disabilities either in VA hospitals or by private physicians in other hospitals when Government facilities are not available, according to the Veterans Administration. However, VA authorization must be obtained before private physicians or private hospitals may be used.

Male veterans with non-service connected disabilities, under existing laws, cannot be treated in private hospitals or by private doctors at Federal expense. They are entitled to treatment for non-service connected disabilities in VA hospitals when beds are available, and in VA clinics under certain conditions. However, the State of Michigan, Office of Vet-

U. P. Potato Growers Highest In Contest

Winners of the 1946 tablestock potato production contest in Michigan exceeded the 1945 records by a wide margin. H. C. Moore, extension potato specialist at Michigan State college, said today that the grower that placed first in 1945 would have taken 17th place in 1946. Increased yield and more entries characterized the 1946 contest. All except one of the first 20 winners farm in the upper Peninsula.

The Vitton Brothers of Hancock, Houghton county, topped the list with a yield of 643 bushels of Sequoia potatoes per acre. They planted 32 bushels of certified seed per acre on May 20 and harvested their crop on October 5. They had previously grown hay on the land where the potatoes were planted. The crop was fertilized with 1,200 pounds of 3-12-12 fertilizer per acre and sprayed

26,466 Street Lights

IT'S EASY ENOUGH to count street lights—and if you were to count all the street lights operated and maintained by Detroit Edison, you would find that there are at least 26,466. Keeping them all clean and lighted is considerably harder.

Regular inspection and patrolling helps, but just looking at them isn't enough. About twice a year all the lamp bulbs are replaced by ladder crews. By replacing lamps before their rated life is completed, your street lights are made just that much more dependable. Glassware on the lights is replaced at least twice a year (four times in some manufacturing localities) so that it can be washed thoroughly in our warehouse.

Automatic switches, transformers and the miles of feeding circuits need regular attention, too. Edison street light patrols cruise about after dark to report burned out or damaged lamps. Trained crews stand ready to go into action as fast as emergencies are reported.

"Vigilance Always" isn't just a fine phrase in the Edison street light program. It's all part of the 'round the clock, 'round the calendar work that makes Edison street light dependable.

THE DETROIT EDISON CO.

LADDER TRUCK crewman replaces lamp in ornamental luminaire. He is standing on an automatic ladder raised from an Edison truck specially equipped for this work. At night, police and flasher lights on truck warn motorists of men at work.

State, National Conventions Set

Delegates to the 29th annual state and national American Legion conventions this year will spend two of their summer holidays in executive session. The state convention will be held July 3, 4, 5 and 6 at Detroit, while the national meeting is set for August 29, 30 and 31, and Sept. 1 (Labor Day) in New York City.

Dairy Industry Issues Report

The annual report of the Dairy shows that results in Michigan correspond very closely to those of the whole United States.

The Bureau of the Dairy Industry of the U. S. Department of Agriculture says that the records of the 400,000 DHIA cows in the nation show 8,592 pounds of milk and 346 pounds of butterfat per cow per year.

Michigan figures are equally

impressive. According to L. A. Johnson, dairyman at Michigan State College, the 20,000 DHIA cows in Michigan averaged 8,487 pounds of milk and 344 pounds of butterfat per cow per year.

Improved practices adopted by DHIA members are credited with gradually putting more cows in the higher producing classes. Twenty years ago one half of the herd association cows in the United States produced less than 275 pounds of butterfat per year. Three-fourths of the cows now produce more than that.

In Michigan, DHIA cows that produced at the rate of 200 pounds of butterfat, yielded a return of only \$78 above feed costs. High producers that gave 400 pounds of butterfat yielded a return above feed cost of \$213. This is \$5 more than the figure for 400 pound producers in the United States. Labor costs are not figured in these calculations.

Despite the reported decrease in Canada goose numbers, the flock staying for the winter at Swan Creek wildlife experiment station is as large or larger than it was a year ago. Between 3,000 and 4,000 of the big birds are on the station marsh now.

The geese moved from the river into the marsh as soon as thawing weather opened it up. After moving in from local cornfields a year ago, they stayed on until spring, through the most severe midwinter weather. In Spring, however, they all went north, none remaining to nest in this area.

Farmers Cut Loss By Treating Seeds

Treating seeds is one way Michigan farmers can cut losses from smut, blight, root rot and various other fungus diseases.

County agricultural agent Karl D. Bailey says that treated seed usually gives higher yields because less grain is lost due to disease.

New Improved Ceresan is one material to treat seed grain with this spring. It should be applied at the rate of one-half ounce per bushel for all small grains.

There are many different ways of treating the grain. Some farmers run grain through auger elev-
