Rotary Club News

The Rotary Club meeting Monday evening was held at the First Jones presided.

A. E. Butters introduced Rotarians Ed. Biddinger and Art Johnson from the Waterford-Drayton Plains Club. "Slip" Megee introduced Rotarians Phil Williams, Charles Shain, Ray Cook and Clarence Vliet from the Birmingham Club.

These four are leaving on and responded by recalling some McGee and Ralph Yost. of his earlier fishing experiences.

The main business of the evening was devoted to a discussion of the plans for the coming Labor On August 20-23 Day Costume and Pet Parade. Various committees were appointed to arrange for this affair.

and Mrs. Lloyd Sibley. Costume and Pet Parade to be

held on Labor Day ren, Adults, and their pets. All compete for the prizes which will designed to promote and develop mittee of which Harry Hoey is that is where they should send details next week.

Clarkston Locals

Callers at the W. H. Stamp home on Wednesday were Mr. and Mrs. Robert Sclater of New York City. They were enroute to Western Canada and to the Western States and Mexico, They expect to tour for one year. Mrs. Sclater is Mrs. Stamp's niece.

Waterford

G. Raymond Powell, a former teacher in the Waterford School, has returned to his home after undergoing an operation at the St. Joseph Mercy hospital. He is getting along nicely and expects to leave soon with Mrs. Powell, also a former Waterford teacher for Burbank, California, where Mrs. Powell will teach the first grade in the Burbank school.

M. N. Stickneys Travel In West

The Mallory Stickneys are enjoying a trip in the west. A note from them this week says they are at Yosemite Park. They were amazed to see the place so crowdlearned that 25,000 is a normal holiday or weekend crowd.

NUMBER 49

To quote from the letter-"Of course there are no mosquitoes nor of trees, pines and cedars, extending for miles is full of people. James Smith of Davisburg has Trailers are scattered about as but the majority have brought clothes lines, strung it about as many trees as they choose, pinned to it and moved in to these roofless rooms with cots, stoves, camp Some put up a beach umbrella inside and many have small tents. Then there are rows of tents with stoves and cabins to rent, besides hotel rooms too.

"I knew from living in the west years ago that people enjoyed the outdoors a lot, but I never saw two rangers directing traffic at a four corners about 9 last night

and M-15 on Sunday nights. "This is a winter resort tooskiing etc. It is warmer than the elevation (4000 ft.) would indicate, because the valley is like a huge oval bowl, entirely surrounded with mighty granite walls —we entered thru a tunnel".

The Stickneys do not expect to eturn to Clarkston until the fall.

Check Stored Hay For Overheating

The grim fact that Michigan armers lose an estimated \$250,000 each year from fires caused by spontaneous ignition of hay is important at this time of year, points out F. W. Roth, farm safety specialist at Michigan State college.

A few precautions can help cut the danger of hay fires. Hay should be well cured. Its moisture content should be less than 25 percent. Loose and chopped hay should be evenly distributed in

Heating of the hay takes time and the hay should be checked continually for two months after it is put in the mow. A hay prod thermometer can be made very inexpensively and will give a good check of the temperature of the hay. The outfit consists of ten feet of one-half inch electrical conduit with an oak or ash point

Penny-Wise, Pound-Foolish

You'll be a few dollars to the good without auto insurance if you never have an accident. One accident could cost you your home, your car, your savings, most of your earnings through garnishee. THE ODDS ARE 49 TO 1 IN YOUR FAVOR

* Recently, a study was made to determine the present state of health and well-being of 78 diabetics who had been placed on a diet and Insulin twenty years before. Previous to Dr. Banting's discovery of Insulin in 1922, their chance of survival for more than two or three years would have been slight.

It was found that 77 of the 78, or 98 percent, were alive and living active, useful lives.

Diabetes cannot be cured, but scientific management under the direction of a physician gives comfort and happiness to otherwise hopeless people. Do not be misled by claims for so-called diabetic cures. There is but one safe treatment, and it is thoroughly understood by your physician.

We maintain complete stocks of diabetic supplies, subject to your doctor's specifications.

DRAYTON DRUG STORE DRAYTON PLAINS

can be FATAL! 12,200 pedestrians were killed by automobiles last year—1,340 more than the year before. Two out of every three violated traffic laws or committed unsafe acts which contributed to their deaths.

And believe it or not—many of these fatal-accidents actually happened less than six feet from the curb—only a step or two from safety!

Between intersection accidents accounted for more than one-third of all pedestrian fatalities last year. These victims carelessly rushed out from behind parked cars, or simply jaywalked themselves into traffic—and death. Others even ignored the safety of lights and traffic officers at intersections to save a few seconds—and lost their lives.

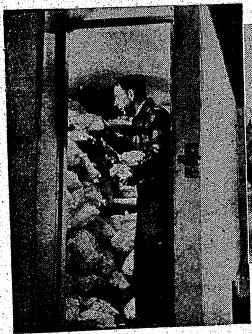

Never take safety for granted. Cross at intersections within the crosswalks. Wait for the light or the policeman's whistle. Be alert for the inconsiderate driver making a right turn, or the reckless one beating a light. On open highways, allow for the speed of approaching cars. Walk to the left, facing traffic.

Whenever you cross, look both ways. One step can be fatal!

Don Hoyt found it cheaper to store 'em than feed 'em!

Mr. Hoyt's farm in St. Clair County. It helps him adjust his farm to the ups and downs of the

A lot of Don Hoyt's poultry used to live for months eating the money right out of his pocket. If the market wasn't favorable when they were ready, he'd have to keep on feeding them till it improved.

One day the Edison Farm Service Advisor gave him the facts on farm freezers. Between them, they worked out the cost of keeping dressed poultry in electric-powered frozen food storage as against the cost of feeding live birds . . . and he quickly installed a freezer. (He has two today.)

Now he dresses and freezes his poultry when they reach the right size and sells them the year round when the price is right. His records show, he says, that "it costs a lot less to store 'em than to keep on feeding 'em!"

Mr. Hoyt and thousands of other Michigan farmers are using electricity for more and more jobs all the time. It saves time and money, cuts work, and helps increase the yield of fields and livestock. They find that electricity provides what farm production needs: dependable electric service that a farmer can count on . . . and low-price service that he can use profitably.

Toll rates presently applicable between the Pontiac, Clarkston, Lake Orion, Leonard, Oxford, Rochester and Walled Lake exchanges would be eliminated and instead, flat rate calling privileges or message-unit charges, depending upon the class of service selected by the customer, and the zone in which a message or signates would be instituted. Message-units would be service selected by the customer, and the zone in which a message or signates would be instituted. Message-units would be reported for at 5c or 4c each and one or two message-units would be applicable for each message of five minutes duration, depending the location of the called point with relation to the location of the calling point. The message-unit charges would be for simulate messages and additional message-units would be applicable for messages of longer duration. The proposed rates for the Pontiac District Exchange are shown below:

COSTS LESS IN THE LONG RUN HARDWARE

sought by the company, \$3,051,000 The committee on games for the would apply in upward local sermiscellaneous service items such as switching and equipment char-

Proposed changes in the intra state long distance rate schedule are: 1. An increase of 5 cents over present charges for distances between 10 and 112 miles. 2. Reduction in the initial calling period (before overtime charges) from the present 5 minutes to 3 minutes for distances from 11 to 30 miles shelves, Pictures, Hassocks, Bathon which charges range from 15 states and also to visit their daugh- to 25 cents a message, 3. An increase in overtime charges from the present one -quarter to onethird of the initial period rate. 4. Revision of the discount on night and Sunday rates from the present 35 per cent to 20 percent | under the day rates. 5. Increase in the minimum differential in person-to-person rates over stationto-station charges from the present

> Fauser said the company, in asking for increases in long distance Owner. Phone Lake Orion 3005. rates, realized that the Commission several years ago ordered intrastate rates at that time to conform to intrastate levels for out, however, that there is now a differential on intrastate rates nition that the long distance sertribute more of its share in meeting the overall costs of providing elephone service.

> intrastate rates," he emphasized, the proposed charges for local exchange service can be kept at Roll-away Beds, three sizes be necessary. It would seem desirable to apply such an increase in order that all classes of service share in the increased costs of doing business."

Fauser said the new rates "are no higher than necessary to provide good service to all who want it. The increases are necessary to permit the company to catch up with rising costs of doing business. In general, telephone rates of today are the same as in 1937, or even lower, although the cost of business service, from \$2.25 to almost everything used in providing telephone service has risen sharply.

"Wage costs are now four times what they were 10 years ago with a year. Taxes have more than doubled since 1937. The extent Fauser emphasized that the to which the cost of materials and company will seek to clear up supplies has advanced is indicated, rate inequities as between com- in part, by an increase in our 5junities of comparable telephone year postwar construction program development. He pointed out that from an original estimate of Commission order of 1942, while \$150,000,000 to a present outlook

"Revenues, of course, have gone up too--in fact 21/2 times the amount in 1937. But the total of all our costs has trebled in the same period. As a result, Michigan he added, have been paying rates Bell's return on investment has slipped more than a third under the level of 10 years ago.

"The return on investment today is on a dangerous downward trend. This trend must be arrested and reversed so that the company will continue to be a sound financial institution, able to attract the additional money that is needed from investors for expanding and improving the service."

Defiance Coffee Drip or Reg. lb. 39c

Jelly, according to Alice Cros- al acid and pectin to make good sette, foods specialist at Michigan jelly. Tart apples, blackberries, State college, should hold its crabapples, currants, gooseberries

> For best results use a mixture of slightly underripe and ripe fruit. The underripe will furnish pectin and acid and the ripe wil contribute color and flavor. Some fruits have enough pectin but not enough acid and others have acid but not the pectin.

Sometimes you can combine fruits to get the right proportions of pectin and acid. These combinations result in different flavor and color blendings. Try currants or gooseberries with raspberries, tart apple with plum or quince, or quince with cranberry. Or you can use commercial pectins. Lem-

on juice will increase the acid. Make small amounts of jelly at time. Use 6 quarts of berries or pounds of other fruits, Two pounds of fruit will yield about a pint of juice and with an equal amount of sugar will make about a pint and a half of jelly.

Some fruits such as currants, rabapples, wild grapes and gooseperries are so rich in pectin that you can extract the juice from them twice. To get the second batch of juice, barely cover the pulp with water and simmer 15 or 20 minutes.

CARD OF THANKS

We wish to thank the many friends and neighbors for their kindness and sympathy during our recent bereavement; also for the beautiful flowers, Reverend Ross for his comforting words and the ladies of the Baptist Auxiliary.
