 Mr. and Mrs. Jack Hall and daughter Virginia returned home on Friday from a vacation with relatives in New York.
 Mrs. Roy Blakeslee received a birth announcement this week from the Rev. and Mrs. Marvin Palmquist who are missionaries in Africa. An eight pound son, Mark Robert, arrived on June 20. The Rev. Palmquist worked three years ago organizing Christ Lutheran Church and has been in Africa for nearly two years.
 Corrine Stites underwent a serious operation at Harper hospital last Wednesday and is now slowly progressing on the road to recovery.

Mr. and Mrs. James VanPlew returned to their home in Chicago on Monday after having been the guest of their son and daughter-in-law, the Rev. and Mrs. Wright VanPlew, for over a week.
 The Rev. and Mrs. Wright VanPlew and family will leave on Saturday of this week for two weeks in northern Michigan. They will call on the Hardleys and Bunkers and plan to go to the Copper country.

Waterford Township
 The Waterford Township firemen and their wives attended the Detroit-Chicago game in Detroit on Sunday. They were very sorry to see Detroit lose the game.
 The Fact Finding Board on Fire Protection for Waterford Township will meet at the Township hall Monday evening, August 18th.
 There will be a joint installation service for the officers of the Waterford Township American Legion Post 431 and its Ladies Auxiliary on August 22 at 8:00 at Craigies Pavilion on Maceday Lake. Also on the slate for this evening will be the regular monthly social following the installation. All Legion members are urged to come out and help make this installation and social evening a big success.
 The Women's Club will meet at the home of Mrs. Almyra Driscoll at 8:00 Thursday evening. The co-hostesses will be Mrs. Dale McClelland, Mrs. Nancy Hawks, and Mrs. Iris Patton. The meeting will be conducted by Mrs. Gordon Bryce.
 Mrs. Robert Poorman and Mrs. Earl Rives will attend the state Club next Tuesday.
 Fifty walleyed pike were brought up in the first lift of the nets in Burt lake, as the mid-summer fish population sampling under conservation department direction got underway on Burt, Mullet and Black lakes. Local fishermen and resorters are turning out to watch the nets brought up and see the game fish counted, measured and returned to the water.

CONSERVATION NEWS

A badger digging furiously through the sandy soil at Mason state game farm lost a race for his life to two men with shovels, but it was only after an hour and a half of hard work and 50 feet from the starting point that they got him.
 The badger was discovered when it killed two birds in a large pen enclosing pheasant breeding stock. Game farm manager Roy Hunt credits the attendants' fast action with preventing serious damage.
 Game farm fences extend far enough into the soil to balk most predators, but an occasional badger tunnels under them.

A second season of marking legal-size planted trout by fin clipping has been approved by the conservation commission, and the annual production goal again has been set at 1,000,000 ready-to-catch fish.
 The 1948 trout will be marked by removal of the adipose or fatty fin—the little fin on the back just ahead of the tail—where 1947 plantings were marked by removal of the big dorsal fin. Fishermen's experience this summer with dorsal-clipped trout is expected to help them note the absence of the smaller fin next season.
 The marking of planted trout, conservation department fisheries men say, is to enable the man in the stream to see for certain how large a part of his catch is naturally produced wild fish, and how much of it comes from the hatcheries.

Land purchases approved by the conservation commission at its July meeting include 960 acres in Porcupine Mountains state park; 272 acres in Bundy Hill, Highland, Pontiac Lake and Proud Lake state recreation areas; 458 acres in Dansville, Flat River, Lapeer, Minden City and Gratiot-Saginaw state game areas; and 275 feet of frontage, for a fishing access site, on Spring Lake, Ottawa county.

State Leads In Growing Gladiolus
 A staff meeting of the Inspectors of the Bureau of Plant Industry Department of Agriculture, was held this week, and they were privileged to examine the experimental gladiolus plots at Michigan State college, according to Mr. C. A. Boyer, Chief of the Bureau of Plant Industry. Dr. Ray Nelson pointed out the numerous diseases which he is working with in these trial plots.
 As a result of the promulgation of the gladiolus regulation No. 611, all gladiolus corms sold by means of a certificate require a field and a storage inspection. Shipments of corms to other states or to foreign countries like-

wise require the use of a certificate.
 Part of the work of these 23 inspectors is the field inspection of the gladiolus corms, which must be accomplished on or about blossoming time. Michigan leads the states in the production of gladiolus, with an annual income of some twenty-five million dollars, and such inspection will give protection to the foremost industry.
 Grazing by livestock is probably the worst abuse to which Michigan farm woodlots are subjected, MSC foresters say. The animals do damage by breaking off branches, peeling the bark, trampling small trees and packing the ground.

Michigan turkey farms decreased from more than 13,000 in 1929 to 3,500 in 1944. The farms in 1929 averaged 18 turkeys each, but in 1944 had an average of 130 on each farm, recent livestock census figures indicate.
 Michigan State college dairymen say that unclean utensils are probably the cause of most bacteria in milk. All utensils should be rinsed immediately after milking and cleaned with hot water and a good dairy cleanser.

The feeding and care of the cow previous to calving is the first step in successful calf raising.
 Cutting a small door in a large door makes fewer heavy doors to open while doing chores, MSC farm labor specialists advise.

Of Interest To Veterans
 Mrs. T. W. Eustis, Chairman of Home Service, of the Oakland County Chapter, American Red Cross states that the local Red Cross wishes to remind all veterans of World War II that the final date for the applications for terminal leave pay is extended to September 1, 1948 for persons discharged before September 1, 1946. Application forms may be secured and information given at either Red Cross Home Service Office, 410 Pontiac State Bank Building, Pontiac or 321 W. Sixth Street, Royal Oak. As photostatic copies of discharges must accompany the application, these may be secured at the Red Cross offices free of charge.

Farm Incomes To Remain Favorable
 Continued favorable incomes for farmers are predicted by Clifford M. Hardin, agricultural economist at Michigan State college.
 In spite of inflationary tendencies such as a very strong export demand, increased employment, and general wage increases, there still are prospects for a moderate decline in business activity, he believes.
 In conclusion, Hardin pointed out that farm prices increasing relative to farm prices will result in lower but still favorable farm incomes for the remainder of 1947.

Corrine Stites is now recovering nicely from her recent serious operation at Harper Hospital.

She is expected to be home in the very near future. Her friends are all wishing her the best. A bridal miscellaneous shower was held at the home of Mrs.

Alfred Beebe last Friday evening for Jean Girst. Mrs. Claude Hoadley and Mrs. Robert Brill were co-hostesses.

Several games were enjoyed before the honoree unwrapped her many lovely gifts. Dainty refreshments were then served by the hostesses from a table covered with a lace cloth and centered with a miniature bride holding a bouquet of natural flowers. The Beebe home was very pretty with its many bouquets of garden flowers.

Jean will become the bride of William Clement at 8:30 this evening at the Waterford Community Church.

Mr. and Mrs. George Attwater and four children left Tuesday morning for a week's vacation to be spent at Niagara Falls, Pennsylvania, and Canada.

Mr. and Mrs. Alfred Beebe and son Jimmy are spending this week at West Branch with Mrs. Beebe's mother. Donna Kay Lamberton returned

home on Sunday from a two week period at Camp Sherwood near Lapeer.

Mrs. David Mephram will entertain the Birthday Club at her home next Wednesday.

The Good Will Club will gather at the summer home of Mr. and Mrs. Percy Hunt at Watkins Lake next Friday, August 22, for a planned supper at 6:30. The husbands of the members will be special guests.

Mr. and Mrs. Jame Sutton and family are away on vacation at present.

Thirteen young people left on Sunday for five days at the Pleasant Hill Lutheran Camp at Gowen. Those at camp are Martin Wager Jr., Jack McCaffrey, Donald Beedle, James Helman, Harvey Eddy, Jack Davidson, Martha Davidson, Jo Ann McCaffrey, Nancy Nelson, Kay Leslie, and Lucretia McEvers. The Rev. Philip A. Jordan also spent part of the week there. The group will return home today (Friday).

James Thomas Feathergill, baby son of Mr. and Mrs. Harold Feathergill, and Dorothy Eleanor Peterson, baby daughter of Mr. and Mrs. Howard Peterson, were baptized at the morning services of Christ Lutheran Church on Sunday. The sponsors were Mr. and Mrs. Arthur Jacobson and Mr. and Mrs. Gordon Boeneman.

Eat Fish For Breakfast

"Why confine the eating of fish for breakfast to a few weeks' summer camping?" ask the conservation department's fish division and the federal Fish and Wildlife service.

Fresh caught trout for breakfast is considered one of the highlights of a vacation trip, but few people relish the morning meal with fish recipes the rest of the year. Yet fisheries men say fish is easily and quickly prepared, and is a high-quality protein food well supplied with vitamins and minerals.

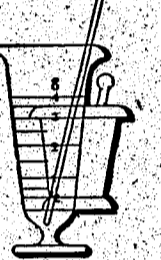

In defense of fish for breakfast to perk up the relatively standardized American morning meal, the fisheries men also point out that in Britain and other European countries appreciation of fish as a food for starting the day off is long and firmly established.

A FRIENDLY WARNING

★ About that old prescription Dr. Jones wrote for you two years ago. The bottle is on the shelf in your medicine cabinet, about one-fourth full. It would be safer for you and your family to discard it. Someone might take it by mistake, or a child may be attracted to it by the bright color and do himself harm. Many medicines deteriorate after exposure to light and air. On long standing, some compounds change their chemical structure. Yes, the safe thing to do is to throw it away. If illness again overtakes you, see your doctor. Bring his prescriptions to us for accurate compounding.

You stand to GAIN from Michigan Bell's proposed rate increase

CLARKSTON telephone users could call **PONTIAC, COMMERCE, DRAYTON PLAINS, OXFORD, LEONARD, and LAKE ORION** without paying toll charges.

When somebody raises prices, it usually means you just pay more for what you've been getting all along.

But that's not entirely the case with the rate increase Michigan Bell will propose to the Michigan Public Service Commission on August 27.

The suggested rate increase would help protect the future quality of your telephone service . . .

AND—the suggested rate increase also would provide more service to most telephone users.

Compared with the time when present rates were established many years ago, telephone service has become far more useful—and far more valuable. That's because we've added so many more telephones which you can call under the flat rate you've been paying.

Now, under the proposed rates, telephone customers also could call telephones in certain adjacent communities without paying toll charges.

This means telephone service would be "tailor made" to fit calling needs in this area. It means that telephone service would be geared more closely to the widespread social and business interests of modern living.

Community by community, our proposed local rates are related to the number of telephones each subscriber could reach, and thus the amount of service he could get, without a toll charge.

Now that increased rates are needed to meet increased costs, this is the fair way for each subscriber to help assure the future quality of everybody's service.

PONTIAC A fine car made finer The De-Luxe Convertible Coupe has recently been made more beautiful by re-styling the instrument panel in colors which harmonize with body colors; by the addition of deep-pleated, custom-type upholstery; and by the tasteful use of chrome on windshield, rear view mirror and interior garnish mouldings. A Product of General Motors

So many things in its favor!

Ask a Pontiac owner why he recommends a Pontiac—and he will likely tell you there are so many things in its favor that he finds it difficult to enumerate them all. He likes its "Silver Streak" styling—so distinctive that you can recognize a Pontiac as far as you can see it. He likes its eager, smooth, quiet performance. He likes its comfort and handling ease. He likes the many fine-car features which make it such a pride to own—and such a pleasure to drive. He likes its faithfulness—its ability to stay on the job for year after year with undiminished performance. And, of course, he will mention that he gets all this at a price within easy reach of any new car buyer. Yes, there are so many things in its favor that your next car should be a Pontiac. You can never do better than a Pontiac! THE SOONER YOU PLACE YOUR ORDER for a new Pontiac, the earlier you will get it. In the meantime, take care of your present car—you will get more for it when your new car is delivered.

Take the Man out of Manure Handling MANURE HANDLING is a great muscle builder for the farmer who has no other form of exercise. You know, farmers have plenty of tough, back-breaking chores, besides pitching litter out of the barn. Today, though, this time wasting labor can be a thing of the past, thanks to the electrically powered gutter cleaner. Some barn cleaners work on an endless metal chain which runs in the gutter, removing litter by the conveyor principle. They clean the barn while you do the chores... needing no more than push-button attention for the entire operation. Driven by a small electric motor, and designed for any barn, this mechanically-simple device takes only a fraction of the time formerly needed by the pitchfork and wheelbarrow method. The Farm Service Advisor at your nearest Edison office will be glad to give impartial advice on tested gutter cleaners. As a first step in mechanizing your barn cleaning, why not have him arrange for you to see one in operation? Talk with the owner and see for yourself how simple and inexpensive the chore of gutter cleaning can be when the man is taken out of manure handling. The Detroit Edison Co.

A very lovely bridal shower was given at the church on Thursday evening, Aug. 7 in honor of Miss Joan Frizelle. The Sunday School teachers of the downstairs classes were hostesses. Fifty guests enjoyed the evening playing appropriate games led by Mrs. Edward Krenm after which many lovely gifts were presented to the honoree from a round table with a lace cloth. A lovely lunch was served from a table laid with a lace cloth with pink and green streamers and tiny umbrellas and bows tucked on the cloth. This was centered by a beautifully decorated watering can from which hung a shower of kitchen utensils. A very lovely, linen, bridal shower was given in honor of Mrs. Gordon Sylvester (formerly Mrs. Mammie O'Boyle) on Wednesday evening, Aug. 6 at the summer home of Mrs. Elmer Reynolds at

Replant Iris in August

If you'll divide and replant your iris plants sometime in August, you'll find that next year's display of blooms is improved because the plants have more room and the number of perennial weeds in the beds is reduced.

That is the advice of Paul Krone, Michigan State college specialist in horticulture. He points out that irises should be dug and divided every four or five years.

Trises grow from a large fleshy root that lies in a horizontal position with small roots growing down and from the sides. These roots should be replanted at or near the surface of the soil in the same position that they

Sandy loams are best for irises but they will grow in almost any kind of soil. For an extra "boost" for the new plants, apply some bonemeal or superphosphate around them at the rate of three pounds per 100 square feet.
