The regular meeting of Troop No. 49 will be held on Monday evening, October 27th, in the school gym at 8 o'clock. After the meeting there will be a hot dog, doughnut and cocoa party to which all scouts and boys who want to be scouts are invited.

Girl Scout News

The Clarkston Girl Scouts will meet at the Township Hall next Wednesday afternoon, Oct. 29, at 4:15. Mrs. A. F. Heineman, Mrs. Cameron Clark and Mrs. W. S. Barrows will be the leaders. All scouts are urged to be present.

There are enough Brownies for a second group, but alas! a leader is needed. If there is anyone in this district who would like to work with these little folk they are asked to call Mrs. O'Dell or Mrs. Barrows. The Brownie schedule is interesting and pleasant for those who love children. The children are eager for a leader and are very anxious for some kind person to volunteer to work and play with them.

Vows Spoken At Methodist Church

Last Saturday afternoon at two o'clock a very pretty wedding took place at the Clarkston Methodist Church when Patricia Jean Callahan, daughter of Mr. and Mrs. Charles W. Callahan of Waterford, and Ross E. Kerton, son of Mr. and Mrs. Glenn Kerton of Clarkston, spoke their marriage vows. One hundred guests witnessed the ceremony performed by the Reverend Walter C. B. Saxman before an altar banked with palms and white chrysanthemums.

The bride, given in marriage by her father, was lovely in traditional white satin fashioned with a cathedral train. Her long veil fell from a tiara of seed pearls. She carried white chrysanthemums, carnations and gardenias. She wore a pearl necklace, a gift from the bridegroom.

Mrs. Jack Orders as matron of honor was gowned in fuchsia taffeta and carried pink carnations. The bridesmaids, Kitty Lou McLaughlin and Patricia Stites wore aqua taffeta and carried yellow chrysanthemums.

Assisting Mr. Kerton were his brother, Keith Kerton, as best man and the bride's brother, Ronald Callahan and William Howland seated the guests.

Mrs. Callahan and Mrs. Kerton wore black crepe dresses and corsages of yellow chrysanthemums. Following the ceremony a reception was held in the church parlors. The refreshment table was centered with a large, three-tiered wedding cake which rested on a mirror encircled with white chrysanthemums. This arrangement was flanked by lighted white tapers in crystal holders.

When the young couple left for a honeymoon in northern Michigan the bride was wearing a black gabardine suit and the gardenia corsage from her bridal bouquet. On their return they will make their home on Reese Road, Clarkston.

Engagement Announced

Mr. and Mrs. Marvin P. Winston of Petoskey Ave., Detroit, announce the engagement of their daughter, Laura Mai, to Arthur Edwin Clark, son of Mr. and Mrs. Lee M. Clark of Clarkston, Mich. The bride-elect was graduated from Wayne University where she was a member of Zeta Chi sorority. The wedding will take place on March 12.

Among the guests were Gerry McNieve of Davisburg, Frankie Strother, Gary Habermas, Cecil and Collin Weber, Chuckie Rockwell, Pamela Beach, Barbara Rockwell, and Gail Weston.

Color Carnival A Success

The Color Carnival held on Saturday, October 18th was a complete success. An attendance which taxed the capacity of the nineteen hundred square feet of floor space of the big play room in the barn loft, in spite of a down-pour of rain, proved the loyalty of the friends of Harmony Valley Folk Art Center. The guest book shows the attendance came from Ann Arbor, Ypsilanti, Dearborn, Flint, Detroit, and, of course, our neighboring villages and the immediate community, as well as the city of Pontiac.

To the accompaniment of the patter of rain on the barn roof, the program opened with the group singing of our own old American folk songs, some spirituals, and the rote learning of folk songs of other lands.

Following the group singing, a grand march wound up in a circle formation for the folk dancing. With participation of practically the entire group, the folk dancing, led by Mrs. Siddall, Mrs. Warren playing piano, Mrs. Fletcher, violin, there developed a demonstration that this type of rhythmic play is a fun experience which appeals to both sexes and all ages and at the same time. It is the opinion of those most interested in the Folk Art Center, that a play experience which takes in all the members of a family is not only fun on the spot, but tends to carry over into the home, making for happier family life.

One of the high lights of the program followed the folk dances. Messrs. Marshall and Fogo, magicians, delighted young and old, not only with the expert mastery of their magic, but an exhibition of rapid fire wit and good humored banter.

With John Green, violin, Joyce McKeachie, piano and Harold Marshall, bongo, the square dancing fell into full swing. Neighbor Gould from Keego Harbor, was more than a caller. With good natured patience, Mr. Gould, assisted by those who had mastered the art of square dancing, ably directed the large percentage of the group who never before tried this form of recreation. Each helped the other, and everybody happy, works in a Folk Art Center.

Sandwiches and coffee were served in the big room of Ye Hundred Year Old Farm House. A long table, artistically decorated with the autumn colors of brown and gold, blended well with the exhibit of rugs and fabrics made and in the process of being made on the looms in the Farm House craft shop.

By special request, Mr. Siddall told the group something of the purposes of Harmony Valley. Quoting "America the Beautiful," the speaker noted the vast progress Americans have made in conquering the forces of nature since the time when Katherine Lee Bates wrote this love song to America. He told how machines had since that day reduced working time from 60 to 40 hours per week, and stated the firm conviction of the friends of Harmony Valley that the new field for America to conquer is to get the good life from the good living that modern machines can normally so easily provide. Citing Dr. Parker as authority that appreciation of the Good, the True, the Beautiful is the way to the good life, Mr. Siddall pointed to the dozens of beautiful oil and water color paintings which lined the walls of the big play room in the barn loft, and asserted that Harmony Valley was well on the way in the quest of these values which are constant and eternal.

Equal in importance to paintings, he said, was the evidence of brotherhood for which Katherine Lee Bates prayed in her deathless poem. (This brotherhood which turned a dismal, rainy night into a time of jollification. This kind of attitude is also an expression of the Good, the True, the Beautiful. Mention was also made of seminars, nature study over the three thousand acres of the Pontiac Lake recreation area, and projected craft shops. In these ventures, those who come may learn, but it is now and shall be the principal aim of Harmony Valley to always be a Family Fun Spot, and contribute what it may to Katherine Lee Bates' patriot dream.

That sees beyond the years Thine Alabaster cities gleam Undimmed by human tears. The special feature for next Saturday, October 25th, will be a potluck 8 o'clock breakfast. This event is staged by the painting class. If you are interested in oil or water color painting, bring a snack and join in. If it is not convenient so early in the morning,

FROST FIGHTERS TO SAVE FARM CROPS

Possibility that upwards of 100 of the Michigan State college designed frost fighters will be manufactured by next spring was announced this week by college officials. Fruit and vegetable growers were warned, however, that they may have to wait another year before large-scale production, field testing and proving, will make it possible to place them on the market in large numbers.

In a step toward getting commercial production, Michigan State college officials have named the Detroit Agricultural - Industrial Foundation to be the agent for licensing of manufacture and distribution of the frost fighter. This foundation was set up by the Detroit Board of Commerce.

V. R. Garrier, director of the college experiment station, announced the agreement, stating that it specifically calls for the foundation to arrange for licensing the manufacture of the invention to one or more firms. Licensing is to be done "as promptly and as low a retail price as seems practicable", the agreement states. The college will continue research work to improve the efficiency and design of the frost fighter. Tests will also be conducted to develop the machine for protection of various specific types of crops. A. W. Farrell, head of the MSC agricultural engineering department is in charge of the research work.

Tests have shown the frost fighter capable of protecting crops from frost and freezing in a limited area when temperatures drop as low as eight degrees below the 32 degree freezing mark.

Farrall points out that if a sufficient number of frost fighters are available this spring they will be tested in the field in various parts of Michigan on different crops and some may be tested in other states.

ADMINISTRATION NEWS

Students are nervously awaiting their report cards which will be given to them on Wednesday and will be seen replying that extra bit of fun at the expense of that extra bit of study. Meanwhile a very interesting set of encyclopedias called "The New Human Interest Library" have arrived. There are eight volumes and these will probably provide another source for the Seniors' research themes. School noon hours have been brightened by free movies, one of which was called "Command Performance" and was shown Wednesday. Last week, full length movies were shown both to the high school and the grades. The individual pictures are here and will be distributed to the students this week.

CLARKSTON BATTERS

WATERFORD 14-0

In a game highlighted by rough play, the Clarkston Wolves downed the visiting Waterford eleven 14-0 last Friday. Clarkston struck fast, scoring 3 touchdowns in the first period. Two, however, were called back.

Clarkston received the kickoff, and after three plays resorted to punting. Then came Clarkston's first break. Greathouse's kick was fumbled by a Waterford back, and David Leak recovered. The Wolves shifted into high gear, and a few plays later Bobbie Fell took a lateral from Dickie Doyle, and raced 20 yards around his right end to score. The touchdown was nullified by a clipping penalty.

The Waterford team, spurred on by their first break, held and took over on downs. After getting nowhere through the Wolves solid forward wall, they punted and Fell carried the ball back to their 48 yard line. The rampaging Wolves then took to the air. Doyle passed to Trim on the 10 yard line, and then Fell hit Gent Greathouse, Clarkston end, in the end zone for the team's second score. This too, was called back. The officials said that Greathouse had caught the ball beyond the field of play. Chuck McGee, shifty Clarkston halfback, then skirted the end to give the Wolves their first official score. He also added the extra point, and the home team led 7-0.

The second quarter showed no change in score, but one Waterford player was ejected from the game for clipping.

To start the second half, Waterford again kicked. On one of the opening plays of the half Gene Greathouse snagged a forward pass from Doyle to raise the score 6 points. Bob Trim plunged for the extra point.

After a series of punts Waterford intercepted a Clarkston pass and started on their way towards a touchdown. They made their first, first down of the game on the ground and then passed 20 yards only to be stopped on the 1 foot line. They tried to push a man over the goal line, but were penalized 5 yards for their efforts.

This gave Clarkston a break, and on the next play Bobbie Fell recovered a fumble. Shortly after this the final seconds elapsed and the game ended 14-0 in favor of C. H. S.

The Waterford game left Clarkston with a record of 2 wins, 2 losses and 1 tie for the season. This week they travel to Auburn Heights.

Three very happy but slightly jittery are Fran Dailey, Pat A. Watson and Barbara Rioux — the reason? They have been chosen to take the exam for a four-year scholarship given by Pepsi Cola. Loads of luck, kids!

MISS MCKEACHIE

Clarkston school seems to be a drawing card for beginning teachers. Besides Miss Wood, teacher of the first grade, we also have Miss Joyce McKeachie starting her first teaching job this year.

Miss McKeachie must have faith in good old Clarkston as she was

born here and is right back here starting her career.

Although Miss McKeachie was born here she afterwards lived at White Lake. From there she travelled eleven miles every day to attend high school in Holly. In high school Miss McKeachie played the clarinet for four years. When she graduated, that was the end of it, but she has retained a great interest in music. She plays the piano for her own amusement.

At Michigan State Normal, Miss McKeachie majored in Senior High history and received her bachelor of arts degree.

Miss McKeachie must be a versatile woman because at Clarkston School she teaches seventh grade geography, eighth grade history, and ninth and tenth grade English.

Like Miss Bennet, Miss McKeachie was impressed with the parents' friendliness and interest in their children's progress. She also thinks there is good school spirit at Clarkston (Mr. Bonner, take note).

...our costs have gone up, too!

SOME PEOPLE get along under higher prices by using less or doing without. Some have more income to help meet higher costs. All can adjust outgo to income, to a large extent.

But a railroad cannot skip or do without and still provide good, efficient and safe service — adequate to the needs and desires of the public.

The chart at left shows why the Eastern Railroads have had to ask for an increase in freight rates. The simple reason is that the increases allowed since 1939 are nowhere near enough to meet today's costs. The revenue

the railroads get for hauling the average ton of freight is only 15% more, whereas the cost of operating the railroads has increased more than 63% in that period.

Only recently, for instance, an arbitration board added another \$468,000,000 to our annual bill for wages and wage taxes, of which \$187,000,000 is borne by the Eastern Railroads. This brings the increase in these items alone to more than 75% since 1939.

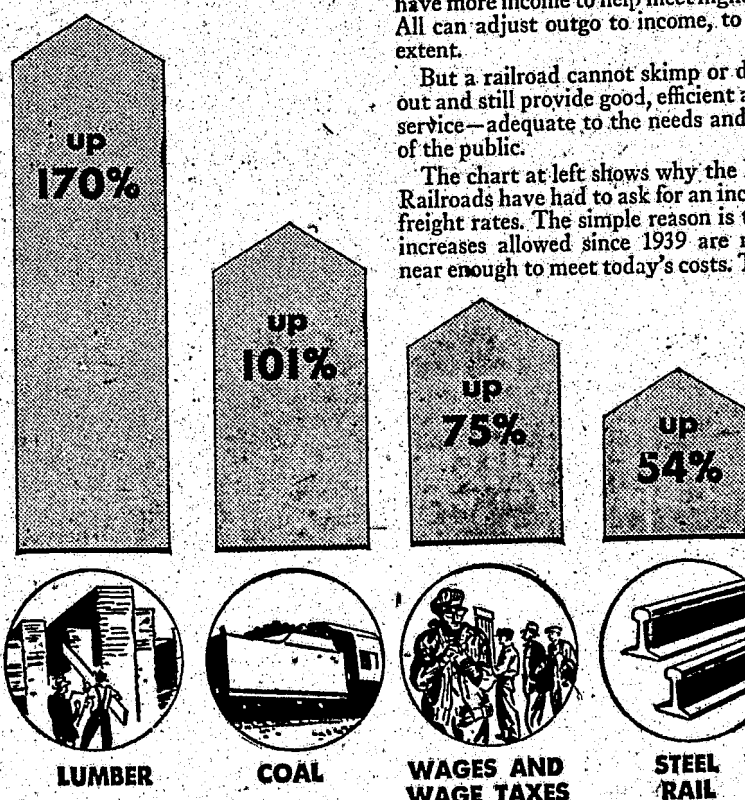

All the railroads ask is what the law says they should be allowed to have. That means just and reasonable rates. The law says there is need in the public interest for adequate and efficient railway transportation service at the lowest cost consistent with furnishing such service.

In other words, all the railroads ask is sufficient revenue to enable them, under honest, economical and efficient management, to provide the kind of service people want.

HEALTH CARE PLANNED FOR RURAL COMMUNITIES

A plan for establishment of scholarships for medical students who will practice in rural communities is in the making as a result of the first annual Michigan Rural Health conference held on the Michigan State College campus. A resolution was adopted unanimously that a committee "be set up to investigate, plan, and establish a scholarship fund, either by contribution or legislation, for students who will practice in rural areas."

Another important action taken was the fostering of community health councils to coordinate work of various health agencies and educate the people to the advantages of medical and hospital service plans.

It also was agreed that "4-H clubs and other local community activity groups" should be given all possible stimulation toward "recruitment of nursing students and that scholarships be established by these groups for nursing students."

Recommended for sparsely settled communities which cannot support full scale hospitals were "local health centers." These centers would have capacities for 4

or 5 beds and facilities for a nurse and would be attended by a visiting physician. The center would care for more routine hospitalization cases, including maternity. Difficult cases would be transferred to the nearest regular hospital.

TRACTOR FIELD DAY AT ORION NEXT FRIDAY

The East Orion Farm Bureau has completed plans for its second annual tractor field day which will be held at the Keith Middleton Farm, 2½ miles east of Lake Orion on Stony Creek Road, Friday, October 31st.

An all day program has been planned featuring best performance of plowing, backing up 4 wheeled wagons and tractor hauling. A dynamometer from Michigan State college will be used for the hauling contest. Farmers are welcome to take part in any contest. The local merchants have donated many valuable prizes which will be awarded to contest winners.

Luncheon will be served by the Farm Bureau Women with Mrs. Theresa Middleton, chairman of the committee including Mrs. Vivian Braid, Mrs. Ray Alt, Mrs.

Ray Berrean and Mrs. Wallace Chamberlain. Activities committee, Stuart Braid, chairman Gordon Tyson, Phillip Spezia and Clarence Porritt; Safety committee, Robert Porritt and Fred Tyson; Publicity committee, Keith Middleton, Ila Braid, and Vern Whims; Committee on awards, Earl Braid, chairman, Frank Middleton, Russell Porritt and Edward Wilson.

Keith Middleton is general chairman of the affair and is also chairman of the Lake Orion Farm Bureau.

The Thirty-First Annual Meeting of the Michigan Milk Producers' Association will be held at the Fairchild Theatre, Michigan State College, East Lansing, on November 6th at 10:30 A. M. Luncheon at the People's Church.

It pays to share the line

There still aren't enough telephone facilities to go around. Until there are, party lines will help give service to more people. That service can be satisfactory to all if everyone shares the line considerably. Good party-line neighbors keep calls short... stay off the line when others are using it... always carefully replace the receiver when they're through talking. Michigan Bell Telephone Company.

Basket Petit Point

20 Piece Starter Set \$3.95

OPEN STOCK AVAILABLE

Another quaint old fashioned Petit Point design that's stealing America's heart away. A delicate little brown wicker basket of flowers in shades of old rose, yellow, orange and lavender. Just as fresh in color and dainty in detail as the work in Grandma's sewing basket. A happy creation by Salem has deservedly won and continued to hold great popularity. A 22-karat band encircles the verge of each piece.

THE PACE OF PROGRESS

★ With almost methodical regularity we hear or read of startling new discoveries in medicine. The pace of progress in research has been greatly accelerated. Hundreds of trained people are devoting their lives to organized research where there was but one a few years ago. As soon as the value of a new drug has been established, it is made available to the medical profession. A chronic condition from which you have been suffering may yield to a new treatment today. It is wiser than ever before to see your physician regularly once or twice a year. We take pride in maintaining complete stocks of the newer medicinal agents, ready to serve you on the order of your physician.

From where I sit... by Joe Marsh

"Take Pen in Hand"

This column has been running for so long that its readers, in towns like ours all over the country, are beginning to "take pen in hand" and write us what they think. Some of them take me over the coals for what I say—like the column I ran on planting alfalfa. Others write, "I liked your column yesterday, but..." All of them have different points of view.

From where I sit, that's the way it should be. Everybody's entitled to an opinion—and it's those very differences, and friendly criticism,

that make for tolerance and better understanding—whether it's ideas on planting alfalfa or choosing between beer and cider.

The more folks air their differences right out in public, with a neighborly respect for the other person's liberties and point of view, the closer we are to the American principle of individual freedom—whether it's in a choice of crops or beverages.

Are Your Hens Laying Down on the Job?

Now's the time to step up production and take advantage of seasonal prices

Egg prices reach their yearly peak in late fall and early winter. You'll profit from this upswing of prices when you use hen-house lighting to lengthen the working day of early-hatched pullets.

It's easy to have efficient hen-house lighting. Provide about 14 hours of light daily—enough in the morning

to get the birds off the roosts and keep them off—at least 15 minutes of dim light at night so that the birds can roost before "lights out." Whether you prefer manual switches or automatic clock controls doesn't matter... the important thing is to look to your lighting—to make sure your poultry is giving top production.

Your Edison Man Recommends:

40-watt lamps, fitted with shades and hung six feet from the floor, are usually best. Use one watt per five square feet of floor space. A hen-house 20 x 40 feet, for instance, should have four 40-watt bulbs. For further assistance, see your Edison Farm Service Advisor.
