CLARKSTON, MICHIGAN, FRIDAY, OCTOBER 31, 1947

### Hallowe'en Party Tonight At School

A big time is planned for the Parade will start at 7 o'clock, after which there will be the traditional bon fire, group singing followed by the judging. -

A short program will be held Drayton club. in the auditorium at the Clarkston school consisting among other things of magic and sleight-ofhand tricks.

This is the Hallowe'en party that the whole community and all ages enjoy and deserves the cooperation and attendance of all. There is no

Cider and doughnuts will be furnished. All are invited.

The sophomores are sponsoring a dance in the school auditorium for those who wish to dance, following the Hallowe'en party.

### Girl Scout News

The Girl Scouts held their first meeting Wednesday, October 29, at the Township Hall.

We divided our group into two parts, one for the younger Scouts peating the scout oath and laws and one for the older Scouts. Mrs. Barrows and Mrs. Clark took the Durnig the meeting we chose our younger girls and Mrs. Heineman took the older girls.

We decided that you shouldn't be absent more than 3 times with- present. We would like to get out an excuse.

Our main project is for every having Penny Lines.

We closed our meeting by having cider and donuts and I'm sure we all had a delightful time. Ann Barrows, Scribe

### "Christmas Clinics" To Be Held

To help emphasize the true christian meaning of Christmas the Children's Committee of the Flint District, Methodist Church will conduct three "Christmas Clinics" again this year on Sundays in November. On Nov. 2nd in Clarkston; Nov. 9th at Durance and Nov. 16th in Flint from 3 un

til 5 p. m.
There will be: 1. "A Book Korner". 2. Kindergarten Activ- C. Borgman ities, following the Closely Graded Lessons. 3. Service Projects. 4. "Why we Celebrate The Life of Jesus", illustrated by stories and King's Insurance . slides. 5. Christmas Family Wor-, Five Man High—Three Games

Those who come will be able to plan better Christmas observances in the church, the church school, and to help parents in the home to so observe Christmas that they will aid the work of the church.

All who are interested are invited.

### Paper Pick-Up Wednesday, Nov. 19

Everyone in the vicinity is asked to help support the elementary library at the school. You can do this by saving all of your waste paper for the pick-up on Wednesday, Nov. 19th. The more you save the more you help to furnish good reading for your child and your neighbor's.

Get as many bundles as possible ready and at the curb.

### SHEEP ARE A PROFITABLE FARM ENTERPRISE

Sheep are a profitable farm enterprise, believes E. W. Alchin assistant county agricultural agent More than 90 percent of the feed used by sheep is hay and pasture and less than 10 percent is grain which is important in these times of high grain prices and shortages.

Sheep numbers in the United States are the lowest on record and the high level of employment together with a high level of consumer incomes is creating a strong

to buy a flock of 20 or more mature ewes. The exact number will depend on the size of the farm and housing available.

Graydon Blank, Michigan State college animal husbandry specialist, points out that ewes that have sound mouths and sound udders are usually suitable for several crops of lambs.

The commercial ewes need not be purebred ram of good type and body conformation. Breed weight at which he wishes to sell his lambs.

Farmers wishing to add a flock are urged to contact agent Alchin o'clock. who can give information concerning sources of ewes and rams.

groups. In preparation we have made pumpkins, cats, owls etc. Now all that is hoped is that it will turn out as well as expected. SIXTH GRADE NEWS

Captain George Mann called meeting of the patrol boys last Wednesday. After a discussion of patrol problems an election was held. D. I, Pettengill was chosen lieutenant.

An interesting history exhibit is being prepared by the class in connection with our study of Early Man, Stone weapons, clothing, carts, wheels, clothing, and by, Sally Curry, Fran Dailey, Raypictures have been made by the mond Day, Joan Johnston, Mar-

P. T. A. librarians were Mrs. Mann, Mrs. Hammond and Mrs. Spooner.

### SOPHOMORE NEWS

The sophomores are looking forward to their coming dance, "The Harvest Moon Hop" tonight. The music will be furnished by Spike Masters. The snake dance will begin at 7:30. After everyone returns from the snake dance the bonfire will be lit. Free cider and choral work. donuts will be served outside. The dancing will start at 9:00 and ontinue until 12:00.

### JUNIOR CLASS NEWS

The students at Clarkston High School/are very sorry to hear of the illness of their classmate, Marie Bennett, Marie was stricken with Infantile Paralysis last Thursday, and was taken Saturday to the Pontiac Contagious hospital.

The members of the junior class ook up a collection for Marie's benefit, and with this, purchased a lovely gold musical powder box. When Marie winds it, and takes the cover off, she'll find it plays, very softly, "The Blue Danube Waltz". We juniors sincerely hope that our friend and classmate is on the way to rapid recovery. We would like to suggest to our readers, that it would be very thoughtful to send a note or card to this young teen-ager. You know that you would appreciate it!

Please write to her home on Overlook Road or to the Pontiac Contagious hospital.

Just a word about our class Thursday. We think they're very attractive with their combination of yellow and pink gold inscribed with our school letters, of course, and our graduation year, 1949.

Last week we received our yearly pictures from the Photo company. Almost everyone was pleased with the results... and why shouldn't they be? After all, . . juniors . you know!. . ,and

### WILLIAM C. LADD, Jr.

Clarkston School is fortunate to have acquired an excellent music teacher in the person of William C. Ladd, Jr.

On Monday, Tuesday, and Wednesday the sounds of the band can be heard issuing from the gym. The exceptional thing about this band under the direction of Mr. Ladd is that you are able to listen to it in comfort without first stuffing your ears with cotton and then stepping back a specified number of rods.

Thursdays and Fridays are chorus days. On these days notes of "Today There Is Ringing" and "If I Loved You" can be heard floating through the halls. When there is a cessation in the music you know some unfortunate kretch has sounded a sour note and the matter is being ably taken care of by Mr. Ladd. Woe to the poor sinner.

The small fry of the school come rings. We received notice Monday in for their share of music from morning that they will arrive on Mr. Ladd, too, but their part is all on the vocal side.

Mr. Ladd was born in Clayton, Michigan and received an advanced education in music. He taught for a number of years at

for he came to Clarkston.

he also teaches ninth grade English) and in turn Mr. Ladd is very happy with his new teaching job

New Michigan Milk Producers' Association receiving station nearing completion at Ortonville. It is part of the Association's program for modernization of facilities in the Detroit market area and represents the finest obtainable in both building and equipment.

# LOOKING TO THE FUTURE

The better to serve—both members and the consuming public—is the primary objective of the Michigan Milk Producers' Association. From its inception—31 years ago—this organization has operated on a true cooperative

basis—the principles of Democracy being carried out to the fullest degree. On Thursday, November 6th, some 500 delegates selected by the 16,000 members will meet in East Lansing for their annual meeting to hear reports on the past year's activities and

formulate plans for future operation of the dairy farmer's organization. In shaping the policies and program of the Michigan Milk Producers! Association, a majority vote of the delegates elected by the membership is necessary. Majorities are seldom wrong in their decision. To this policy, adopted by the farsighted founders of the organiza-

tion, may be attributed its constant growth and record of achievements. Every activity of the Association is guided by the sound principle that the interests of the consuming public must always be given equal consideration with the interests of the milk producer. That is the Democratic way and this is a Democratic body of men.

Providing the highest quality of products, efficiently produced and transported to markets, at prices which are equitable, demands sound planning in order that the public be assured of an adequate supply of nature's most nearly perfect food.

The modern receiving station (pictured above), equipped with the most sanitary machinery obtainable, is a part of the program of progress now being carried out by members serving the Detroit market. This entire program is designed to provide consumers in the area with the purest, best quality milk and dairy products it is possible to produce, always remembering that milk is vital to the public health and welfare and its cost is of paramount

The experience of the past 31 years together with our cooperative method of operation leads us to look to the future with confidence in our ability to continually better serve both the public and our own members.

From where I sit ... by Joe Marsh

## Sam's a **Matrimony Expert**

Sam Abernathy never intended to be a matrimony expert, but he hit the nail on the head the other day when he said:

"What marriage really needs is more open minds and a lot fewer. open mouths."

Sam may not think much of his missus' choice of hats or her habit of serving watercress and cream cheese salad. But he keeps his mouth shut (I mean, he just uses it to eat the salad). And the missus never criticizes Sam's affection for that worn-out chair before the fire,

and his mellow glass of beer and pipe at the end of a long day.

From where I sit, that prescription would apply to most human relationships. Criticism rarely rouses anything but resentment. But an open mind-whether it's applied to a woman's choice of hats, or a husband's preference for a pipe and a moderate glass of beer or two-leads to the conclusion that there's right on both sides.

There've been some wrecks, it's true. And hardly a day goes by that at least one car isn't derailed. But ever since that Christmas morning when it first started operation, young Johnny's Living-Room and Basement Railroad has never lacked electrical power.

One reason for this is that all Detroit Edison power lines are interconnected. Even if the particular circuit supplying current to Johnny's home is shur down temporarily, another one can immediately take up the job of keeping lights burning, appliances going, and the L. R. & B. running right on schedule.

The work of supplying current to your home or place of business may be switched from one of the dozens of Edison substations to another. You never know it. But it is one important reason for the year-round reliability of your electrical service.

### LAKELAND FARMS HAS OUTSTANDING COW

(continued from page 2) Crestview Toitilla Susan, registered Holstein cow known in the record books as No. 206 has the outstanding butterfat production record of 902 lbs. in 235 days of lactation. This total of more than 3.8 lbs. of butterfat per day. The highest amount of milk produced in one day by No. 206 was 109 lbs. and she has held a butterfat test of about 4% throughout her total lactation period. In September, her 7th month of lactation she proluced 89.9 lbs. butterfat.

Mr. Foster, manager of Lakeield Farms, owned by Oscar Webber of Grosse Pointe says that if 206 can hold up her production, she should go well over 1100 lbs. for the 365 day production record. Mr. Foster says that the sire of this excellent cow was Pontiac Teake Toitilla-126724; Canadian Herd book record.

Ed Alchin, Assistant County Agent points out that in the light of the fact that the average cow in the United States produces over 5000 lbs. of milk and not quite 200 lbs. butterfat a year, the record being made by 206 is most

There is a good chance if she holds up her production that she may become a record producer for cows on twice a day milking in the United States.

Minnow dealers bought 333,000 sucker fry from the conservation department to stock their own bait ponds this spring. Remaining fry, the department reports, has been stocked in ponds at Wolf ake, Lydell, and Drayton Plains natcheries to provide forage for bass, bluegills and walleyed pike. accidentally killed and 205 more are injured during every hour of the day.

Edmore, November 6 and 7 will feature an interesting educational program, according to Leyton Nelson, farm crops extension specialist at Michigan-State college.

Dr. Ora Smith of Cornell university, will discuss production practices which influence potato quality. In another talk he will describe the results of expreiments which dealt with the set and size of potatoes. Dr. Smith is well known as the author of many articles on potato production.

Emphasizing quality in potato marketing will be Professor E. B. Tussing of Ohio State university He will also discuss production

### practices in Ohio as another part IN MEMORIAM

of the program. In loving memory of Evelyn ' Michigan State college specialists will appear on the program, discussing various subjects.

### Michigan Cows Above Average

Michigan's, dairy cows continue to rank above the nation's average, according to L. A. Johnson, Michigan State college extension dairy specialist.

Records compiled under the Dairy Herd Improvement Association program for Michigan, show Michigan dairy cows produced an average of 8,591 lbs. of milk and 350 lbs. of butterfat. That's only those animals under the D.H.I.A program. The average dairy cow in Michigan produces only about

210 pounds of butterfat a year, The national average of cows under Dairy Herd Improvement Association tests, is 8,535 lbs. of milk and 349 lbs. of butterfat.

By following three simple practices D.H.I.A members in Michigan have increased the average butterfat production by 33 lbs. per cow since 1930. Here are the three practices: Herd records are used to cull

out low-producing cows. Cows in production in the herd are fed according to the cow's individual producing ability as shown by production records.

The best animals in their herds are selected as breeding stock to improve the inheritance of their future herds for high-production.

### Septic Tank **Bulletin Avaliable**

A new bulletin which completely describes the operation as well as installation of a septic tank is now available at the county extension office. County Agricultural Agent, Karl D. Bailey, said today this new bulletin gives the answers to many questions asked about proper installation of a system.

The bulletin "Septic Tanks" MSC Extension Bulletin 118, is a joint publication of the Michigan Department of Health and the Michigan State College Extension

Recommendations made in the bulletin were gained from many years of study and observation of successful sewage disposal systems for rural and suburban areas. Development of rural electrification and the rapid increase in the installation of water presure systems and toilet facilities in/farm and suburban homes, resort cottages and cabins emphasized the need for the information.

Complete plans for the building of a concrete septic tank are found in the bulletin which is

available without charge. The county agent suggests that people who requested the bulletin when the Rural Progress Caravan visited the county during last winter should either call and recieve their copy or write or phone and request that one be sent through the mail.
