Waterford

The Waterford-Drayton Rotary Club met at the United Presbyterian Church in Drayton Plains on Tuesday. The ladies of the church served the noon luncheon. Emery Beadle was responsible for the extra good program which consisted of a Greyhound bus travelogue on the screen. Last week the speaker was Arno Hulet, superintendent of the Oakland County Juvenile Home. Final plans were made for an Auction Sale at the Community Activities building on Tuesday, Feb. 17th for the benefit of the Community Activities Inc. There is still time to leave articles at Jacobson's Market or at Beattie Motor Sales. Each Rotary member is looking forward to having the real fun that all auctions create. There were 26 attended the Val-

entine party at the home of Joyce Pammenter on Monday evening. Sunday School classes represented included Rev. VanPlew's senior class of boys; VanPlew's senior class of girls and some members of the Gospel Fellowship class. Games and singing and a Valentine box afforded a very fine time. Refreshments climaxed the pleasant evening.
 The people of Waterford are certainly thankful to those who are responsible for the return of the street lighting at night. These lights have been out for the past few years although they were had for many years. Now the safety on the streets at night will be appreciated.
 Fifteen young people attended the toboggan party on Stroupe's hill on Sunday sponsored by the Lutheran League. Following the sliding and the usual good time the group congregated at the home of James Helman where his mother, Mrs. Joseph Helman and Mrs. Philip Jordan served refreshments.
 The Waterford Sunday School Council will hold the regular monthly meeting at the parsonage next Thursday evening at 7:30. Following the business meeting conducted by Alton Goll the second in a series of teaching lessons will be presented by the pastor, Rev. Wright VanPlew on "The

Teacher and the Lesson".
 Little Jimmy Howell, 4 year old son of Mr. and Mrs. Adrian Howell, owes his life to the quick thinking and team work of several men on Thursday afternoon of last week when they saved him from drowning in the waters of the Clinton river near his home when he strayed on to thin ice. Bill Rose of route 2, Clarkston, crawled out on the end of a long ladder which was held by his fellow helpers. He reached into the icy water through a hole in the ice and grabbed the little fellow who had fallen in just a few minutes after his father left him playing safely in the yard after admonishing him to stay in the driveway. The father missed the boy and went out to look for him when he noticed the child's dog coming up from the river. Mr. Howell immediately went to the river to see the rescue being performed by the men from Beattie's garage. A customer, Mel Geiger of Clarkston saw the need for the 20 ft. ladder so he grabbed it and raced to the river to lend a hand. Jimmy's mother kept him in bed for a day or so and according to the last report the child suffered no ill effects.
 Awards for Brownie Troop No. 3 were given at the village school Tuesday afternoon along with their regular weekly meeting. A program started with the flag ceremony, the singing of America and the repeating of The Lord's Prayer. Mrs. Hallie Turner, Mrs. Ada Campbell, and Mrs. Mildred Hudson received membership stars for helping with the Brownies for a year. Girls receiving their 3 year flower pendants were Dolores Brown, Sally Ann Purcell and Betty Williams. Girls receiving their 2 year flower pendants were Ruth Callahan, Janice Gidley, Patricia Heathcote, Nancy Lambertson, Joann Lowery, Judith Turner and Nancy Winslow. Those receiving their 1 year pendants were Janet Hudson, and Nancy Johnson. Girls who received their "Wings" and graduated into scouting were Dolores Brown, Ruth Callahan, Joann Gidley, Patricia Heathcote, Sally Hillman, Margaret Johnson, Nancy Johnson and Sally Ann Purcell. Ruth Callahan and Nancy Lambertson were presented a gift for perfect attendance for one year. A check was presented to the new intermediate Scout troop by this Brownie Troop. The girls exchanged Valentines and refreshments were served. The meeting closed by forming the Friendship Circle and singing "Taps".
 The new intermediate troop was formed on Tuesday afternoon at the village school and includes about 14 girls. The leader is Mrs.

Stanley Hawkins; first assistant, Mrs. Jark Purcell; second assistant, Mrs. Louis Hillman and the troop committee will include Mrs. Wallace Brown, Mrs. Thomas Eddy, Mrs. John Williams and Mrs. Robert Russell. This troop will meet from 3:30 until 5:00 each Thursday afternoon in the science room.
 The Good News Club classes each combined a Valentine party and the regular lesson for the week. This is a time that the children look forward to each year. Refreshments were served and Valentines were exchanged.
 The Waterford High School debating team won a debate with the Britton High School and lost one with the Plymouth High recently at Plymouth. This was the last formal debate for the district of the Michigan High School Forensic League. Patty Maxwell and Sherwood Ebey were on the Waterford team. The school will receive a beautiful plaque and each member of the team will receive a certificate from the League. Mr. and Mrs. John Miller had dinner on Monday evening at the home of their son and daughter-in-law, Mr. and Mrs. Kenneth Miller at Sylvan Village.
 Little Mickey Turnbull returned on Monday of this week from Pontiac General Hospital where he was confined for several days with bronchial pneumonia.
 Mrs. Sara Turvey is recovering from an illness of the past week. Tonight, Friday, Feb. 13th, from 9:30 until 1:00 there will be a Valentine Dance at the Old Mill Tavern sponsored by Waterford American Legion Post No. 431. Bill Dobyns' Serenaders will furnish the music. Tickets will be on sale at the door. Proceeds from this dance will go into the building fund of Post No. 431.

Church News

Waterford

The evening service at the Waterford Community Church last Sunday honored Rev. and Mrs. Nelson Kring and family who are leaving in March to take over the pastorate at the Emmanuel Ep-

tist Church in Missoula, Montana. Rev. Kring has worked in the rural schools in the county, bringing Bible stories, for the past 6 years especially in Waterford and Waterford Center. A string quartet from the Beacon Club furnished special music. Faye Nelson pre-

sided at the piano and Alton Goll led the Singers. Rev. Kring gave 2 saxophone solos. Rev. VanPlew presented the honorees with a gift from their Waterford friends and Sunnyvale folks presented a gift of money. There were about 100 in attendance. The Gospel Fellowship class served refreshments from a long table.

Judy LaMaux who celebrated her 9th birthday. Mrs. Max LaMaux planned the party and all had a grand time.

was shown last year to more than a million people in churches, schools and civic auditoriums. The film will be shown by the Rev. J. W. McCarrell, Moody film representative.

INTERESTING FILM TO BE SHOWN

A new approach to the atom bomb problem will be presented when the sound-color film "God of the Atom" is shown at 7:30 p.m., Saturday, Feb. 14, at the Waterford Community Church, 5866 Andersonville Road, according to the Rev. Wright VanPlew, pastor of the church.

The picture has been produced by Dr. Irwin A. Moon, director of Moody Institute of Science in Los Angeles, and noted originator of "Sermons from Science". In the film, actual shots of the Nagasaki and Bikini explosions are featured, as well as the only fullcolor moving pictures ever taken of the giant 184 inch cyclotron at the University of California. Since this exclusive sequence was filmed, concrete walls have been built around the cyclotron, and the interior has been rendered dangerously radioactive.

In his role as narrator of "God of the Atom", Dr. Moon declares, "Our trouble in the world has never been due to the fact that we've had swords, guns, gunpowder, tanks, airplanes or even atom bombs. Take all these things from the world and men will beat each other to death with their bare fists!" The problem is not what man has, but what man is, he says.

Larry Johnston, a young physicist who aided in atomic development at Los Alamos and photographed all 3 wartime bombs as they exploded, also appears in the film with an eyewitness account of his experiences. "God of the Atom" is second in a series of religious-scientific films produced in the laboratories of Moody Institute of Science, a branch of the Moody Bible Institute in Chicago. It follows the popular "The God of Creation", which

From where I sit... by Joe Marsh

Will's Proud of His Big Ears

Will Dudley's mighty proud of his big ears! Best crop of corn he's ever raised since '38. And Will, like so many other farmers, has plenty of reason to be proud of what he raises.

The farmer has always been a keystone in our economic life, and the key to our national well-being. From where I sit, he's more important now than ever. He's not only feeding America—but friends overseas—building a better world for this country at a time when friendship for democracy is so important.

And farmers have willingly shouldered that responsibility. Will spends extra hours in his cornfield... comes home tired to a temperate glass of beer and early bed, to be ready for the next day's work. From where I sit, America can be mighty grateful for her five million farmers... for their productivity, hard work, and temperate living—of which Will's moderate glass of beer is proof!

Joe Marsh

THIS SKYLINE DOUBLE DUTY GRINDER HAS YEAR 'ROUND USE

You can cut ensilage and fill silos, chop baled or loose hay, and then grind all grains including ear corn with the Skyline All Purpose Grinder.

The large 33" Rotor with 3 cutter knives makes the Skyline capacity above comparison with ordinary mills. Any two plow tractor will produce more than enough power to run it. New improved feed collector and two way bag filler.

FILLING SILOS - Grind or chop your ensilage and fill your silos with money making feed. Your Skyline Grinder will handle anything from high protein forage crops to the heaviest sorghums or corn fodder.

CHOPPING FEEDS - Anything from barley to ear corn. Size of screen determines fineness of finished product. A perfect feed mill for all types of grain.

CUTTING ROUGHAGE - Converting lucifer bolls or fodder into edible roughage is accomplished easily with the Skyline. In fact, it will chop it faster than two men can feed it. (15,000 lbs. per hour).

CHOPPING ALFALFA - Skyline will chop alfalfa to any degree of fineness and its capacity is governed only by the size of screen used. Without screen it will chop 12,000 to 15,000 lbs. per hour, and do it easily.

Also "Skyline" products include, Leader Lucifer Bolls or Fodder, Fluid Stacker and Sweeper-Rake, Fluid Stacker and the World's most versatile two wheel trailer.

Compact, the Skyline Double Duty Grinder can be moved through an ordinary barn door. Sturdy, it is engineered to last a life-time. Mighty, its hourly output is truly amazing - 15,000 lbs. of baled hay, 4,500 lbs. of ear corn, etc.

Rural Gravure ROTO SECTION

AN IMPORTANT CHORE in winter is to provide shelter and food to our feathered friends. Charles Short, (kneeling) game protector for Adams County, Ohio, and K. C. Duncan, holding the same office for Summit County, here demonstrate to a group of 4-H Club boys the correct way to construct a shelter and place the most suitable food correctly.

4-H CHAMPS. Dolores Risse, Sagola Michigan, state potato growing champion, shows old and new types of potatoes to Marian Plum, West Bend, Wis., Lawrence Gregory, Aurora, Ill. and Norma Range, Lytton, Iowa.

CORN KING Walter Harpel of Shannondale, Indiana, shows some of the corn that won him the title.

More Than 50 YEARS of Fence Progress

Beginning in 1896, many years of progress in wire and in fence making have produced the modern CONTINENTAL FENCE. It is made of special analysis copper steel, zinc coated by special process, and FLAME SEALED for extra protection against rust. Only CONTINENTAL FENCE has the semi flexible PIONEER KNOT that actually tightens under pressure. It gives extra strength to fence and guards against buckling or sagging.

FREE Grassland Farming Manual—All about a promising new farming system. Tells how to have better pastures, conserve soil fertility, grow livestock more efficiently. 40 illustrated pages. Write today to Continental Steel Corp., Kokomo, Indiana.

SCOURS CONTROL with Blatchford's Improved Nutri-Tabs

Give your calves maximum protection against nutritional scours against Blatchford's Improved Nutri-Tabs. Formula-built on continued research at the Univ. of Wis. Each package contains six yellow tabs with Vitamin A potency of 25,000 U.S.P. units to be fed the first six days. Follow with the brown tabs (5,000 U.S.P. units Vitamin A, as well as Niacin and Vitamin D). A sound, economical way to start calves right from day of birth.

GOT THEIR BUCK. Not every hunter that trekked to the Michigan north woods was as fortunate as these four from Montpelier, Ohio. Hunting near Curtis, Michigan, each man shot his buck within the week. They are, left to right, S. B. McKelvey, W. O. Doughten, Walter McKelvey and Kenneth Beck.

SHEARING CHAMP. Roland Burkhardt, 35-year-old southpaw from Pandora, O., who won the 1947 professional shearing championship. Burkhardt shears more than 14,000 sheep a year and as many as 200 a day, uses less than 75 strokes per sheep, charges thirty-five cents each.

Plant Foods Can

Help You Conserve Your Soil

You can act now to protect your soil from the erosion that threatens the productivity and earning power of your land.

In a well planned soil conservation program, crop rotation, contour planting and strip cropping are often successfully used. Properly fertilized pastures also protect your soil and, in addition, supply abundant money-saving forage for your stock. And, of course, one of the soil conservation essentials for profitable results is the use of adequate amounts of plant food.

International Fertilizer is a quality plant food, used by thousands of farmers for all their crops. Your International Fertilizer Agent is ready now to help you select the plant foods best suited to the condition of your soil and the needs of your crops. Because of heavy demand, it will pay you to place your order early.

When you order plant food, look for the familiar "International Fertilizers" trade mark. It is a sign of quality, crop-producing fertilizers and of your satisfaction at harvest time.

Better Calves for Better

The new milk substitute system of calf raising is catching on. Thousands of dairy farmers here in the Midwest report that it's saving them up to half on every calf in feed costs. They are able to raise better calves, too, they say, and at a savings in choretime and veterinary bills.

county agents and pur of record milk makers portedly saves up to milk per calf compared milk method of feeding

Bill Bakes, Waukee, Iowa 4-H Club lad, helps his new-born calf to its feet. Calf will stay with dam first 36 hours to get the colostrum milk, and then will be placed in a pen. Just after birth, navel cord is dipped in iodine to prevent navel infection.

After 36 hours, the calf nurses a nipple pail instead of cow. Nipple pail feeding prevents injury to cow's udder, saves time teaching calf to drink and prevents milk gulping common with open-pail feeding. Feed 1/2 pint milk to each 10 pounds of calf's weight, twice daily.

After four weeks calves get no more milk. At this age their ration can be changed to one part of commercial calf pellets to two parts of farm grains, self-fed along with plenty of good quality mixed hay, block salt and water. This is a good ration to feed up to four months of age.

After four months feed a ration of one part commercial calf pellets to four parts of farm grains, self-fed along with plenty of good quality mixed hay, block salt and water. This is a good ration to feed up to four months of age.

To prevent growth-stunting, calf killing infectious white scours, many dairymen give calves penicillin capsules during their first 24 hours. Others give nutritional scours preventative "tabs". These help prevent digestive upsets & non-infectious scours.

Commercial calf meal on the fifth day, self-fed from a small box in the calf pen, contains all the vitamins, minerals and proteins calves need for good growth and development. Some dairymen use condensed buttermilk or whey types instead of dry calf feed.

of hay or pasture.

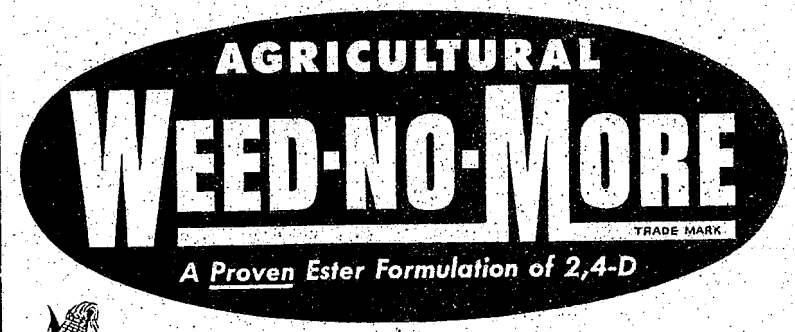

On the milk substitute program, enough milk is saved per calf to pay for the calf feed and still leave a big net profit for the farmer. Glenn Adams of Zionsville, Indiana, loads his milk truck with a few "extra" cans of milk produced by a farmer who switched to this milk-saving system.

OF SMALL GRAINS, CORN, FLAX AND PASTURES

KILL WEEDS

in growing crops with

The new miracle chemical 2,4-D, offered in its most effective form in Agricultural Weed-No-More, brings you the practical, low-cost way to kill weeds in growing small grains.

Spraying Agricultural Weed-No-More on young corn is faster than cultivating, kills weeds right up to the corn plants, makes row-planting practical.

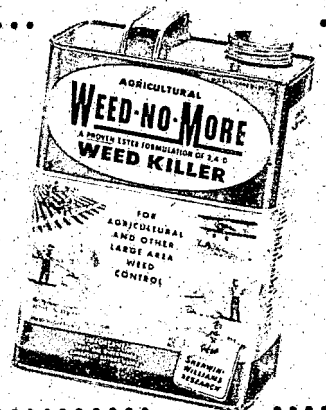

On pastures, fence rows, ditch banks, and grassed waterways. Agricultural Weed-No-More kills weeds, roots and all.

Agricultural Weed-No-More goes on fast covers 7 to 15 acres per hour. It goes far, too 1/2 pint to 2 pints in only 5 gallons of water treats 1 acre! Apply it by the new low-gallonage method developed and proved by Sherwin-Williams Research. Use a simple, low-cost rig that you or any local shop can quickly assemble.

AGRICULTURAL WEED-NO-MORE

Costs less per acre because it controls weeds more effectively!

Agricultural authorities have found that the ester forms of 2,4-D used in Agricultural Weed-No-More penetrate weed leaves within 5 minutes, do not wash off, mix easily with water, won't clog or corrode spray equipment, and are harmless to stock. Agricultural Weed-No-More has been proved on more than 500,000 acres.

SEE WEED-NO-MORE AT WORK IN NEW SOUND MOVIE Ask your county agent, vo-ag teacher or farm supply dealer to arrange for you and your neighbors to see "Agriculture's New Conquest." It will show you how you can boost yields and profits with 2,4-D.

FREE BULLETINS

See your farm supply dealer for free bulletins on Agricultural Weed-No-More and on the proved, low-gallonage spray method and easy-to-build spray rig. If he can't supply you at once, write direct to Agricultural Chemicals Division, 1230 Midland Bldg., Cleveland 1, Ohio.

WYR-O-GLASS

BROUGHT 110 lb. HOGS in 100 Days ON HOME GROWN FEED

ACTUAL FARM TEST

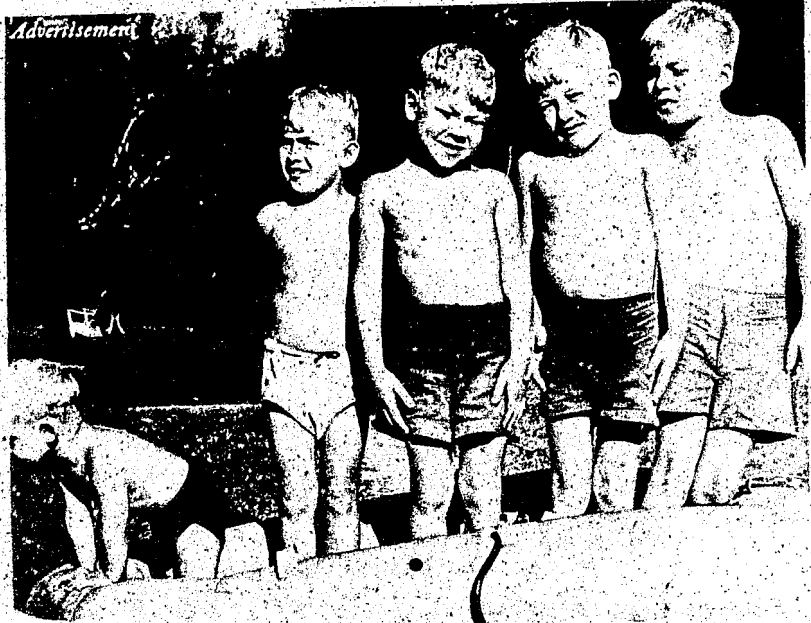

NEVER OUT OF THIS PIG

These pigs, farrowed Jan. 10, 1944, shot up to 110 pounds in just 100 days of bitter winter weather. (The average 100 day pig weighs 57 lbs.) They were raised in an unheated hog house with Wyr-O-Glass windows and were fed almost entirely on inexpensive, home grown grains. Credit for this remarkable gain goes to that mysterious Spectronic Supplement D which Wyr-O-Glass furnishes straight from the sunshine—to help turn home grown grain into pork faster—at lower cost.

SOLD BY LEADING HARDWARE AND LUMBER DEALERS
T. M. REG. WARP BROS. • CHICAGO, ILLINOIS

FOR REAL QUALITY — PRICED RIGHT — INSIST ON A WINDOW MATERIAL WITH THE NAME "WARP'S" PRINTED ALONG THE EDGE — THAT NAME GUARANTEES YOU YEARS OF SATISFACTION

FIVE OF A KIND are these husky young Vermonters, sons of Mr. and Mrs. Donald Clark of Bristol, Vermont, who spend their summers on Lake Champlain, near their father's 300-cow dairy farm. All the Clark boys were raised on KARO* Syrup—and—milk.

GOOD BEGINNING toward becoming a champion pie baker is made by Carol Kletti, just starting her 4-H Club work under the supervision of Mrs. Gwen Daluge, Wisconsin home demonstration agent.

PRIZE MUFFIN MAKER, Mrs. Erwin Bannenburg, satisfies her son's appetite for home cooking with blue ribbon muffins (made with KARO) and exhibited against stiff competition at the Cedarburg Fair.

*KARO is a registered trademark of Corn Products Refining Company, New York, N. Y.

PARTY BAKED APPLES

- ½ cup KARO Syrup, Blue Label
- ½ cup water
- ¼ teaspoon cinnamon
- 1 teaspoon grated lemon rind
- 1 tablespoon butter
- 2 tablespoons sugar
- 4 baking apples, cored
- 1 egg white
- 2 tablespoons sugar
- 14 almonds, blanched
- 4 maraschino cherries, chopped

Combine first six ingredients. Bring to a boil. Remove from heat. Pare upper half of apples. Place in baking dish. Pour syrup mixture over apples. Bake in moderate oven (350° F.) about 1 hour or until tender, basting frequently. Remove from oven. Top apples with meringue made from egg white and 2 tablespoons sugar. Insert cherries and shredded almonds. Bake 15 minutes or until lightly browned. 4 servings.

Hearts and Hatchets

Hearts, hatchets, cherry trees and miniature log cabins mark the trail of the social whirl in February as party after party is chalked up on the calendar of 1948. Valentine parties, Washington's birthday banquets, Lincoln luncheons, guest days, gentlemen's night, afternoon teas, offer a sparkling interlude just as winter begins to seem drab and dull.

But to top these affairs effectively, we must come up with interesting party foods — dishes new and delightful, that portray the spirit of the occasion. Tables must be set with dash and color — foods must follow suit.

Distinctive refreshments may take the form of heart-shaped sandwiches and tarts or even a Valentine-shaped Strawberry Jam Cake set upon a lace doily. Or you may choose to honor the Father of Our Country by serving Tricorn Cookies with cherry-red filling. In fact, any cherry dish will do the trick — Deep Dish Cherry Pie, Cherry-Charlotte or Cherry Torte topped with cherry sauce and whipped cream. Recipes for any of the foods mentioned here may be obtained if you will write Susan Lowe, Rural Gravure, in care of this newspaper.

CHERRY CHARLOTTE

- | | |
|--|---|
| 1 tbsp. plain gelatin | 1 tbsp. lemon juice |
| 1/2 cup cold water | 1/3 cup sugar |
| 1 No. 2 can sour pitted cherries and juice | 2 egg whites |
| 3/8 cup sugar | 6-10 lady fingers, vanilla wafers or sponge cake strips |
| 2 egg yolks | 1 cup whipping cream |

Soften the gelatin in cold water. Combine in a double boiler the 3/8 cup sugar, cherry juice, slightly beaten egg yolks and lemon juice. Cook until slightly thickened. Then add gelatin and cherries. Remove from heat and chill until thick, but not stiff. Fold in egg whites beaten with the 1/3 cup sugar; also the whipped cream. Line a mold or pan with the lady fingers and fill with the gelatin mixture. Chill thoroughly and serve garnished with some of the cherries reserved for this purpose. Serves 6-8.

DEEP-DISH CHERRY PIE

- | | |
|--------------------------|-------------------------------------|
| 1 tsp. grated lemon rind | 1 quart canned sour pitted cherries |
| 1/8 tsp. nutmeg | 3 1/2 tbsp. corn starch |
| 1 tbsp. melted butter | 1/4 tsp. salt |
| 1 cup dark corn syrup | 1/2 tsp. almond extract |
| | 1 tsp. lemon juice |
| 1 recipe pastry | |

Drain cherries and reserve juice. Combine 1/2 cup of the cherry juice with corn starch (saving remaining cherry juice to use in a sauce, fruit drink or gelatin dessert). Add remaining ingredients; blend well. Pour over cherries. Line 9-inch deep pie pan with pastry. Prick with fork. Cut heart-shaped pastries with remaining dough. Pour cherry mixture into pie shell. Heart shaped pieces may be placed on top and baked with pie or baked on separate cookie sheet and placed on pie after it has been baked.

TARTS OF HEARTS

Cut tart or pastry dough into two sizes of hearts; bake. Spread larger heart with jelly, jam or preserves and press smaller tart on top. Men will devour these by the dozen.

Fancy Eating...at Plain Prices!

By Ann Pillsbury

ELEGANT—YET ECONOMICAL!

This succulent bit of sleight-of-hand is an Ann Pillsbury idea that begins with a cream-puff. No ordinary cream-puff, mind you—but a fluffy, fragile puff shell, touched with the perfection Pillsbury's Best provides...

whatever you bake! With your favorite seafood tucked into it, you have a savory, satisfying meal. Pleasant to make and polite to your purse—an all-around Pillsbury's Best triumph. Here's how:

Ann Pillsbury's SALMON PUFFS

The tang of the sea joined with the ripe-wheat goodness of Pillsbury's Best Serves 8.
Bake at 450° F. for 10 minutes, then 400° F. for 20 to 25 minutes.

- Sift together 1/2 cup sifted Pillsbury's Best Enriched Flour
1/4 teaspoon salt
few grains pepper
- Melt 1/2 cup shortening in 1/2 cup boiling water over direct heat.
- Add 2 tablespoons chopped pimiento.
2 tablespoons chopped green pepper to boiling liquid.
- Add dry ingredients, all at once, stirring constantly.
- Cook until mixture leaves sides of pan in a smooth compact ball, stirring vigorously. Remove from heat; cool 1 minute.
- Add 2 eggs one at a time, beating vigorously after each addition until mixture is smooth again.
- Drop by rounded tablespoonfuls 1 1/2 inches apart on greased baking sheet.
- Bake in hot oven (450° F.) for 10 minutes, then at 400° F. for 20 to 25 minutes.

Cut opening in top of puff and fill. Creamed Salmon Filling Pan fry 1/2 cup chopped celery, 1 tablespoon chopped green pepper and 1 tablespoon chopped pimiento in 1 tablespoon shortening. Melt 6 tablespoons shortening in top of double boiler over direct heat; add 6 tablespoons flour and mix well. Add gradually 3 cups milk, stirring constantly. Cook until thick and smooth. Place over hot water. Add 2 cups (1 lb. can) flaked salmon, 1 teaspoon salt, 1/2 teaspoon pepper and the celery mixture. Cook for about 5 minutes or until vegetables and fish are thoroughly heated.

Note: Tuna, shrimp, or any seafood combination may be used in place of salmon. Make extra puffs and fill with salmon salad for lunch.
