

April 9, 1948

CONSUMERS PETITIONS FOR ADDITIONAL REVENUES

Consumers Power Company today asked the Michigan Public Service Commission for permission to revise and standardize its natural gas rates in ways that would provide additional revenues for the company.

pointed out that gas users in the so-called "all-Michigan gas area, which includes the cities of Alma, Bay City, Charlotte, Hastings, Howell, Ionia, Ithaca, Lansing, Mason, Midland and Saginaw and other nearby communities, are paying substantially lower rates than those in the so-called "Texas" area, which includes the cities of Birmingham, Ferndale, Flint, Jackson, Kalamazoo, Marshall, Mt. Clemens, Owosso, Plymouth, Pontiac, Royal Oak and St. Johns, and surrounding communities.

pany spokesman said, might mean a substantial increase in the rates paid by large industrial customers and space-heating (including house-heating) customers in the "all-Michigan" gas area and a more moderate increase in the rates paid by domestic customers in this area who use gas for such purposes as cooking and water heating.

utility is presently inadequate", says the petition. "Adequacy of rate of return is of primary importance at the present time in view of the unusually large construction program now pending. Return from the Company's natural gas business must be sufficient to induce capital investments in its securities in competition with the capital needs of other industries whose prices and business are largely unregulated".

The Company indicated, also, that even in the "Texas" area the rate for space heating is "unreasonably low." "Space heating by the use of natural gas", the petition says, is in direct competition with other fuels, including fuel oil, bituminous and anthracite coals, and coke. Prevailing retail prices of these competing fuels have greatly increased during recent years, so that, viewed exclusively from the price standpoint, and without regard to the added value of relative convenience, cleanliness and absence of storage space arising from use of gas as a heating fuel, natural gas is now actually cheaper than the other types of space heating fuel, being, by way of illustration, from 40 to 50 percent less than fuel oil".

Fuels which compete with natural gas for commercial and industrial business, such as fuel oil and liquefied petroleum gases, also are selling at higher comparative prices than natural gas, according to the petition.

Consumers now has to pay a higher average price for natural gas, the petition recites, and other costs of supplying natural gas service also are up.

The Company's petition goes on to say that, "nearly every item of equipment, materials and supplies essential to the gas industry costs appreciably more than during the pre-war period. Wages and salaries also have sky-rocketed, and the petitioner has been required, as recently as March 1, 1948, to make a third general wage and salary increase since the end of the war. In its natural gas department, the average hourly wage rate paid operating and maintenance employees is now more than 75 percent higher than the average rate paid in January of 1941, and the salaries of office employees associated with gas operations have risen proportionately. The factors which have caused the above increases in petitioner's costs of doing business have likewise increased the prices of coal and oil and have brought about increasing demands for natural gas, which has not increased in price".

In order to meet its customers' needs for all purposes, Consumers is engaged in a tremendous long-range expansion program which calls for expenditures of more than \$40,000,000 in 1948 alone, according to the petition. This will require the selling of additional securities, the petition goes on, and it will be difficult to attract investors unless company earnings are adequate.

"Net income as a natural gas

O. C. S. C. SPONSORS BAZAAR

A country-wide bazaar of handiwork and other articles made by women and girl relatives of the men and boys of the Oakland County Sportsmen's Club is being arranged as the "feminine contingent's contribution" to the OCSC Hall building fund.

The hall is to be erected soon at OCSC's David R. Wilson Sportsmen's Park at Waterford, with funds which the big sportsmen's organization has been accumulating for the purpose. Women of the members' families now propose to lend their help by means of this bazaar. The bazaar will be staged at a central point in the county which will be selected soon.

Wives, daughters, mothers, sisters and friends of the club's vast membership are at work on plans for their bazaar under leadership of Mrs. Fred Holland, of 504 East Kennett road, Pontiac, wife of the club's first vice president. Mrs. Holland was named general chairman of the OCSC women's bazaar committee with approval of the club's board of directors.

All women who are interested are asked to write or phone Mrs. Holland. Her phone number is Pontiac 2-5372.

COOL MILK TO PREVENT LOSS

With the present heavy demand for dairy products, the Michigan Department of Agriculture has requested all dairy farmers to use the utmost care in cooling and handling their milk and cream for marketing.

V. P. DAVISON Well Drilling and Repairing Pumps Installed Phones: Pontiac 31-1450 Clarkston 4892 4194 Rural St. Waterford, Mich.

F. M. Skiver, Chief of the Bureau of Dairying, states that with the present high cost of feed and labor, financial losses caused by rejection of poor quality milk and cream will be greater this spring. Many losses can be prevented if all producers are properly cooling their milk when the first warm weather arrives.

Proper cooling of milk and cream is a year-around job for most producers, but some think that the cold air is sufficient for cooling in winter and spring.

Air cooling of milk is a poor method at any time of the year, and is very ineffective during the warm nights of spring and summer. Consequently, considerable warm milk is always rejected by inspectors during the first warm days of spring, as some producers have not started placing their milk cans in the tanks of cold water for proper cooling before milk delivery.

Recently all Michigan dairy plants were warned by letter from the Department not to accept milk unless it had been properly cooled. Haulers and truckers have also been warned of the necessity of providing covered trucks for the protection of milk on farm pickup routes.

All of the department's dairy inspectors will be checking on the quality and temperature of milk received at plants throughout the state, and milk will be rejected that does not meet the 60 degree temperature standard of the law.

The dairy industry and the State of Michigan are spending thousands of dollars advertising and promoting dairying and dairy products. This advertising should be backed up and assisted by the highest quality products for our consumers. Since proper cooling and handling of milk and cream are the major factors affecting

the quality of the final dairy products, most of our inspection work must be pointed to these problems during the warm weather," Skiver stated.

TEMPERANCE LEAGUE TO HAVE MASS MEETING

The Oakland County Temperance League is sponsoring a big Temperance Mass Meeting in the Pontiac, Oakland Avenue Tabernacle, Sunday, April 11 at 3 p.m.

A special program of unusual interest is being arranged. The principal speaker will be "The Voice of Temperance", Sam Morris of San Antonio, Texas, who broadcasts to millions over the

radio. Sam is a college man, football player and a debater. He knows the answers and dares to tell them, pulling no punches. Over 4,000 have given up liquor as a result of his radio messages. He deals with the principal question, "What does alcohol do to a person?"

The wets call him their "Enemy No. 1" Colliers says, "He is the great white hope of the dries". Homer Rodeheaver calls him, "The natural, recognized leader among temperance forces". He has spoken against liquor to more people than anyone else. He faces facts, then delivers them forcefully.

MICHIGAN STATE BUILDING PROGRESSES

These seven structures comprise a sizeable portion of the \$25,000,000 post-war building program underway at Michigan State College.

They are: No. 1, Landon Hall, girls' dormitory; No. 2, the Physics building; No. 3, a large wing to the Union building, center of student activities; No. 4, home management houses, for use of home economics students; No. 5, electrical engineering building; No. 6, enlarged stadium, whose capacity will be more than 50,000 people; No. 7, new power plant.

Three of these structures, the dormitory, Union building addition and stadium, are among the numerous self-liquidating projects. These will be paid off through revenues realized from their operation and will cost the people of Michigan no tax money.

Even this big program will not meet the needs of a student college plant after completion. Action will be fully adequate for the future.

The Ladies' Auxiliary of the Community Church met at the home of Mrs. James Saylor on Thursday afternoon of last week. Mrs. Louis Dorman assisted Mrs. Saylor. A pot-luck luncheon was served. At the business meeting conducted by Mrs. Mehlerberg the group made plans to serve a dinner for the Southeastern Fundamental Association on April 19 at the church. Mrs. Arthur Davis, chairman will be assisted by Mrs. Isaac Shook, Mrs. Stanley Fruscher, Mrs. Wright VanPlew, Mrs. Frank Schultz, and Mrs. Mehlerberg. The reception committee at the church services during April include Mrs. Shook and Howard Pratt. Five new members, Mrs. Alfred Selberg, Mrs. Henry Prentis, Mrs. Fruscher, Mrs. Henry Fast and Janice Holt, were welcomed. The next meeting will be on May 6th at the home of Mrs. Harriett Hunt with Mrs. Dorman as co-hostess. Mr. and Mrs. Kenneth Losee and two daughters of Caro were over Sunday guests at the home of Mr. and Mrs. Frank Schultz. Mrs. Roy Pammenter has been ill at her home this week.

The Young People of the Community Church are having a progressive dinner on Saturday night starting at 6:30 at the Giddings home and the other stops will be revealed as they go along. The last course will be served at the parsonage where a fellowship hour will be in charge of a committee.

The Adult Bible Class of the Waterford Community Sunday School held their April meeting on Tuesday night at the church. The class attended the special meeting to hear Dr. E. A. Marshall speak on "Home Life in the Orient" using a large flannelgraph. At the close of this meeting 20 of the class remained for a short business meeting in the church parlors. Mrs. Wm. Granger conducted the meeting. Bible verses for roll call contained the word "love". A committee was appointed to select material for pulpits. The committee includes Mrs. Lawrence Giddings, Mrs. Wright VanPlew and Mrs. W. Brown. The next meeting will be the first Tuesday in May at the home of Mr. and Mrs. Lawrence Giddings. Assisting with refreshments will be Mrs. Margaret Wignall, Mrs. Arthur Davis and Mrs. Cameron Coventry. The Bible word for roll call will be "wait". At the close of the meeting refreshments were served.

Mr. and Mrs. Robert Beattie returned home from Florida last Friday. Mr. and Mrs. Alfred Gale returned home on Saturday, and Mr. and Mrs. Carlos Richardson and Mr. and Mrs. George Richardson returned home on Sunday. Sally Hillman has been ill at her home this week. Mr. and Mrs. Robert Allen (Betty Bachelor) announce the birth of an 8 1/2 lb. son, Thomas Robert, at St. Joseph's hospital on March 29. They are now at the Bachelor home on the Dixie Highway.

Jeannette Allen, daughter of Mrs. Thomas Owen of Waterford and Russell Allen of Milford became the bride of Quinton Plummer, son of Mr. and Mrs. Denver Plummer of Pontiac, on March 21 in the Plummer home. The only

attendants were Jeannette's twin sister, Jean Allen, and Bradley Emery. The Rev. Hilton Biehl performed the simple, but very pretty, ceremony. After a honeymoon in northern Michigan the young couple is at home at 940 Cameron in Pontiac.

The Waterford-Drayton Rotary Club attended the morning service at the United Presbyterian Church in Drayton Plains on Sunday to hear Rev. C. J. Sutton preach his farewell sermon. There were sixteen in the group. Rev. Sutton has resigned from the Club and left this week to have charge of a pastorate in Pennsylvania. Mrs. A. Purcell is recovering at her home from an illness of several weeks.

Joyce Pammenter underwent a tonsillectomy this past week in Pontiac General Hospital. She has recovered sufficiently to be back to school.

Mildred Pammenter of Grand Rapids spent several days of the past week with her parents, Mr. and Mrs. Roy Pammenter. Sunday dinner guests at the home of Mr. and Mrs. John Miller were her aunt, Arthur Stewart, and her uncle, Miss Gertrude Richardson, both of Pontiac.

EARLY PASTURE GOOD FOR PIGS

Early pasture for sows and their litters as well as ewes and lambs is the key to good health, feeding economy, and profitable livestock management. This recommendation is made by L. H. Blakeslee, Michigan State college animal husbandry specialist.

Clean, parasite and disease-free early pasture can be provided before new seedlings of alfalfa or rape are available by using small areas of rye, wheat, alfalfa, or June grass not pastured by swine.

the previous year. Young litters with their mothers should be put on pasture as early as possible to prevent anemia and other baby pig ailments.

The use of temporary 36-inch hog fence makes possible adjustment of areas to needs. A suitable shelter should be provided for the sow and litter.

Heavy fall growth of wheat or rye also furnishes good early

pasture for ewes and their young lambs. Limited or controlled grazing of suitable areas also makes harvesting of a crop possible.

Mr. and Mrs. Thomas Sherk have returned to their home on Andersonville Road after spending the winter months in Detroit.

Mrs. Fred L. Tuck and daughter, Barbara Jean, of Wayne spent Friday at the home of Mrs. Tiuck's parents, Mr. and Mrs. Henry Mehlerberg.

Robert Dorman and Dick Webber have returned to school at Nazareth after spending the Easter vacation with their parents, Mr. and Mrs. Louis Dorman, Jr., and Mr. and Mrs. Warren Webber and their grandparents, Mr. and Mrs. Louis Dorman, Sr.

The recent P. T. A. meeting at the village school was well attended. Mrs. Marshall White's Girl Scout Troop 5 started the program by singing "God Bless America." They then presented a style show. The P. T. A. voted to give the steam table they now have in the village school as a gift to the Community Activities Inc. They also voted to purchase a film strip machine for visual education in the school. Superintendent William Shunck spoke briefly of the crowded conditions in the schools in the township next year. He noted the increase in enrollment this year and stated that there will be 600 additional pupils in the system next year. He says that the increase will make it necessary to have double shifts for the ninth, tenth, eleventh and twelfth grades in the high school building with two sets of teachers. The seventh and eighth grades will also be on two shifts at the Drayton Plains and Waterford village schools. Mr. Shunck stated that there will be a \$500,000 bond issue at the annual school election in June.

"Talk about VALUE," says America

"CHEVROLET and ONLY Chevrolet IS FIRST!"

You'll find that new front-end styling—new colors—new and even more luxurious interiors add still further to the Big-Car beauty of Chevrolet's Bodies by Fisher. They're the world's finest bodies, found only on Chevrolet and higher-priced cars.

You'll get much better performance with economy from Chevrolet's world's champion Valve-in-Head engine. It has the finest record of dependability of any automotive power plant! And Valve-in-Head engines are exclusive to Chevrolet and more expensive automobiles.

Yes, from one end of the country to the other, public enthusiasm for the new 1948 Chevrolet points to a great public conviction that CHEVROLET AND ONLY CHEVROLET IS FIRST in all-round value as in popularity. More people drive Chevrolets, according to official nationwide registrations and more people want Chevrolets, according to seven independent nationwide surveys than any other make of car. Your own judgment will tell you that this is because Chevrolet gives more value . . . because it alone offers BIG-CAR QUALITY AT LOWEST COST!

You and your family will have Big-Car safety, too. For Chevrolet brings you the three-fold protection of Fisher Unisteel body-construction, the Knee-Action Ride, and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and more costly cars.

As you know, public demand for new 1948 Chevrolets is at the highest level in all Chevrolet history. For that reason, we urge you to keep your present car in good running condition, pending delivery of your new Chevrolet. Come in, get skilled, dependable service, now and at regular intervals.

SENIOR NEWS

SENIOR PROM

The annual Senior Prom is scheduled for Friday, April 9. "Dub" Masters will provide for the musical portion of the program. The time will be 9:00 to 1:00. We of the senior class send our cordial invitation to all who wish to attend.

CLASS TRIP

The seniors are buzzing over the final plans that we have just made concerning our class trip to Niagara Falls. The students start Friday morning May 21, and after a trip by bus to Detroit, we will board a D & C liner. Several other schools will be on the same boat. Thus we will begin our cruise. Saturday will be spent touring the various scenic spots surrounding the Falls as well as the Falls themselves. Saturday evening we will start home and arrive in Detroit at 8 o'clock Sunday morning. Two high school teachers will also accompany us on the trip.

JUNIOR-SENIOR BANQUET

As tradition would have it, the juniors are once again sponsoring a banquet in honor of the seniors of Clarkston High School. This is a big event for both parties, as it is a stepping-stone to the goal of graduation. The junior class has a good time in store for the seniors. A gala

banquet with lots of delicious food in a gayly decorated gymnasium, speeches honoring our guests of honor, the presentations of various awards, a class will and prophecy, and a festive dance with the dreamy music of "Dub Masters" and his orchestra. The dance will be semi-formal, and the public is cordially invited to attend.

The committees in charge of the affair are as follows: FOOD—Mrs. Neva Leach, general chairman, Mothers of the 11th grade will assist.

TICKETS—Dorman Clancy, Dorothy Gurry, Regina Jenning.

ADVERTISEMENT—Albert Benl, Pat Lawson, Pat Rickson, Marie Bennett, Dolores Barrett.

DECORATIONS—Merri Lee Volberding, chairman. Dave Leak, John Adams, Don Dubats, Dick Allen, Spike Masters, Jos Sutton, Spence Butters, Janet Keelean, Mary Porritt, Phyllis Weyer, Lois Baynes, Pat Doyle, Joan Gorman.

CLEAN-UP—John Adams, chairman. Mary Porritt, Janet Keelean, Spike Masters, Jack Wethington, Spence Butters, Dick Allen, Lois Baynes.

Sounds good doesn't it? Watch for more details later on, and remember the date, May 13th.

Remember P. T. A. benefit dance April 23rd at the high school gym, Clarkston. Get your tickets now.

3rd GRADE NEWS

Lerin Weston is back after having his tonsils out. We are happy to have Stephen Bloie back from his long illness.

Spring weather has brought marbles, jumping ropes and hopscotch games to the playground and the absence of the question "Do I have to go out?"

1st GRADE NEWS

The first grade is about to start their last book of the year. We have all done very well and are most anxious to see what Dick and Jane will do in this book.

We have learned several new songs and have put the words into movements. We can be clocks, owls, shoemakers and many other things while we sing. If we happen to miss a note or so, we certainly can make up for it in action.

SECOND GRADE NEWS

For the past few weeks we have been learning about Dutch people. We drew pictures, wrote stories, and learned poems about them. Each one of us made a booklet.

Nancy Knox is new in our room.

DEMAND FOR WHITE SKINNED SPUDS GROWS

Although there's a switch away from the Russet Rural potato in Michigan, Henry C. Moore, Michigan State college potato specialist, thinks even more producers should consider other varieties.

Chippewa, Sebago and Katahdin varieties are bringing about ten percent higher market prices than the Russets. That's because consumers show a preference to the white-skinned potatoes.

The supply of certified seed for these varieties is limited, Moore reports, because there has not been such a great demand in past years. Six years ago, however, 85 percent of the potatoes certified for seed were Russet Rurals. This year Russets accounted for only 60 percent of the total certified.

A few cultural practices are different in growing white-skinned varieties. Care must be taken to plant them in soil which has not grown potatoes for four or five years. Seed must be well-treated to eliminate scab infection before planting. The use of organic matter, such as green manure, is recommended. Sebago potatoes need to be planted earlier than

Russets. Katahdins must be planted deeper and closer together to prevent sunburn or hollow heart. Farmers who plan to grow certified seed should consider the increasing demand for these varieties. From 80 to 100 cars for seed are now being shipped into Michigan each year to satisfy the demand.

Moore also believes certified seed growers should also consider the heavy demand for Pontiac. This red-skinned variety is in great demand in the south where they grow no seed potatoes. Certified seed growers of this variety are finding an excellent market soon after digging in late summer or early fall. Southern growers plant potatoes in mid-winter for the early crop.

Millions of American families during these days of high living costs are in danger of being under-nourished, warns the National Dairy Council, because housewives are buying according to prices and not according to food values. They stay within budgets but may jeopardize family health. So here, says the Dairy Council, is its "Guide to Good Eating"—a safe and sound nutritional guide, on which the council on foods and nutrition of the American Medical Association sets its seal of acceptance. Eat these foods daily to get the basic nutritional requirements of your body, and then eat whatever other foods you want to give you that satisfied feeling.

EXTENSION LEADERS PLAN 1949 PROGRAM

Discussing suggestions for the home extension program for 1949 was the topic of the day at a meeting in Pontiac on March 24. Miss Elizabeth Roniger, Assistant State Home Demonstration Leader, led the discussion that day to make suggestions of lessons available in parent education and child development, home furnishings, home management, clothing, food and nutrition and other projects. Approximately 40 leaders of 50

extension clubs in the county were present. They listed 20 lessons their club members preferred for 1949. After the meeting the leaders will return to their local group for further discussion. By April 15 each extension club will submit its request to the office of Miss Josephine Hoke, County Home Demonstration Agent. The Oakland County Home Demonstration Executive Committee will then compile the results which they will submit to the Extension Department at Michigan State College. In this way every extension member has a democratic part in planning her program for the coming year.

We also see more easily and do not become tired as quickly when there is enough light. Industry has learned that any expense caused by furnishing good lighting pays for itself. Did you know that just having enough light on the page you are reading or the sock you are darning isn't enough? If the rest of the room is dark when you glance up, your eyes have to adjust to the contrast in lighting. This adjustment to sharp contrasts in lighting is the greatest single cause of eye strain.

BETTER LIGHTING NEEDED IN HOMES

Your family has the benefit of the very best in lighting while they are at school, the office or factory during the day. Do they come home to dimly lighted rooms to read, study or sew at night?

You may not have the experience that the person who planned the industrial lighting had, but you can do something about lighting. Josephine Hoke, home demonstration agent, believes that the most common fault is that lighting is planned in terms of fixtures rather than the eyes of the family.

If you wonder how much light is enough, remember that you are much more likely to have too little than too much. Our eyes will adjust themselves to any amount of light but specialists have proved that we see more slowly when there is not enough light.

For a living room you should have a reasonable all-over light and concentrated direct light where it is needed. You also will find that three-way lamps that permit the light to be raised or lowered are a help. Several wall outlets in a room also add to the flexibility of the lighting. Maybe new shades or adding a white lining to your present ones can be the first step in your lighting improvement.

★ Rooted deep in the recesses of time is the modern drug store. Through 4,000 years of recorded history the dispenser of drugs has stood high in the esteem of the community. As the sciences of medicine and merchandising have advanced, the outward form of the ancient apothecary shop has changed. But service to the sick is still the very heart of our business. Our complete stock of pharmaceuticals is the best that the markets of the world afford. When illness strikes and your doctor prescribes, we will consider it a privilege to serve you.

"I AM ONE of 24,000 Michigan Bell employees. In 1947 we had more facilities and equipment to work with. We added new wire, cable and central office equipment at record speed. And by the end of the year we were putting telephones in at the rate of over 1,500 a day. Last year, 1,900 more telephone jobs were created, which meant up-from-the-ranks promotions for many of us. Wages were higher. There were nearly three times as many of us as ten years ago, and our payroll was nearly four times as high. One out of every eleven of us received payments for illness or injury under the company's Benefit Plan and 7,400 of us were buying A. T. & T. stock under a payroll deduction plan."

Which were you in 1947?

"I AM ONE of 1,200,000 Michigan Bell customers. In 1947 we bought more telephone service than ever before. And the rates we paid were the same or lower than they were ten years ago. We made 10% more local calls and 8% more long distance calls than in 1946. We got better, faster service. By the end of the year there were 133,000 more Bell telephones in Michigan that we could call. So our own telephones became more valuable to us—and will become even more valuable when the thousands who are waiting for telephones get them."

"I AM ONE of more than 730,000 people whose savings, invested in Bell System securities, provide money for building the telephone system. That makes me an investor in Michigan Bell. Millions of others have invested in the telephone business indirectly through their savings accounts or insurance policies with institutions owning Bell securities. Although Michigan Bell took in 6% more money than in 1946, the cost of providing service rose 13%. And Michigan Bell earned only 3 8/10c last year on each of our dollars invested in the business. This is less than a fair return and offers us little incentive for investing additional money needed to expand and improve service. So it's a good thing Michigan Bell has asked for an increase in telephone rates to assure us a fair return."

LOOKING AHEAD: Michigan Bell fully expects to supply a continually improving service to the public... good jobs for thousands of employees, with plenty of opportunity for advancement in a growing business... and a reasonable return to those whose savings are invested in the business.

Rev. and Mrs. C. J. Sutton were honored guests at a farewell banquet last Wednesday evening in the United Presbyterian church parlors when 200 guests gathered to pay tribute after enjoying his 20 years of service here.

George J. Graves left Wednesday, March 24 for Fort Knox Kentucky to re-enter the U. S. Army. He was previously in the service for 26 months.

The rest of the business meeting was led by Charles Williams, congregational chairman. Plans were shown and discussed for a recreational building for young people of the church, which will be given further attention.

Evelyn Eudell Millleur, daughter of Mr. and Mrs. Kirby Millleur of 3260 Sashabaw Rd. became the bride of Larry Dean Sheridan of 68 Home St., Pontiac, son of Mr. and Mrs. James Sheridan of Bear River, Minn., on Tuesday afternoon at 5 o'clock.

ALUMNI MEMORIAL FUND OVER \$100,000 AT STATE

Subscriptions to the Memorial Center Fund of Michigan State College have gone over the \$100,000 mark, it has been announced by Walter W. Neller, Lansing, alumni chairman of the fund.

A goal of \$300,000 has been set to provide money for the erection

of a Memorial center to include a chapel and international house for the promotion of world understanding.

Rear Admiral Richard E. Byrd, noted polar explorer, lauded the Memorial Center plans on a recent visit to the campus. He stated, "I sincerely believe that your Memorial Center project here at Michigan State takes one of the

most forward-looking steps toward understanding among nations that I have encountered on any college campus. It approaches world peace through education of future world leaders. It takes the only logical road."

GRASS DAYS WILL EMPHASIZE NEED FOR CROP BALANCE

Michigan farmers are realizing the need for a better balance between acreage in cash and grain feed crops and hay and pasture. During the war, 11 million acres of land in the corn belt area went into intertilled crops, much of it from grass and legume acreage.

E. D. Longnecker, member of the soil science department at Michigan State college, believes much of this land needs to go back to grass and legumes to protect the soil. Soil tests conducted by the college show the use of legumes in crop rotations not only builds up the soil, but pays bigger returns over a five year period.

Tests on the Lee Ferden farm in Saginaw county show that rotations with alfalfa included in two

years of a five-year rotation were most profitable. A one year use of alfalfa grossed \$35 less per acre over the five-year period. When no legume or grass was used the income was \$70 per acre less than when two years of alfalfa were included in the five-year rotation.

Longnecker believes Michigan farmers will find many demonstrations at the various Grass Day programs to be held throughout the state in June that will be of interest to them. Demonstrations held in different sections of the state will show proper methods of seeding, management, harvesting and using legume and hay crops.

Although the demand is still high for heavy production of grain crops, Michigan's huge dairy industry needs a great acreage of pasture and hay.

PARENTS CAN HELP WITH CHILD'S RADIO LISTENING HABITS

As parents are you concerned about the radio programs which your child listens to in the eve-

ning? Do you wonder if so many programs of horror and crime will have a harmful effect on your child?

Some critics feel that these programs can be the cause of delinquency and severe emotional disturbances. Others feel that such programs offer outlets for suspense, adventure and aggression.

Mrs. Lennah K. Backus, child development specialist at Michigan State college, feels that you should consider whether the programs overexcite your child.

Exciting radio programs may tend to be too exciting for your child for several reasons. First of all, they are concentrated into an hour or an hour and a half of continuous programming. Second, they usually occur at the end of a child's day when he is pretty well tired out. Finally, the serials frequently end upon a high note of suspense.

What can parents do about the radio listening problem, you ask? It might help if you encouraged your child to listen to a program which is a complete story in itself instead of having always to wait until the next evening to relieve suspense. However, children have a way of liking what they like and we may not be too successful in attempting to influence their choice of a program.

Your best solution for getting your child's point of view and being of some positive help to him is to listen with him to some of his favorite programs. By sharing the listening with him you can relieve some of the tension and make more intelligent comments to him. If you try, you can enjoy watching your youngsters grow through various stages of radio interest.

CARD OF THANKS

We wish to extend our heartfelt thanks to all of the folks in this vicinity who were so kind to us when and since our home burned last week. Words really fail to express our feelings. We deeply appreciate the thoughtfulness and generosity of all who have tried to help us.

Mr. and Mrs. Hartley McGill and family

MICHIGAN Motoring

Slow Down At Sundown

Believe-it-or-not, night boasts a traffic death rate three times that of day. Little wonder that Mom and Dad think twice before letting Junior or Jane take the family buggy for a night game, a school dance or a date.

If you do want to get the family car keys more often at night, prove that you are an expert driver by always remembering that speed should go down with the sun. All of which brings up the question? "How fast should you go at night?"

The right night speed depends on how far ahead you can see. Get a pal to walk out in front of your headlights; then pace off the distance between the car and the point where he disappears from sight. You must always be able to stop within that distance.

If there are 123 feet between the car and your pal, you can drive no faster than 35 miles an hour. If the distance is 153 feet, you'd better keep the speed at or under 40 miles an hour when you drive at night.

When the going is wet, a good rule of thumb to remember is to double your stopping distance.
