★ Kipling was speaking of precious human freedom when he wrote, "This our fathers bought for us long and long ago."

But courage and valor are not solely the virtues of brave fighting men in combat. It took no less courage for men like Pasteur, Lister, Koch, and hosts of others to struggle for scientific truth against cries of heresy from the ignorant and the superstitious. Inspired by the example of these great men, your physician battles the same foes today. At his side is the pharmacist, always eager to carry the

fight to the enemy. We invite you to visit our complete prescription department. We are prescription specialists.

GOOD DIET IS NEEDED FOR FIRM EGG SHELLS

Is your flock producing eggs with firm shells? Cracked or checked eggs bring less money, points out J. M. Moore, extension poultryman at Michigan State college.

The specialist advises that eggs shells can be improved by pro-viding the birds with direct sunlight (not through glass). In the fall, the birds should have plenty of fish oil or other vitamin D supplement.

Calcium carbonate as found in oyster shells and limestone must be present with the vitamin D to make good egg shells. Moore believes poultrymen should encourage birds to eat plenty of this material.

Your Most Important Right

Now that the bandstand has been painted, and the park re-landscaped, we have about the nicest village green in the county.

And it's all because, at the last town election, folks got out and voted-85 per cent of them! That way, they passed the amendment

calling for park improvementsover those opposing it. Reminds you again how impor-tant the right to vote is in this country. And it's a right we can retain only by exercising it! . . . like all the other individual liberties -- from freedom to enjoy s glass of beer or ale, to a woman's right to vote along with men.

Folks can thank themselves that on summer evenings they'll be able to listen to band concerts in a well-kept park . . . enjoying a bottle of beer er neds pop (whichever they prefer). Because from where I sit, that's a freedom they to serned by exercising a still more important freedom: Voting!
