Mealtime Magic
RAISIN PIE
 The raisin gets a touch of glam or in a pie that strikes everybody's fancy from the first bite. It's easy for you to prepare this Raisin Pie.
 2 cups seedless raisins
 1 1/2 cups boiling water
 1/4 cup sugar
 2 tbs. cornstarch
 1/4 tsp. salt
 juice and rind of 1 lemon
 2 tbs. fortified margarine
 1 baked pie crust shell (and top crust if desired).
 Pour water over the raisins; simmer gently 5 minutes. Mix sugar, cornstarch, salt, grated rind. Pour into this some of the raisin liquid; then add to the whole raisin mixture. Add the lemon juice. Stir over low heat until mixture is rich and thick and the cornstarch well cooked (taking at least 5 minutes). Add margarine. Stir until melted. Pour into the baked pie shell.
 For other taste-tempting recipes write today for your free copy of the two-color, 32-page recipe booklet "Mealtime Magic," to National Cotton Council, Box 18, Memphis 1, Tenn.

THIRD GRADE NEWS

We are happy to have Harold Mahieu back again after being absent for several days. We made turkeys for Thanksgiving. We have been studying the weather reports and watching the thermometer for the last week. We like our period of play in the gym on Wednesday noon. We are glad to have Louis Jaen-

chen back in school after a long absence due to a cracked collar bone.

FIFTH GRADE NEWS

We had a library book, "New England Colonial Days", read to us. Now we are studying the southern States so we are reading "Southern Colonial Days". We like to compare the way the boys and girls lived then with the

way they live now. But we didn't like the old methods of school discipline.

For a thanksgiving treat we enjoyed movies just for fun. Animal pictures and fairy stories were very amusing.

Ruth Mahieu has been absent with the mumps. Twenty-one pupils had an E in spelling on Friday.

SIXTH GRADE NEWS

The Merry Workers Club had their meeting and elected new officers as follows: president, Richard Tebo; vice president, Pat Thompson; secretary, Lanny Leak; treasurer, Mary Jane Beardsley.

In health we made vegetable people out of colored paper. We are cutting out pictures of food for our health notebooks. We are also starting to make a health house.

The following pupils got excellent spelling papers this week: Glenn Abbott, Mary Jane Beardsley, Clayton Bell, Carole Gagnon, Arlene Gaynor, Bob Jones, Marvin Menzies, Janet Miller, Lawrence McNeil, Lorraine Rioux, Betty Root, Larry Ruggles, Laurs Ruggles, Marcia Smith, Robert Yankhe and Richard Johnson.

The General Business class held a spelling match using the hundred words prepared by the class covering the work of the last three weeks. The winner, who received a shiny 1925 dime is Pat O'Mara. The announcer was Mary Ellen Curry and the team captains, Betty Muirhead and Ella Mae Shiel.

The P. T. A. librarians, who are contributing so much to the success of the elementary library, are sponsoring another worthwhile project this year. Each month in cooperation with the grade faculty a unit will be chosen, and decorations accenting it will be

placed in the library. During the month special effort will be made to interest the children in all library books dealing with the chosen unit.

Mrs. Walter Barrows, general chairman of the project planned the Thanksgiving unit. Clever scenes and figures giving vivid pictures of life in Colonial days lined the tops of the book shelves. These were the handwork of a group of Girl Scouts: Kathleen Stauber, Judy Clark, Ann Barrows, Ann Spohn, Sue Shanks and Phyllis Saxman. Their efforts were much admired and appreciated by all who came to the library.

Waterford Township

Leslie H. Hudson, Auxiliary Recruiting Officer of Waterford Township, announces the call for young men interested in the largest peacetime expansion of the army. Commissions as Reserve Second Lieutenants for active duty are being offered to young male citizens who have completed at least one year's active duty service in any of the Armed Forces of the United States (Army, Navy, Marine Corps, Coast Guard or Air Force) during the period of December 7, 1941 to June 30, 1947, and have been separated or must be eligible for separation under honorable conditions. Warrant Officers and enlisted

men of the Army now on active duty, members of the Reserve components of the Armed Forces of the United States, not on active duty, and civilians are eligible and must agree to serve on extended active duty for at least two years following appointment, provided they meet requirements as outlined in Department of the Army Circular No. 330, dated October 22, 1948, a brief of which is shown below:

1. Must have completed two years of college or university. No waivers of this requirement will be granted, and passing or having passed the GFD test (college level) is NOT qualifying.
 2. Must have reached their 19th birthday and not have passed their 32nd at time of application.
 3. Must be physically qualified under the provisions of AR 40-100 and AR 40-105.
- Never before in the history of the Army have qualifications for a commission as Second Lieutenant been as lenient as today. Here is the golden opportunity for eligible young men to pursue a career offering prestige, satisfaction and retirement benefits difficult to match in civilian life. Careers as Officers offer opportunities of accomplishment and important assignments.
- It is not the intention of the Army to accept any and all

comers. Under the expansion program authorized by Congress, the Army has openings for approximately 37,000 new officers. There are important posts. The Army's mission is to safeguard the peace. And the men who lead the way in

carrying out this vital mission must be America's best, alert, intelligent, loyal, efficient. Young men interested and qualified may contact Mr. Hudson at 4995 Highland road or their nearest Recruiting Office.

Speed is always a serious accident hazard — every week of the year. But especially during these winter months — when sleet, snow or cold winter rains impair vision... make streets and highways slippery, and driving more difficult.

Do you know that speed contributes two out of every five fatal accidents! And that speed too fast for conditions is one of the greatest highway "killers" of all! Remember... the higher the speed, the more difficult it will be for you to avoid an accident — especially if the streets are slippery — if snow or rain limits your visibility. Just look at these figures: Out of every 1,000 accident fatalities

19 drivers were killed in cars going 20 miles an hour.
61 drivers were killed in cars going 41-50 miles an hour.
160 drivers were killed in cars going 60 miles or over!

Yes, those figures are correct. If you should be involved in an accident when you are driving 60 miles an hour your chances of being killed are EIGHT TIMES as great as they would be if you were traveling at 20 miles an hour.

Think it over! Keep in mind the fact that the life you save may be your own. And remember, too — speed takes more gasoline, oil and rubber. Play safe — slow down and stay alive!

PERSONAL RESPONSIBILITY

★ It is estimated that on an average day in the United States four million people are actually disabled by illness, and countless others are afflicted with minor ailments. Not only is the economic loss incalculable, but the effect on the spirit of the nation is a factor to be reckoned.

What can we do to better this situation? Certainly, at a very minimum, you can care for your own health and the health of your family. In the end, most problems are resolved in the individual's sense of personal responsibility. Observe common health rules. Consult your physician in case of illness. If medication is needed, have your prescription compounded by our expert prescriptionists.

Why Dutch is Growing a Beard

That beard on Dutch Miller's chin doesn't mean that he's getting ready to play Santa Claus. He's simply paying off the election bet he lost to Cappy Swanson.

And while some folks allow it's all a lot of nonsense—like the wheelbarrow ride that Cappy had to give Dutch after last election day—from where I sit, it's a mighty wholesome aftermath to a difference of opinion.

Because good Americans all take their politics and voting mighty seriously. But when the issue's settled, and the die is cast, they accept the verdict in a spirit of good humor.

And that's as it should be when it comes to any difference of opinion. Some folks vote for beer as their favorite beverage—others vote for cider. In fact, we all have differences of taste in almost everything! But that doesn't mean that we can't live together in a spirit of good fellowship.

MICHIGAN BELL ANNOUNCES PROGRAM FOR 1949

The Michigan Bell Telephone Company today announces a \$56,300,000 construction program for 1949.

Thomas N. Lacy, president, said that the program will be the second largest in the history of the company — "another expression of the company's confidence in the future of Michigan."

It is surpassed only by the \$70,000,000 program of 1948. However, the 1949 program will necessitate the postponement of construction on several major building projects, he said.

"The construction pace has been slowed," Lacy explained, "because no company with return on investment as low as the Michigan Bell's could continue to raise money from investors as rapidly and in the large amounts required by the 1948 program."

"Since the end of the war, we have been increasing our construction year by year in an effort to catch up with the great pent-up demand for service. It is our objective to continue to go forward as rapidly as possible to meet the needs of the people in our territory for more and better telephone service. Our 1949 program will be large, judged by any standard, with most of the money going to Michigan workers, contractors and suppliers."

"Costs that go into our construction program have risen tremendously. By the end of next year we will have spent \$220,000,000 as much in four years as originally allocated or the entire five-year, post-war period. Every bit of telephone plant that is added today is expensive plant in these times of high prices. With labor and material costs at an all-time high, it seems prudent to temper our experience of the past few years with our perpetual concern to do the job in the most economical way possible, consistent with our continuing obligation to serve the public."

"As a regulated utility, we do not earn enough, nor do we expect, to earn enough, to finance our new construction out of the money that our customers pay us. The bulk of the Michigan Bell's construction money, therefore, must come from investors. This is unlike most other industry where earnings are high enough to meet all needs for new construction."

"In going to investors, we find ourselves competing with other industries having earnings substantially above our return. To continue to attract new capital on the scale that is needed, our earnings must improve. Even though recent date increase was too little and too late to offset the rising costs of doing business."

"In considering its 1949 program, the company made a most careful review of all projects. It postponed those which would have no effect on the company's present service to its customers and the least effect on its ability to

provide service to the thousands on the waiting list."

The company revealed it is paring its allocation for buildings and building additions by \$4,800,000 for next year. Major building projects which will be postponed include new central office structures at Monroe, Marquette and Trenton, along with additions to the Bell Building at Detroit and the Bell and North buildings at Grand Rapids.

Remaining on the 1949 program will be additions to the Dearborn, Atlantic, Pingree, Redford, and Madison buildings at Detroit, the Kalamazoo addition and new central office structures at Birmingham, Center Line, Roseville and Wyandotte.

Besides those major projects, a number of others in smaller communities may be postponed.

LOCAL PEOPLE TAKE ROLE IN IMPORTANT CONFERENCE

Oakland county people will take an important part in the 34th annual Michigan Social Work Conference, to be held in Detroit December 6, 7 and 8. The conference is arranged by the Michigan Welfare League with 40 public and private agencies as co-sponsors.

Geared to emphasize the close cooperation and coordination between the several agencies working with various phases of the total health and welfare problem, the three day conference is expected to attract more than 1,000 lay and professional representatives of agencies from all parts of the state.

E. S. Richter, director of recreation of Pontiac, will discuss "Coordination through a Municipal Recreation Department", during one of the meetings.

Dr. W. G. Hutchinson of Pontiac served as a member of the program committee planning the health services phase of the Conference. Audrey Buckner of Pontiac and Dr. James Clark-Moloney of Birmingham aided in planning the services for Children and Families section. Hon. Arthur E. Moore of Pontiac aided in planning the Corrections section.

Lynn Carver, the actress, delayed her marriage to John Burt, when a prankster informed her by telephone that her groom was already married. Seven graves in a Scranton, Pa., cemetery are mute evidence of the effectiveness of another practical joke that backfired in a dynamite factory. Read "Practical Jokes Aren't Funny" in the American Weekly, the great magazine distributed with SUNDAY'S CHICAGO HERALD-AMERICAN.

A TELEPHONE COMPANY INVESTOR

You may not own a share of American Telephone and Telegraph Company stock or a telephone company bond, and yet you may be an investor in the Bell System and Michigan Bell.

Many banks and insurance companies are holders of Bell System securities. So, if you have a savings account or an insurance policy, indirectly some of your money may be invested in the telephone business.

But who are the other investors in the Bell System? Altogether there are more than 700,000 of them in addition to insurance companies and other financial institutions. They are school teachers, widows, housewives, farmers, mechanics, business men, telephone workers—people in all walks of life who have put their savings directly into Bell securities.

Few businesses in America are so widely owned by the people they serve. No one person or institution owns as much as one third of one per cent of A. T. & T. stock. There are about 75,000 more owners of the business than there are employees of the business.

These dollars from investors are important to good service. They are used to build and expand the telephone system. As a customer, you expect good telephone service. As an investor, you expect security and a fair return on your investment.

"Prediction: DEATH!" That's not a pleasant thought, is it? but it's a prediction which may well be fulfilled for drivers who ignore the winter "danger signals" and drive carelessly. What are these "danger signals"? One of the most important is the darkness of winter days—the longer hours of complete darkness in winter—a darkness that cuts down your driving visibility. Another is the cold—which means closed cars and their tendency to make outside noises inaudible. These signals mean Slow down... be constantly alert... be doubly sure that you obey every rule of good driving!

Take railroad crossings, for instance—the longer hours of darkness during fall and winter months. More hours of darkness make both pedestrians and trains harder to see... it's more difficult to hear train whistles and signals too—because car windows are usually closed.

Remember—when approaching a railroad crossing, slowing down isn't enough precaution. Come to a full stop; look carefully—listen—then, if all is clear, proceed with caution. Just a little extra care in driving will help to keep accidents at a minimum. Adjust your driving habits now to compensate for the "danger signals"—the increased traffic hazards of the season.

CHICAGO—A welcome to a pair of Y.M.C.A. boys from Argentina is extended by A. Fletcher Marsh, "Y" board chairman, as the boys arrive at Chicago's Y.M.C.A. Hotel after completing a 27,000 mile trip by bicycle from Argentina to Alaska. The amazing feat was accomplished in 27 months time by Carlos and Pedro Rocasalvo (shown left to right). They are returning home by jeep—a present from the citizens of Fairbanks, Alaska.

SHARES SMALL WHEN LAND IS DIVIDED

Ever wonder just how much cropland you would have if the nation's supply were equally divided.

Officials of the U. S. Department of Agriculture have supplied an answer. They say that if American cropland were fenced into equal shares, your plot would be smaller than three football fields.

It boils down to this: you would get only about three acres. And that share is shrinking, too. In 1920, it would have been about four acres. They estimate that if our population grows as we expect, your share by 1970 will be reduced to about two and three-fourths acres.

HOW TO MAKE DEERBURGERS

The making of "Deerburgers" may be one solution for housewives confronted with the task of preparing meat dishes from unfamiliar cuts of venison.

To make deerburgers one simply adds suet, moist bread, onion and seasoning to ground lean venison, according to a recipe in "Venison," a booklet available from the conservation department

Merry Christmas Cookies

A good way to wish your family and friends the best of the holiday season is with Christmas cookies gay in shape and decoration.

An attractive tray of Christmas cookies always goes with enjoyable holiday entertaining. The refreshments are ready in a moment when friends come calling to see what Santa brought. You can letter the "Merry Christmas" from cookie dough by squeezing it through a pastry tube.

Make the Christmas trees from a rolled cookie dough. Tender cookies are the result of working with a soft dough. When you roll it out, use a pastry cloth, so that the dough will not stick or pick up extra flour. These cookies may be frosted and decorated with Christmas candies, nuts, and colored sugars.

Spritz cookies are shaped with a cookie press into rosettes, bells, stars, trees, depending upon your molding plates. They may also be piped with a pastry tube. These cookies are nice to hang on the tree, though these are decorations that usually disappear long before the New Year!

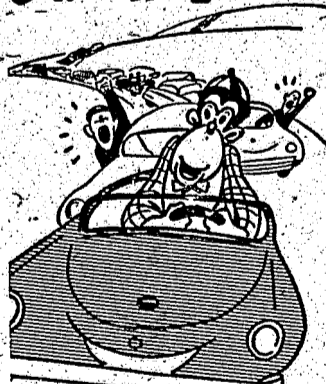

CHRISTMAS COOKIES

3 1/2 cups sifted enriched flour 1/2 cup sugar
1 teaspoon salt 1 cup shortening
1 cup shortening
Sift together flour and salt. Cream together shortening and sugar. Add eggs and vanilla extract, beating enough to combine ingredients. Chill. Roll out one-eighth inch thick. Cut with fancy shaped cookie cutters. Bake on ungreased baking sheet in moderate oven (375 degrees F.) about 10 minutes. Makes about 60 two-inch cookies which may be frosted and decorated with Christmas candies.

SPRITZ COOKIES

4/5 cups sifted enriched flour 2 cups shortening
1/2 teaspoon soda 1 1/2 cups sugar
1 teaspoon salt 3 eggs, beaten
Sift together flour, soda and salt. Cream together shortening and sugar until light and fluffy. Add eggs. Add flour mixture to creamed mixture. Force dough through cookie press onto ungreased cookie sheets. Bake in moderate oven (375 degrees F.) 15 minutes. Makes 70 two-inch cookies.
