The new Lutheran Church, located on the Williams Lake Road, has made much progress lately in its construction program. The huge timber scissor trusses, each weighing a ton, were lifted into place last week and now the roof boards are all on. The masons have finished the arch entrance and are now working on the bell tower.

The Congregation soon expects to conduct Sunday School and worship in the basement until the sanctuary is completed. For the past two years the congregation has met in the Williams Lake school.

A cooperative dinner was served at 6:30. Following the dinner Mrs. Hall led the group in an interesting game with Mrs. Henri Buck and Mrs. Wallace Brown as winners. Mrs. Eleanor Tuck taught the group three songs which they all participated in.

Mrs. James Saylor distributed the Christmas gifts that each Cheery Chum had brought for her own chum. Mrs. Fullerton brought a beautiful display of articles she had purchased while she was in Mexico which were much enjoyed by the group. They were needle work, pottery and handicraft baskets. Mrs. Fullerton recently returned from Mexico. At the close of the party Miss Joan Kray and her classmate at Waterford Twp. High School gave 2 piano duets, which were very much enjoyed.

The next Cheery Chum meeting will be held at the home of Mrs. Lawrence Giddings on March 18, with Mrs. Henri Buck, Mrs. Fullerton, Mrs. Loyal Lumby, and Mrs. Ruth Purcell as co-hostesses. FRESH CRANBERRIES SATISFY APPETITES
 Looking for something different to satisfy the family's cold weather appetites? Serve fresh cranberries as a relish with the roast, chicken or favorite meat loaf. Or try them in a dessert, or as a snack or sandwich spread. You'll find the versatile little red berries pep up menus as soon as they appear on the table. Here's a snack-time idea that meets with approval—a big bowl of Cranberry Applesauce, mugs of hot chocolate or coffee and a heaping plate of doughnuts or your favorite hot bread. The gang will cheer when you serve this colorful menu after the skating party.

CRANBERRY APPLESAUCE
 2 cups sugar
 2 cups water
 2 apples, peeled and cubed
 4 cups fresh cranberries
 Boil sugar and water together 5 minutes. Add cubed apples and cook for about 5 minutes or until apple cubes are soft, but not mushy. Add washed cranberries and cook without stirring until all the skins pop open—about 5 minutes. Cool in saucepan. Makes about 1½ quarts sauce.

CRANBERRY-ORANGE RELISH
 4 cups fresh cranberries
 2 oranges, quartered and seeded
 2 cups sugar
 Put cranberries and orange quarters through food chopper. Add sugar and mix well. Chill in refrigerator a few hours before serving. Makes 1 quart relish. This sauce will keep in the refrigerator for several weeks.

GRADE NEWS
Our new "big" readers are keeping us very busy these days. Soon we are going to take them home overnight to show Mother and Father, and read to them. New words are appearing thick and fast and we must work hard to remember them.

While Mrs. Vliet was 'til last week Mrs. Rose was our teacher. We enjoyed having her and we liked the poem about "The Snowman" that she taught us.

We had fun telling vacation stories to the class. Some of them were Manny and made us all laugh. We have learned to stand up nice and tall and talk to the children in the back of the room when we tell stories.

A large cork bulletin board has been hung in the first floor hall on the grade side. It will be used for posters, grade exhibits, and other items of special interest to grade children. Even the primary children registered immediate interest in the first poster display; perhaps because particular pains were taken to meet the eye-level of these small children as well as the older group.

A second portable screen has been added to our audio-visual equipment for use on the grade side.

It will be very helpful to both children and teachers if overshoes are plainly marked with owner's names. Frequently too much time is needed to straighten out mix-ups at recess and dismissal.

The Safety-Patrol boys from the 6th grade are on the job as usual these winter days. They are constantly working to teach little ones good safety habits. We are proud of their faithful service.

5th GRADE
We dramatized the story "Good Neighbors" in English class. We think we have a lot of good neighbors in Clarkston.

We made snow men in art class and mounted them on black paper for a border for our room.

We had twenty-two people get E's in spelling last Friday.

We have enjoyed the ice ponds on our playground.

We didn't have any tardy marks last month.

We enjoyed hearing "Alaska Jack's" adventure in the far north.

6th GRADE
In Health we are studying about teeth and these are some poems children wrote about teeth.

Little Tooth Brush
I have a little tooth brush
It is a pretty blue
I use it every morning
And every evening too.
It is an easy thing
To keep my teeth so nice,
And that is why it's important
To always brush them twice.
By Richard Johnson

Brush Your Teeth
Brush your teeth morn' and night
And be sure to do it right
I make sure you do it every time
All tooth paste only cost a dime
See your dentist twice a year
Don't you try to snort or sneer
Your dentist always knows what's
right.
So don't try to start a fight.
By Larry Ruggles

I Wish I Was A Tooth
I wish I was a little tooth, away up
in the jaw,
I wish I was a little tooth so I
could chew and chew
'd see my dentist twice a year
And never never shed a tear.
He keeps me so very clean
But sometimes I think he's very
mean
Once he drilled a hole in me
And oh how mad I got at He.
By Laura Ruggles

**IMPROVED HOMES
HEAD FARM PLAN
LIST THIS YEAR**
Many farm families will be in a good position to make home improvements in 1949, since it promises to be another good year for farm income.

Farm families who expect to make necessary home improvements or buy needed equipment, and have the money to do so, should not wait, advises Olevia Meyer, home management specialist at Michigan State college.

Farm families who have not accumulated savings may have to wait for improvements, payment of debts or investments.

There is the possibility that should prices be lower in the future, funds may not be available. Although it may cost more to put in running water at present, the family can enjoy its comfort and convenience now. This may pay off greater dividends in labor saving, health and happiness than the amount of money saved by waiting, Miss Meyer believes.

Farm produce will buy more of some things today than it did before the war. For example the

may mean buying a new tractor, more fertilizer or building a new milk house before home improvements can be made.

CONTRACTORS and BUILDERS

From where I sit... by Joe Marsh

We Both Won This One

Blew my top the other morning when I discovered a shirt I'd put on had two buttons missing.

"Joe," the missus says, "do you ever read what you write? For a man who writes newspaper pieces all about tolerance, you sometimes show a lot of race prejudice."

"Race prejudice!" I hollers. "No one can accuse me of that. 'I mean prejudice against the entire human race,' she interrupts with a smile. 'Why get mad at the world over two little buttons?' That took the wind out of me.

From where I sit (as I told the missus that evening), a lot of us sometimes get too worked up over little things... little differences of opinion or taste. One person prefers beer or ale, another prefers cider or lemonade. But why criticize the other fellow just because his tastes aren't the same as ours? "That sounds more like you, Joe," she laughs, snipping off a thread. (If so happens she was sewing on buttons.)

Mrs. Norman Wylie of Hatchery Road, Drayton Plains, has announced the engagement of her daughter, Sally Jane Knitter, to Walter G. Nelson, son of Mrs. Tony Saksanskic of Detroit and Axel A. Nelson of Pontiac.

The Drayton Plains P. T. A. observed "Fathers' Night" at their January meeting in the school auditorium on Tuesday night. Keith Morgan, father vice president, was in charge. The fathers presented an excellent program and very ably served refreshments. A bake sale was held following the meeting.

John H. Floyd of Drayton Plains is to assist the Ferris Playhouse at Ferris Institute in Big Rapids

where he is a student, with its part in the annual play writing contest being staged for college dramatic societies and groups throughout the United States and Canada by Ferris Institute chapter of Alpha Psi Omega dramatic fraternity. He is now busy with the playhouse preparing a number of dramatic offerings for the remainder of the year.

The play writing contest closes March 1 and plays entered are to be sent to the Ferris Institute chapter by that date.

The fraternity year book, published at Fairmont, W. Va., and just off the press, gives the Ferris chapter a nice story about this year's contest and also contains a picture of a scene from the play "Over Twenty-One", which the chapter presented in Big Rapids this past year.

It Started With \$800
When B. H. Kroger opened his first store, his total capital was about \$800. His business grew on its merits—on the quality of his products, the economy of his prices. And the Kroger stores of today are operated with the same high standards and attention to economy that distinguished the No. 1 Kroger in Cincinnati, nearly 70 years ago.

MICHIGAN Motoring
January is a "DANGER" month for pedestrians as well as drivers. The wintry weather can be the cause of death of severe injury to you, your passengers and to the persons on the street—unless, each one of you practise extra caution every day—every hour!
Why is January called a "Danger" month? Ice—wind and snow make driving more difficult. These, coupled with the many extra hours of darkness reduce visibility. That's why it's especially important to caution your family to be extra careful when walking. You may see the driver—but, he might not see you.
Good drivers will reduce speed to compensate for these weather hazards . . . they'll use tire chains on snow and ice to compensate for poor traction. Good drivers will also keep their windshield wipers, defrosters and lights in good working condition. Wise pedestrians will take special precautions—will cross at crossings, with lights will look carefully before stepping into a street. Cautious pedestrians will realize that drivers cannot see them as well after dark now in rain or snow.
Are you a good driver? Are you a wise pedestrian? Think it over—resolve to be one—save your own life—and the lives of those dear to you!

Time For Steamed Pudding
Cranberries are behind the fine flavor of this steamed pudding, which comes to the table steaming hot and topped with a hard sauce.
Fruity, moist, and rich—that's the steamed pudding, ideal for desserts all through the winter. Americans and cranberries to the makings for a fine flavored dish that takes well to hard sauce.
After combining the ingredients for cranberry pudding, put them into a well greased large mold, such as a coffee can or a tube center pudding mold. Individual molds may also be used. Set the molds into a pan that has a good cover so that the steam from the simmering water is kept in. Do not let water come more than two-thirds way up the side of the mold so that it will not seep into the pudding. Leave the cover of the steamer on until the time is up, then turn pudding out and serve hot with a hard sauce.
Vary the hard sauce occasionally by adding a little lemon juice and lemon rind, or orange juice and rind to it.
Steamed puddings are hearty desserts for hungry folks, and supply good nourishment in the enriched bread and flour, cranberries, egg, and milk.
CRANBERRY PUDDING
1 cup sifted enriched flour
1/2 teaspoon baking powder
1/2 teaspoon salt
1/2 cup enriched bread crumbs
1 cup chopped or ground cranberries
1 egg
1/2 cup milk or water
1/2 cup brown sugar
1/2 cup finely chopped suet
Sift together flour, baking powder, and salt. Add bread crumbs. Beat egg. Add milk or water, brown sugar, suet, and cranberries. Add egg mixture to flour mixture, blending thoroughly.
Pour into well-greased mold, and steam for two hours. Do not let water come more than two-thirds of the way up the sides of the mold. Turn out pudding. Serve hot with Hard Sauce.
HARD SAUCE
1/2 cup butter or margarine
1/2 cup confectioner's sugar
1 teaspoon flavoring extract
Cream butter or margarine until light and fluffy. Add sugar. Beat well. Mix in flavoring extract.

PROGRESS MADE IN RURAL PHONE SERVICE

"Substantial progress" was made in the development of telephone service in rural areas during 1948 according to Bert H. Brandt, head

of the Michigan Bell Telephone Company's farm program. Approximately 23,000 farm families were provided service last year. This brings the total number of telephones in service in the company's rural areas to 142,000—

an all-time high. Since V-J Day, Michigan Bell has installed 63,000 new rural telephones. Total rural development, as a result, has jumped from 57 telephones per 100 establishments before the war to 70 today. This achievement was made possible through an unprecedented rural line construction program which included the setting of 50,000 new poles and the string-

ing of 30,000 additional miles of wire. The quality of rural service also has been raised, said Brandt. "On most of our lines, the number of subscribers has been reduced to the normal objective of eight or less. The average is seven customers per rural line."

"Also, more than 7,500 rural telephones have been changed from crank-the-handle to dial or lift-the-receiver operation." Brandt said demand for telephones by farmers still was at a high level with 10,000 on the waiting list. He pointed out, though, that the waiting period for new service now is considerably shorter than it was.

"We fully realize that much has to be done before telephones are available to the maximum possible number of farmers," said Brandt. "Our rate of growth in rural areas is greater, proportionately, than in urban areas. Telephone service now is within reach of 85 per cent of all rural establishments in our territory without any construction charge."

"While we can't build everywhere at the same time, we will do everything in our power to provide service to all who want it as soon as possible," Brandt said.

for income tax filing. Mr. Bailey says, "If you are making up a farm account record and would like to have it summarized, bring your old book into the office any time between 8:00 a. m. and 5:00 p. m., Friday, January 21, 1949. If you are not now keeping a farm account record, and would like to start, come in these same hours and we will start you off with a new book."

Eggs should not be washed until just before they are used. The dull, velvety "bloom" on the shell is a protective film which helps prevent bacteria and odors from getting through the porous shell.

SPECIAL EXHIBIT FOR RESORT OPERATORS

Michigan people serving tourists and resorters will find helpful suggestions to add them in the tourist and resort exhibit at the annual Farmers' Week program at Michigan State College, East Lansing, January 24 to 28.

The exhibit will be located in the agricultural engineering building and will include a full-sized modern one-room cottage which has been constructed with many convenient features.

Ideas for equipment and games and other recreational facilities will be shown along with plans for resort construction. Facilities to help provide food services will also be shown.

Michigan is becoming more popular to tourists and resort seekers and through its research and extension facilities, Michigan State college is attempting to help those who serve these tourists.
