## Explosion Destroys Hy-Pocket Drive-In

An explosion of such force that it blew the roof off and destroyed the walls of the Hy-Pocket Drive-In at the corner of Dixie Highway and Williams Lake Road occurred about 5:30 Wednesday morning. The building was served by gas although it has not been determined that it was gas that caused the explosion. Fortunately no one was in the building and no one was injured although parts of the building were said to be thrown across the Dixie Highway.

The owner, John Picqua, according to reports, intended to stay in the building all night but changed his mind and left about 2:30 after the restaurant had closed. A fire which started was extinguished by the Waterford Fire Department.

Windows were broken in some of the nearby houses and some damage was done to a restaurant next door.

The report of the blast was heard in Clarkston and Davisburg. The building and contents are a total loss valued at better than \$30,000 for the building, which is covered by insurance. The total extent of the damage is not known at this time.

## Mrs. Ronald Walter Hostess To Club

On Tuesday night the Clarkston Rotary Anns met at the home of Mrs. Ronald Walter on Buffalo Street. Mrs. R. M. Parker was the assisting hostess.

A short business meeting was held after which Mrs. Walter Saxman, program chairman for the evening introduced Mrs. William Thomas of Waterford as the guest entertainer. Mrs. Thomas took the group on a visit to Florida where they marveled at the beauty of Cypress Gardens, Silver Springs, Bok tower, Shell Island and pretty spots in and near Lakeland. From Florida the trip went west where many of the desert, mountain and ocean scenes were really breath-taking. Mrs. Thomas had taken many "close-ups" of the cacti blooms and not until viewing these beautiful pictures did many realize that such gorgeous blossoms grew on these spiny, desert plants. From the desert the road led on into California through many interesting places to the old missions. Mrs. Thomas told the story of several of the missions drawing attention to the structural details, the bells, the gardens, etc. The trip went to San Diego, Santa Barbara, Long Beach, Oakland, San Francisco, Monterey and many other places along the coast.

From the west Mrs. Thomas returned to home ground and showed many beautiful scenes taken near her home and along the lakes in Waterford and some interesting pictures of her grandchildren.

Another guest at the meeting was Mrs. Jeanne Turner of Plainfield, Conn., a cousin of Mr. Thomas, who is visiting at the Thomas home.

To climax a grand evening dainty refreshments were served from a table attractive with the valentine motif and centered with a lovely arrangement of red and white gladioli flanked with white tapers in crystal holders.

The next meeting will be on Tuesday, Feb. 22 at the home of Mrs. William Sharpe with Mrs. Rudolf Schwarze as program chairman.

## Junior Literary Club Met In Pontiac

The hostess served dainty refreshments.

The next meeting will be at the home of Mrs. Harlan Oakes in Drayton Woods on Feb. 3rd.

## The Lease

We have a lease upon our home, Its term we cannot measure. It cannot be our very own, To cherish or to treasure. We're loaned the use of cars and such,

The time of our duration, They're not for us to grasp or clutch

Through all the earth's creation, We're given use of land to till And trusted with its keeping.

If we but do the Master's will, A harvest we'll be reaping. But just a while it's in our care To fill needs of the hour.

We're judged by what we grow and share

And how we make it flower. Our children too, were sent to us, Dependent on our guiding,

Most sacred of our Master's trust, Short years with us abiding, We're given use of many things, But charged each day of using

To leave improved, when life takes wings, Instead of trusts abusing.

**THOSE IN TOURIST BUSINESS SHOULD MAKE PLANS NOW**

Tourist business operators should be making their accounting plans now for the 1949 season, reports county agricultural agent Karl D. Bailey.

Just like any other business, resort and motor court managers should keep an accurate and complete set of financial records, the agent believes.

The Michigan State college tourist and resort service has prepared all necessary forms in one handy book. Robert W. McIntosh, extension specialist at MSC, points to the book as essential to good management.

Study of the business, McIntosh advises, can show weaknesses in financial control and help to correct them. Discovering profit and loss trends alone is a good reason for keeping records.

The simplified single-entry "Account Book for Small Tourist and Resort Businesses" is now ready for distribution. Owners of motor courts, cabin camps, cottage

groups, small resorts, small restaurants, tourist homes, boat liveries, bait sales, and similar establishments will find the book of great use. It contains 46 pages and is suited for persons with no previous bookkeeping experience.

To cover costs of printing and distribution, a charge of twenty-five cents is made per copy. It can be obtained from agent Karl Bailey's office or by writing to the Conservation Institute, Michigan State college, East Lansing, Mich.

**A GOOD PAINT BRUSH SHOULD HAVE GOOD CARE**

Like the old saying that a workman is no better than his tools, your furniture refinishing job will be no better than your brush.

Good work cannot be done with a brush which is not perfectly clean. The best practice is to clean a brush immediately after using it. The solvent needed for cleaning the brush depends upon the finishing material in which the brush was used. Good brushes are too expensive, not to be given care.

Recommendations given by Josephine Hoke, home demonstration agent, are as follows: For varnish, paint or enamel clean with turpentine; for shellac clean with denatured alcohol or shellac solvent; for lacquer clean with lacquer thinner; and for penetrating seal clean with alcohol or turpentine.

A brush may be injured and is very difficult to clean if any finishing material has been allowed to dry on it. It may be usable again if you soak it for 12 to 24 hours or until the bristles soften and the paint is loosened. You can soak it in a solution of 1 teaspoon of tri-sodium phosphate in 1 pint of warm water.

Work the brush gently, pressing the bristles from side to side. When the paint is thoroughly loosened, stroke the brush back and forth on an unfinished board. Wash in soap and water. Dry it suspended by a wire, or placed in a jar with the bristles pointing up.

Store the brush for long periods by wrapping in waxed paper and hanging it up or laying it on a flat surface.

**POTS AND PANS PART OF SECRET TO SAVE VITAMINS**

Homemakers are spending hundreds of dollars for cooking equipment these days with the purpose of cooking to save vitamins.

A few suggestions from Pauline Paul, foods researcher at Michigan State college may help you decide what equipment you need to cook efficiently.

Nutritive value is not only im-

portant factor in cooking. If your fresh or frozen peas turn out olive green and mush and no one eats them, your family will not get those vitamins you tried so hard to save.

There are two ways to lose vitamins from food. One is to leave food exposed too long to air or heat. The other way is to allow them to dissolve in too much cooking water and then to throw the water down the drain.

So there are three points to consider to save vitamins in cooking. Cook foods in the shortest possible time, at the lowest possible temperature and with the least water. Again you have to consider the food to be cooked.

If you cook strong flavored vegetables like onions, broccoli and rutabagas in too small an amount of water they will be too strongly flavored. More water will prevent it. If you cook peas in a closed dish they will turn olive green.

Good flavor is important in foods you serve your family. Only by eating the food because it is tasty and attractive can they get any vitamins at all.

You can see the real advantage in good heavy pans. You can cook with less water and good pans will have tight lids. Their construction will be better.

Remember the time, temperature, water and flavor factors and choose your cooking equipment accordingly. Probably no one kind of equipment will suit all your cooking needs.

FEB. 1 IS DEADLINE ON U-M SCHOLARSHIPS

February 1 is the deadline for filing applications for Regents-Alumni Scholarships with the Registrar's Office at the University of Michigan.

At least one of these scholarships is available for a February or June graduate of every accredited high school in Michigan provided a qualified candidate applies.

The scholarship provides payment of the semester fees for the freshman year, with provision for renewal through the sophomore, junior and senior years if scholastic performance warrants.

A good resolution for the new year is to farm in such a way that if your farm could choose its operator it would still choose you.

### Homemakers Meet In Pontiac

The Homemakers' Club met at the home of Mrs. John Rosenbaum in Pontiac on Monday evening.

The speaker of the evening was Evelyn Mae McCrum of the Domestic Science Club, Group 1, of the Oakland County 4-H Club. Miss McCrum spoke on "Home Improvement" and chose the fol-

lowing six statements as its purpose: 1. To acquire a knowledge of the principles and the materials involved in making the home more attractive and convenient at minimum cost. 2. To plan home improvements for beauty, comfort, health, privacy and safety in keeping with the needs of every member of the family. 3. To appreciate what is good and enduring in old as well as in new fur-

nishings and accessories. 4. To develop the necessary skills such as painting and simple carpentry in making the improvements planned for the home. 5. To demonstrate to others what has been learned relative to home furnishings, arrangements and practices. 6. To attain those individual and social satisfactions derived from having a comfortable and well furnished home.

Everyone enjoyed the talk and worthwhile discussions followed. The rest of the evening included a musical program. Mrs. Matthew Johnson of Clarkston sang "My Isle of Golden Dreams", accompanied at the piano by Mrs. Allen Brandon. A trumpet solo was played by Mrs. John McCandless of Pontiac. Other musical numbers included a piano solo by Mrs. Ralph White of Pontiac; a clarinet solo by Evelyn McCrum; a clarinet duet by Mrs. Joseph Nicholls and Evelyn McCrum. The program closed with group singing and refreshments which were served by Mrs. Rosenbaum and Mrs. Johnson.

The next meeting will be held to determine the place and time for a dance to be held in the near future to raise money to buy books and essential material for the club.

The dance-committee chairmen include: tickets, Mrs. Rosenbaum; decorations, Evelyn McCrum; clean-up, Mrs. White and Mrs. McCandless; music, Mrs. White.

#### U-M CONFERENCE WILL DEAL WITH HEALTH PROBLEMS

Community leaders and public health administrators from all parts of Michigan will attend a Michigan Conference on Community Health Services at the University of Michigan, January 31 and February 1. Sponsored by the University's

School of Public Health, the conference will discuss public health problems and plan programs to meet these problems. Approximately 152 people representing the Federation of Women's Clubs, the Parent-Teacher Associations, the Grange, labor unions, city and county officials and others from government have been invited to attend.

Outlining of the health problem is scheduled for the opening of the conference on Monday morning. Specific examples of health needs are slated for the afternoon session. Tuesday morning will be devoted to the needs for Michigan and the concluding event will be group discussions throughout Tuesday afternoon.

Dr. Henry F. Vaughan, dean of the University's School of Public Health, said Michigan has made reasonably fair progress in establishing county health units. The need to be stressed at the conference will be how to achieve active participation by all of the people in order that county health

units may serve everybody, Dean Vaughan declared.
