That Wonderful Urge

THE ACCUSED

School Athletes Honored Monday

Over two hundred attended the ninth annual athletic banquet sponsored by the Clarkston Rotary Club on Monday evening in the school gym. The tables were attractively decorated with the school colors, blue and gold.

After the singing of America and the invocation by the Reverend Walter C. B. Saxman a very fine dinner was served. Robert L. Jones acted as toastmaster. After some group singing led by Mr. Jones with William Ladd at the piano two special guests were introduced — "Bill" Dudley, Detroit Lions' halfback and Neil (Shorty) McMillen, at one time a football star at the University of Michigan under Coach Fielding Yost.

William Burns, Rotary President, gave a short welcome. Gilbert Wells, Spenceley Butters, Dick Allen and Lewis Masters sang several numbers. Bob Fell, basketball and baseball captain, said a few words and he and Dave Leak presented the two coaches, Ralph Thayer and Leigh Bonner, with gifts of appreciation from the teams. Mr. Thayer, coach, introduced Mr. Bonner, assistant coach and Mr. Quick, a member of the school faculty who has helped with the athletics during the past year. Mr. Thayer in behalf of the athletic players presented a gift to Dr. Harry B. Yost who gives the boys their physical examination each year. Mr. Thayer introduced the athletic players as he presented them with their letters. Those honored included John Adams, captain of football; Bob Fell, captain of basketball and baseball; Dick Allen, Jerry Anderson, Don Dubats, Charles (Chuck) Henry, Jim Huttenlocher, Dale Jacobs, Roy Johnson, Dan Keating, Dave Leak, Lewis (Spike) Masters, Cecil Miller, Melvin Miller, Clark Morgan, Ed Olson, Robert Olson, Albert Potter, Bob Rioux, Clark Rouse, Dave Saxman, Joe Suttton, Gilbert Wells and Dave Yoh.

The speaker of the evening, Walter "Wallie" Weber, was introduced by Elmer (Pat) Peitengill. Mr. Weber, freshman coach at the University of Michigan, wasted no time in covering the subject of athletics. He was humorous and serious almost all in one breath. He directed most of his talk to the players who were being honored and of course as he is active in football work, football games and players constituted the large part of his talk. He stressed the fact that a real honest-to-goodness football player is not only a good student but is a fine citizen. At the close of his talk he showed movies of the Michigan-Minnesota game last fall and pointed out the good, and the bad plays.

Co-chairmen of the dinner were Mrs. Ronald Walter and Mrs. Ralph Kreger. Those who worked on the committee included Mrs. James Glennie, Mrs. O. C. Adams, Mrs. Jack Jyleen, Mrs. Harry Horsch, Mrs. William Sharpe, Mrs. L. D. Gaynor, Mrs. Ami Althouse, Mrs. John Stageman, Mrs. Arnold Mann, Mrs. Robert Osgood, Mrs. Kenneth Johnson, Mrs. Frank Sauter, Mrs. Walton Robbins and Mrs. Joseph Hubbard.

In charge of the dining-room was Miss Betty Etzler and her home economics girls did the serving.

Extension Groups Make Slip Covers

On Tuesday of this week three groups from the Clarkston Home Extension Club met for the purpose of making slip covers. Just a year ago Miss Josephine Hoke, Home Extension Agent for the County, came to Clarkston and held a series of lessons on making slip covers. The women were quite enthused and this year they decided that some of the members could conduct the classes. On Tuesday one group of 11 met at the home of Mrs. Robert C. Beattie and covered a davenport; a group of six met at the home of Mrs. Lee M. Clark and slip covered a chair and the third group of five covered a chair at the home of Mrs. L. D. Gaynor.

The women worked all day and were quite pleased with the results. They had a dinner-pail lunch at noon, but they did not spend much time visiting as they were all anxious to complete their jobs.

The next regular meeting will be at the home of Mrs. W. S. Barrows. The date will be announced later. The lesson will be on "Preparing Foods for Freezing" and will be given by Mrs. George Perry and Mrs. Harry Bates.

From where I sit... by Joe Marsh. There'll Always Be a "Gawker" "Harry the Hermit" as he's called, came into town last week and, as usual, caused quite a stir. He looks like a cross between Santa Claus and Daniel Boone. We had a friendly glass of beer together and I asks him, "Don't you ever get annoyed at the way some people laugh and stare as you go by?" "Shucks no," Harry says. "Only while they're laughin' at me, I'm feelin' a mite sorry for them. Imagine-folks at ungrateful they can't see I'm really just the same as they are underneath."

SIXTH GRADE NEWS

We enjoyed the assembly the fourth and fifth grades gave on Friday.
We are busy decorating our room for Easter. On our back blackboards we have a picture called "Bunny Town".
Last Friday 19 pupils had a perfect spelling lesson.
We are all enjoying playing ball this nice weather. The boys have been playing the fifth and seventh graders.
The girls have baseball teams and we play each recess and noon.

SEVENTH GRADE NEWS

In the seventh grade science classes we are completing our study of fire this week. We have studied the nature, uses, hazards, control of fire and fire prevention rules. Colored chalk pictures drawn on our boards illustrated fuel and products of combustion, Benjamin Franklin flying a kite and discovering lightning to be electricity, forests, and fire towers. Some interesting reports made by the class members have been on matches, conservation of fuel,

better use of fuel, insulation of homes, solar heating, increased use of water power to make electric energy, what causes explosions and how flour dust can cause an explosion. We are all keeping our material in Science Discovery Books where we can add drawings, diagrams, slogans and clippings. Our new topic is entitled "Ourselves, and how we may live happily, useful lives."

**Shopping Hints
When Buying Linens**

If you're going shopping for trousseau linens or for replacements for worn out linens you need to consider both quantity and quality.
Ask yourself, "how many" and "what kind", and then be ready to shop wisely advises Josephine Hoke, Home Demonstration Agent. For example a safe and sane rule is six sheets for each bed and three

cases for each pillow.
For towels, the rule is two of each type in use, two on the shelf and two in the laundry at all times, that's six towels for each family member. Of kitchen towels you need lots, one dozen linen glass towels, two dozen dish towels and one dozen dish cloths.
In buying sheets there's no economy in being skimpy about size. Get them long enough and wide enough to make a bed comfortable and neat. Know the length, width and thickness of your mattress before you buy your sheets. Recommended length is 108 inches as the width varies from single to double bed.
Don't forget the dimensions of your pillow before you snop either, so the case will slip on easily. Constant pulling and strain on too small bed linen or bath towels lessens the wearing quality. Hand towels and kitchen towels too small use the same space over and over until all too soon, worn patches appear.

**4-H Achievement
April 22 and 23**

The evening program will commence at 7:30 o'clock and the Style Review at 8:00 P. M.
The exhibits will be placed in the High School Gymnasium, and the evening program will be held in the school auditorium.

GRANDPA OF THE CABLE TRAIN—Possibly you've seen modern tractor-drawn cable trains burying Long Distance telephone cable across the Michigan countryside. Back in 1882, two pioneer telephone men hitched a locomotive to a farmer's plow, turned a deep furrow five miles in length and "planted" an assortment of wires to determine the effect of soil conditions on them. From this early experiment came facts helpful in developing modern underground cable!

BRAIN TEASER—You can probably stump most of your friends on this one. In which case does your voice travel the longest distance to reach the person you're talking to: (a) — When you telephone your neighbor on the next farm? (b) — When you speak to somebody across the room? Answer: When you talk across the room. When you telephone your neighbor, your voice just goes an inch or so to the mouthpiece. From there on it travels as an electric current right to the listener's telephone receiver.

SUPPOSE you could reach only one other telephone. Your telephone wouldn't be worth very much to you, would it? Actually, today you can reach more telephones than ever before... doctors, vets, equipment dealers, friends, relatives. And we're still adding new telephones at record speed. This means more people you can call—more jobs your telephone can do for you.

**MICHIGAN
Motoring**

Have you ever had a flat tire when you were out on the highway and in a hurry? It's exasperating, isn't it? — to have to change the tire yourself, especially in a hurry. But even more important, that flat tire could have been dangerous!

If you are traveling at a high rate of speed you may not be able to control your car when a tire "blows" — you may swerve off the road into a ditch, or you might smash into another automobile! These are chances that no driver on Michigan's highways today can afford to take — no matter how safe a driver you are, an unsafe car can cost your life. Don't take chances... make sure that every inch of your automobile is in good running condition. Have your tires checked — have them repaired or replaced if there is a chance that they might become dangerous. Have your brakes checked carefully — your motor. Never start on a long trip without having your car thoroughly overhauled.
These automobile checks do not take long, and they may be the means of saving your life, that of a passenger — or those in the cars you meet on the highway.
"Drive a safe car... for safety!"

WHEN ARE WE OLD?

★ "When life has been well spent, age is a loss of what we can well spare—muscular strength, organic instincts and gross bulk.
"But wisdom, which was old in infancy, is young in fourscore years, and dropping off obstructions, leaves the mind purified and wise." —Emerson

To augment the richness of wisdom is modern medicine, a comforting ally of the aged. For the physician, together with the pharmacist, stands ready to alleviate the infirmities of age in the interest of happier, healthier, and longer lives.

FROZEN FOOD LESSON TO BE TAUGHT HOME EXTENSION LEADERS

The latest methods of preparing fruits and vegetables for frozen storage will be demonstrated to Oakland County Home Extension Leaders during the month of April. Two extension leaders from each Home Extension club will attend these lessons:

April 20 Pontiac District at the Central Methodist Church, Pontiac.

April 27 Holly District at the Davisburg Methodist Church, Davisburg.

April 29 Oxford District at the Oxford High School Homemaking Department.

The leaders will return and present the lesson to their local clubs. An open discussion on budgeting space in the commercial locker or frozen food unit will be a feature of the lesson.

Today, one half the farm families in America have frozen food units in their homes and many families use commercial lockers. Practically everyone buys frozen food. It is not difficult to prepare successful frozen products, but there are some rather exact rules for preparing and packaging which should be followed, Miss Hoke advises.

"Quiet?"

"Of course— It's ELECTRIC!"

ELECTRIC WATER HEATERS NEVER MAKE A SOUND

You'll never know your electric water heater is in the house. In fact, you can take it for granted that you'll have floods of hot water—whenever you turn the tap.

Last year alone, 11,354 Detroit Edison customers installed modern electric water heaters. For cleanliness, convenience and complete 24-hour-a-day dependability, it's electricity every time. See your plumbing dealer, your appliance dealer, or any Edison office.
