News Receives Thankyou Letter

This week The Clarkston News **County Council** received a thankyou note from Mrs. Alice I. Bradley, county Meets Next Week chairman for the St. Joseph Mercy Tag Day last Saturday. The note reads:

"Please accept the sincere thanks of St. Joseph's Hospital Auxiliary Poppleton School on Friday night, and my own expression of appreciation for the excellent publicity your paper gave our Tag Day Drive.

We feel it greatly helped to make the drive successful and we assure you we will do our utmost to see that all collections are wisely spent. (We hope our cost of collection will be less than onehalf of one per cent of the amount collected.) Again our most sincere thanks."

To date the amount collected in this district is \$170 and it is hoped that more will be turned in the Clarkston Station next day or so.

Mrs. Harry Horsch, chairman here is very happy with the results and she wishes to thank all of the workers who spent many hours on the street last Saturday and also those who contributed.

Special Sermon At Sashabaw Church

Everyone is invited to the Sashabaw Presbyterian Church on Sunday morning to hear the Reverend I. W. Parrish preach on "Mother-God's Merchant Ship" The text will be: "She is like the Merchant Ship"- Prov. 31-14. In this sermon Rev. Parrish

outlines what Motherhood and MSC Scholarship Merchant Ships have in common First-they are both the product of a world other than the world in which they operate. The ship awarded a Michigan State College is a land product, operating in water. Second-Merchant Ships and Mothers are alike in that they are both bearers of wealth. Third-They are alike also in their relation to the magnetic center of the universe, Fourth—They are alike in their speed. Fifth-They are alike in that they have their wealth concealed Sixthtold of the "Cathy Richardson" They are alike in that neither has much rest. Seventh-They keep nothing for themselves.

Rev. Parrish will explain these omparisons and present a word picture of Motherhood that the ordinary person hasn't stopped to think about although it is told graduation. in the scriptures.

Too many Michigan drivers have the feeling that a hand signal is no longer necessary before a turn. IT IS UNLAWFUL TO TURN WITHOUT SIGNALING!

Why? Because by signaling your intention to turn you are warning both the approaching car and the one behind. You are safeguarding yourself and others against collisions which may mean permanent injury or death.

Make it a habit to signal your every intention on the street or highway — not only a turn but a stop — a change from one lane to another before a left turn. These are the signs which every driver should be constantly watching-no driver is a "mind reader"—he must be told what YOU are planning to dol

Two things are necessary for Two things are necessary for safe driving — first, that you, the driver, obey all the rules of good driving for safety. Secondly, you must drive a safe car. Are your brakes in good working condition? How about your lights — your horn? Police are checking lights, brakes and horns regularly. They are helping to protect you from danger. MICHIGAN BELL DEVELOPS NEW RECORDING SYSTEM

Automatic Message Accounting full-time operation. equipment—rated by the Michigan Bell Telephone Company as one of the most outstanding developments in telephony since dial switching—is coming to Michigan.

Known as AMA, the equipment automatically records on paper tape information about short haul toll calls needed to accurately render a telephone bill.

The first such equipment now stallation in the country.

With AMA to serve them, subscribers in the Royal Oak exchange will be able to dial telephones in nearby offices, including those in Detroit, without the assistance of an eperator.

Royal Oak is one of the largest manual exchanges in the nation, serving 36,000 telephones in nine communities. It will out over to dial operation this fall.

Roseville, Centerline, and Birmreceive AMA next year.

AMA consists of an integrated system of special dial switching equipment, recording machines, and decoding apparatus, Groups of metal fingers punch holes in the tape in certain code patterns. Decoding machines later transform the punched patterns into printed billing information.

Briefly the equipment works this way: when a subscriber lifts his receiver, the regular dial swatching apparatus finds that subscriber's line and at the same time connects itself to an idle AMA unit. As the dial equipment goes about its job of finding the number wanted, AMA is punching busily away at a ribbon of paper tape about three inches wide.

The AMA "perforator" records the telephone number of the subcriber making the call, the called number, the date, the time the call starts, whether the call is being made from a "flat rate" or "message" rate instrument, whether or not the called party answered, and, finally, the time the call is

completed. A series of decoding machines later takes the tape and from the punched pattern sorts out the information to be used, assembles all calls from each telephone in the exchange, computes the charges for short-haul toll calls, and prints the result on a slip of paper in much the same form as it appears on ssbscribers' bills.

. Michigan Bell emphasizes that AMA can account for only messages between points that are connected by direct dial lines, Regular long-distance messages still are handled by switchboard operators who record billing information for such calls by hand on "tickets".

NEW COTTON FABRICS ARE HIGH FASHION

So many and varied are the cotton fabrics available this year you could easily plan a whole wardrobe using lovely cottons.

Even some of the old familiar cottons have taken on a new personality, reports Marjorie Eastman, extension clothing specialist at Michigan State College. Satin striped chambray, metallic thread gingham and lovely iridescent fabrics are definitely on the glamorous side.

You will also find crisp cotton taffeta or moire. Wool-like cottons include tweeds, herringbones, sharkskins and coverts. Damask weaves or bumpy and blistered effects are also new. Your old favorites are all avail-

able—percale, chambray, broadcloth, voile, organdy, pique and a host of others. Variety in cotton fabrics makes for a greater variety in your cotton clothing.

1949 cottons offer possibilities for street or town wear, rain-wear and travel costumes. Cotton lingerie is being promoted for wear under cotton dresses. Afternoon and evening costumes of cotton are competing with rayons and

SENIOR NEWS

This has been a very busy week for the Seniors, and the future looks even busier. It is now certain that we will fulfill our fond dreams of going to Washington, D. C. We plan to leave on the train from Detroit on May 25 at 5:30 P. M. We will spend two days in the city, sightseeing and touring, and return by train on Friday evening. Home again on Saturday.

Our class is fortunate to have so many interested people in Clarkston who have donated for the cause. For this reason we are able to take what we believe will be the best trip a Senior Class at C. H. S. has ever taken.

Announcements for the "Class of '49" are being made, and the days are being counted until the time of Commencement, June 15, when another Senior Class will graduate from our fine High School atop the hill.

SEVENTH GRADE NEWS

We have just finished our six weeks tests. Friday morning the second hour the 7th grade watched Martin Steiner and Doug Taylor fly their model airplanes. Many of the boys were interested in them. Martin had a little trouble in getting the plane to take off but when it did it crashed...

In our activity period on the 1st Monday in each month we have class meetings. In planning a class party, we find that we need a little more money, In other words all students haven't handed in their class dues.

SIXTH GRADE NEWS

We are studying about birds in Science. We have learned several interesting things about our common birds.

Last Friday we had 18 perfect spelling papers, and 12 with only one mistake.

In geography we are studying about Japan. Last week 17 pupils wrote

perfect geography test. We are very happy to have Mrs Vliet back in school.

FIFTH GRADE NEWS

We are glad to have Mrs. Vliet

oack again. We are reading stories in our Science Readers. Last week we finished a unit on the robin. First we read the story, then we had a memory test. We colored pictures from memory and wrote a theme. We are bringing insects and

Thirty pupils had perfect papers in spelling Friday. We added nine at Christ Church Cranbrook new words to our regular lesson.

SECOND GRADE NEWS

We are practicing our part for the musical program.

This week we started writing as grown-ups do. Each day we practice one letter. In arithmetic we are learning

the subtraction combinations. Some of us can add as many as eight numbers in a column, Everyone enjoys playing a game called "Roll the Hoop". This makes drill on the combinations fun.

Raymond Miller brought some beans. We planted them and will watch them grow.

H. T. BAYNES APPOINTED FARM PLACEMENT DIRECTOR

Herbert T. Baynes of Clarkston has been appointed Seasonal Farm Placement Specialist by the Michigan State Employment Service, to assist Oakland County farmers with their labor needs.

While the State Employment Service had included farm placement service since its beginning, farm placement was handled by the Michigan State College Extension Service (Emergency Farm Labor Program) during the war and returned to the Employment Service on January 1, 1948.

Mr. Baynes comes well prepared for this work, having lived in Oakland County for 36 years, owning his own farm at Clarkston. He is the oldest member of the Oakland County Farm Bureau and a director for 12 years, is president of the Lapeer-Oakland Farm Loan Association, and has served as a board member for the FHA for the past 3 years.

His last job was as Veterans Counselor at Pontiac City Counseling Center which he held for 1 and one-half years. He has been active in Veterans affairs, holding several offices in veterans organizations.

He plans to be out in the field as much as possible. He can be reached at the Pontiac office of the Michigan State Employment Service at 142 Wayne Street, Phone 2-0191.

CLARKSTON TO RECEIVE MORE FOR STREETS AND ROADS IF PROPOSALS PASS

Clarkston will receive \$6,866 from the state as compared with \$639 in 1947 for street maintenance and construction, if the recommendations of the Michigan Good Roads-Federation are enacted into law. The total for all incorporated cities and villages in Oakland County would be \$1,201,178 as compared with

The Oakland County Road Commission would receive for county road purposes \$1,643,394 as compared with \$955,552 in 1947, if the Federation's proposals go

The Federation's program calls for a series of reforms in the expenditure of the state collected revenues, a more equitable distribution of funds, a classification of roads and streets according to traffic requirements and the matching of locally raised funds with state collected revenues for local roads and street use.

The bills also would increase the present gasoline tax from three cents per gallon to 4.3 cents. The national average is more than five cents. The weight (license plate) tax would be raised from 35 cents per hundred weight to the less than pre-depression rate of 50 cents; and the weight tax on commercial vehicles would be increased by one-third.

The Federation's formula would increase all road revenues by some \$30,000,000, which would be deposited in the "motor vehicle The sixth and final meeting of highway fund" and distributed to
