## Lutheran Church **Dedicated Sunday**

The beautiful, new Christ Lutheran Church on Williams Lake Rd. Waterford, will be dedicated next Sunday afternoon at 4 o'clock. The Norman styled brick edifice is already one of the landmarks of this community and with the landscaping now underway, the congregation expects to make their 11/2 acre site an attractive scene of beauty and inspiration.

The congregation is less than five years old. Pastor Milton Lundahl of St. John's Lutheran Church, Pontiac, began the work in 1944, being assisted by Theological Student Marvin Palmquist who is now a missionary in Africa. The congregation was organized Oct. 23, 1944 with 49 charter members. Pastor Philip Jordan became the first permanent pastorin July 1945. In the Fall of that year the attractive 11/2 acre site was purchased at Williams Lake and Airport Roads, When the tragic fire destroyed the Community Activities Building, the congregation lost all of its equipment, However the following Sunday the congregation moved to the Williams Lake School where it conducted services for the past

two years. In October 1948 construction on the new church began. In November the cornerstone was laid and on February 13, 1949 the first tic Science Club, groups 1, 2 and worship was conducted in the leader of group 2 in Pontiac. It is understood that a firm in Detroit has deposited a check to show good faith and is trying to buy the property to operate a machine shop.

It will be remembered that the village voted twice last year on this jusse. The first time the decision was to purchase, but it had to be voted upon the second time and lost by a few votes.

The council decided to put the question up to the people at a special election, at a meeting held in April if time could be obtained from the Ford interests to give the time for a vote. Ample time will be given to discuss this question which is of such vital interest to the future of the village.

For some time the Township of Independence has needed a garage to house the fire truck, the tanker, the cemetery truck, the road truck and snow plow and other equipment necessary to operate Township business. The sites offered have not been centrally located or were unsuitable for some other reason.

When it became known that the building now used by Secterlin Brothers, Inc., and owned by the firm was for sale, an option was secured for thirty days by the Township, at \$15,000. FARM ALLOTMENTS WILL BE ESTABLISHED SOON

In expectation that wheat acreage allotments may be in effect for the 1950 wheat crop which will be planted this fall, the Oakland County AAA Committee has been, for the past several weeks, compiling the necessary acreage data upon which individual farm allotments will be established, according to Walter Cook, comm-

ttee chairman. The individual farm allotments will be established soon, Mr. Cook said, and notice of this allotment will be mailed to each farmer so concerned whose farm acreage data was available to the county AAA committee.

Because their acreage data may not be on record in the county AAA office, farmers who grew wheat for harvest in either 1945 or 1946 and who did not grow wheat for harvest in either 1947, 1948 or 1949 and who intend to plant wheat this fall for harvest in 1950 should request a wheat acreage allotment from the county AAA committee. This request should be submitted in writing to the county committee prior to June 1, 1949. Likewise, farmers who have never in the past grown wheat but intend to plant wheat this fall should also request an allotment prior to June 1, 1949.

These precautions are taken, Mr. Cook said, so that no farmer who is eligible for a wheat allotment and who desires one is overlooked when the county acreage allotment is allotted among the individual farms in the county.

"High school graduates", Sgt Rexford explained, "are an excellent source of the high-type, intelligent young men and women the Services are looking for today"...

Sgt Rexford added that the two Services can now accept only a limited number of volunteers, so standards are high.

"We literally choose only the best" he said. "A young man or woman who is accepted for the Army or the Air Force today has every reason to be proud."

Sgt Rexford said that the two Services operate more than 200 technical training courses, giving the best technical training in the world. Under the new career guidance plans, great progress is being made toward placing enlistees in

WHO is your telephone company?- Ever stop to think who installs your telephone ... who makes repairs to your line when they're needed ... who at the switchboard handles calls to and from your home . . . who works in your local telephone business office? They're folks just like yourself. They may even be friends and neighbors of yours. And they're interested in providing you with friendly and courteous telephone service at all times.

IT'S NEWS TO YOU!-A lot of the items you read in your newspaper come in by telephone, or the paper's staff obtains them by telephone. Teletypewriter machines operating over telephone lines send news all over the country from the press associations. Even many of the pictures appearing in newspapers are transmitted over telephone lines by wirephoto.

NEIGHBORLY SHARING LETS YOU REACH THE VET IN A HURRY-When you have an emergency, such as a horse suddenly taken sick, you want to reach the veterinary in a hurry. It means a lot to be able to put a telephone call through right away. Courteous sharing of rural lines makes everyone's service good. Spacing out calls . . . giving up the line when others have emergency calls to make . . . always being careful to hang up the receiver after each call ... are neighborly ways of sharing the line.

tails of a well-planned guest entertaniment program. He points out that playing games provides healthful outdoor recreation, and good subject for conservation, and an opportunity for all to become better acquainted.

In many successful resorts, the manager assumes leadership in outdoor games. Much of the equipment is simple and easy to make. For the most part, the games can be provided at rather low cost. McIntosh believes that a good games program is an important builder of good will and return patronage.

How Would You Say It?

Curley Lawson's cousin from back what he was trying to say. It East and a few of us got talking just depends on where you are in when he was here visiting, and I couldn't help noticing how different he said things.

For instance, he said, "Lifting that 200-pound bag of cement almost killed me." "You mean sack of cement?" asks Curley. (That's the way we'd say it.) "No," interrupts young Elliott who'd spent a lot of time down South, "He means I'd say we're both right! a 'poke of see-ment.'"

It was good for a chuckle, anyway. Bag, sack or poke-we knew

the U.S., which way sounds right.

From where I sit, whenever we criticize someone for sounding funny to us, we ought to think how we sound to them. It's the same as choosing your liquid refreshment. I'm accustomed to a moderate glass of beer-you may like ginger ale-.but who's to say the other's wrong?

NURSERY SCHOOLS INCREASE IN STATE

Michigan parents are becoming more and more interested in nursery school education as they realize that they benefit from it as well as their children.

In the fourteen cooperative nursery schools in the state, parents who help with the nursery school program are able to see their children in relation to others of the same age and learn how to help their children grow.

Indications of current interest pointed out by Bernice Borgman who is in charge of the nursery school at Michigan State Coll-

Laws are being sought which will help promote the nursery school movement. A resolution | Conservation News has been introduced in the legislature to study the nursery school program in the public schools. One group is working for laws which will make state funds available children of three and four years

Licensing of new nursery schools is a good indication of their popmonths by the department of social welfare and 28 more will be licensed by September.
